# INDEX OF AUTHORS

A

**arons, J. H.** See **Sax, S. M.**, 246.

**bbey, S.**, and **Maxwell, J. A.** Flame-photometric determination of potassium in mica, 1838.

**bbott, D. C.**, **Field, K.**, and **Johnson, E. I.** Correlation of anticholinesterase effect with solanine content of potatoes, 311.

**bdalla, A. M.** See **Barakat, M. Z.**, 330.

**bd El Raheem, A. A.** See **El Raheem, A. A. A.**

**bdrakhmanov, R. Ya.** See **Zvereva, M. N.**, 4509.

**bdurakhmanov, M. A.** See **Bezinger, N. N.**, 3333.

**be, M.** See **Ito, T.**, 1922.

**bel, G. J., jun.** Volumetric determination of germanium, 2806.

**bella, M. G.** See **Guerrero Abella, M.**

**belson, D.** Ultra-violet photography of fluorescent spots on chromatograms of biological extracts, 3077.

**belson, D. M.** **Bondy, P. K.**, and **Piskorski, J.** Determination of steroids by paper-strip elution chromatography, 5216.

**bou-Elnaga, M. A.** See **Elbeih, I. I. M.**, 420.

**bov, E. A.**, **Zvorykin, D. B.**, and **Kondrashov, V. S.** Gas analyser, 2213.

**brams, S. J.** See **Hoffman, E.**, 2598.

**bramyan, A. A.**, and **Sarkisyan, R. S.** Micro-determination of halogens in organic compounds. I. Micro-determination of chlorine in organic compounds containing carbon and chlorine; carbon, hydrogen and chlorine; and carbon, hydrogen, oxygen and chlorine, 612.

**bresch, K.**, and **Büchel, E.** Application of polarisation-potential titration in steel-works laboratories, 3135.

— **Dobner, W.**, and **Lemm, H.** Determination of hydrogen in steel by the carrier gas method, 1040.

**bt, W.** See **Biegler, R.**, 738.

**bubacker, K. M.** See **Malik, W. U.**, 2742.

**ccadia, F. D. di.** See **Dentice di Accadia, F.**

**ckerman, C. J.**, and **Chou, M.** Sensitive analytical method for choline, 4303.

— and **Salmon, W. D.** Estimation of choline, 4302.

**ckermann, G.** Use of the ring oven in trace analysis, 1367.

— and **Alferi, C.** Use of bead reactions in quantitative micro-analysis. I. Spectrophotometric determination of cobalt and nickel in borax beads, 5025.

**ckman, R. G.**, **Bannerman, M. A.**, and **Vandenheuvel, F. A.** Decomposition of short-chain dicarboxylic acid esters during separation on polyester gas-chromatography media, 1085.

**czel, T.**, and **Lumpkin, H. E.** Correlation of mass spectra with structure in aromatic oxygenated compounds. Aromatic alcohols and phenols, 2924. Correlation of mass spectra with structure in aromatic oxygenated compounds. Methyl-substituted aromatic acids and aldehydes, 4244.

**dam, A. R.**, **Syputa, R.**, and **Stephenson, W. E.** Titrimetric determination of combined carbon dioxide in anhydrous ammonia, 1474.

**damiec, I.** Lead diethyldithiocarbamate as a specific reagent for copper, 1385.

**dams, D. F.** Automatic hydrogen fluoride recorder for industrial hygiene and stock monitoring, 2239.

— **Koppe, R. K.**, and **Matzek, N. E.** Colorimetric method for continuous recording analysis of atmospheric fluoride. Test chamber and interference studies with the Mini-Adak analyser, 3487.

**Adams, F. W.** See **Armstrong, R. G.**, 709.

**Adams, I.** See **Mellichamp, J. W.**, 4000.

**Adams, J. M.** See **Meagher, W. R.**, 1758.

**Adams, M. L.** See **Swann, M. H.**, 4441.

**Adams, R. N.** See **Mueller, T. R.**, 2723, **Olson, C.**, 892, and **Walker, D. E.**, 2254.

**Adamski, L.**, **Boużyk, J.**, and **Józefowicz, K.** Simultaneous determination of small amounts of sodium and potassium by neutron activation, 2762.

**Adamski, T.**, and **Deptuła, C.** Gravimetric determination of uranium in solutions obtained from ores by leaching with sulphuric acid, 2843.

**Addink, N. W. H.** Abrasion of mortars of different composition, 3064.

— See also **Eichhoff, H. J.**, 898.

**Ader, D.**, and **Alon, A.** Rapid paper-chromatographic determination of beryllium, 3604.

**Adlard, E. R.**, and **Hill, D. W.** Analysis of anaesthetic mixtures by gas chromatography, 302.

— **Khan, M. A.**, and **Whitham, B. T.** [Gas Chromatography. Third Symposium, Edinburgh, June 1960.] Determination and use of the specific retention volumes of benzene and cyclohexane in dinonyl phthalate, 1819.

**Adloff, J. P.** Separation of radio-elements by chromatography on paper impregnated with an inorganic ion exchanger, 4925.

**Adwani, S.** See **Verma, M. R.**, 4636.

**Aeschbacher, R.** Gas chromatography in the manufacture of stearin, 3033.

**Afanas'eva, L. G.** Determination of ethanol, 2-ethoxyethanol and water when present together, 4216.

**Afanas'eva, L. I.** Separation of strontium and calcium with the use of EDTA. Determination of strontium in apatites, 1864.

**Afanas'eva, Yu. A.** See **Ryashentseva, M. A.**, 3278.

**Affsprung, H. E.**, and **May, H. E.** Tetraphenylstibonium sulphate as a reagent for the qualitative analysis of organic acids, 1080.

**Aftalion, H.** See **Sterescu, M.**, 294.

**Agarwal, K. C.** See **Verma, M. R.**, 910.

**Agarwala, V. S.** See **Singh, D.**, 4943.

**Agasyan, P. K.**, **Vinogradova, E. N.**, and **An, C.-J.** Determination of the number of electrons taking part in the reduction of indium on the dropping-mercury electrode, 3629.

— See also **Khakimova, V. K.**, 4177, 4534.

**Aghdashi, M.** Spectrophotometric determination of blood sugar by phenylhydrazine hydrochloride, 4769.

**Agrinier, H.** Semi-quantitative determination of beryllium in rocks and soil by paper chromatography, 3179.

**Agterdenbos, J.** Tracing of sources of error in analytical chemistry, 903.

**Ahmed, Z. F.** See **Fahmy, I. R.**, 4328.

**Ahrens, L. H.**, **Edge, R. A.**, and **Taylor, S. R.** Caesium in chondrite meteorites, 1839.

— See also **Brooks, R. R.**, 1052.

**Ahrland, S.** Determination of free acid in the presence of large amounts of uranyl salt, 2398. Spectrophotometric determination of uranium$^{\mathrm{VI}}$, 3705.

**Aĭrapetyan, A. G.** See **Sheyanova, F. R.**, 3583.

**Aĭvazov, B. V.** Vapour-phase separation of mixtures of hydrocarbons and organic sulphur compounds by chromathermography, 4725.

**Aixnerová, M.** See **Buděšínský, B.**, 674.

**Akamatsu, T.** See **Sakai, K.**, 1832.

**Akaza, I.** See **Kiba, T.**, 2852.

**Akazawa, T.**, and **Wada, K.** Estimation of ipomeamarone by chromatostrip technique, 3422.
**Akhmanova, M. V.** See **Vaĭnshteĭn, É. E.**, 3701.
**Akimova, T. G.** See **Kuznetsov, V. I.**, 3711.
**Aksanowski, R.** See **Wierzchowski, Z.**, 2604.
**Akselrod, V. S.** Pressed samples for infra-red spectrometry, 2704.
**Akshinskaya, N. B.** See **Panchenkov, G. M.**, 1379.
**Albert, P.** [Radioactivation Analysis Symposium. Vienna, June 1959.] Systematic analysis of 'zone-refined' aluminium and iron after irradiation in an atomic pile, 2790.
**Alberti, G.**, and **Conte, A.** Effect of the drying temperature on the ion-exchange properties of zirconium phosphate, 4414.
— and **Grassini, G.** Chromatography on paper impregnated with zirconium phosphate, 1293. Chromatographic separation of inorganic ions on glass-fibre strips with fused salts as eluent, 2288. Chromatographic separation of alkali-metal ions on paper impregnated with ammonium molybdophosphate, 2293.
**Alberti, S.** See **Lorch, L. von**, 2611.
**Albescu, I.** See **Spacu, P.**, 1550, 1711.
**Albonico, F.** Ultra-violet spectrophotometric characterisation of expressed olive oil, 2164.
**Alcock, N., MacIntyre, I.**, and **Radde, I.** Determination of magnesium in biological fluids and tissues by flame spectrophotometry, 3391.
**Alderweireldt, F.** Technique for recording chromatograms. Analysis of cresol mixtures, 4710.
**Alegre, J.** See **Navellier, P.**, 2635.
**Aleksandrov, L. N.** Radiometric determination of thorium in tungsten and molybdenum, 1469.
**Aleksandrova, D. M.** See **Litvinenko, L. M.**, 5066.
**Aleksandrova, L. S.**, and **Chmutov, K. V.** Separation of niobium and tantalum by a chromatographic adsorption-complexing method, 516.
**Aleksandrovich, K. V.** See **Berezin, I. A.**, 1399.
**Alessandro, G.**, and **Dal Brollo, F.** Polarographic determination of tubocurarine in pharmaceutical specialities, 4332.
**Alexander, J. A.** See **Engel, L. L.**, 4799.
**Alexander, T. G.**, and **Banes, D.** Analysis of the alkaloid content of ergot, 4330.
**Alferi, C.** See **Ackermann, G.**, 5025.
**Alfonsi, B.** Controlled-potential electrolytic determination of copper in lead and tin-base alloys, 31. Determination of lead and tin in lead - tin solder alloys by controlled-potential electrolysis, 1452.
**Alfredsson, B., Gedda, L.**, and **Samuelson, O.** Separation of hydroxy-acids by ion-exchange chromatography, 2483.
**Alicino, J. F.** Determination of thiourea, 2918. Iodimetric assay of natural and synthetic penicillins, 6-aminopenicillanic acid and cephalosporin C, 4817.
**Alimarin, I. P.** Progress in analytical chemistry, 1.
— and **Bilimovich, G. N.** Quantitative determination of niobium and tantalum by the isotope-dilution method, 3242.
— and **Bragina, A. A.** Separation of small amounts of cobalt from large amounts of nickel, 3744.
— **Golovina, A. P.**, and **Torgov, V. G.** Photometric determination of gallium and indium by means of quercetin, 60.
— and **Han, H.-H.** Gravimetric determination of zirconium, 4981.
— and **Krausz, I.** Micro-determination of thallium, 474.
— and **Kuznetsov, D. I.** *o*-Hydroxybenzenesulphinic acid as an analytical reagent, 2271.
**Alimarin, I. P.**, and **Tsê, Y.-H.** Complexomet
determination of iron, 4176.
— **Tsintsevich, E. P.**, and **Usova, É. P.** Investi
tion of the behaviour of gallium halides
halogen acid solutions by ion exchange, 4102.
— and **Yakovlev, Yu. V.** Determination of i
purities in semi-conductor materials, 1359.
— **Yakovlev, Yu. V., Shchulepnikov, M. N. Vlas**
**D. A., Chernov, G. M.**, and **Surkov, Yu. A.** Det
mination of impurities in high-purity thallium
radioactivation, 4962.
— See also **Golovina, A. P.**, 4983.
**Alimova, E. K., Bolgova, G. D.**, and **Astvatsatur'y**
**A. T.** Identification of nucleic acid compone
by a combined method of electrodialysis a
circular paper chromatography, 4309.
**Allam, M. G. E.** See **Issa, I. M.**, 427, 473, 10
and **Khalifa, H.**, 54.
**Allan, J. E.** Determination of copper by atom
absorption spectrophotometry, 4858. Use
organic solvents in atomic-absorption spect
photometry, 4901.
**Allemand, J.** See **Castro, R.**, 4918.
**Allen, B.** See **Freegarde, M.**, 1880.
**Allen, C. H.** See **Knight, J.**, 3017.
**Allen, P. E. M., Hardy, R., Majer, J. R.**, a
**Molyneux, P.** Turbidimetric titration as a meth
of characterising solutions of polymers a
mixed polymers, 1123.
**Allen, R. H.** See **Wright, L. A.**, 266.
**Allison, A. R.** See **Delman, A. D.**, 519.
**Allison, L. E.** Wet-combustion apparatus a
procedure for organic and inorganic carbon
soil, 344.
**Allphin, N. L.** See **Reitsema, R. H.**, 4207.
**Allsopp, P. J.** See **United Kingdom Atomic Ener**
**Authority**, 2214.
**Almásy, A.** [Congress for Analytical Chemistr
Budapest, April 1961.] Analytical chemistry
radio-isotope preparations, 3560.
— and **Pallay, I.** Photometric determination
phosphorus in the presence of large amounts
iron, 2826.
**Alon, A.** See **Ader, D.**, 3604.
**Alpatov, M. S., Galonov, P. N., Sukhenko, K. A**
and **Fal'kova, O. B.** Spectrographic determin
tion of the oxygen and nitrogen content of moly
denum and chromium, 3702.
**Alpen, E. L.**, and **Mandel, H. G.** Assay method f
tritium in bacterial cells, 2058.
**Al-Salihy, A. R. M.** Spectrophotometric a
potentiometric determination of uranium as t
chelate of 8-hydroxyquinoline in a mix
solvent. Fresenius systematic analysis of t
cations and use of 8-hydroxyquinoline, 4614.
**Altenschmidt, W.** See **Gänshirt, H.**, 2632.
**Altshuller, A. P.**, and **Cohen, I. R.** Application
diffusion cells to the production of known co
centrations of gaseous hydrocarbons, 623. Dete
mination of primary nitroparaffins by the nitro
acid reaction, 656. Colorimetric determinati
of conjugated diolefins, 2896. Determination
higher-molecular-weight aliphatic aldehydes a
ketones, 3781.
— **Miller, D. L.**, and **Sleva, S. F.** Determination
formaldehyde in gas mixtures by the chrom
tropic acid method, 4697.
— **Sleva, S. F.**, and **Wartburg, A. F.** Spectrophot
metric determination of olefins in concentrate
sulphuric acid, 624.
— See also **Cohen, I. R.**, 5060.
**Alvarez, J.** See **Jeffay, H.**, 4543.
**Alvarez, R.** See **Michaelis, R. E.**, 5019.
**Amako, T.** See **Nakayama, Tsuyoshi**, 4640.

**maral, J. R.** See **Feigl, F.**, 1568, 1591.

**mbrová, A.** See **Juránek, J.**, 2421.

**mbrozhii, M. N.**, and **Shlÿchkova, L. I.** Colorimetric determination of praseodymium, 3637.

**memiya, T.** See **Muto, G.**, 2234.

**merican Association of Textile Chemists and Colorists.** Determination of non-cotton content of bleached cotton textiles, 3370.

**merican Chemical Society.** Recommended specifications for microchemical apparatus. Volumetric glassware. Micro-pipettes, 839. Trace analysis, 2279.

**mes, A., III**, and **Nesbett, F. B.** Analysis for potassium, sodium, chloride and water in extracellular fluid, 223.

**mes, S. R., Swanson, W. J.**, and **Lehman, R. W.** Estimation of the biological potency of isomerised vitamin-A palmitate, in aqueous multi-vitamin dispersions, from maleic values, 306.

**min, A.-A. M.** See **El Raheem, A. A. A.**, 8.

**mladi, G. R.**, and **Lawande, Y. V.** Estimation and separation of thorium with dihydroxytartaric acid, 1462.

**mosov, V. M.**, and **Lanis, V. A.** Mass-spectrometric study of gas evolution during the sintering of tantalum and niobium, 3243.

**mrhein, E. M.** Fully automatic measurement of the moisture content of sands and ceramic bodies. II. Determination of the moisture content of sand by absorption in the micro-wave band, 4196.

**n, C.-J.** See **Agasyan, P. K.**, 3629, and **Vinogradova, E. N.**, 3204.

**n, H. V.**, and **Fromageot, P.** Determination of exchangeable taurine in the organs of the rat, 755.

**nand, V. D.** Determination of cobalt as tungstate, 589.

— See also **Deshmukh, G. S.**, 590, 4654.

**nastasescu, G.** See **Vasiliev, R.**, 89.

**nastassiadis, P. A.** Combined estimates in colorimetric determinations with high variability, 2269.

**nbar, M., Halmann, M.**, and **Silver, B.** Determination of oxygen-18 in phosphate ion, 518.

**nders, O. U.** Determination of fluorine by neutron activation, 1524.

— and **Beamer, W. H.** Resolution of time-dependent γ-spectra with a digital computer. Use in activation analysis, 4026.

**ndersen, I. G. K.** See **Veibel, S.**, 4918.

**nderson, B. B., Bailey, D. W., Ash, J. C.**, and **Jaquith, B.** Rapid method for fat in milk and milk products, 1224.

**nderson, C. A.** See **Meagher, W. R.**, 1758.

**nderson, C. H.**, and **Brown, D. W.** Liquid-metal fuel-reactor experiment—spectrographic methods for bismuth analysis, 1490.

**nderson, C. J., Del Grosso, R.**, and **Ortner, M. H.** Determination of ruthenium tetroxide, 4669.

— See also **Campbell, P. F.**, 3157.

**nderson, D. M. W.**, and **Duncan, J. L.** Applications of infra-red spectroscopy. II. The Zeisel alkoxyl determination, 2894; III. Simultaneous determination of methoxyl and ethoxyl groups, 3311; IV. Causes of anomalous alkoxyl determinations given by sugars and polyhydric alcohols, 4687.

**nderson, E. C.** See **Van Dilla, M. A.**, 1986.

**nderson, E. S.** See **Kerrigan, J. V.**, 1007.

# INDEX OF SUBJECTS

A

**ADCT.** (See *Reagents, organic.*)
**AEGT.** (See *Reagents, organic.*)
**Acacia gum,** determination of glucuronic and galacturonic acids in, chromatographic, 3417.
**Accumulators,** active masses of, analysis of, 72.
**Acetal,** determination, potentiometric, 1599.
**Acetaldehyde.** (See also *Aldehydes.*)
  determination, 640.
    amperometric, 2475.
    conductimetric, 645.
    of crotonaldehyde in, polarographic, 2477.
    simultaneously with formaldehyde, 3318.
      with paraldehyde, 3320.
  separation, from butadiene, ethyl ether and ethanol, gas chromatographic, 634.
**p-Acetamidophenol,** determination, spectrophotometric, 1215, 3905.
**Acetaminophen.** (See p-*Acetamidophenol.*)
**Acetates,** determination, conductimetric, 3788.
**Acetazolamide,** determination, spectrophotometric, 2624.
  microchemical reactions for, 299.
**Acetic acid,** analysis of mixtures of, with oxalic acid, 648.
  bromo-, detection, in wine, chromatographic,2161,
  microbiological, 4360.
  chloro-, detection, in wine, chromatographic, 2161.
    determination, 1602.
  detection, 1188.
  determination, in wood, spectrophotometric, 3369.
  iodo-, detection, in wine, chromatographic, 2161.
  labelled with $^{14}C$, fractional distillation of, 4871.
**Acetic anhydride,** determination, 3560.
**Acetol.** (See *Hydroxyacetone.*)
**Acetonaphthone,** hydroxy deriv. of, i.r. spectra of, 3807.
**Acetone,** analysis of, u.v. photometer for, 1990.
  determination, in admixture with diacetone alcohol, 5061.
    in air, continuous, apparatus for, 4398.
    of isopropyl alcohol in, i.r. spectrophotometric, 2478.
      spectrofluorimetric, 4223.
**Acetophenone,** determination, 5076.
    in injections of lobeline hydrochloride, polarographic, 774.
    oscillopolarographic, 3808.
  hydroxy deriv. of, i.r. spectra of, 3807.
**Acetyl chloride,** determination, 3787.
**Acetyl groups,** determination, 1582.
**Acetylacetonates,** extraction of metals as, 4044.
**Acetylene,** deriv. of, detection, 4689.
  determination, in ethylene, gas chromatographic, 5051.
  separation, from propene, gas chromatographic, 2232.
**N-Acetyl-$\beta$-glucosaminidase,** determination of activity of, in serum, spectrophotometric, 3440.
    spectrofluorimetric, 3441.
**N-Acetylhexosamines,** diethylmercaptals of, separation, paper chromatographic, 5144.
**Acetylsalicylic acid,** detection, spectrofluorimetric, 2998.
  determination, spectrophotometric, 3905.
  separation, from urine, electrophoretic, 724.
**Acid Alizarin black SN.** (See *Dyes*, C.I. Morda Black 25.)
**Acid blue-black anthraquinone S,** use of, as reage for $H_3BO_3$, 1875.
**Acid Chrome blue K,** use of, in determination of F 4555.
    of V, photometric, 3239.
**Acid Chrome blue 2K.** (See *Dyes*, C.I. Morda Green 28.)
**Acid Chrome dark blue.** (See *Dyes*, C.I. Morda Blue 7.)
**Acid Chrome pure blue V.** (See *Dyes*, C.I. Morda Blue 1.)
**Acid Monochrome Bordeaux S,** colour reaction with Ca, 1866.
**Acid red GA.** (See *Dyes*, C.I. Acid Red 1.)
**Acinitrazole,** assay of, in feeding-stuffs, 3969.
**Aconitine,** detection, 4331.
**Acraldehyde,** determination, 1597, 2910.
    polarographic, 4698.
    spectrophotometric, 5060.
  study of, polarographic, 4690.
**Acridine,** determination, potentiometric, 4719.
**Acrilan,** Standard, differentiation of, from Courtel and Orlon Type 42, with C.I. Acid Green 7 ar Sevron Orange L, 3830.
**Acrylamide,** gel, use of, in electrophoresis, 4416.
**Acrylate esters,** determination, gas chromatographi 5101.
**Acrylonitrile.** (See *Vinyl cyanide.*)
**Actinium,** determination, spectrographic, 1888.
**Adenine,** determination, in gelatin, spectrophot metric, 703.
  oscillopolarographic study of, 2985.
  polarographic study of, 2572.
  separation, 5179.
    from guanine, cytosine, uracil and thymin paper chromatographic, 2573.
**Adenosine phosphates,** determination, in liver, 476
  separation, from inosine phosphates and nucle tides, paper chromatographic, 2107.
**Adenylic acid,** determination, in liver, chromat graphic, 4760.
**Adipic acid,** determination, 4224.
**Adrenaline,** (*epinephrine*). (See also *Catecholamines*
  detection, paper chromatographic, 3434.
  determination, 3917.
    chromatographic, 3445.
    in urine, chromatographic, 4782.
  separation, 2610.
**Adrenaline, 3-methoxy-** (*metadrenaline*; *met nephrine*), detection, in urine, paper chromat graphic, 1682.
  determination, in urine, spectrophotometri 743, 2560.
**Adrenochrome,** semicarbazone of, determinatio polarographic, 1165.
**Aerosols,** determination, in air, techniques an apparatus for, 1250.
  sampling of, electrostatic precipitator for, 354
**Aesculin,** determination, spectrophotometric, 345 3863.
**Agmatine,** determination, spectrofluorimetric, 523
**Air,** analysis of solvents in, gas chromatographi 3488.
  detection of aldehydes in, 334.
    of amines in, 4374.

, detection—*continued*
  of Be in, fluorimetric, 1734.
letermination of aerosols in, techniques and apparatus for, 1250.
  of Ar in, gas chromatographic, 3163.
  of aromatic hydrocarbons in, fluorimetric, 4848.
  of Be in, monitor for, 3102.
    spectrographic, 37, 1733, 2172.
    spectrophotometric, 38.
  of $CO_2$ in, 1249.
    absorption device for, 842.
  of CO in, 3486.
  of chlorinated aliphatic hydrocarbons in, 3956.
  of Cl in, 1736.
  of $ClO_2$ in, apparatus for, 3122.
  of contamination of, apparatus for, 1732, 4835.
  of fluorene deriv. in, spectrophotometric, 823.
  of $F^-$ in, continuous, apparatus for, 3487.
  of formaldehyde in, spectrophotometric, 4847.
  of hydrocarbons in, paper chromatographic, 1737.
    spectrophotometric, 821.
  of H, $CH_4$ or acetone in, continuous, apparatus for, 4398.
  of $H_2O_2$ in, indicator tube for, 4479.
  of Mn, Cr and Fe in, polarographic, 5279.
  of $CH_4$ in, interferometer for, 3120.
  of nitrobenzene in, 2661.
  of O in, apparatus for, 1248.
  of ozone in, 822, 2171, 3041.
  of particulate matter in, ring-oven technique for, 820.
  of $SO_2$ in, apparatus for, 3042.
    detector tube for, 4846.
  of $H_2SO_4$ in, 1251.
  of thoron in, 2822.
  of toluene and styrene in, 335.
  of U in, fluorimetric, 5005.
entification of $F^-$ in, 1735.
eparation of benzo[*a*]pyrene in, paper chromatographic, 1737.
**malicine,** determination, 2126.
**maline,** determination, 2126.
**umin,** detection, 419.
  in urine, 5141.
etermination, in serum, 5200.
  in urine, 727, 1689.
  of hexosamine in, spectrophotometric, 1177.
**ohol dehydrogenase,** assay of, 4804.
**ohols,** aliphatic, detection of water in, i.r. spectrophotometric ,2902.
  separation, paper chromatographic, 4692.
nalysis of, gas chromatographic, 3561.
romatic, mass spectra of, 2924.
etermination, gas chromatographic, 2233, 2898, 4788.
  spectrophotometric, 2466.
  u.v. spectrophotometric, 4693.
entification, 2465.
  by X-ray diffraction, 4215.
olyhydric, determination, 4694.
    of alkoxyl groups in, 4687.
rimary and secondary, determination, 631.
econdary, determination, 632.
paration, gas chromatographic, 4214.
  paper chromatographic, 1073.
**hydes.** (See also individual compounds.)
iphatic, chromatography of, 4696.
  detection, 1625.
  determination, 3317.
    spectrophotometric, 3781.
-alka-2-enals, spectrophotometric study of, 3322.
nalysis of, paper chromatographic, 3783.
romatic, detection, 2912.

**Aldehydes,** aromatic—*continued*
    determination, i.r. spectrophotometric, 1626
    mass spectra of, 4244.
  detection, 638, 639, 3316.
    in air, 334.
  determination, 640, 4220.
    amperometric, 641.
    in foods, 3466.
    spectrophotometric, 2474.
  identification, chromatographic, 2899.
  separation, gas chromatographic, 163, 646.
    paper chromatographic, 4221.
  study of, polarographic, 4690.
  unsatd., determination, 2910.
  X-ray powder-diffraction data for, 3782.
**Aldolase,** determination, 271.
  separation, chromatographic, 4802.
**Aldoses.** (See also *Sugars* and individual compounds.)
  determination, spectrophotometric, 4771.
**Aldosterone,** determination, chromatographic, 4796.
    in plasma and urine, by double isotope labelling, 270.
    in urine, spectrophotometric, 1183.
    paper chromatographic, 2114.
  separation, paper chromatographic, 767.
**Aldrin,** determination, gas chromatographic, 1751.
    paper chromatographic, 1257.
**Alfalfa.** (See *Lucerne.*)
**Alizarin blue.** (See *Dyes*, C.I. Mordant Blue 27.)
**Alizarin complexan.** (See *Reagents, organic.*)
**Alizarin Sapphirol A.** (See *Dyes*, C.I. Acid Blue 25.)
**Alizarin Sapphirol SE.** (See *Dyes*, C.I. Acid Blue 43.)
**Alkali metals,** colour reaction for, 925.
  detection, flame photometric, 13.
  determination, by ion exchange, 444.
    in org. compounds, 3310.
    of O in, 3587.
    paper chromatographic, 2294.
    polarographic, 1379.
  separation, from alkaline-earth metals, paper chromatographic, 21.
    in natural water, by ion exchange, 3045.
    paper chromatographic, 20, 926, 2292.
    study of, by isotopic dilution, 1378.
**Alkaline-earth metals,** detection, flame photometric, 13.
  determination, by ion exchange, 444.
    of O in, 461, 3600.
    of Na in, flame photometric, 2296.
    paper chromatographic, 926, 2294.
  sensitivity of colour reactions with dihydroxy-*p*-benzoquinone deriv., 4447.
  separation, from alkali metals, paper chromatographic, 21.
    in natural water, by ion exchange, 3045.
**Alkaloids,** determination, 1190, 1702, 2602, 3446, 3887.
    chromatographic, 3445.
    in ointments, 4811.
    in plants, 1701.
    spectrophotometric, 3447, 5232.
  elution of, from paper chromatograms, 2123.
  optical rotation of, effect of org. nitrogen solvents on, 1802.
  separation, electrophoretic, 3000.
    paper chromatographic, 5233.
**Alkannin,** analytical study of, 318.
**Alkoxyl groups.** (See also individual groups.)
  detection, 2456.
  determination, 1998, 2894.
    in sugars and polyhydric alcohols, 4687.
**Alkyl halides,** detection, 2463, 2464.

**Alkyl nitrates,** determination, gas chromatographic, 2898.
**Alkylbenzenesulphonates.** (See also *Surfactants.*)
  determination, in sewage, 4379.
***S*-Alkyl-*N*-phenylthiuronium salts,** determination of picrate, styphnate and picrolonate in, u.v. spectrophotometric, 1217.
  use of, in characterisation of alkyl halides, 1068.
**Allobarbitone,** detection, paper chromatographic, 1211.
**Alloys.** (See also under individual metals.)
  determination of rare-earth metals in, spectrographic, 1434.
  high-temp., determination of B in, spectrophotometric, 5021.
  jewellery, determination of Pd in, 4192.
  magnetic, determination of Al in, 2322.
    of Co and Ni in, 4187.
  non-ferrous, determination of Co in, amperometric, 1547.
    of Cu in, spectrophotometric, 3593.
  semiconductor, analysis of In - Sb - Te, 3155.
  use of the electron probe in analysis of, 917.
**Allyl alcohol,** deriv. of, gas chromatography of, 1590.
**Allyl chloride,** analysis of, i.r. spectrophotometric, 156.
**Allyl isothiocyanate,** determination, 2616.
  in mustard, amperometric, 3798.
**Allylthiourea,** determination, in mustard, amperometric, 3798.
**Aloin,** determination, spectrophotometric, 3006.
**Alumina.** (See *Aluminium oxide,*)
**Aluminate,** analysis of soln. of, 1881.
**Aluminium,** analysis of, after irradiation, 469, 2790.
  complexes of, study of, by high-frequency titration, 3561.
  determination, 57, 2323, 3199, 3724, 4096, 4475, 4521.
    fluorimetric, 4955.
    in cement, clay and ironstone, 4095.
    in copper alloys, B.S.I. method for, 3173.
    in Friedel - Crafts catalysts, 5091.
    in hydrochloric, hydrofluoric, sulphuric and nitric acids, hydrogen peroxide and Na acetate, 4098.
    in magnesium alloys, amperometric, 1877.
    in magnesium, spectrofluorimetric, 3622.
    in magnetic alloys, 2322.
    in manganese ores, 1953.
    in niobium pentoxide, spectrographic, 4995.
    in pharmaceutical prep., 2631.
    in presence of Ni and Mn, 1374.
    in steel, 2868.
      photometric, 580.
      spectrographic, 4646.
      spectrophotometric, 581.
    in thorium, spectrophotometric, 2821.
    in tin, spectrophotometric, 1448.
    in uranium, spectrophotometric, 1521.
    in zinc alloys, 1401.
      spectrophotometric, 3614.
    of B in, spectrophotometric, 2321.
    of Cd in, by neutron-activation analysis, 3617.
    of Ca in, flame photometric, 463.
    of Ce, rare-earth metals, Th and Zr in, 4986.
    of Cu in, spectrophotometric, 3200.
    of H in, 4100.
      with use of $^3$H tracer, 2326.
    of impurities in, by neutron-activation analysis, 1879.
    of Pb in, polarographic, 4956.
    of Mg in, B.S.I. amendment for, 961.
    of Ni in, spectrophotometric, 1883.
    of K in, flame photometric, 2791.
**Aluminium,** determination—*continued*
    of Na in, flame photometric, 58, 898, 2791.
    of Ti in, spectrophotometric, 960.
    polarographic, 959.
    simultaneously with V, in graphite, by radi activation analysis, 4545.
    spectrographic, 2325.
    spectrophotometric, 56, 4097, 4099, 4471.
    with organic reagents, 4520.
  dissolution of, 2788.
  extraction of, 3582.
  pptn. of, as 8-hydroxyquinolinate, 3621.
  purification of, control of, by neutron-activati analysis, 1426.
  separation, from Be, gas chromatographic, 136
      with embelin, 2789.
    from Cr, gas chromatographic, 1369.
    from Fe and Ti, 2754.
    from Fe, Ti and Zr, 2753.
    of Be from, by ion exchange, 942.
    of Ce, Nd, Th and Zr from, 4928.
    of Co, Fe and Zn in, by ion-exchange, 1878.
  triethyl-, analysis of, apparatus for, 1614.
  use of C.I. Mordant Blue 1 as reagent for, 1876.
  X-ray emission spectrography of, 3105.
**Aluminium alloys,** analysis of Al - Cu, spectr graphic, 409.
    of Al - Au, 36.
    of Al - Mg, spectrographic, 3607.
    polarographic, 3561.
    spectrographic, 3623.
  determination of Al in Al - U, spectrophotometri 1521.
    of B in Al - Si, spectrophotometric, 2321.
    of Cd and Zn in, amperometric, 954.
    of Cr in, spectrophotometric, 1543.
    of Cu in, 3591.
    of H in, 4100.
      spectrographic, 4467.
    of Mg in, 3606.
      B.S.I. amendment for, 961.
    of Na in, 4957.
    of Zr in Al - Mg, spectrophotometric, 3222.
      in Al - Zr, 3224.
**Aluminium bronze,** analysis of, spectrophotometri 1880.
**Aluminium nitrate,** determination of composition o spectrophotometric, 470.
**Aluminium oxide,** determination, in silicates, 2324.
    of alkalis in, spectrographic and by X-ra diffraction analysis, 4522.
**Aluminium salts,** determination of Fe in, spectro photometric, 4179.
**Aluminium sulphate,** analysis of, 3201.
**Amaranth.** (See *Dyes,* C.I. Food Red 9.)
**Americium,** determination, in plutonium allo fuels, 2270.
  separation, from Cm and Pm, 4967.
**Amethocaine,** determination, 1709.
  paper electrophoresis of, 4338.
  separation, from procaine, paper chromatographic 4810.
**Amides,** determination, 3333.
**Amido-groups,** determination, in proteins, 254.
**Amidol.** (See *2,4-Diaminophenol.*)
**Amidopyrine,** detection, 1188.
    spectrofluorimetric, 2998.
  determination, 291, 2602.
    in suppositories, 3444.
    of 4-aminophenazone and 4-formamidophen azone in, spectrophotometric, 292.
**Amidoximes,** determination, spectrophotometric 1606.

**ines,** aliphatic, determination, gas chromatographic, 1605.
identification, 1604.
primary, analysis of, gas chromatographic, 652.
determination of iodine value of, 3331.
potentiometric, 3329.
gas chromatography of, 651.
secondary, determination, 3329.
of iodine value of, 3331.
identification and separation, paper chromatographic, 5082.
nalysis of, in urine, chromatographic, 4781.
romatic, detection, 2026.
and determination, 5083.
determination, spectrophotometric, 678.
primary, analysis of, i.r. spectrographic, 1631.
determination, potentiometric, 1630.
identification, paper chromatographic, 2506.
etection, apparatus for, 3541.
in air, 4374.
on paper chromatograms, 2222.
etermination, 650, 671, 3333.
in extraction liquids of U, 5067.
in industrial wastes, spectrophotometric, 339.
in urine, paper chromatographic, 1087.
of iodine value of, 3331.
ertiary, determination, 3330.
hin-film electrochromatography of, 3332.
**ino-acids,** α-, determination, in urine, 2089.
nalysis of, 3560.
automatic, 896, 5184.
gas chromatographic, 2088.
paper chromatographic, 3509.
etection, in urine and blood, 249.
etermination, 3872.
by ion exchange, 5183.
automatic, 1166.
chromatographic, 251.
in blood, by ion exchange, 4787.
in feeding-stuffs, 1266.
in flour and bread, 4349.
in industrial wastes, spectrophotometric, 339.
in natural water, spectrophotometric, 3959.
in protein hydrolysates, apparatus for, 1692.
in serum, 250.
of carboxyl $CO_2$ in, 1684.
of mercapto- and disulphide groups in, 3771.
paper chromatographic, 5182.
polarographic, 747, 3869.
spectrophotometric, 2576, 3870.
4-dinitrophenyl deriv. of, behaviour of and separation, chromatographic, 5193.
determination, polarographic, 1168.
separation, paper chromatographic, 746.
ffect of pH on the $R_F$ value of, in paper chromatography, 5064.
entification, i.r. spectrophotometric, 2575.
mass spectrometric, 2087.
r. spectra of, 748, 1176.
n-exchange chromatography of, 2976, 2977.
-methyl-, detection, 1685.
aper chromatographic reference system for, 2973.
paration, by ion exchange, 1683, 4298, 4299.
electrophoretic, 252.
from peptides and sugars, paper chromatographic, 2577.
gas chromatographic, 5185.
paper chromatographic, 2090, 4786.
ylated, separation, gas chromatographic, 3871.
in-film electrochromatography of, 3332.
-trifluoroacetylmethyl esters of, detection, gas chromatographic, 4300.
**Aminoanthraquinones,** separation, paper chromatographic, 686.
**5-(*p*-Aminobenzenesulphonamido)-1-phenylpyrazole.** (See *Sulphaphenazole.*)
**Aminobenzoic acid,** detection, 1188.
*p*-, determination, 2602.
spectrophotometric, 2131.
**4-Amino-6-chlorobenzene-1,3-disulphonamide,** determination, in hydrochlorothiazide, spectrophotometric, 298.
spectrophotometric, 296.
**2-Amino-2-deoxyhexoses,** diethylmercaptals of, separation, paper chromatographic, 5144.
***p*-Amino-*NN*-dimethylaniline.** (See *Reagents, organic.*)
**4-Amino-1,3-dimethyl-5-nitrosouracil,** determination, polarographic, 1715.
**2-Aminoethanethiol,** determination, polarographic, 2919.
**Amino-groups,** primary, determination, 2895.
**2-Amino-2-hydroxymethylpropane-1,3-diol,** effect of, on determination of chloride, 559.
**4-Aminoimidazole-5-carboxamide,** determination, in urine, 5177.
**β-Aminoisobutyric acid.** (See *3-Amino-2-methylpropionic acid.*)
**5-Aminolaevulinic acid,** determination, spectrophotometric, 3868.
**5-Aminolaevulinic acid dehydrase,** determination of activity of, in blood and liver, fluorimetric, 2994.
**3-Amino-2-methylpropionic acid,** determination, in urine, spectrophotometric, 1169.
**4-Amino-1-naphthalenesulphonic acid.** (See *Naphthionic acid.*)
**Aminonaphtholsulphonic acids,** paper chromatography of, 1101.
**6-Aminopenicillanic acid,** assay of, 4817.
**Aminopeptidases,** determination of activity of, in serum, 5223.
serum leucine, determination of activity of, 2597, 5224.
spectrophotometric, 2598.
**Aminophenol,** *p*-, determination, 1096, 2928.
spectrophotometric, 3346.
**5-*p*-Aminophenylazosalicylic acid,** polarography of, 2025.
**1-(4-Amino-2-n-propyl-5-pyrimidinylmethyl)-2-picolinium chloride.** (See *Amprolium.*)
**4-Aminosalicylic acid,** separation and determination, 787.
**Aminosiloxanes,** analysis of, photometric, 4707.
**Amino-sugars,** determination, u.v. spectrophotometric, 2085.
**5-Aminovaleric acid,** determination, in urine, chromatographic, 2094.
**Amiphenazole,** determination, 4344.
**Ammelamine,** determination, potentiometric, 1105.
**Ammonia,** detection, apparatus for, 3541.
determination, 1473, 3671.
in biol. materials, automatic, 896.
in coke-oven gas, 3825.
in copper-ammonium electrolyte, 989.
in natural water, 826.
in presence of K, spectrophotometric, 3165.
in tea, 3473.
of $CO_2$ in, 1474.
of N in, 1907.
spectrophotometric, 4574.
formation of, in blood, during analysis, 5124.
**Ammonium chloride,** removal of Cu from, by ion exchange, 3566.
**Ammonium hydrogen sulphate,** use of, as fusion agent, 2280.

**Ammonium perchlorate,** assay of, 1528.
  determination of impurities in, spectrophotometric, 2857.
**Ammonium salts,** determination, 499.
  oxidation of, 500.
**Ammonium thiocyanate,** determination, 4704.
**Ammonium thiosulphate,** photographic grade, B.S.I. standard for, 1927.
**Ammonium vanadate,** determination, with $Mo^{III}$, 3149.
**Amphetamine,** determination, 4814.
**Amprolium,** determination, 836.
  in feeding-stuffs, spectrophotometric, 3971.
  spectrophotometric, 5294.
**Amyl alcohol,** separation, gas chromatographic, 4217.
**Amylase,** α-, determination of activity of, 2636.
  in blood, 2991.
  in flour, 3921.
  in malt and barley, spectrophotometric, 5288.
  in pancreatin, 2992.
**Amylobarbitone,** identification, 2617.
**Amylocaine,** paper electrophoresis of, 4338.
**Amyloids,** determination, in plant seeds, spectrophotometric, 1153.
**Amylopectin,** separation and determination in starch, 308, 637.
**Amylose,** separation and determination in starch, 308, 637.
**Anaesthetics,** analysis of mixtures of, gas chromatographic, 302.
  research in, application of gas chromatography to, 1819.
**Analytical chemistry,** automatic operations in, 896.
  changing aspect of, 895.
  errors in, 4919.
  increase of selectivity by masking in, 4920.
  induced reactions in, 3560.
  kinetic methods in, 897.
  micro, the problem of destruction and enrichment in, 412.
    use of ion exchanger at interface between two immiscible liquids in, 413.
  "molecular indices" instead of conventional analytical values in, 4443.
  precision and limits of detection in, 3143.
  Proceedings of Congress, 1961, Budapest, 3560.
  progress in, review, 1.
    review of 1960, 2270.
  ultramicro, literature survey of, 411.
  use of, in nuclear reactor technology, 2270.
    of zone melting in, review, 2283.
**Anatase,** determination of surface O of, 2381.
**Anavenol,** determination of 2-(2-naphthyloxy)-ethanol in, potentiometric, 684.
**Androstane-3,17-dione,** separation, from androst-4-ene-3,17-dione and cholestanone, gas chromatographic, 763.
**5β-Androstan-17-one, 3α-hydroxy-,** (*5β-androsterone*), separation, of urinary, gas chromatographic, 4800.
**Androst-4-ene-3,17-dione,** separation, from androstane-3,17-dione and cholestanone, gas chromatographic, 763.
**Androst-5-en-17-one, 3β-hydroxy-),** (*dehydroepiandrosterone*), determination, in plasma, 5215.
    in urine, 2989.
  spectrophotometric, 1698.
  separation, from urine, gas chromatographic, 4800.
**Androsterone,** determination, in urine, spectrophotometric, 1698.
  separation, from urine, gas chromatographic, 4800.
**5β-Androsterone.** (See *5β-Androstan-17-one, 3α hydroxy-.*)
**Angiotensin,** determination, in blood, paper chromatographic, 5156.
***N'N'*-Anhydrobis-(β-hydroxyethyl)biguanide.** [Se N-(*Guanidinoformimidoyl*)*morpholine hydrochloride.*]
**Aniline,** analysis of mixtures of, with *N*-ethylaniline, 182.
  detection, 1671.
  determination, 1671, 2602, 2888.
    in *N*-ethylaniline, 181.
    of nitrobenzene in, 1990.
    spectrophotometric, 4717.
  *NN*-dialkyl-, determination, spectrophotometric, 5084.
  effect of substitution on the fluorescence of, 4241
  separation, by ion exchange, 4715.
**Animal tissues.** (See *Biological materials.*)
**Anions,** inorganic, determination, paper chromatographic, 919.
  separation, chromatographic, 922.
**Anisidine,** *p*-, determination, 2602.
**Anthocyanogens,** determination, in barley, malt and beer, spectrophotometric, 5259.
**Anthracene,** determination, 2947.
  errors in, 2027.
  in mixtures with fluorene and phenanthrene spectrofluorimetric, 3815.
  in naphthalene, photometric, 4247.
  polarographic, 3803.
  u.v. photometer for, 1990.
**Anthramine,** deriv. of, determination, spectrophotometric, 4716.
**Anthraquinone,** control of sulphonation of, paper chromatographic, 3816.
  deriv. of, mass spectra of, 2929.
  determination, in dielectrics, polarographic, 3387.
    polarographic, 2028.
  gas chromatography of, 854.
**Antibiotics,** assay of, apparatus for, 3904.
    microbiological, automatic, 896.
      scale for zone reading of, 3902.
  determination, in milk, 3927.
**Antidiphtheria serum,** isolation of γ-globulins from, 4307.
**Antihistamines,** determination of mol. wt. of, as a means of identification, 1213.
**Antimony,** detection, in copper alloys, 4588.
    paper chromatographic, 4586.
  determination, 88, 2828, 3235, 4933.
    by ion exchange, 4472.
    in antimony alloys, potentiometric, 4129.
    in beryllium, by radioactivation analysis, 4947.
    in biol. materials, polarographic, 4281.
    in bismuth, 4137.
    in chromium alloys, spectrophotometric, 4157.
    in copper alloys, spectrophotometric, 409.
    in copper, spectrophotometric, 996, 4076.
    in enamels, 1054.
    in foods, photometric, 2140.
    in lead alloys, spectrographic, 4002.
    in molybdenum, spectrographic, 3701.
    in niobium, spectrographic, 3581.
    in powders, spectrographic, 898.
    in presence of Bi, Se and Te, potentiometric, 95.
    in silicates, polarographic, 4128.
    in tantalum, spectrographic, 3581.
    in tin, polarographic, 980.
    in titanium sulphate, polarographic, 1913.
    in tungsten, spectrographic, 3581, 3701.
    in type metal, X-ray spectrographic, 90.
    in urine, blood and hair, spectrophotometric, 4280.

**ntimony,** determination—*continued*
  of Cu in, spectrophotometric, 3236.
  of impurities in, by neutron-activation analysis, 2372.
  photometric, 1912.
  review, 508.
  spectrophotometric, 1487, 3677.
 extraction of, from aq. HCl, 3582.
 separation, from alkaline earths, 3679.
  from As and Sn, 4992.
   by ion exchange, 4585.
  from Ge, chromatographic, 2808.
  from Sn and Te, by ion exchange, 487.
  of $Sb^V$ from zirconium, 4565.
**ntimony alloys,** analysis of In - Sb - Te, 3155.
 determination of Sb in, 4129.
**ntimony sulphide,** determination of As, Fe and Pb in, 997.
  of S in, 509.
**ntimony trichloride,** determination, 4587.
**ntioxidants,** detection, in polyethylene, spectrophotometric, 5104.
 determination, in fats, 330.
   spectrophotometric, 329.
   u.v. spectrophotometric, 3035.
 evaluation of, spectrophotometric, 1243.
 identification, in rubber, paper chromatographic, 4272.
 separation, paper chromatographic, 4844.
  thin-layer chromatographic, 2168.
**patite,** determination of Ce in, spectrophotometric, 1436.
  of phosphate in, by ion exchange, 1479.
  of Sr in, 1864.
**pomorphine,** determination of stability of, paper chromatographic, 279.
**pples,** determination of ethylene in, gas chromatographic, 1230.
  of Hg in, spectrophotometric, 1721.
**probarbitone,** detection, paper chromatographic, 1211.
**urinic acid,** oscillographic polarography of, 2584.
**rabinose,** determination, in cellulose, spectrophotometric, 2952.
 gas chromatography of, 1076.
**rachis oil,** determination of free fatty acids in, 3482.
**recoline,** determination, gas chromatographic, 3889.
**rginase,** determination of activity of, 770.
**rginine,** benzoyl-, ethyl ester, use of, in assay of enzymes in serum, 2091.
 dinitrophenyl-, determination, 2092.
 stability of colour in Sakaguchi reaction for, 1171.
**rgon,** determination, gas chromatographic, 3087.
  in air, gas chromatographic, 3163.
  in gases, 1365.
 neutron-activation analysis of $^{40}Ar$, 3552.
 separation, from N and O, gas chromatographic, 442.
**senate,** determination, 89, 1486, 4932.
**senazo II and III.** (See *Reagents*, *organic*.)
**senic,** detection, in org. compounds, 4029.
  paper chromatographic, 4586.
 determination, 88, 2828, 3234, 4929, 4991.
  in alkaline media, polarographic, 995.
  in antimony sulphide, spectrophotometric, 997.
  in beryllium, by radioactivation analysis, 4947.
  in biol. materials, 2549.
   polarographic, 4281.
  in calcium arsenate, 507.
  in coal, 3362.
   and coke, 1566, 2945.

**Arsenic,** determination—*continued*
  in foods, spectrophotometric, 1484, 3919.
  in germanium, 2805.
  in iron, steel and iron ores, polarographic, 1966.
  in lead and zinc, spectrophotometric, 4582.
  in natural water, spectrophotometric, 3050.
  in plants, 4389.
  in powders, spectrographic, 898.
  in silicates, polarographic, 4128.
  in tungsten and molybdenum, 3675.
  in tungsten compounds, spectrographic, 1016.
  in tungstic oxide, spectrographic, 1016.
  in urine, blood and hair, spectrophotometric, 4280.
  of $As^{3+}$ in food, oscillopolarographic, 3027.
  of valency of, microbiological, 3912.
  polarographic, 1911.
  sources of error in, 3674.
 extraction of $As^V$, 4583.
  from aq. HCl, 3582.
 polarographic behaviour of, 3676.
 separation, from Sb and Sn, 4992.
   by ion exchange, 4585.
  from Mo and W, by ion exchange, 3561.
  of $^{74}As$ from irradiated germanium, 1485.
**Arsenic acid,** determination, 4584.
**Arsenic alloys,** analysis of As - In - Se, 4054.
**Arsine,** determination, in alkaline soln., 3673.
**Artemisia,** determination of santonin in, spectrophotometric, 1706.
**Ascaridole,** determination, in chenopodium oil, 1707.
**Ascorbic acid,** determination, 2170, 2484, 2659, 3039, 4290.
  in blood, 4289.
  in coloured soln., 819.
  in plant tissue, spectrophotometric, 3954.
  in rose-hip syrup, paper chromatographic, 3040.
  in urine, 2557.
   photometric, 3413.
  in wine, polarographic, 3477.
  of intermediates in the synthesis of, 2009.
  paper chromatographic, 3953.
  photometric, 4372.
  polarographic, influence of pectins on, 3485.
 identification, 1730.
 separation, from other vitamins, chromatographic, 332.
 variation of area of chromatographic spots of, 2660.
**Asphalt,** analysis of, mass spectrometric, 4260.
 separation, chromatographic, 1645.
**Atractylic acid,** dipotassium salt, separation, chromatographic, 2972.
**Atractyligen,** separation, chromatographic, 2972.
**Atropine,** determination, 280, 2602.
  in stramonium, spectrophotometric, 3890.
  polarographic, 4329.
  spectrophotometric, 4328.
**Atropine sulphate,** determination, 1702.
  spectrophotometric, 3449.
**Auramine,** detection, i.r. spectrographic, 317.
**Auramine O.** (See *Dyes*, C.I. Basic Yellow 2.)
**Automatic operations,** analysis of blood, 2208.
 apparatus for, 3978.
  for trace elements, 896.
 application to continuous analyses, review, 2677.
 colorimetric, instruments for, 896.
 handling of samples and reagents in, 896.
 instrumentation of, for power plants, 896.
 *in vivo*, continuous, 896.
 partial or complete, as alternatives, 896.
 problems in, 896.
 Proceedings of Conference, 1959, New York, 896.
**Autunite,** analysis of, 542.

**Azacyclonol,** determination, spectrophotometric, 4341.
**Azeograph,** for distillation, 2218.
**Azides,** determination, polarographic, 2824.
  spectrophotometric, 990, 1471.
**Azinphosmethyl,** determination, in cottonseed oil, spectrophotometric, 1758.
**Azo-azoxy BN.** (See *Reagents, organic.*)
**Azo-compounds,** determination, 1634.
**Azovan blue,** determination, spectrophotometric, 3408.

**B**

**Babbitt metal,** determination of Cu in, spectrophotometric, 4075.
**Bacitracin,** assay of, microbiological, 4819.
**Bacterial cells,** assay of $^{3}$H in, 2058.
**Balance,** automatic recording, 4394.
  null-reading torsion, 4393.
  quartz-fibre "fishpole" ultra-micro, 4395.
  with automatic levelling beam, 2209.
**Barban,** (*herbicide*), determination, in wheat, spectrophotometric, 4390.
**Barbitone,** detection, paper chromatographic, 1211.
  determination, 4337.
**Barbiturates,** detection, paper chromatographic, 1210, 1211.
  determination, 784.
    in urine, oscillopolarographic, 2968.
    spectrophotometric, 4820.
  identification, 4336.
    i.r. spectrophotometric, 1209.
    paper chromatographic, 289, 5136, 5244.
**Barium,** analysis of, spectrographic, 1865.
  detection, 1866.
  determination, 2779, 3611.
    flame photometric, 1407.
      spectrophotometric, 393.
    in beryllium, by radioactivation analysis, 4947.
    in glass, 4085.
    in minerals, 1408.
    in natural water, 950.
    in petroleum products, spectrographic, 898.
    in phosphors, 4501.
    in potassium and sodium chlorides, polarographic, 951.
    of $^{140}$Ba, in milk, spectrochemical, 1227.
      in mixtures with $^{140}$La, by scintillation counting, 4086.
      in rain water, by $\beta$-counting, 4854.
      in urine, 3405.
    of short-lived, in reactor effluents, 2270. ,
    simultaneously with Sr in silicate rocks, spectrographic, 1409.
  separation, by ion exchange, 2312.
    from rare-earth metals, by ion exchange, 3188.
    from Sr, 464.
**Barium oxide,** determination, in Portland cement, 146.
**Barium sulphate,** determination, in faeces, 232.
  use of suspensions of, as standards in turbidimetry, 2281.
**Barley,** analysis of, 5258.
  determination of amylase in, spectrophotometric, 5288.
    of anthocyanogens in, spectrophotometric, 5259.
    of gibberellin in sprouting, 4381.
    of husk content in, 1722.
    of riboflavine in, 3474.
**Basalt,** determination of Zn in, spectrophotometric, 2313.
**Bathophenanthroline.** (See *Reagents, organic.*)
**Batyl alcohol,** separation, from ratfish-liver oil, thin-layer chromatographic, 3481.
**Bauxite,** determination of Cu in, 409.
  of Ga in, 4525.
**Bayer 22,408.** (See OO-*Diethyl O-naphthalimid phosphorothioate.*)
**Bearberry leaves,** determination of methylarbut in, spectrophotometric, 5157.
**Bearing metal,** determination of Zn in, 4087.
**Beer,** analysis of hop bitter substances in, 1242.
  determination of anthocyanogens in, spectr photometric, 5259.
    of Cl$^-$ and diacetyl in, 5263.
    of formazin haze units, 1723.
    of gibberellic acid in, fluorimetric, 5261.
    of I.T.T. value of, spectrophotometric, 324.
    of oxidisable substances in, 5268.
      spectrophotometric, 4835.
    of O in, 5267.
    of pentoses in, polarographic, 3029.
    of protease in, 807, 5266.
    of turbidity in, 3475, 5264.
    of volatiles in, gas chromatographic, 5265.
  measurement of colour of, spectrophotometri 808.
**Beeswax,** determination, in wax compositions, 165
**Beet.** (See *Sugar beet.*)
**Benactyzine,** determination, polarographic, 4340.
  spectrophotometric, 3460.
**Benzaldehyde,** determination, 641.
  hydroxy-deriv., separation, paper chromato graphic, 5080.
**Benzamide,** determination, u.v. spectrophotometri 1632.
**Benzamine,** paper electrophoresis of, 4338.
**Benzene,** chloro deriv. of, determination, spectr photometric, 668, 1623.
    u.v. spectra of, 669.
  determination, gas chromatographic, 1819.
    in coal distillates, i.r. spectrophotometric, 70
    in mixtures with isopropylbenzenes, by Rama spectroscopy, 2496.
      with toluene and xylene, gas chromato graphic, 1617.
    in platformate, gas chromatographic, 2034.
    in polyphenyl reactor coolants, gas chromato graphic, 4750.
    in presence of chlorobenzene, spectrophoto metric, 175.
    of alcohols in, i.r. spectrophotometric, 1589.
    of crystallisation-point of pure, 665.
    of impurities in, gas chromatographic, 1108.
    of purity of, i.r. spectrophotometric, 630.
    of thiophen in, 666.
      chromatographic, 1618.
      spectrophotometric, 2922.
  identification of impurities in, gas chromato graphic, 2499.
  refractive index of system benzene - n-heptan 628.
  separation, from benzene - thiophen - toluene mi ture, gas chromatographic, 693.
**Benzene, alkyl derivatives of.** (See also *Toluen Xylene.*)
  analysis of mixtures of, by Raman spectroscop 2496.
  determination, i.r. spectrophotometric, 667, 109 1091, 1092, 1093, 1619, 1623, 2497, 2498.
    of C-methyl groups in, 4236.
  ethyl deriv. determination, in platformate, g chromatographic, 2034.
      in polyphenyl reactor coolants, g chromatographic, 4750.
      in styrene, i.r. spectrophotometric, 383 3839.

**zene alkyl derivatives of.**—*continued*
lentification of, paper chromatographic, 2923.
sopropyl deriv. determination, in phenol manufacture, 5076.
**Benzenedisulphonyl chloride,** determination of the sulphonyl chloride group in, 617.
**zimidazolethiol.** (See *2-Mercaptobenzimidazole.*)
**zocaine,** determination, 3457.
**zohydroxamic acid,** extraction of, with alcohols, 3156.
**zoic acid,** detection, in wine, chromatographic, 2161.
etermination, in butter and margarine, u.v. spectrophotometric, 319.
in wine, u.v. spectrophotometric, 3942.
ydroxy-deriv. of, separation and determination, chromatographic, 1236.
lentification, 4038.
eparation and determination in mixtures with hydroxy-deriv., chromatographic, 1236.
**zonitrile,** analysis of, u.v. spectrophotometric, 1632.
**zophenone,** hydroxy-, i.r. spectrum of, 3807.
**zo[*a*]pyrene,** (*3,4-benzopyrene*), determination, 4849.
in biol. materials, spectrophotometric, 1672.
polarographic, 3803.
spectrofluorimetric, 2935.
lentification, spectrofluorimetric, 4718.
eparation, in air, paper chromatographic, 1737.
**zoquinone,** 1,4-, i.r. spectra of, 179.
**zo-2,1,3-selenadiazole,** determination of Se in copper as, 451.
**zothiazole-2-sulphondiethylamide,** detection, in rubber, chromatographic, 2941.
**zo[*b*]thiophene.** (See *Thionaphthene.*)
**zotriazole,** photographic grade, assay of, B.S.I. method for, 2030.
**zoyl peroxide,** determination, spectrophotometric, 5055.
**zyl esters,** determination of the benzyloxy-group in, 5048.
**zylamine,** separation, by ion exchange, 4715.
**zyloxy-group,** determination, in benzyl esters, 5048.
**erine,** separation, from hydrastine and canadine, spectrophotometric, 3448.
**gamot oil,** detection of additions in, 1651.
**llium,** analysis of, spectrographic, 2771.
etection, 4464.
in air, fluorimetric, 1734.
etermination, 939, 940, 1852, 3602.
in air, monitor for, 3102.
spectrographic, 37, 1733, 2172.
spectrophotometric, 38.
in alloys, by ion exchange, 1397.
spectrophotometric, 4082.
in bronze, fluorimetric, 460.
spectrophotometric, 4491.
in gadolinite, chromatographic, 4492.
in natural water, fluorimetric, 3495.
spectrophotometric, 1739.
in ores, 2287, 4490.
by neutron activation, 1396.
photometric, 3605.
spectrographic, 1395.
in rocks and soil, paper chromatographic, 3179.
in uranium, spectrographic, 3265.
of Cd in, spectrophotometric, 4081.
of C in, 1853, 1854.
of Co in, spectrophotometric, 2304.
**Beryllium,** determination—*continued*
of F in, photometric, 1398.
of Gd in, spectrographic, 4083.
of gases in, 3573.
of impurities in, by activation analysis, 4946, 4947.
of O in, 2305.
by activitation analysis, 1341.
of rare-earth metals in, spectrographic, 1434.
of Si in, absorptiometric, 1855.
of Ta and Nb in, 4493.
paper chromatographic, 3604.
radiochemical, 39, 4452.
review, 3601.
spectrofluorimetric, 459.
spectrophotometric, 941, 1394, 3603, 4471.
separation, from Al, 2789.
by ion exchange, 942.
gas chromatographic, 1369.
**Beryllium alloys,** determination of Be in, by ion exchange, 1397.
spectrophotometric, 4082.
**Beryllium oxide,** determination of Cd in, spectrophotometric, 4081.
of Co in, spectrophotometric, 2304.
of P in, spectrographic, 1399.
of Ta and Nb in, 4493.
**Betaine,** determination, in presence of choline, 1164.
spectrophotometric, 742.
**Biacridyl derivatives.** (See *Indicators.*)
**Bicarbonate,** determination, together with chloride, in serum, 221.
**Biguanide,** determination, spectrophotometric, 4704.
**Bile,** determination of laevomycetin in, spectrophotometric, 1148.
**Bile acids,** i.r. spectra of, 2595.
separation and determination, spectrophotometric, 2594.
**Bile pigments,** determination, spectrophotometric, 5157, 5158.
**Bilirubin,** determination, 1159.
in presence of mesobilirubin, polarographic, 4295.
in serum, 737, 5160.
spectrophotometric, 2567, 5158.
standard of purity of, spectrophotometric, 2566.
meso-, determination, in presence of bilirubin polarographic, 4295.
**Biochemical analysis,** automatic system for, 896.
review of 1960, 2264.
**Biological materials** (*including body fluids, animal and plant tissues.*) (See also individual materials.)
analysis of lipids in, review, 1678.
chicken tissue, determination of furazolidone and nitrofurazone in, spectrophotometric, 2670.
detection of albumin and glucose in, 5141.
determination of As in, 2549.
of $^{137}$Cs in, by scintillation counting, 3849.
of Ca in, 3850.
of $^{14}$C in, 1145, 5121, 5122.
of chloride in, automatic, 5126.
of deoxyribonucleic acid in, 3433.
of *NN'*-diphenyl-*p*-phenylenediamine in, spectrophotometric, 5140.
of ethanol in, 2556.
of fatty acids in, 5166.
of glucose in, spectrophotometric, 2561.
of glucuronic acid in, spectrophotometric, 3416.
of glyoxylic acid in, potentiometric, 5148.
of hydroxyproline in, spectrophotometric, 5186.
of Fe in, spectrophotometric, 3856, 5133.
of Mg in, 3390.

- **Biological materials,** determination of Mg in—*cont.*
      - atomic absorption spectrophotometric, apparatus for, 4752.
      - flame spectrophotometric, 3391.
    - of Mn in, spectrophotometric, 1144.
    - of myoinositol in, chromatographic, 2562.
    - of nucleotides in, chromatographic, 3435.
      - spectrophotometric, 3432.
    - of phosphoric acid in, spectrophotometric, 2066.
    - of $^{32}$P in, 5122.
    - of P in, spectrophotometric, 2065.
    - of SiO$_2$ in, 229.
    - of Na and K in, flame photometric, 222.
    - of No, K and Ca in, flame photometric, 2543.
    - of sulphate in, apparatus for, 2061.
      - spectrophotometric, 3397.
    - of sulphonamides in, chromatographic, 3406.
    - of $^{35}$S in, 3395.
    - of Sn in, spectrophotometric, 5131.
    - of transaminase activity in, spectrophotometric, 3885.
    - of $^{3}$H in, 5121.
    - of W in, by activation analysis, 1142.
    - of U in, fluorimetric, 2068.
    - of V in, spectrophotometric, 1141.
    - of vitamin D in, spectrophotometric, 3484.
  - loss of Na and K during dry-ashing of, 5115.
  - separation of amino-acids, peptides and sugars in, paper chromatographic, 2577.
    - of Ca and Sr in, paper chromatographic, 4756.
    - of Co, Cu, Mn and Fe in, paper chromatographic, 3400.
  - wet-oxidation of, 2538.
- **Biological standardisation,** review, 4808.
- **Biotin,** separation, from other vitamins, chromatographic, 332.
- **Biphenyl,** detection, in orange juice, 1238.
  - determination, in citrus fruit, spectrophotometric, 3937.
    - in phenyltrichlorosilane, spectrophotometric, 2510.
    - in polyphenyl reactor coolants, gas chromatographic, 4750.
- **2,2′-Bipyridyl,** study of absorption spectra of, with metal complexes, 440.
- ***NN*-Bis-(2-chloroethyl)phenylalanine,** determination, in plasma, 5139.
- **Bismuth,** analysis of, spectrographic, 1914, 2270, 4131, 4132.
  - detection, 3592.
  - determination, 1488, 1489, 2373, 2739, 3562, 4045, 4512.
    - chronopotentiometric, 2752.
    - in alloys, 92.
    - in Bi - Pb alloys, 1915.
    - in chromium and its alloys, 4156.
    - in copper and its alloys, 93.
    - in ingot tin, Sn - Pb solders and white metal bearing alloys, B.S.I. method for, photometric, 3650.
    - in iron and steel, spectrophotometric, 4648.
    - in niobium and its alloys, 4142.
    - in pharmaceuticals, spectrophotometric, 794.
    - in phosphors, spectrographic, 4130.
    - in presence of Sb, Te and Se, 95.
    - in silver, polarographic, 1846, 1847.
    - in tin, by ion exchange, 4473.
    - in tungsten and molybdenum, spectrographic, 3701.
      - niobium and tantalum, spectrographic, 3581.
    - of Sb, Fe, Mn and Te in, 4137.
    - of Cd, Ag and Au in, 4136.
    - of Cr, Fe, Mg and Zr in, spectrographic, 1490.
    - of Cu in, polarographic, 4134.
- **Bismuth,** determination—*continued*
    - of impurities in, spectrographic, 4591.
    - of Fe in, spectrophotometric, 2376.
    - of Pb in, polarographic, 4135.
    - of Li in, spectrographic, 4133.
    - of rare-earth metals in, 3636.
    - polarographic, 3560.
    - radiochemical, 39.
    - spectrophotometric, 91, 94, 2373, 3237.
  - extraction of, 2285, 3582, 4590.
  - separation, by ion exchange, 4470.
    - of $^{210}$Bi from $^{210}$Pb, paper chromatographic, 1
    - paper chromatographic, 4053.
- **Bismuth alloys,** determination of Bi in, spectr photometric, 92, 1915.
    - of Pb in, 1915.
- **Bismuth carbonate,** analysis of, 795.
- **Bismuth glycollylarsanilate,** assay of, spectrophot metric, 2134.
- **Bismuth iodide,** influence of solvents on extract compound, 1824.
- **Bismuth oxychloride,** analysis of, 795.
- **Bismuth salicylate,** analysis of, 795.
- **Bismuth subgallate,** analysis of, 795.
- **Bismuth subnitrate,** analysis of, 795.
- **Bismuth sulphide,** thermolysis of, 16.
- **Bismuth telluride,** analysis of, 2375.
- **Bismuth tribromophenoxide,** analysis of, 795.
- **Bisphenol A.** [See *2:2-Di-*(p-*hydroxyphenyl*)*pr pane.*]
- **Bisulphite,** determination, 1499.
- **Bithionol,** determination, in liquid soaps, 4339.
  - spectrophotometric, 788.
- **Blackcurrants,** determination of endrin and thioda in, 2647.
    - of org. fluorine residues in, 2151.
- **Blood,** analysis of, automatic operations for, 220
    - formation of ammonia in, 5124.
  - assay of fibrinogen in, 2582.
    - of nicotinic acid in, microbiological, 2558.
  - determination of amino-acids in, by ion exchang 4787.
    - of δ-aminolaevulinic acid dehydrase activit in, fluorimetric, 2994.
    - of amylase in, 2991.
    - of angiotensin in, paper chromatographic, 515
    - of As and Sb in, spectrophotometric, 4280.
    - of ascorbic acid in, 4289.
    - of bromide in, spectrophotometric, 5125.
    - of Ca and Mg in, 3851.
    - of $^{14}$C in, 5122.
    - of CO$_2$ in, 2962.
    - of CO in, 5111.
    - of CCl$_4$ and ethanol in, spectrophotometri 2062.
    - of carbonate in, apparatus for, 5123.
    - of chloride in, radiometric, 2551.
    - of choline in, 248.
    - of Co in, spectrophotometric, 1666.
    - of cyanamide in, spectrophotometric, 3056.
    - of diethyl ether and ethanol in, gas chromato graphic, 3858.
    - of dihydroxyacetone in, spectrophotometri 4772.
    - of erythromycin in, 4763.
    - of ethanol in, 2556.
      - gas chromatographic, 235, 3858.
    - of 3-furaldehyde in, 1154.
    - of gentisic acid in, spectrofluorimetric, 1156.
    - of glucose and urea in, automatic apparatus fo 3978.
    - of glucose in, 896, 5142.
      - spectrophotometric, 3411, 4769.
    - of histaminase in, photometric, 4322.

**ood,** determination—*continued*
of insulin in, review, 782.
of $^{55}$Fe and $^{59}$Fe in, 3857.
of Fe in, spectrophotometric, 4283.
of α-keto-acids in, paper chromatographic, 2078.
of ketones in, 2564, 5145.
  spectrophotometric, 3409.
of laevomycetin in, spectrophotometric, 1148.
of Li in, flame photometric, 2541.
of Mg in, spectrophotometric, 2064.
  apparatus for, 4752.
of methanol in, spectrophotometric, 2967.
of 2-oxocarboxylic acids in, 5150.
of O in, 1130.
  apparatus for, 2550.
  spectrophotometric, 2060, 3392.
of pentobarbitone and thiopentone in, u.v. spectrophotometric, 1146.
of petroleum in, spectrophotometric, 1149.
of pH of, 2539, 5302.
  instrument for, 3547.
of prothrombin in, 734.
of salicylate in, u.v. spectrophotometric, 1669.
of sulphaphenazole in, chromatographic, 3406.
of sulphate in, apparatus for, 2061.
of S in, 1140.
of transaminase activity of, spectrophotometric, 3885.
of urea in, spectrophotometric, 3866.
of vitamin $B_{12}$ in, microbiological, 2568.
gas analyser for, elimination of interference in, 3121.
dentification of amino-acids in, 249.
preservation of, 2059.
separation of unesterified fatty acids in, by ion exchange, 738.
**ood plasma,** detection of glucose in, 5142.
of thyroid hormones in, paper chromatographic, 3436.
determination of aldosterone in, by isotopic assay, 270.
of amino-N content, 5181.
of *NN*-bis-(2-chloroethyl)phenylalanine in, 5139.
of cholesterol in, column chromatographic, 5210.
of $CO_2$ in, 722.
  automatic, 219.
of citrullin in, by ion exchange, 1157.
of creatinine in, 247.
of $^2H_2O$ in, mass spectrometric, 2542.
of EDTA in, 1088.
of fatty acids in, 1681, 5166.
of fibrinogen in, 3431.
of Au in, spectrophotometric, 2067.
of guanidine and methylguanidine in, 5180.
of haemoglobin in, 2103.
of homogentisic acid in, spectrophotometric, 4294.
of Fe in, spectrophotometric, 1665.
of meprobamate in, 3859.
of oestradiol, oestriol, and oestrone in, 5211.
of 17-oxosteroids in, 5215.
of phenol red in, spectrophotometric, 3860.
of P in, 230.
of porphyrin in, spectrophotometric, 5163.
of proteins in, spectrophotometric, 5197.
of sulphaphenazole in, chromatographic, 3406.
of sulphate in, 5129.
of sulphobromophthalein in, spectrophotometric, 3861.
of thyroxine in, electrophoretic, 1172.
of tryptophan in, 5189.

**Blood plasma**—*continued*
separation of Ca and Mg from, by ion exchange, 5118.
  of glucoproteins in, electrophoretic, 2101.
**Blood serum,** analysis of proteins in, electrophoretic, 1690, 1691, 4893.
determination of *N*-acetyl-β-glucosaminidase activity in, spectrophotometric, 3440.
of albumin in, 5200.
of alkaline phosphatase activity in, 3884.
  photometric, 273.
of amino-acids in, 250.
of amino-N content, 5181.
of aminotripeptidase in, 5223.
of bicarbonate and chloride in, 221.
of bilirubin in, 73[illegible], 5158, 5160.
  spectrophotometric, 2567.
of caeruloplasmin in, electrophoretic, 2570.
  spectrophotometric, 1162.
of Ca in, 224, 225, 2545, 2546.
  by cathode-ray polarography, 3852.
  spectrophotometric, 226, 1664, 2963, 4755.
of carbohydrates in, spectrophotometric, 726.
of $CO_2$ in, 896.
of cephalin, lecithin and sphingomyelin in, chromatographic, 242.
of chloramphenicol in, spectrophotometric, 2969.
of Cl and S in, X-ray spectrographic, 1143.
of cholesterol in, 761, 2110, 4794, 5208.
  bound to lipoprotein, electrophoretic, 1178, 2587.
  spectrophotometric, 2109, 4310, 4793, 4795, 5209.
of Cu in, automatic, 2964.
  photometric, 3399.
  spectrophotometric, 1134.
of $^2H$ in, 5112.
of EDTA in, 1088.
of erythromycin in, 4763.
of fatty acid esters in, spectrophotometric, 2082.
of fatty acids in, 5165, 5169.
of globulin in, 2099.
of glucose in, 5142.
of glucuronidase in, 5226.
of glycerides in, 243.
of Au in, spectrophotometric, 2067.
of haemoglobin in, spectrophotometric, 5158.
of haptoglobin in, 2581.
  electrophoretic, 1175.
  spectrophotometric, 4305.
of I in, 2102, 2552, 4758.
of Fe in, spectrophotometric, 2553, 2554, 3399, 5134.
of isocitric dehydrogenase in, spectrophotometric, 274.
of lactic dehydrogenase activity in, 5221.
of leucineaminopeptidase in, 5224.
of lipase in, photometric, 5220.
of lipoproteins in, chromatographic, 1176.
  electrophoretic, 3877.
of lysolecithin in, chromatographic, 242.
of Mg in, 224, 2546.
  by atomic absorption spectrophotometry, 4752.
  spectrophotometric, 226, 2064.
of meprobamate in, 3859.
of mucoproteins in, 5201.
of peptidase activity in, 2117.
of phenylalanine in, paper chromatographic, 5187.
of phosphatase in, 5227.

**Blood serum,** determination—*continued*
of phosphate and phospholipids in, spectrophotometric, 5128.
of P in, 230.
of K in, 1131, 1660, 5116.
flame photometric, 4274.
of protein-bound iodine in, 723, 3855.
of proteins in, 2100.
automatic, 258.
electrophoretic, 257, 259, 1321.
refractometer for, 2711.
spectrophotometric, 4789, 5197.
of Segontin in, spectrophotometric, 2132.
of Sr in, X-ray spectrographic, 4275.
of sulphate in, 5129.
spectrophotometric, 3396.
of thyroxine in, apparatus for, 5192.
of urea-N in, spectrophotometric, 4768.
of vitamin $B_{12}$ in, microbiological, 2568.
haemolysed, determination of K and phosphate in, 218.
separation of Ca and Mg from, by ion exchange, 5118.
of fatty acids from unsaponifiable matter in, 327.
of lipoproteins in, electrophoretic, 5203.
paper chromatographic, 260.
**Boiler water.** (See *Water, boiler.*)
**Boiling-point,** determination, apparatus for, 4872.
**Bone,** determination of Ca in, 1133.
of $^{45}$Ca in, 1135.
of minerals in small samples, 2966.
of Sr in, by ion exchange, 5119.
X-ray spectrometric, 4275.
of $^{89}$Sr and $^{90}$Sr in, 2063.
of U in, fluorimetric, 2068.
of Y in, spectrographic, 4276.
**Boranes.** (See *Boron hydrides.*)
**Borate,** determination of B in, spectrographic, 4092.
in boron hydrides, polarimetric, 4090.
**Borax.** (See *Sodium tetraborate.*)
**Boric acid,** anthraquinone deriv. as reagents for, 1875.
detection, 4093.
determination, 3619.
**Boric oxide,** determination, in deuterium oxide, coulometric, 3198.
in frits and glazes, 958.
**Borides,** determination, 1423.
**Boron,** detection, in organic compounds, spectrophotometric, 1063.
in treated wood, 2049.
determination, 1419, 1423.
by neutron absorptiometry, 3553.
fluorimetric, 3197.
in aluminium and Si - Al alloys, spectrophotometric, 2321.
in borate, spectrographic, 4092.
in boron hydrides, polarimetric, 4090.
in calcium superphosphate, spectrographic, 3965.
in citrus fruits, 4826.
in cobalt alloys, spectrophotometric, 1421.
in detergents, 2949.
in fertilisers, 3055.
in graphite, spectrographic, 4518.
in high-temp. alloys, spectrophotometric, 5021.
in iron alloys, 4517.
spectrographic, 1874.
spectrophotometric, 1421.
in molybdenum alloys, spectrophotometric, 2787.
in nickel alloys, spectrographic, 1874.
spectrophotometric, 1421.

**Boron,** determination—*continued*
in ores, 2287.
in organic compounds, 615.
in plants, 228.
spectrophotometric, 2547.
in reactor graphite, spectrographic, 1422.
in rocks, errors from B in sample container 2319.
in sea water, fluorimetric, 2320.
spectrographic, 3598.
in silicon, fluorimetric, 2320.
mass spectrometric, 2786.
in silicon tetrachloride, emission spectrographi 4970.
in stainless steel, 3285.
in steel, 2867.
fluorimetric, 2320.
spectrographic, 3732, 4002.
spectrophotometric, 2419, 5021.
in thorium, spectrophotometric, 3667.
in titanium alloys, spectrophotometric, 1421.
in uranium dioxide, 3285.
in uranium, spectrographic, 1943.
spectrophotometric, 548.
in uranium tetrafluoride, spectrographic, 194
in zirconium boride, 4966.
in zirconium, spectrographic, 4119.
and its alloys, spectrophotometric, 4516.
photometric, 3562.
polarimetric, 4090.
polarographic, 4954.
spectrographic, 2784.
spectrophotometric, 1420, 4515.
statistical analysis of, 2785.
isotopic analysis of elementary, spectrographi 4091.
mass spectrometric, 1873.
**Boron compounds,** X-ray diffraction analysis of, 86
**Boron hydrides,** determination, 4094.
in air, coulometric, 2258.
of borate in, polarimetric, 4090.
**Boron nitride,** determination of N in, 83.
**Boron trifluoride,** isotopic analysis of B in, mas spectrometric, 957.
**Brain,** detection of lipids in, thin-layer chromato graphic, 5171.
**Brass,** analysis of, spectrographic, 2751.
determination of Fe in, 569.
spectrophotometric, 3279.
reciprocal effects of alloy constituents in spectro graphy of, 898.
**Bread,** determination of amino-acids in, 4349.
of fatty acids in, gas chromatographic, 1718.
of moisture in, 3469.
of polyoxyethylene glycols in, 3936.
separation of flavour components in, gas chrom atographic, 3025.
**Brilliant blue FCF.** (See *Dyes*, C.I. Acid Blue 9.)
**Brilliant green.** (See *Dyes*, C.I. Basic Green 1.)
**Bromate,** determination, 4932.
in presence of bromide, 125.
potentiometric, 4469.
**Bromide,** determination, 561, 1529, 2852, 2853.
automatic, 1574.
in blood, spectrophotometric, 5125.
in bromine, 1032.
in plants, 4389.
in presence of bromate, 125.
potentiometric, 3713.
simultaneously with iodide, 124.
extraction of, from soln., 2285.
separation, from thiocyanate, 4631.
**Bromine,** analysis of halogen - water systems, 3560
analytical control of, 1032.

**mine**—*continued*
etermination, 1523, 2854, 4469, 5042.
  in organic compounds, 4680, 5041.
  in powders, spectrographic, 898.
**moacetic acid.** (See *Acetic acid.*)
**-Bromobenzyl-*N*-ethyl-*NN*-dimethylammonium toluene-*p*-sulphonate,** determination, 4716.
**romo-1-chloropropane,** determination, 3313.
**mofumaric acid,** determination, polarographic, 4225.
**momaleic acid,** determination, polarographic, 4225.
**mophenol blue,** methods of use of, in staining proteins in paper chromatography, 370.
**-Bromophenyl)-1-phenylethanol.** (See α-*Methyl-*p-*bromobenzhydrol.*)
**mosuccinic acid,** determination, polarographic, 4225.
**nze.** (See also *Aluminium bronze; Manganese bronze.*)
nalysis of, by ion exchange, 4585.
  spectrographic, 3595.
etermination of Be in, fluorimetric, 460.
    spectrophotometric, 4491.
  of Mn in, spectrophotometric, 2861.
  of Se and Te in, 3694.
  of Zn in, spectrophotometric, 4505.
rconium, determination of Zr in, 4981.
**cine,** detection, 1188.
etermination, in nux vomica, 278.
    in prep., spectrophotometric, 3001.
**kwheat,** determination of flavonoids in, chromatographic, 2081.
**ette,** automatic, 1282.
ectromagnetic valve for, 1283.
r reducing titrants, 4397.
nproved, 5295.
otor-activated, 1767.
tramicro-, 4396.
ith stop-action control of delivery, 3980.
**adiene,** determination, chromatographic, 1067.
  spectrophotometric, 2896.
paration, from acetaldehyde, ethyl ether and ethanol, gas chromatographic, 634.
**ane,** determination, in butane - but-1-ene - water system, 3775.
**anol,** determination in lacquer solvents, i.r. spectrophotometric, 3841.
  in mixtures with butyraldehydes, gas chromatographic, 2476.
  of water in, i.r. spectrophotometric, 1832.
  spectrophotometric, 633.
**1-ene,** determination, in but-1-ene - butane - water system, 3775.
**2-ene-1,4-diol,** dibenzoates of, cis- and trans-, determination, spectrophotometric, 2024.
**iopurine,** determination, spectrophotometric, 1216.
**toxyethyl nicotinate,** detection, spectrofluorimetric, 2998.
**er,** analysis of, B.S.I. methods for, 5252.
  of fatty acids in, gas chromatographic, 2148.
  of volatiles of, gas chromatographic, 1716.
ntrol of purity of, gas chromatographic, 799.
tection of adulterants in, chromatographic, 3023.
  of sorbic acid in, spectrophotometric, 2645.
termination of benzoic acid in, spectrophotometric, 319.
  of fatty acids of, gas chromatographic, 1718.
  of free fatty acids in, 3482.
  of sorbic acid in, spectrophotometric, 319, 2153.
  of water in, 797.
**Butter fat,** detection of hydrogenated oils in, i.r. spectrophotometric, 4352.
**Butter yellow.** (See p-*Dimethylaminoazobenzene.*)
**Butyl acetate,** analysis of, i.r. spectrophotometric, 3841.
**Butyl alcohol,** s-, determination, spectrophotometric, 633.
    i.r. data for, in benzene, 1589.
  t-, determination, spectrophotometric, 633.
    identification, 2465.
    i.r. data for, in benzene, 1589.
**n-Butylamine,** separation, by ion exchange, 4715.
**Butylated hydroxyanisole,** determination, in fats, spectrophotometric, 329.
    in lard, 2656.
  identification and separation, paper chromatographic, 4844.
**Butylated hydroxytoluene,** determination, in fats, spectrophotometric, 329.
  identification and separation, paper chromatographic, 4844.
***N*-Butyl-*N′*-*p*-carboxybenzenesulphonylurea.** (See *Carboxytolbutamide.*)
**Butylrhodamine.** (See *Rhodamine B butyl ester.*)
**Butyraldehydes,** determination of mixtures of, with butyl alcohols, gas chromatographic, 2476.

**C**

**CIPC.** (See *Chlorpropham.*)
**CMPP.** (See *4-Chloro-2-methylphenoxypropionic acid.*)
**Cacao butter,** differentiation of expressed and extracted, spectrophotometric, 5274.
**Cadmium,** detection, 1411.
  determination, 51, 1412, 1413, 2755, 2781, 3616, 4057, 4512.
    by neutron absorption, 3553.
    by thermometric titration, 4507.
    chromatographic, 3154.
    chronopotentiometric, 2752.
    in aluminium alloys, amperometric, 954.
    in aluminium, by neutron-activation analysis, 3617.
    in beryllium and its oxide, spectrophotometric, 4081.
      by radioactivation analysis, 4947.
    in bismuth, 4136.
    in chromium and its alloys, polarographic, 4156.
    in cobalt, by ion exchange, 136.
    in indium, polarographic, 3618, 4530.
    in natural water, polarographic, 3561.
    in nickel, by ion exchange, 136.
    in niobium and niobium ores, 4142.
    in ores, polarographic, 4951.
    in presence of Al and Pb, 2315.
      of In, polarographic, 2289.
      of Zn and Hg, 2314.
    in selenium, by neutron-activation analysis, 4152.
    in tungsten and molybdenum, spectrographic, 3701.
      niobium and tantalum, spectrographic, 3581.
    in uranyl nitrate, polarographic, 435.
      spectrophotometric, 1520.
    in zinc alloys, polarographic, 3614.
    in zinc oxide, chronopotentiometric, 2752.
      oscillopolarographic, 4051.
    in zinc, spectrographic, 1414.
    of Tl in, polarographic, 4961.
    of Zn in, spectrophotometric, 49.
    polarographic, 955, 1869, 1870, 2793.
    simultaneously with In, polarographic, 964.

- **Cadmium,** determination—*continued*
    - spectrophotometric, 50.
  - fractional extraction of Cd$^{2+}$, 2285. ,
  - separation, by ion exchange, 4048, 4458, 4470, 4509.
    - from Ag, 1828.
    - from Zn, 1828, 3579.
      - chromatographic, 3194.
    - paper chromatographic, 4053.
- **Cadmium alloys,** study of spectrography of Zn - Cd in condensed spark, 4513.
- **Cadmium chloride,** conditions for frontal analysis of, 4458.
- **Cadmium *N*-hydroxyethyl(ethylenediamine)-*NN′N′*-triacetate,** use of, as primary standard for EDTA, 425.
- **Cadmium iodide,** influence of solvents on composition of extracted compound, 1824.
- **Cadmium ores,** determination of Cu in, 4446.
- **Cadmium sulphide,** thermolysis of, 16.
- **Cadmium xanthates,** extraction of, 3583.
- **Caeruloplasmin,** detection, 5172.
  - determination, in serum, electrophoretic, 2570.
    - spectrophotometric, 1162.
- **Caesium,** analysis of mixtures of $^{134}$Cs and $^{137}$Cs, 930.
  - determination, 1382.
    - in meteorites, spectrographic, 1839.
    - in mica, flame photometric, 4068.
    - in minerals, flame photometric, 3167.
    - in silicates, spectrographic, 4549.
    - of $^{137}$Cs, in animal and plant tissue, by scintillation counting, 3849.
      - in milk, by $\gamma$-spectrometry, 1227.
      - in rain water, by $\gamma$-spectrometry, 4854.
      - in sea water, radiochemical, 2177.
      - in various materials, 2063.
    - radiometric, 1383.
    - spectrophotometric, 27.
  - removal of $^{137}$Cs from natural water, 341.
  - separation, 4939.
    - from Fr, chromatographic, 449.
    - from Rb, chromatographic, 449.
      - paper chromatographic, 2761.
- **Caffeine,** detection, paper chromatographic, 3456.
  - spectrofluorimetric, 2998.
  - determination, 1196.
    - in kola, by ion exchange, 1195.
    - in roasted coffee, spectrophotometric, 4358.
    - spectrophotometric, 2131.
- **Calcein.** (See *Indicators, metallochromic.*)
- **Calcichrome.** (See *Reagents, organic.*)
- **Calciferol,** determination, spectrophotometric, 4368.
- **Calcite,** determination, in soil and limestone, 2194.
- **Calcium,** colour reactions of, 1866.
  - detection, 2308.
  - determination, 41, 42, 462, 909, 946, 1663, 1857, 1860, 1861, 2308, 2309, 2772, 2798, 3134, 3183, 3184, 3186, 3608, 4057, 4475, 4495.
    - flame photometric, 393, 1404.
    - in aluminium and silumin, flame photometric, 463.
    - in biol. materials, 3850.
      - flame photometric, 2543.
    - in blood, 3851.
    - in bone, 1133.

    - in urine, 224, 227, 1132.
      - atomic absorption spectrophotometric, 475
    - of $^{45}$Ca, in bone, 1135.
    - of N in, spectrophotometric, 1405.
    - of O in, 3600.
    - spectrophotometric, 945, 2775, 4496.
  - influence of EDTA on the emission errors of, flame photometry, 898.
  - separation, from Mg, 2307.
    - from plasma, serum and urine, by ion exchang 5118.
    - from rare-earth metals, by ion exchange, 318
    - in biol. materials, paper chromatographic, 475
  - use of azo-dyes as indicators for, 908.
- **Calcium acetate,** determination of Sr in, X-ra spectrographic, 4502.
- **Calcium arsenate,** determination of As in, 507.
- **Calcium carbonate,** determination of Cu and Pb i oscillopolarographic, 4051.
- **Calcium chloride,** density-composition tables f aq. soln. of, B.S.I. amendment of, 1825.
  - determination, in fluxes, spectrographic, 26.
- **Calcium cyanamide,** determination of N in, 4703.
    - of thiourea in, polarographic, 347.
- **Calcium fluoride,** determination of Ca in, 1863.
    - spectrographic, 40.
- **Calcium molybdate,** determination of Ca in, 43.
- **Calcium pantothenate,** separation, from oth vitamins, chromatographic, 332.
- **Calcium phosphate,** determination of Ca in, 947, 528
- **Calcium silicates,** determination of Ca, Fe and Si i X-ray spectrographic, 5030.
- **Calcium sulphate,** determination, in plaster Paris, by ion exchange, apparatus for, 4084.
- **Calcium superphosphate,** determination, 2827.
    - of B and Mn in, spectrographic, 3965.
    - of phosphoric acid in, 2200, 2201, 3233.
- **Calculi,** examination of, i.r. spectrographic, 2540.
- **Calmagite.** (See *Reagents, organic.*)
- **Cal-red.** (See *Indicators, metallochromic.*)
- **Camphor,** determination, 4721.
- **Canadine,** separation, from hydrastine and berberin spectrophotometric, 3448.
- **Cannabis,** detection of active principles of, 3007

**aridin,** determination, by ion exchange, 2614.
**lactam,** determination, in aq. soln., spectrophotometric, 3840.
spectrophotometric, 714.
**aicin,** differentiation between capsaicin and *N*-vanillylnonanamide, 3453.
**an,** determination, in plants, spectrophotometric, 349.
**azole,** detection, in petroleum, gas chromatographic, 2943.
termination, spectrophotometric, 5084.
**ides,** determination, in steel, 1042, 1962.
of Co in, 594.
**ohydrates,** analysis of, gas chromatographic, 3779.
in plants, 3961.
termination, 3778.
in plants, spectrophotometric, 2181.
in serum, spectrophotometric, 726.
in soil, spectrophotometric, 2199.
of the degree of polymerisation of, 3314.
paper chromatographic, 1075.
. spectra of, 2072.
per chromatography of, reagents for, 3989.

in presence of iodide, 560.
in skeletal muscle, 5113.
in sulphuric acid, square-wave polarographic, 2833.
in uranium, 1019.
in uranyl sulphate, polarographic, 121.
mercurimetric, influence of buffers on, 559.
photometric, 557.
radiochemical, 3273, 4452.
review of, 556.
thermometric, in fused salts, 355.
together with bicarbonate, in serum, 221.
raction of, with tributyl phosphate, 2285.
**ine,** analysis of, gas chromatographic, 1527, 5010.
ection, in water, apparatus for, 2244.
ermination, 1523, 3271, 4469.
n air, 1736.
n chlorine dioxide, 2403.
n gas mixtures, apparatus for, 4577.
n industrial wastes, 5282.
n muscle, 5114.
n organic compounds, 612, 613, 1062, 4680, 5041, 5042, 5043.
n serum, X-ray spectrographic, 1143.
n tetrabutyl titanate, 122, 2018.
f impurities in, 2856.
f isotopic composition of, 5011.
**Chlorine dioxide,** determination, 2404.
in air, apparatus for, 3122.
in natural water, 4375, 5283.
of Cl in, 2403.
**Chlorine trifluoride,** separation, from HF, gas chromatographic, 1517.
from $UF_6$, gas chromatographic, 1517.
apparatus for, 4630.
***p*-Chloroacetanilide,** determination, in phenacetin, paper chromatographic, 4821.
**Chloroacetic acid.** (See *Acetic acid*).
**Chloroamines,** determination, 5069.
**Chlorobenzene,** determination, in presence of benzene, spectrophotometric, 175.
spectrophotometric, 668.
***N*-*p*-Chlorobenzenesulphonyl-*N*′-n-propylurea,** determination, methods for, 789.
**Chlorobenzilate,** identification, chromatographic, 1241.
***p*-Chlorobenzyl *p*-chlorophenyl sulphide,** determination, 4861.
**4-Chlorobut-2-ynyl *m*-chlorophenyl carbamate.** (See *Barban.*)
**Chloro-2-chlorovinylborines,** determination of Cl bound to boron in, potentiometric, 4233.
**2-Chloro-4,6-di(ethylamino)-1,3,5-triazine,** determination, spectrophotometric, 2514.
**Chlorodiphenylmethane,** determination, spectrophotometric, 1623.
**1-Chloro-2,3-epoxypropane,** determination, spectrographic, 2003.
**Chloroethanes,** poly-, separation, 3776.
**Chloroethylborines,** determination of Cl bound to boron in, potentiometric, 4233.
**Chloroform,** determination, in aq. soln., 1586.
in lozenges, gas chromatographic, 305.
polarographic, 5052.
recovery of, 5299.
sampling technique for, 4285.
**Chlorogenic acid,** determination, in coffee, spectrophotometric, 4833, 5257.
**4-Chloro-2-methylphenoxyacetic acid,** (*MCPA*), determination, gas chromatographic, 1749.
**2-(4-Chloro-2-methylphenoxy)propionic acid,** (*Mecoprop*) (*MCPP*), determination, gas chromatographic, 1750.
**Chloronitrobenzene,** isomers, separation, gas chromatographic, 3344.
*o*-, determination, in pineapple, spectrophotometric, 1237.
*p*-, detection, 1635.
**Chlorophenols.** (See *Phenols.*)
**Chlorophyll,** determination, in plant extracts, spectrophotometric, 1163.
**Chloropicrin,** detection, 3327.
determination, in wine, spectrophotometric, 5270.
**Chloroprene,** analysis of products of, gas chromatographic, 1129.
determination of tetraethylthiuram disulphide in, polarographic, 3386.
**1-Chloro-2-propanol,** determination, spectrophotometric, 4218.
**Chloropropene,** determination, 1587.
isomers, analysis of, i.r. spectrophotometric, 156.
**Chloroquine,** determination, 3010, 4814.
phosphate, determination, in urine, spectrophotometric, 2070.
**Chlorothiazide,** determination, spectrophotometric, 2624, 3012.
u.v. spectrophotometric, 2625.
microchemical reactions for, 299.
**Chlorotrinitrobenzene,** determination, 4714.

**Chlorpheniramine,** separation, from phenylephrine and dextromethorphan, paper chromatographic, 4810.
**Chlorphosphonazo III.** (See *Reagents, organic.*)
**Chlorpromazine,** determination, in urine and blood, spectrophotometric, 5137.
  identification, 3011.
**Chlorpropham,** determination, spectrophotometric, 5293.
**Chlortetracycline,** anhydro-, separation, 4333.
  determination, 1204.
    in animal tissues, microbiological, 781.
    in presence of tetracycline, microbiological, 3899.
    paper chromatographic, 1203.
  separation, from other tetracyclines, 4333.
    paper chromatographic, 780, 2127.
**Chlorthion,** detection, 835.
**Chocolate,** detection of foreign fat in, 806.
  determination of sugars in, 2141.
  milk-, analysis of, 2142.
**Cholamid.** (See *Nicotinamidomethanol.*)
**5β-Chlolestan-3β-ol,** (*coprostanol*), determination, in faeces, 2111.
  error in use of digitonin for pptn. of, 3882.
**Cholestanone,** separation, from androstane-3,17-dione and androst-4-ene-3,17-dione, gas chromatographic, 763.
**Cholesterol,** absorption spectrum of, 4317.
  bound to lipoprotein, determination in serum, electrophoretic, 1178.
  24-dehydro-, determination, spectrophotometric, 2986.
  detection, 5171.
    on paper chromatograms, 1680.
  determination, 266, 3880.
    in c.s.f., 762.
    in faeces, spectrophotometric, 2111.
    in plasma, chromatographic, 5210.
    in serum, 761, 2110, 2587, 4794, 5208.
      spectrophotometric, 2109, 4310, 4793, 4795, 5209.
    in shark oil and tall oil, gas chromatographic, 3881.
    of β-lipoprotein-bound, in serum, electrophoretic, 1178.
  Searcy - Bergquist reaction for, investigation of, 5207.
  separation, from cholesteryl esters, paper chromatographic, 1695.
**Cholesteryl esters,** separation, from cholesterol, chromatographic, 1695.
  separation, thin-layer chromatographic, 4311.
**Choline,** determination, 4922.
    in blood, 248.
    in presence of betaine, 1164.
    spectrophotometric, 4302, 4303.
  esters of, separation, electrophoretic, 1687.
**Cholinesterase,** determination of activity of, automatic, 896, 3438.
    in serum, 1185.
    spectrophotometric, 4320.
**Chondroitinase,** assay of, spectrophotometric, 4803.
**Chromate,** detection, in presence of dichromate, 3250.
  determination, 1361, 1503, 1504, 4932.
  u.v. spectrum of, 1363.
**Chromatography,** on a thread, separation of ions by, 1795.
  porous glass, separation of ink by, 3508.
  Proceedings of Congress, Budapest, 3560.
  review of 1960, 2264.
**Chromatography, column,** applications of chel systems to, 3988.
    to pharmaceutical analysis, 4809.
  changing soln. in, automatic device for, 1289
  constant-volume collection in, automatic va for, 2687.
  determination of ions by, 4874.
  efficiency parameters for, 5305.
  extension of the gradient-elution principle in, 3
  fraction collector for, 359, 4875.
    for organic acid fractions, 361.
  glass pump for, 362.
  gradient elution, nomogram for calculation composition of solvents, 1291.
    review, 1290, 3071.
    use of multiple columns in, 357.
  ion exchange, flow-rate control in, 3095.
    review, 3094.
  of metal sulphides, 2286.
  of polynucleotides and proteins, 3070.
  recording elution analyser for, automatic, 360.
  review, 4873.
  standardisation of silicic acid for use in, 4404.
  theory of solid-phase diffusion in, 3072.
  thermometric monitor for, 862, 3073.
**Chromatography, gas,** adsorption on liquid phase 4409.
    influence on accuracy, 3514.
  analysis of functional groups by, 1581.
    of liquids by, 3561.
    of process streams by, continuous automat 896.
    of volatile solvents by, in presence of no volatile solvents, 1301.
  apparatus for, 5311.
    conversion of hydrocarbons to $CO_2$, 374.
    improvements in, 1787.
    review, 2, 3081.
  calibration standards for, preparation of, 2693.
  capillary, applications of, 3561.
    columns for, 3082.
      efficiency of nylon, 1819.
      operating conditions for, 1819.
    enrichment trap for use with, 3519.
    linearity of stream splitter for, 5314.
  collection of fractions in, i.r. gas cell for, 4410.
  columns for, hexamethyldisilazane for soli supports in, 4883.
    design of, 4882.
    effect of coiled, 375.
    grooved plate, 3517.
    use of frontal analysis in packing, 853.
  definition of plate height in, 852.
  detection in, by electron affinity spectroscop 1815.
    use of discharge tube in, 1819.
  detectors for, based on changes in dielectr constant, 4913.
    CO as carrier gas for, 1791.
    effect of an Ar - N carrier gas on sensitivity o 378.
    evaluation of, 3086.
    ionisation, 861, 1819, 2230, 3089, 3520, 357 4888, 5315.
      β-ray, 2284.
      use of, at high temp., 2695.
    mass spectrometer as, 3091.
    relationship between response time and rete tion-volume of, 377.
    Tesla discharge, 382.
    thermistor, reduction of noise in, 3090.
    use of Ar in, 1819.
        calibration of, 2229.
      of photomultiplier in, 1311.

**omatography, gas**—*continued*
etermination of compounds with b.p. $>500$°, 3088.
  of mixtures by, accuracy in, 2231.
  of volatile compounds by, after charcoal adsorption, 373.
ffect of gaseous diffusion on mass transfer in packed columns, 3515.
eating units for, 3996.
igh-temp., thermostat for, 2694.
  water-cooled sample-injection port for, 3516.
dentification of compounds by chemical reaction in, 1308.
  of fractions in, by i.r. spectrophotometry, 3518.
  of organic compounds by, 3301.
    from their pyrolysis products by, 1819.
  of organic substances by pyrolysis combined with, 1056.
micro-catalytic studies by, accessory for, 376.
micro-scale collection tube for, 3085.
nomenclature and presentation of data in, 3079.
of high-boiling compounds, 3083.
of polyphenyls, apparatus for, 3994.
of solid organic compounds, reduction of retention times in, 854.
of volatile metal halides, review, 4047.
optimum conditions for, 2696.
prediction of retention data in, 5313.
previous modification of the test substances in, 1300.
programmed-temp., 856, 2226.
  control in, 1786.
  definition of plate height in, 1306, 1307.
  distillation by, 858.
  double-column, 4880.
  prediction of retention temp. in, 4881.
  retention data in, 857.
recording in, cathode-ray presentation in, 1819.
  continuous, of radioactivity of zones eluted in, 4411.
  determination of areas of resolved and partially resolved peaks in, 3093.
  integrator errors in, 3521.
  integrator for, 1309, 1782, 3997.
  katharometers for, 1792,
    compensated Wheatstone bridge circuit for, 380.
    tungsten filament as, 1310.
  relationship between peak area and wt. of components, 379.
  use of analogue integration techniques in, 4403.
    of time-voltage integrator in, 1819.
    of two-recorder integrator-readout system in, 3092.
relationship between stationary phase and carrier gas in, 358.
review of applications of, 3081, 4030.
  of progress in, 913, 3080.
    in U.S.S.R., 1819.
ampling, apparatus for 860, 1785, 2225.
  automatic, 1302.
  injection system for, 1784.
  introduction of samples in, 4879.
  of solid substances in, 855.
  use of ampoule technique in, 4884.
  valve for, 1303.
eparation by, effect of surface on, 1305.
peed of analysis by, 3513.
plit-temp. column system for, 2227.
tationary phases for, 2698.
  adsorption characteristics of some, 3995.
  carbowax as, 1789.
  complexes of transition metals as, 1819.
  *NN*-diformyl-2-methylpiperazine as, 4887.

**Chromatography, gas,** stationary phases for,—*continued*
  efficiency of 1788.
  mixed glycols as, 2228.
  mixtures of the nitrates of Na, K and Li as, 1790.
  polyesters as, 859.
  prep. of, 4886.
  silicone rubber as, 4408.
    or silicone grease as, 3084.
  temp. limitations of, 1819.
  1,2,3-tris-(2-cyanoethoxy)propane as, 5312.
  tri-*o*-thymotide as, 1819.
  use of large-diameter, 1819.
transfer device for, 1783.
use of, for corrosive inorganic gases, 1819.
  of higher speeds in, 1819, 2697.
  of pyrolysed samples in, 2224, 4885.
**Chromatography, paper,** apparatus for, 2688.
    for drying in, 5309.
    for elution with small volumes, 366.
    for use with an inert atmosphere, 363.
      controlled moisture, 1292.
  application of large quantities of fluids in, 371.
  centrifugal, separation of dyes and amino-acids by, 2690.
  desalting in, apparatus for, 2678.
      electrolytic, 4406.
    use of ion-exchange resin-loaded paper for, 3076.
  detection of spots, application of reagents in, automatic, 2689.
  determination of $R_F$ values in, 4877.
    of zone content in, by R. LF conductance, 369.
  device for spraying in, 3512.
  elution in, 5308.
  evaluation of spots in, by means of $\beta$-ray reflection, 3560.
  frames for use in, 5307.
  glass atomiser for, 1296.
  impregnation of paper with zirconium phosphate, 1293.
  improved tanks for use in, 5306.
  increasing the tank capacity in, 1298.
  interpretation of measurements in, 4878.
  liquid scintillation counting in, 4407.
  measurement of fluorescence of spots in, 2692.
  micro-techniques for, 3511.
  multiple-spot formation in, 368.
  reference system for organic compounds, 2973.
  relationship between $R_F$ and the composition of the eluent in, 1780.
  sample applicator for, 4405.
  scanner for, automatic, 3992.
    for radio-active strips, 851.
  scintillation counting in, 1297.
  solvents for, addition funnel for, automatic, 367.
    evaporator for, 3510.
    improved system, 365.
  stable diazo salts as spray reagents for, 1781.
  u.v. photography of fluorescent spots in, 3077.
  use of, for separation of elements of the reduction group, 2750.
    of glass fibre in, 3078.
    of impregnated papers in, 3561.
    of ninhydrin as reagent for, 3990.
    of Weisz ring-oven spot colorimetry in, 1366.
  with inorganic ion-exchangers, 1294.
**Chromatography, thin-layer,** a lecture, 3074.
  applications to inorg. analysis, 3576.
**Chrome Azurol S.** (See *Dyes*, C.I. Mordant Blue 29.)
**Chrome blue R.** (See *Dyes*, C. I. Mordant Blue. 42.

  in tungsten carbide, amperometric, 1547.
  in uranium, spectrophotometric, 4625.
  in zirconium, spectrophotometric, 3742.
  of Cd in, by ion exchange, 136.
  of $^{60}$Co, in radionuclides, 3743.
  of Cu in, spectrophotometric, 3292.
  photometric, 135, 4645, 4655.
  polarographic, 4656.
  radiometric, 1370.
  spectrophotometric, 409, 1046, 1375, 3580, 4056, 5022, 5023, 5025.
xtraction of, as alkyl xanthates, 3583.
  from aq. HCl, 1970, 3582.
sotopes of, determination of, in meteorites, 5032.
xidation of Co$^{II}$ with Fe$^{III}$, 1045, 3562.
ptn. of, as 1-nitroso-2-naphthoxide, 3739.
eparation, 2878, 3290.
  from alloys and ores, 592.
  from Cu and Ni, paper chromatographic, 4926.
  from Fe, 5024.
    and Ni, 1368.
      paper chromatographic, 4046.
    and Zn, in aluminium, by ion exchange, 1878.
  from Ni, 1548, 2430, 2431, 3744.
  in biol. materials, paper chromatographic, 3400.
  of Ag from, by ion exchange, 457.
**alt alloys,** determination of B in, spectrophotometric, 1421.
**alt carbonyl,** analysis of, apparatus for, 1973.
**alt(II) fluoride,** absorption spectrum of fused, 441.
**aine,** determination, gas chromatographic, 3889.
aper electrophoresis of, 4338.
**oa,** detection of foreign fat in, 806.
**ehydrogenase I,** assay of, 275.
paration of nicotinic acid deriv. from, chromatographic, 2586.
**ehydrogenase II,** assay of, 275.
paration of nicotinic acid deriv. from, chromatographic, 2586.
**eine,** determination, 1702, 2602.
  chromatographic, 3445.
  spectrophotometric, 2603.
ifferentiation of, spectrophotometric, 5234.
**eine phosphate,** detection, spectrofluorimetric, 2998.
**-liver oil,** determination of vitamin A in, u.v. photometer for, 1990.

**Coenzyme I.** (See *Codehydrogenase I.*)
**Coenzyme II.** (See *Codehydrogenase II.*)
**Coenzyme A,** determination of hydroxamic acids in, gas chromatographic, 4291.
    spectrophotometric, 276.
**Coenzyme Q,** determination, chromatographic, 4323.
**Coffee,** determination of caffeine in, spectrophotometric, 4358.
    of chlorogenic acid in, spectrophotometric, 4833, 5257.
    of extraction coeff. of, 804.
    of Hg in, 1267.
**Coffee powder,** determination of adulterants in, spectrophotometric, 805.
**Coke,** analysis and testing of, B.S.I. method for, 5095.
  determination of As in, 1566, 2945.
    of P in, 5033.
      B.S.I. method for, 1114.
**Coke-oven gas,** determination of $CO_2$ and $NH_3$ in, 3825.
**Colchamine,** separation, from colchicine, chromatographic, 3450.
**Colchicine,** separation, from colchamine, chromatographic, 3450.
**Collidine,** determination, 2512.
**Colorimetry,** apparatus for, absorption-cell attachment for, 4907.
  application of least-squares method in, 3535.
  by adsorption on $Mg(OH)_2$, 4450.
  complementary tristimulus, applications of, 1353, 3111.
  developments in, 915.
  floating comparator for, 4902.
  origins of, 1339.
  precision in, 2269.
**Complexans,** resolution of mixtures of, polarographic, 4228.
  synthesis and study of, 1345.
**Concrete,** pigment for, B.S.I. specification for, 3761.
**Confectionery,** determination of dyes in, chromatographic, 3829.
**Copolymers,** ethylene - propylene, analysis of, 3837.
  poly(vinyl acetate) - poly(methyl acrylate), determination, 4745.
  vinyl cyanide - methyl methacrylate, determination of insol. residue in, 3380.
  vinyl cyanide - 5-vinyl-2-picoline, determination of N in, 4269.
**Copper,** analysis of oxide films on, coulometric, 1840.
  detection, 1384, 1385, 3168, 3590.
    in water, apparatus for, 337.
    in zinc alloys, 3592.
    of Cu$^{II}$, 28.
  determination, 409, 450, 932, 933, 935, 1375, 1841, 1978, 2298, 2299, 2300, 2301, 2489, 2755, 2763, 3169, 3170, 3580, 3589, 3590, 4057, 4069, 4070, 4072, 4483, 4485.
    absorptiometric, 4940.
    amperometric, 1389.
    atomic absorption spectrophotometric, 2302.
    chromatographic, 3154.
    chronopotentiometric, 2752.
    flame spectrophotometric, 3578.
    in aluminium alloys, 3591.
    in aluminium, spectrophotometric, 3200.
    in antimony, spectrophotometric, 3236.
    in Babbitt metal, spectrophotometric, 4075.
    in bauxite, 409.
    in beryllium, by radioactivation analysis, 4947.
    in bismuth, polarographic, 4134.
    in cadmium, 4446.
    in calcium carbonate, oscillopolarographic, 4051.

**Copper,** determination—*continued*
  in cast iron, 1388, 4071.
    polarographic, 579.
    spectrophotometric, 4181.
  in copper alloys, B.S.I. method for, 3173.
    spectrographic, 1842.
  in Cu - Mn alloys, 4487.
  in Cu - Ni alloys, 4487.
  in copper refinery electrolyte, spectrographic, 32.
  in Cu - Ag alloys, 452.
  in electroplating soln., 3172.
  in fertilisers, 1260, 3055, 4858.
  in food, polarographic, 5247.
  in indium, spectrophotometric, 3200.
  in ingot tin, B.S.I. method for, photometric, 3646, 3648.
  in iron alloys, photometric, 2874.
  in iron, spectrophotometric, 4073, 4644, 5020.
  in lead alloys, spectrophotometric 31, 1896.
  in lead, spectrophotometric, 31, 1896.
  in manganese ores, 4446.
  in mineral mixes, spectrophotometric, 3174.
  in minerals, X-ray spectrographic, 144.
  in muscle, 5114.
  in natural water, polarographic, 3561.
  in nickel, 4446, 4668.
    spectrophotometric, 5026.
  in nickel and cobalt soln., spectrophotometric, 3292.
  in non-ferrous alloys, spectrophotometric, 3593.
  in ores, polarographic, 405.
  in phosphors, spectrographic, 4130.
  in plants, spectrographic, 4858.
    electrolytic, 4751.
    spectrographic, 1137.
  in presence of Ni and Co, 1390.
    of Pd, 5028.
    of Zn, 47.
  in reforming catalysts, polarographic, 3821.
  in rocks, by neutron-activation analysis, 3175.
  in rubber, by neutron-activation analysis, 3844.
  in selenium, by neutron-activation analysis, 4152.
    polarographic, 1843.
  in serum, automatic, 2964.
    spectrophotometric, 1134, 3399.
  in sodium hydroxide and hypochlorite, 4064.
  in soil, spectrographic, 4858.
  in steel, 1388, 4071, 4446.
    photometric, 2874.
    simultaneously with Pb, polarographic, 3731.
    spectrophotometric, 4181, 4644, 5020.
  in sulphuric acid, polarographic, 2833, 4484.
  in tin alloys, 31.
  in tin, by ion exchange, 4473.
    polarographic, 1843, 4973.
  in tungsten, spectrophotometric, 3594.
  in type metal, spectrophotometric, 4075.
  in uranium, polarographic, 435.
    spectrographic, 4624.
  in wood preservatives, by ion exchange, 3832.
  in zinc alloys, 3591.
    polarographic, 3614.
  in zinc sulphate, u.v. spectrophotometric, 3615.
  of Sb in, spectrophotometric, 996, 4076.
  of C in, potentiometric, 68.
  of Cu$^{II}$, 1387.
    amperometric, 4943.
    coulometric, 439.
    simultaneously with dichromate, 30.
    spectrophotometric, 1364.
  of Au in, by neutron-activation analysis, 1849.
    spectrophotometric, 1850, 4486.

**Copper,** determination—*continued*
  of Se in, 451, 3690, 3694.
  of Te in, 3694.
  polarographic, 1827, 4927.
  potentiometric, 2764.
  radiochemical, 29.
  simultaneously with Fe, spectrophotometr 1037.
  spectrophotometric, 4940.
  thermometric, 3171.
  u.v. spectrophotometric, 4056.
 separation, 1386, 4074.
  by ion exchange, 4048, 4470, 4472.
  from Co and Ni, paper chromatographic, 49
  from Fe, by ion exchange, 1352.
  from other metals, in biol. materials, pa chromatographic, 3400.
  from Pt, Pd and Au, paper chromatograph 921.
  from zinc sulphate, chromatographic, 4459.
  paper chromatographic, 4053.
 study of reaction of, with acetylacetone dioxi 931.
**Copper alloys,** analysis of, B.S.I. method for, 317
  of Cu - Al, spectrographic, 409.
  X-ray spectrographic, 937.
 detection of Sb in, 4588.
 determination of Sb in, spectrophotometric, 4
  of Co in, spectrophotometric, 2428.
  of Cu in Cu - Ni and Cu - Mn, 4487.
   spectrographic, 1842.
  of impurities in Cu - Si, spectrographic, 2304.
  of Pb in, atomic absorption spectrophot metric; 3655.
  of Ni in, spectrophotometric, 4665.
  of Sn in, spectrophotometric, 4111.
 method for solution of, 2765.
**Copper ammonium electrolyte,** determination $NH_3$ in, potentiometric, 989.
**Copper compounds,** determination of Te in, polar graphic, 4153.
**Copper 8-hydroxyquinolinate,** determination, textiles, paper chromatographic, 4944.
**Copper ores,** determination of Zn in, amperometr 954.
**Copper phthalocyanine-4′,4,4″,4‴-tetrasulphonic acid,** potassium salt, use of, with methyl orang as indicator, 423.
  with methyl red as indicator, 9.
**Coproporphyrin,** determination of ratio of isome I and III, 3864.
 extraction, 4779.
**Coprostanol.** (See *5β-Cholestan-3β-ol.*)
**Coprosterol.** (See *5β-Cholestan-3β-ol.*)
**Cordycepin,** determination, spectrophotometric, 73
**Corrosion products,** high-temp., in water lo systems, radiochemical analysis of, 2270.
**Corticosteroids,** analysis of mixtures of, by counte current distribution, 3883.
 chromatography of, 269.
 detection, in urine, 2115.
 determination, fluorimetric, 4315.
  in urine, spectrophotometric, 4316.
  paper chromatographic, 2114, 5219.
  spectrophotometric, 3897, 5218.
 17,21-dihydroxy-20-oxo-, determination, spectr photometric, 2113.
 17-hydroxy-, determination, in urine, chromat graphic, 2116.
 separation, in urine, paper chromatographic, 118
  paper chromatographic, 5216.
**Corticosterone,** determination, chromatographi 4796.

**icosterone,** determination—*continued*
paper chromatographic, 2114.
paration, paper chromatographic, 5216.
lphate, identification, in urine, chromatographic, 236.
**isol.** (See *Hydrocortisone.*)
**isone,** analysis of, 1189.
etermination, paper chromatographic, 2114.
paration, paper chromatographic, 5216.
**on,** determination, in mixtures, 204.
non-cotton content of textiles containing, 3370.
oils, fats and waxes in, standard method for, 2955.
**onseed oil,** determination of azinphosmethyl in, spectrophotometric, 1758.
**machlor,** determination, in animal tissue, 838.
**marin,** detection, 2136.
**mestrol,** determination, fluorimetric, 2569.
in lucerne, paper chromatographic, 3966.
**ntercurrent-extraction,** von Metzsch apparatus for, 1771.
**rtelle,** analysis of mixtures with other fibres, 3371.
ifferentiation of, from Orlon Type 42 and standard Acrilan, 3830.
**tine,** determination, spectrofluorimetric, 2574.
aper chromatography of, 745.
**tinine,** determination, in plasma, 247.
**ol,** analysis of phenol - cresol - xylenol mixtures, gas chromatographic, 4239.
etermination of mixtures of isomers, spectrographic, 1624.
- and *p*-, determination, spectrophotometric, 2021.
, determination, in tritolyl phosphate, gas chromatographic, 4239, 4240.
, detection, 3342.
paration, of mixtures of isomers, apparatus for, 4710.
by ion exchange, 670.
**esotic acid.** (See *Reagents, organic.*)
**esotic acid.** (See *Reagents, organic.*)
**inology,** use of new methods in, 4031.
**cal solution temperature,** determination, characterisation of reference liquids used in, 1287.
**onaldehyde,** determination, 2910.
in acetaldehyde, polarographic, 2477.
larography, of 4690.
**lite,** determination, in explosives, 2522.
**scopy,** use of camphor in microdeterminations, 3560.
**ene,** chloro-, determination, spectrophotometric, 1623.
**ene hydroperoxide,** determination, oscillopolarographic, 3808.
spectrophotometric, 1622.
**erron,** deriv. of, use of, in analysis, 3144.
**um,** detection, in urine, 4277.
paration, from Am and Pm, 4967.
**amide,** and deriv. of, detection, 4704.
termination, in soil, blood and urine, spectrophotometric, 3056.
**ide,** detection, 419, 4546.
termination, 428, 481, 2802, 4546, 4547.
in electroplating baths, 48.
in food, oscillopolarographic, 3027.
polarographic, 4108.
radiochemical, 1329.
spectrophotometric, 971, 1496.
**ides, organic.** (See *Nitriles.*)
**oacetic acid,** identification, paper chromatographic, 1084.
**ocobalamin,** assay of, 1729.

**Cyanomethaemoglobin,** determination of extinction coeff. of, 2104.
**Cyanuric acid,** detection, 419.
**Cyclohexane,** determination, gas chromatographic, 1819.
u.v. spectrophotometric, 4009.
preparation of spectroscopically pure, 906.
**Cyclohexanone oxime,** determination, 5079.
**Cycloserine,** determination, spectrophotometric, 3454.
**Cyclotrimethylenetrinitramine,** determination, simultaneously with pentaerythritol, polarographic, 2537.
**Cystamine,** determination, in biol. fluids, amperometric, 4301.
**Cysteic acid,** determination, chromatographic, 255.
**Cysteine,** detection, 419.
determination, amperometric, 3772, 4210.
in keratin, polarographic, 3561.
in wool, polarographic, 754.
together with cystine, in proteins, spectrophotometric, 3429.
**Cystine,** determination, in electroplating baths, polarographic, 2444.
in feeding-stuffs, 1266.
in food and feeding-stuffs, chromatographic, 1693.
in keratin, polarographic, 3561.
in wool, polarographic, 754.
together with cysteine, in proteins, spectrophotometric, 3429.
**Cytosine,** oscillopolarographic study of, 2985.
separation, 5179.
from guanine, uracil, adenine and thymine, paper chromatographic, 2573.

D

**DDT,** detection, in crops, gas chromatographic, 1753.
determination, 4861, 4862.
gas chromatographic, 1751.
in cereals, wheat and flour, i.r. spectrophotometric, 2152.
in flour and food, spectrophotometric, 1239.
in plant extracts, 1268.
paper chromatographic, 1257.
identification, chromatographic, 1241.
separation, chromatographic, 2673.
**DDVP.** (See *2,2-Dichlorovinyl dimethyl phosphate.*)
**DOPA.** (See *3,4-Dihydroxyphenyl-L-alanine.*)
**DPPD.** (See NN′-*Diphenyl*-p-*phenylenediamine.*)
**Dalzin.** (See *Reagents, organic.*)
**Daptazole.** (See *Amiphenazole.*)
**Dates,** determination of moisture in, 4353.
**Daxim.** (See *Reagents, organic.*)
**Decaborane,** detection, spectrophotometric, 1425.
determination, 4094.
i.r. spectrum of, 4519.
**Decamethonium salts,** determination, 4922.
**Dehydracetic acid,** detection, in wine, chromatographic, 2160.
determination, in wine, chromatographic, 2159.
**Dehydrase,** δ-aminolaevulinic acid-, determination of activity of, in liver, fluorimetric, 2994.
**Dehydroascorbic acid,** determination, in plant tissue, spectrophotometric, 3954.
in urine, photometric, 3413.
**Dehydroepiandrosterone.** (See *Androst-5-ene-17-one, 3β-hydroxy-.*)
**Dehydrogenase,** isocitric-, determination, 2119.
in serum, spectrophotometric, 274.
lactic acid-, determination of activity of, spectrophotometric, 2120.

**Dehydrogenase**—*continued*
sorbitol-, determination of activity of, spectrophotometric, 2121.
**Density,** of gases, determination, 843.
**Density-gradient columns,** prep. of, 4867.
**Deoxy sugars,** detection, 2472.
determination, 283.
**2-Deoxy-D-glucose,** determination, fluorimetric, 4287.
**Deoxynucleosides,** detection, 2585.
**Deoxynucleotides,** detection, 2585.
**Deoxyribonucleic acid,** determination, in animal tissue, 3433.
oscillographic polarography of, 2584, 2985.
**Deoxyribonucleosides,** purine and pyrimidine, determination, 5206.
**Deoxyribose,** determination, 2583.
**3-Deoxythreopentonic acid,** separation, from other hydroxy-acids, by ion exchange, 2483.
**Desmosterol,** (*24-dehydrocholesterol*), determination, spectrophotometric, 2986.
**Detergents.** (See also *Quaternary ammonium compounds; Surfactants.*)
analysis of alkylbenzenesulphonates in, 3364.
anionic, primary standards for, 2516.
determination of inorganic sulphate in, 4263.
  of P and B in, 2949.
  of sodium lauryl sulphate in, paper chromatographic, 199.
  of Teepol in, paper chromatographic, 199.
  of toluene- and xylene-sulphonates in, spectrophotometric, 1115.
non-soapy, analysis of, 5096.
**Deuterium,** analysis of, i.r. spectrophotometric, 2757.
  of mixtures of, with H and $^3$H, spectrographic, 1377.
determination, in minerals and rocks, mass spectrometric, 2442.
  in organic compounds, 4202.
    mass spectrometric, 18.
  in presence of air, gas chromatographic, 1376.
  in serum and urine, 5112.
  in water, 2759.
    mass spectrometric, 18.
ortho- and para-, separation, from other forms of H and $^2$H, gas chromatographic, 3158, 4477.
sampling of, for mass spectrometry, 2758.
separation, from H and H$^2$H, gas chromatographic, 4476.
**Deuterium oxide,** analysis of, 2760.
  i.r. spectrographic, apparatus for, 4061.
determination, in plasma and urine, mass spectrometric, 2542.
  of boric oxide in, coulometric, 3198.
  of $H_2O$ in, near i.r. spectrophotometric, 1832.
**Dextromethorphan,** separation, from phenylephrine and chlorpheniramine, paper chromatographic, 4810.
**Dextromoramide,** determination, spectrophotometric, 3459.
**Dextrosulphenidol,** determination, spectrophotometric, 4342.
**Diacetone alcohol,** determination, in admixture with acetone, 5061.
**Diacetyl,** determination, in beer, spectrophotometric, 5263.
**Diacetyl monoxime,** determination, 3334.
***OO*-Dialkyl hydrogen phosphorodithioates,** determination, 3977.
**2,4-Diamino-4′-ethoxyazobenzene,** determination, polarographic, 2137.
**2,3-Diaminonaphthalene,** detection, 1078.
**2,4-Diaminophenol,** determination, in urine, spectr photometric, 3347.
***p*-Dianilinobenzene.** (See NN′-*Diphenyl*-p-*pheny enediamine.*)
**1,1′-Dianthrimide,** determination, spectrophot metric, 4249.
**Diazonaphthols,** and deriv., determination, 3805.
**Diazonium compounds,** determination, 1634.
**Diazophenol,** and deriv., determination, 3805.
**1,2:5,6-Dibenzanthracene,** determination, polar graphic, 3803.
**Dibenzothiazol-2-yl disulphide,** detection, in rubbe chromatographic, 2941.
**Dibenzyl disulphide,** determination, paper chromat graphic, 2934.
**Dibenzyl tetrasulphide,** determination, polarographi 2934.
**Diborane(6),** $(B_2H_6)$, determination, in mixtures, i. spectrophotometric, 1424.
***p*-Dibromobenzene,** gas chromatography of, 854.
**Dibutyl dixanthogen.** (See *Dixanthogen.*)
**Dibutyl phthalate,** determination, in mixtures explosives, chromatographic, 2536.
  in propellents, polarographic, 5109.
**2,6-Di-t-butyl-*p*-cresol.** (See *Ionol.*)
**Dibutyltin dichloride,** determination, spectrophot metric, 4234.
**Dicarboxylic acids.** (See also *Carboxylic acids.*)
separation, chromatographic, 1601.
**Dichloroacetaldehyde,** determination, polarographi 4222.
**Dichloroborane,** determination, in mixtures, i. spectrophotometric, 1424.
**αα-Dichlorobutyric acid,** determination, 4859.
**5,5′-Dichloro-2,2′-dihydroxydiphenylmethane.** (Se *Dichlorophen.*)
**Dichloromethane,** determination, polarographi 5052.
**2,6-Dichloro-4-nitroaniline,** determination, in d tranil, i.r. spectrographic, 1761.
**Dichlorophen,** determination, on textiles, spectr photometric, 1760.
**αα-Dichloropropionic acid,** determination, 4859.
**4,7-Dichloroquinoline,** determination, 5086.
**2,2-Dichlorovinyl dimethyl phosphate,** determina tion, spectrophotometric, 1276.
**Dichromate,** detection, in presence of chromat 3250.
determination, simultaneously with $Cu^{2+}$, 30.
**Dicyandiamide,** determination, in soil, spectrophot metric, 2184.
  spectrophotometric, 4704.
**Dicyclopentadienyliron.** (See *Ferrocene.*)
**Dieldrin,** determination, gas chromatographic, 175
  in animal fat, spectrophotometric, 1756.
  paper chromatographic, 1257.
  spectrophotometric, 2205.
**Dielectric constant,** measurement of, analysis gaseous or liquid mixtures by, 2259.
use of, in analysis of multicomponent system 3561.
**Dielectrics,** determination of anthraquinone i polarographic, 3387.
**Diethazine,** determination, spectrophotometri 4341.
identification, 3071.
***OO*-Diethyl dithiobis(thioformate).** (See *Dixan thogen.*)
***OO*-Diethyl *O*-naphthalimidophosphorothioate,** de termination, fluorimetric, 4388.
**Diethyl phthalate,** determination, in mixtures explosives, chromatographic, 2536.
**2-Diethylaminoethyl phenothiazine-10-carboxylat** (See *Novazin.*)

**thylene glycol,** recovery of, 5057.
**thylenetriamine,** determination of water in, spectrophotometric or with Theed, 3328.
**thylstilboestrol.** (See *Stilboestrol.*)
**ractometer, X-ray,** stepping mechanism for, 5317.
**-Diformyl-2-methylpiperazine,** use of, as stationary phase, in gas chromatography, 4887.
**italis,** assay of, 776, 1198, 2609, 3451.
**italis glycosides,** separation, paper chromatographic, 3004.
**itoxin,** detection, 2607.
etermination, spectrophotometric, 283.
**itoxose,** determination, spectrophotometric, 283.
**lycerides,** detection, 5167.
**oxin,** determination, spectrophotometric, 283.
**ydrallazine,** determination, 790.
**ydrocodeine,** identification, spectrophotometric, 234.
**ydronorguaiaretic acid,** identification and separation, paper chromatographic, 4844.
**ydropyrimidines,** detection, 2585.
**ydroxyacetone,** determination, in blood and urine, spectrophotometric, 4772.
.v. and i.r. absorption spectra of, 2479.
**ydroxybenzenes,** separation, by ion exchange, 670.
ot tests for, 4243.
**Dihydroxy-*p*-benzoquinone,** analytical properties of, 4447.
**Dihydroxybutyric acid,** separation, from other hydroxy-acids, by ion exchange, 2483.
**Dihydroxyphenyl-L-alanine,** determination, in proteins, spectrophotometric, 3428.
eparation, from tyrosine, by ion exchange, 3428.
**-Di-(*p*-hydroxyphenyl)propane,** separation, paper chromatographic, 673.
**2,3-Dihydroxypropyl)-*N*-ethyl-*m*-toluidine,** analysis of mixtures of, with *N*-ethyl-*m*-toluidine, 183.
**ydroxypropyltheophylline.** (See *Diprophylline.*)
**–Di-(1-hydroxy-3-sulphonaphthyl)urea,** determination, 685.
**odohydroxyquinoline,** determination, 3010.
polarographic, 3458.
**4,6-Di-*O*-isopropylidene-2-oxo-L-gulonic acid,** determination, 2484.
**4,6-Di-*O*-isopropylidene-L-sorbofuranose,** detection and determination, paper chromatographic and spectrophotometric, 2009.
**ercaprol,** determination, in food, oscillopolarographic, 3027.
**Dimercaptoadipic acid,** determination, 4706.
**Dimercaptopropanol.** (See *Dimercaprol.*)
**2,3-Dimercaptopropyl)phthalamic acid,** determination, polarographic, 3561.
**ethoate,** determination, 1275.
in technical Rogor, chromatographic, 3002.
**ethyl malonate,** decomposition of, in gas chromatographic separation, 1085.
**ethyl phthalate,** determination, in propellents, polarographic, 5109.
**methylaminoazobenzene,** detection, i.r. spectrographic, 317.
termination, in fatty oils, paper chromatographic, 2654.
**ethylaniline,** determination, in methyl methacrylate, 1124.
**-Dimethyl-1,2-benzanthracene,** determination, polarographic, 3803.
**ethylformamide,** purification of, 3569.
**Dimethylhydrazine,** determination, in hydrazine, 4701.
of water in, spectrophotometric or with Theed, 3328.
**Dinitrophenol,** 2,4- and 2,6-, separation, paper chromatographic and electrophoretic, 4713.
**2,2-Dinitropropane,** determination, spectrophotometric, 658.
**3,5-Dinitro-o-toluamide,** determination, 653.
  in feeding-stuffs, 3968.
    spectrophotometric, 1265.
**Dioctylphthalate,** determination, in mixtures of explosives, chromatographic, 2536.
**Diolefins,** determination, spectrophotometric, 2896.
**Diosgenin,** determination, spectrophotometric, 4815.
**Dioximes,** determination, 3795.
**Diparcol.** (See *Diethazine.*)
**Diperodon,** paper electrophoresis of, 4338.
**Diphenylamine,** deriv. of, determination, potentiometric, 4749.
  detection, 680.
  determination, in phenothiazine, spectrophotometric, 190.
    spectrophotometric, 5084.
  separation, chromatographic, 2536.
**2,5-Diphenyl-1,4-benzoquinone,** mixed fusion analysis of, 1094.
**1,1-Diphenylethanol.** (See *α-Methylbenzhydrol.*)
***NN′*-Diphenyl-*p*-phenylenediamine,** determination, in animal tissues, spectrophotometric, 5140.
    in fat and other biol, materials, 1269.
**1,2-Diphenylpyrazolidine-3,5-dione,** determination, 191.
  4-(3-oxobutyl)-, determination, 191.
  separation, paper chromatographic, 192.
**Diphosphopyridine.** (See *Codehydrogenase I.*)
**Diprophylline,** determination, 282.
**2,2′-Dipyridyl.** (See *2,2′-Bipyridyl.*)
**Dirhein,** determination, in rhubarb, spectrophotometric, 4816.
**Disaccharides,** determination, 5059.
**Disinfectants,** analysis of, 5285.
  determination of tar acids in, B.S.I. method for, 702.
  evaluation of quaternary ammonium compounds as, B.S.I. method for, 3052.
**Distillation,** apparatus for, 5296.
    use of azeograph for, 2218.
  improved stirrer and bearing for spinning-band columns used in, 844.
  micro-still for separation of $^{14}$C-acetic acid, 4871.
  of steam-volatile substances, apparatus for, 2216.
**Disulfiram,** determination, 3796.
**Disulphide groups,** determination, in amino-acids and proteins, 3771.
**Dithiocarbamates,** determination, 3797, 4860.
  uses of, in analysis, review, 173.
**Dithionite,** determination of NaCl in, 3248.
**Ditranil,** determination of 2,6-dichloro-4-nitroaniline in, i.r. spectrophotometric, 1761.
**Divinylacetylene,** study of, polarographic, 4690.
**Divinylbenzene,** determination, polarographic, 3339.
**Dixanthogen,** determination, 3799, 4230.
**Dodecylbenzyldiethylenetriaminetetra-acetic acid,** determination, 3365.
**Dodecylguanidine acetate,** determination, spectrophotometric, 2675.
**Dolomite,** determination, in soil and limestone, 2194.
    of Ca and Mg in, 3181, 3182.
    of Fe in, flame spectrophotometric, 4637.
**Dough,** determination of moisture in, 3469.
**Drugs,** detection of metals in, electrophoretic, 303.
  determination, in aq. soln., 771.
    of Ca in, 3016.
  test for sulphate in, 3015.
**Drying,** of small liquid samples, 4866.
**Dunite,** detection of Au and Pt metals in, by ion exchange, 1052.

**Duralumin,** determination of ageing of, nuclear magnetic resonance spectrometric, 3555.
**Dust,** determination of Be in, spectrographic, 2172.
**Dyes,** analysis of, paper chromatographic, 2046.
azo, determination, 2045.
amperometric, 2950.
identification, paper chromatographic, 1119.
use of, as indicators for Ca and Mg, 908.
basic, detection, polarographic, 3828.
determination, in confectionery, chromatographic, 3829.
for use in food, analysis of, 802.
i.r. spectrophotometric, 317.
detection of impurities in, 4355.
determination, electrophoretic, 3471.
identification, spectrophotometric, 4356.
hydroxytriphenylmethane, determination, 4266.
Indanthrene brilliant violet BBK, use of, as reagent for $H_3BO_3$, 1875.
water-sol., determination of purity of, photometric, 706.
**Dyes, listed under names given in the Colour Index (Second Edition, 1956).**
C.I. Acid Blue 9, use of, for screening indicators, 1348.
C.I. Acid Blue 25, use of, as reagent for $H_3BO_3$, 1875.
C.I. Acid Blue 43, use of, as reagent for $H_3BO_3$, 1875.
C.I. Acid Green 1, detection, i.r. spectrophotometric, 317.
C.I. Acid Green 5, detection, i.r. spectrophotometric, 317.
C.I. Acid Red 1, use of, for screening indicators, 1348.
C.I. Acid Red 17, use of, in determination of As, 3234.
C.I. Acid Violet 49, use of, for screening indicators, 1348.
C.I. Acid Yellow 1, detection, i.r. spectrophotometric, 317.
C.I. Acid Yellow 3, use of, for screening indicators, 1348.
in determination of As, 3234.
C.I. Azoic Diazo Component 5, use of, in silica-gel-film chromatography of phenols and phenolic acids, 4242.
C.I. Azoic Diazo Component 20, use of, in silica-gel-film chromatography of phenols and phenolic acids, 4242.
C.I. Azoic Diazo Component 48, use of, in determination of biphenyl and *o*-hydroxybiphenyl, in citrus fruit, spectrophotometric, 3937.
in separation of sulphinic acids and sulphonyl chlorides, paper chromatographic, 4231.
in silica-gel-film chromatography of phenols and phenolic acids, 4242.
C.I. Basic Blue 12, use of, as indicator, in determination of K, 4067.
C.I. Basic Green 1, use of, in detection of $I_3^-$, $I_2Cl^-$, $I_2Br^-$ and $Br_3^-$, 4632.
C.I. Basic Red 1, use of, in detection and determination of Ga, fluorimetric, 3627.
in fluorimetry, 4906.
C.I. Basic Violet 10, use of, in detection and determination of Ga, fluorimetric, 3627.
in fluorimetry, 4906.
butyl ester of, use of, in analysis, 1823.
C.I. Basic Yellow 2, detection, polarographic, 3828.
C.I. Food Red 3, determination of purity of, B.S.I. method for, 3933.
C.I. Food Red 7, determination of purity of, B.S.I. method for, 3932.
**Dyes, listed under names given in the Colour Inde (Second Edition, 1956)**—*continued*
C.I. Food Red 9, determination of purity o B.S.I. method for, 3931.
C.I. Food Yellow 3, detection, i.r. spectrophoto metric, 317.
determination of purity of, B.S.I. method for 3930.
C.I. Food Yellow 10. (See *C.I. Solvent Yellow* 5.
C.I. Food Yellow 11. (See *C.I. Solvent Yellow* 6.
C.I. Mordant Black 3, use of, in determination o Hf and Zr, 2818.
of U, 4617.
C.I. Mordant Black 11, use of, in determination o Pb, 4555.
C.I. Mordant Black 17, use of, in determination o Al in magnesium, spectrofluorimetric, 3622.
C.I. Mordant Black 25, use of, in determination o Ca, 1663.
in blood serum, spectrophotometric, 1664
C.I. Mordant Blue 1, determination, 4266.
use of, as reagent for Al, 1876.
in determination of Hf, Ti, Th and Zr, 4560
of Zr in magnesium alloys, spectrophoto metric, 4560.
C.I. Mordant Blue 3, use of, in determination o $Al_2O_3$ in slag, spectrophotometric, 1982
of $F^-$ in milk, spectrophotometric, 1719.
C.I. Mordant Blue 7, use of, in determination o Pb, 4555.
C.I. Mordant Blue 9, use of, as indicator, in the determination of Hg, 4454.
C.I. Mordant Blue 27, use of, as reagent for $H_3BO_3$ 1875.
C.I. Mordant Blue 28, determination, 4266.
C.I. Mordant Blue 29, use of, as indicator, in determination of Th, 3229.
C.I. Mordant Blue 42, determination, 4266.
C.I. Mordant Brown 26, determination, 4266.
C.I. Mordant Brown 41, use of, in determination of Th, 1904.
spectrophotometric, 4573.
C.I. Mordant Green 28, use of, in determination of Mo, 3699, 3738.
C.I. Mordant Green 29, use of, in determination of Cu, Pb, Th and Al, 8.
C.I. Mordant Red 7, use of, in determination of Ni, spectrophotometric, 2433.
C.I. Mordant Violet 5, use of, as acid-base indicator, 2737.
in determination of V, spectrophotometric, 3238.
C.I. Solvent Black 3, use of, in separation of lipoproteins in serum, electrophoretic, 3877.
C.I. Solvent Yellow 5, detection, i.r. spectrophotometric, 317.
determination, spectrophotometric, 707.
C.I. Solvent Yellow 6, detection, i.r. spectrophotometric, 317.
determination, spectrophotometric, 707.
C.I. Solvent Yellow 14, use of, in separation of lipoproteins in serum, electrophoretic, 3877.
**Dysprosium,** determination, by neutron absorption, 3553.

**E**

**EDTA.** (See *Ethylenediaminetetra-acetic acid, disodium salt.*)
**EPTC.** (See *Ethyl di-n-propylthiocarbamate.*)
**Egg shell,** determination of Y in, spectrographic, 4276.
**Elastase,** determination of activity of, 3442.
**Elastomers,** identification, 213, 3842.

**der flowers,** determination of flavonoids in, chromatographic, 2081.
**ectroanalysis,** thermal, effect of non-electroactive ions in, 2243.
**ectrochemical analysis,** classification and nomenclature of, 3141.
**ectrodes,** boron-carbide, use of, in polarography, 2723.
  bubbling platinum, use of, in polarography, 880.
  carbon, influence of type of, in spectrography, 409.
  carbon-paste, preparation, storage and use of, 892.
  cylindrical, use of, in polarography, 885.
  graphite, treatment of, for vol. analysis, 2255.
    use of, in chronopotentiometric analysis, 3133.
      in neutralisation titrations, 890.
  hanging-mercury-drop, use of, in oscillopolarography, 4051.
  membrane, use of, for study of ion concn., 3561.
  reference, potentials of, 884.
  silver-plated platinum, use of, in potentiometric titrations, 888.
  suitable for use with differential cathode-ray polarograph, 3125.
  thin-membrane micro glass, for determination of pH, 881.
**ectrolysis,** apparatus for, 2242.
  dissolution of a platinum anode used with a mercury cathode in, 2713.
  internal, with vibrating electrodes, 3561.
  use of spherical electrodes in, 4021.
**ectron probe analysis.** (See *Spectrography, electron probe, X-ray.*)
**ectrophoresis,** apparatus for, 383, 384, 1312.
  continuous antidromic, 863.
  direct photometry in, apparatus for, 386.
  flow device for, 1313.
  high-voltage, apparatus for, 4415.
    conditions for, 1316.
  photometric evaluation in, 1319.
  review of 1960, 2264.
  separation of metals by, 2750.
  staining in, 1318.
  starch-gel, contact prints of patterns of, 3524.
    distortion-free zones in, 1314.
    relationship between field strength and ionic strength to velocity and spread of zones in, 388.
    review, 387.
    technique and apparatus for, 3523.
  survey of applications of, 4891.
  tank for soaking strips in, 1320.
  use of acrylamide gel in, 4416.
    of carboxymethylcellulose gel in, separation of haemoglobin by, 263.
    of cellulose acetate as supporting medium for, 1794.
**ectroplating solutions,** analysis of, 1983.
    of gold and its alloys in, polarographic, 34.
  determination of $NH_3$ in, potentiometric, 989.
    of $CrO_3$ in, 4155.
    of Cu in, 3172.
    of cystine in, polarographic, 2444.
    of free cyanide in, 48, 1567.
    of Ga and In in, 472.
    of Au in, 3598.
      polarographic, 4198.
    of In and Sn in, 2792.
    of Ni in, spectrophotometric, 4666.
    of nitrate in, 3762.
    of sulphate in, 100, 525.
    of Zn in, 48.
**nbelin.** (See *Reagents, organic.*)
**nodin,** aloe- and rheum-, determination, photometric, 1200.

**Emulsifying agents,** separation of fatty acids in, paper chromatographic, 4825.
**Enamels,** determination of Sb, Co and Zr in, 1054.
    of Co in, amperometric, 1547.
**Endrin,** determination, gas chromatographic, 1751.
    in blackcurrants, 2647.
    in flour, i.r. spectrophotometric, 3018.
    spectrophotometric, 1270.
**Enheptin A.** (See *Acinitrazole.*)
**Enzymes,** amino-acid activating, assay of, 272.
  determination of activity of, automatic, 896.
    use of Warburg's optical test for, review, 4807.
  separation, chromatographic, 4802.
**Ephedra,** determination of alkaloids in, 3893.
**Ephedrine,** detection, 1188.
  determination, spectrophotometric, 281.
  separation, by counter-current extraction, 2610.
**Epinephrine.** (See *Adrenaline.*)
**16-Epioestriol.** [See *Oestra-1,3,5*(10)*-triene-3,16β, 17β-triol.*]
**Epoxides,** chromatography of, and detection, 2002.
  α-, determination, 1071.
  differential thermal analysis of, 2684.
  terminal, determination, 2959.
**Epoxyethane.** (See *Ethylene oxide.*)
**1,2-Epoxypropane.** (See *Propene oxide.*)
**Equilin,** separation, chromatographic, 4797.
**Erbium,** analysis of, by neutron activation, 1438.
  determination, spectrophotometric, 1887.
**Ergosine,** separation, thin-layer chromatographic, 4813.
**Ergot,** determination of alkaloids in, 1193, 4330.
      in Secale concentratum, spectrophotometric, 3894.
      u.v. spectrophotometric, 1194.
  effect of temp. of drying on alkaloid content, 3002.
**Ergot alkaloids,** determination, survey of, 2124.
  separation, thin-layer chromatographic, 4813.
**Eriochrome azurol BC.** (See *Dyes,* C.I. Mordant Blue 1.)
**Errors.** (See *Statistics.*)
**Erythritol,** determination, 4694.
**Erythrocytes,** determination of phosphofructokinase in, spectrophotometric, 5229.
    of K in, 3389.
    of Zn in, spectrophotometric, 4757.
**Erythromycin,** determination, in blood, serum and urine, 4763.
    spectrophotometric, 4818.
**Eschynite,** determination of Pr in, spectrophotometric, 3637.
**Essences,** analysis of, chromatographic, 5097.
**Esters,** aliphatic, gas chromatography of, detector response in, 2485.
    high-resolution mass spectra of, 3790.
  unsatd., gas chromatography of, 1819.
**Ethacridine lactate,** (*Rivanol*), determination, amperometric, 4456.
**Ethanediol,** determination, amperometric, 3772.
    gas chromatographic, 2041, 2903.
    of chloride in, 1592.
**Ethanol,** detection, 1188.
    in volatile oils, 200.
  determination, in blood and biol. materials, 2556.
      gas chromatographic, 235.
      spectrophotometric, 2062.
    in fruit juice, 1229.
    in lozenges, gas chromatographic, 305.
    in presence of 2-ethoxyethanol, refractometric, 4216.
    of methanol in, spectrophotometric, 2004.
    of water in, near i.r. spectrophotometric, 3777.
    simultaneously with ethyl ether, in blood and viscera, gas chromatographic, 3858.

**Ethanol,** determination—*continued*
spectrophotometric, 157, 2900.
u.v. spectrophotometric, 4009.
identification, 2465.
separation, from acetaldehyde, butadiene and ethyl ether, gas chromatographic, 634.
**Ethers,** identification, gas chromatographic, 2899.
**17-Ethinyloestradiol,** analysis of, 1189.
3-methyl ether, separation, thin-layer chromatographic, 4797.
separation, paper chromatographic, 4810.
**Ethinyltestosterone,** analysis of, 1189.
**Ethionamide,** determination, spectrophotometric, 4343.
**Ethopropazine,** identification, 3011.
**2-Ethoxyethanol,** determination, in presence of ethanol, refractometric, 4216.
**Ethoxyl groups,** determination, simultaneously with methoxyl groups, apparatus for, 3311.
**Ethyl acetate,** determination, in wine, gas chromatographic, 4838.
**Ethyl alcohol.** (See *Ethanol.*)
**Ethyl di-n-propylthiocarbamate,** determination, in plants and soil, spectrophotometric, 1272.
in potatoes, 1273.
**Ethyl dithiocarbamate,** use of, as substitute for $H_2S$, 4445.
**Ethyl ether,** detection, 1591.
determination, in lozenges, gas chromatographic, 305.
simultaneously with ethanol, in blood and viscera, gas chromatographic, 3858.
sampling of, apparatus for, 4285.
separation, from acetaldehyde, butadiene and ethanol, gas chromatographic, 634.
**Ethyl gallate,** determination, in lard, 3938.
**Ethyl methyl ketone,** analysis of, i.r. spectrophotometric, 3841.
***N*-Ethylaniline,** analysis of mixtures with aniline and deriv. of, i.r. spectrophotometric, 181, 182, 679, 2507.
***N*-Ethyl-*N*-(2,3-dihydroxypropyl)-*m*-toluidine,** determination of *N*-ethyl-*m*-toluidine in, 2933.
**5-Ethyl-5-(2,5-endomethylene-1,2,5,6-tetrahydrophenyl)barbituric acid,** detection, thin-layer chromatographic, 2998.
**Ethylene,** determination, 2460.
gas chromatographic, 1792.
in apples, gas chromatographic, 1230.
in gases, 3572.
of acetylene in, gas chromatographic, 5051.
of CO in, gas chromatographic, 4211.
**Ethylene oxide,** analytical control of, 1070.
determination, 1588.
in presence of propene oxides, polarographic, 5053.
**Ethylenediamine,** determination, thermogravimetric, 4702.
**Ethylenediamine dihydrochloride,** i.r. spectrum of, 2488.
**Ethylenediaminetetra-acetic acid, disodium salt,** analysis of, 654.
detection and determination, in plasma and serum, 1088.
in wine and urine, 1088.
iron chelates of, determination, in plants, 3424.
review of uses of, 430.
use of cadmium *N*-hydroxyethyl(ethylenediamine)-*NN'N'*-triacetate as primary standard for, 425.
***N*-Ethyl-*N*-(2-hydroxyethyl)aniline,** analysis of, i.r. spectrophotometric, 679.
determination of *N*-ethylaniline in, 2507.
**2-Ethylisonicotinthioamide.** (See *Ethionamide.*)
**Ethyl-lithium,** determination, 4212.
**5-Ethyl-2-methylpyridine,** determination, in 2-methyl-5-vinyl-pyridine, spectrophotometric, 2029.
***N*-Ethyl-*m*-toluidine,** determination, in *N*-ethyl-*N*-(2,3-dihydroxypropyl)-*m*-toluidine, 183, 2933.
**Ethylvanillin,** detection, 5253.
determination, in foods, oscillopolarographic, 3024.
polarographic, 315.
**Eudialyte,** determination of Hf in, chromatographic, 4568.
**Eugenol,** determination, spectrophotometric, 1118.
**Europium,** determination, by neutron absorption, 3553.
coulometric, 1439.
in minerals, polarographic, 479.
in thorium, 4987.
polarography of, 2801.
separation, chromatographic, 966.
of $^{152}Eu$ from other radioactive materials, electrophoretic, 65.
**Evans blue.** (See *Azovan blue.*)
**Evaporation,** apparatus for, 5298.
determination of curve of, by thermal analysis, 5304.
two-stage device for, 1285.
**Explosives,** analysis of, 2522.
determination of P in, 717.
differential thermal analysis of, 4273.
**Extracellular fluid,** determination of $Cl^-$ in, spectrophotometric, 223.
of K and Na in, flame photometric, 223.
of water in, 223.
**Extraction,** apparatus for, 5296.
analysis of labelled comp., 2282.
double-withdrawal countercurrent, applications of, 3981.
of inorganic compounds and organometallic complexes, 3.
review of progress in 1960, 2264.
use of, in determination of cations and anions, 2285.
with pulsing jets, 5297.

F

**FD & C Violet No. 1.** (See *Dyes*, C.I. Acid Violet 49.)
**Fabrics.** (See *Textiles.*)
**Faeces,** determination of $BaSO_4$ in, 232.
of cholesterol and coprosterol in, spectrophotometric, 2111.
of chromium(III) oxide in, 231, 232.
of Au in, spectrophotometric, 2067.
of N in, 3394.
of P in, 231.
separation of fatty acids from unsaponifiable matter in, 327.
**Falicaine,** paper electrophoresis of, 4338.
**Fast blue salt B.** (See *Dyes*, C.I. Azoic Diazo Component 48.)
**Fast blue salt BB.** (See *Dyes*, C.I. Azoic Diazo Component 20.)
**Fast green FCF,** detection, i.r. spectrophotometric, 317.
**Fast red salt B.** (See *Dyes*, C.I. Azoic Diazo Component 5.)
**Fats,** analysis of, chromatographic, 3480.
determination, in biol. materials, 718.
in skeletal muscle, 5113.
of antioxidants in, spectrophotometric, 329.
u.v. spectrophotometric, 3035.
of fatty acids in, gas chromatographic, 3032.

**ats,** determination—*continued*
of free fatty acids in, 3482.
of glycerides in, 811.
of oxidative stability of, apparatus for, 4399.
of propyl gallate in, spectrophotometric, 816.
separation of fatty acids from oxidised, chromatographic, 5275.
on glass-paper, chromatographic, 3031.
**atty acids,** analysis of, paper chromatographic, 3947, 3948.
characterisation of, i.r. spectrophotometric and gas chromatographic, 5277.
conjugated, gas chromatography of, 815.
detection, on paper chromatograms, 1680.
determination, gas chromatographic, 1081, 2167, 3946, 4364.
in animal tissue, 5166.
in butter, gas chromatographic, 2148.
in foods, paper chromatographic, 2138.
in lipids, gas chromatographic, 3949.
in natural water, gas chromatographic, 3493.
in plasma, 1681, 5166.
in serum, 5165, 5169.
of $^{14}$C-activity in, paper chromatographic, 5310.
hydroperoxides of, analysis of, chromatographic, 5276.
separation, by countercurrent distribution, 4841.
chromatographic, 328, 4842.
from unsaponifiable matter, in food, faeces and serum, 327.
gas chromatographic, 4840.
influence of column support on, 3950.
in suppository bases and emulsifying agents, paper chromatographic, 4825.
unesterified, separation, in blood, by ion exchange, 738.
**atty acids, esters of,** analysis of methyl, gas chromatographic, use of punched cards in, 5316.
characterisation of methyl, gas chromatographic, 2914.
determination, in serum, spectrophotometric, 2082.
of methyl, gas chromatographic, 3032, 4365.
preparation of, labelled with $^{14}$C, 1727.
separation, of methyl, gas chromatographic, 381, 1725, 2657.
**atty alcohols,** analysis of, gas chromatographic, 3948.
**atty oils,** analysis of, chromatographic, 3480, 5273.
thin-layer chromatographic, 3481.
determination of acid value of, 5271.
of antioxidants in, 330.
of *p*-dimethylaminoazobenzene in, paper chromatographic, 2654.
of free fatty acids in, 3482.
of iodine value of, 1724.
with $^{131}$I, 1244.
of linolenic acid in, 2653.
of peroxide value of, 2655.
of quinol in, 330.
of total oxidised acids in, 3483.
of trace metals in, spectrographic, 812.
hydrogenated, detection in butter fat, i.r. spectrophotometric, 4352.
determination, paper chromatographic, 2166.
methods of analysis, review, 3946.
separation, from fats, chromatographic, 5275.
of unsaponifiable matter, chromatographic, 5272.
**eeding-stuffs,** assay of streptomycin in, 3973.
spectrophotometric, 2669.
detection of adulteration of, 3934.
determination of acinitrazole in, 3969.

**Feeding-stuffs,** determination—*continued*
of amprolium in, spectrophotometric, 3971.
of carotene in, spectrophotometric, 3058.
of crude fibre in, 4385.
of cystine in, chromatographic, 1693.
of Fe in, 832.
of nihydrazone in, spectrophotometric, 3967.
of nitrofurazone in, 3970.
spectrophotometric, 348.
of reserpine in, fluorimetric, 3972.
of tetracycline deriv. in, spectrophotometric, 4386.
of Zoalene in, 3968.
spectrophotometric, 1265.
**Ferbam,** paper chromatography of, 1277.
**Fermentation media,** determination of O in, continuous, 3903.
**Ferric compounds.** [See *Iron(III) compounds.*]
**Ferricyanide,** detection, 3726.
**Ferrite,** determination, of Ni, Zn, Mn and Fe in, polarographic, 3561.
**Ferroboron.** (See *Iron alloys.*)
**Ferrocene,** use of, in determination of Fe$^{3+}$, 1958.
**Ferrocyanide,** determination, 476.
coulometric, 439, 4183.
in molasses, 1222.
**Ferromanganese.** (See *Iron alloys.*)
**Ferromolybdenum.** (See *Iron alloys.*)
**Ferrotungsten.** (See *Iron alloys.*)
**Ferrous compounds.** [See *Iron(II) compounds.*]
**Fertilisers,** analysis of, symposium on, 3055.
determination of Ca in, flame spectrophotometric, 3187.
of Cu in, 1260.
spectrographic, 4858.
of N in, 1259, 1261, 1262.
of P in, 1263.
of K in, conductimetric, 3501.
radiometric, 346.
of trichloroacetate in, 3057.
sampling of, 3054.
simultaneous determination of phosphate and sulphate in, 1748.
**Fettblau B.** (See *Dyes*, C.I. Solvent Blue 19.)
**Fibre, crude,** determination, in feeding-stuffs, 4385.
in plants, 5289.
**Fibres,** acrylic, determination of soluble Fe in, spectrophotometric, 205.
analysis of, 204, 2048.
B.S.I. methods for, 3372.
containing Courtelle, analysis of, 3371.
cottonised bast, determination, in rayon, 4736.
determination of polyamides in, 4738.
of silk in, 4737.
polyamide, characterisation of, i.r. spectrophotometric, 4739.
determination, in presence of other fibres, 204, 4378.
polyester, determination, in presence of other fibres, 204.
**Fibrinogen,** determination, in blood, 2582.
in plasma, 3431.
photometric, 2984.
**Fillings,** for bedding etc., test for cleanliness of, B.S.I. amendment for, 3836.
**Filtration,** gel-, use of, for mol. separation, 5300.
losses due to, during extractions, 3982.
micro-, apparatus for, 4400.
ultra-, apparatus for, 2679, 3504.
**Fish,** determination of $^{137}$Cs, $^{89}$Sr and $^{90}$Sr in, 2063.
of sugar phosphates in, spectrophotometric, 2637.
test for degree of putrefaction of raw, 4831.

**Fission products,** determination of Pu in, 2850.
    of U and Pu in, 2849.
  separation, by solvent extraction, 1055.
**Flagyl.** (See *Metronidazole.*)
**Flame photometry.** (See *Photometry, flame.*)
**Flasks,** volumetric, B.S.I. standards for, 2210.
**Flavanones,** identification, paper chromatographic, 241.
**Flavone, hydroxy-,** deriv. of, determination, spectrophotometric, 2997.
  separation, chromatographic, 2970.
**Flavonoids,** determination, 731.
    in elder flowers and buckwheat, chromatographic, 2081.
    spectrophotometric, 3421.
  separation, paper chromatographic, 3421.
**Flavouring essences,** determination, in fruit juice, 1229.
**Flaxedil.** (See *Gallamine triethiodide.*)
**Flexzone 3C.** (See N-*Isopropyl*-N′-*phenyl*-p-*phenylenediamine.*)
**Flour,** analysis of, 2634.
  determination of amino-acids in, 4349.
    of amylase activity of, 3921.
    of DDT in, i.r. spectrophotometric, 2152.
      spectrophotometric, 1239.
    of endrin in, i.r. spectrophotometric, 3018.
    of hexachlorocyclohexane in, i.r. spectrophotometric, 2152.
    of proteins in, 3468.
    of thiamine and riboflavine in, microbiological, 4371.
**Fluorene,** deriv., determination, in air, spectrophotometric, 823.
  determination, in mixtures with anthracene and phenanthrene, spectrofluorimetric, 3815.
**Fluorescence,** measurement of, review, 4423.
**Fluoride,** detection, 1525.
    gas chamber for, 3068.
  determination, 120, 1028.
    coulometric, 3270.
    in air, continuous, apparatus for, 3487.
    in catalysts, 555.
    in gases, 1526.
    in grass, spectrophotometric, 2185.
    in liquids, 120.
    in milk, spectrophotometric, 1719.
    in natural water, spectrophotometric, 1741.
    in nickel, by X-ray diffraction analysis, 4189.
    in uranium tetrafluoride, 1019.
    polarographic, 1029.
    potentiometric, 4171.
    radiometric, 554.
    spectrophotometric, 552, 1949.
  identification, 4924.
    in air, 1735.
  separation, from catalysts, 555.
**Fluorimetry,** increase of sensitivity of, use of C.I. Basic Red 1 and 11 in, 4906.
  influence of halide-ions in, 4425.
  standard for, 4014.
**Fluorine,** determination, 1027, 2855, 3267.
    by neutron-activation analysis, 1524.
    in beryllium, photometric, 1398.
    in cupola slags, spectrophotometric, 3268.
    in fertilisers, 3055.
    in fluorocarbons, 3269.
    in foods, 2139.
    in mica, photometric, 1948.
    in ores, 2287.
    in organic compounds, 148, 4204, 4205.
      spectrophotometric, 3769.
    in plants, apparatus for, 1774.
    in polymers, by ion exchange, 206.
**Fluorine,** determination—*continued*
    in zirconium, 1903.
    simultaneously with C and H, in organic fluorine compounds, 1993.
    spectrophotometric, 553, 4629.
**Fluorine, organic compounds of,** determination of H and C in, 1992.
  simultaneous determination of H, C and F in, 1993.
**Fluoroboric acid,** determination of Pb in, 2809.
**Fluorocarbons,** chromatography of, 629.
  determination of F in, 3269.
**Fluorspar,** determination of Ca in, 44.
**Fluroral,** determination, in milk, spectrophotometric, 4351.
**Folic acid,** determination, 4335.
  separation, chromatographic, 3867.
**Food,** analysis of, review of progress in 1960, 2264.
  applications of cathode-ray polarography in analysis of, review, 1220.
  detection of sorbic acid in, 5255.
  determination of aldehydes and ketones in, 3466.
    of Sb in, photometric, 2140.
    of As in, spectrophotometric, 1484, 3919.
    of As$^{3+}$, CN$^{-}$, CS$_2$, S$^{2-}$ and dimercaprol in, oscillopolarographic, 3027.
    of carboxylic acids in, gas chromatographic, 2913.
    of Cu, Pb, Sn and Zn in, polarographic, 5247.
    of cystine in, chromatographic, 1693.
    of DDT in, spectrophotometric, 1239.
    of fatty acids in, gas chromatographic, 1718.
      paper chromatographic, 2138.
    of F in, 2139.
    of lysine in, 1717.
    of malathion in, spectrophotometric, 3061.
    of pesticides in, 2646.
      review, 4387.
    of silicones in, i.r. spectrophotometric, 803.
    of sorbitol in, 5254.
    of Sn in, spectrophotometric, 4827.
  identification of surfactants in, 4354.
  separation of carotenoids in, chromatographic, 3470.
    of fatty acids from unsaponifiable matter in, 327.
    of volatile carbonyl compounds in, thin-layer chromatographic, 3321.
  volatiles of, analysis of, gas chromatographic, 1716.
**Food dyes.** (See *Dyes.*)
**Formaldehyde,** detection, in milk, 3934.
  determination, 644, 4697.
    gas chromatographic, 643, 2908.
    in air, spectrophotometric, 4847.
    in photographic paper and melamine resins, 4742.
    in plastics, 4270.
    of retention time of, gas chromatographic, 162.
    simultaneously with acetaldehyde, in pentaerythritol, 3318.
    spectrophotometric, 642.
  oxidation of, 500.
  relationship between sp. gr. and composition of soln. of, B.S.I. amendment for, 3784.
**Formic acid,** determination, 428, 648, 3324.
***N*-Formimidoylglutamic acid,** detection, in urine, electrophoretic, 1170.
  determination, in urine, microbiological, 749.
**Foundry dust,** determination of quartz in, by X-ray diffraction, 3215.
**Fraction collector,** for use in column chromatography, 4875.
  improved, 4876.
  turntable for, 845.

**ancium,** separation, from Cs and Rb, chromatographic, 449.
  of $^{223}$Fr from $^{223}$Ra, paper chromatographic, 4925.
**axin,** determination, spectrophotometric, 3863.
**its,** determination of $B_2O_3$ in, 958.
**uctose,** determination, 3778.
  amperometric, 2470.
  spectrophotometric, 2904, 4771.
**uctose diphosphatase,** separation, chromatographic, 4802.
**uit,** determination of glucose in, 313.
  of Hg in, 1267.
**uit juice,** determination of flavouring essences and ethanol in, 1229.
  of furfuryl alcohol in, 3940.
**ucose,** determination, in saliva, spectrophotometric, 2076.
**uel gas,** analysis of, apparatus for, 1819.
**uel oils,** determination of S in, 2038.
**uels,** analysis and determination of calorific value of, 2037.
 determination of C, H and S in, 2944.
**umagillin,** determination, microbiological, 1205.
**umaric acid,** determination, 3326.
**uran-2,5-dicarboxylic acid,** determination, in urine, 3415.
**urazolidone,** determination, in chicken tissue, spectrophotometric, 2670.
**urfuraldehyde,** determination, 2563.
  in blood and urine, 1154.
  u.v. spectrophotometric, 2906.
**urfuryl alcohol,** determination, in fruit juice, 3940.
**usel oil,** analysis of, gas chromatographic, 158.

G

**adolinite,** determination of Be in, chromatographic, 4492.
**adolinium,** determination, by neutron absorption, 3553.
  in beryllium, spectrographic, 4083.
  in thorium, 4987.
 separation, chromatographic, 966.
**alactose,** 3,6-anhydro-, determination, spectrophotometric, 1674.
 determination, in cellulose, spectrophotometric, 2952.
 gas chromatography of, 1076.
 1-phosphate, determination, spectrophotometric, 2075.
 separation, from lactose, by ion exchange, 2471.
**alactosidase,** assay of, spectrophotometric, 5225.
**alacturonic acid,** determination, in c.s.f., spectrophotometric, 239.
  in gum acacia and pectin, chromatographic, 3417.
**allamine triethiodide,** determination, 1714.
**allium,** analysis of, X-ray emission spectrographic, 3991.
 analytical control of, 3562.
 chronopotentiometric study of, 1427.
 detection, 3561, 3624, 3627.
  in aluminium, 4101.
 determination, 3626, 4510.
  amperometric, 962.
  fluorimetric, 409, 3627, 4524.
  in bauxite, 4525.
  in coal, spectrographic, 1447.
   spectrophotometric, 3642.
  in electroplating soln., 472.
  in nepheline, spectrophotometric, 471.
  in ores, fluorimetric, 3627.

**Gallium,** determination—*continued*
  in rocks by neutron-activation analysis, 2327.
  in zinc, fluorimetric, 4958.
  of In in, polarographic, 3203.
  polarographic, 959.
  spectrofluorimetric, 4523.
  spectrographic, 58, 3562, 4526.
  spectrophotometric, 60, 2328, 3202, 3625.
 identification and separation of $Ga^{III}$, thin-layer chromatographic, 5007.
 separation, from Al, by ion exchange, 4102.
  from Cu and Ni, by ion exchange, 3628.
**Gamma-BHC.** (See *Hexachlorocyclohexane, gamma.*)
**Gammexane.** (See *Hexachlorocyclohexane, gamma.*)
**Gangliosides,** determination of glycosphingosides in, 5164.
**Gas analysis,** 2212.
 apparatus for 2213, 3541.
  for determination of He - $CO_2$, 4868.
   of $H_2S$ and $SO_2$, polarographic, 3124.
   of methane, 3505.
   of oxidising agents, 2215.
   of O, 2214.
  optico-acoustic, 878.
  ultrasonic, 3069.
 determination of density in, automatic continuous, 843.
  of H, He, O, N, Ar, CO and $CO_2$ by, 1365.
  of O by, 879.
  of O, N, H, NO, CO, $CO_2$, methane and ethylene by, 3572.
 electrode system for, 3123.
 ionisation detectors for, 3570.
 scavenging system for use in sample cell, 3533.
 technique for, 841.
 use of a single-beam single-channel system in, 2712.
**Gases.** (See also *Coal gas.*)
 ammonia synthesis-, analysis of, 701.
 detection of halogens in, apparatus for, 5039.
 detector for, based on changes in dielectric constant, 4913.
 determination, in metals, 1341, 2746, 3573, 3574.
   apparatus for, 4058, 4870.
   electrolytic, 1826.
  in steel, 1341.
  in tantalum and niobium, apparatus for, 3243.
  of $F^-$ in, 1526.
  of halogens in, 5040.
  of moisture in, 3160.
 diffusion-plant-, analysis of, apparatus for, 4630.
 identification, spectrographic, 4000.
**Gastric acidity,** determination, 1673.
**Gastripon.** (See N-p-*Phenylbenzylatropinium bromide.*)
**Gelatin,** determination of adenine in, spectrophotometric, 703.
  of amide-N in, 3363.
  of $F^-$ in, 4350.
  with mercurated fluorescein, 419.
**Geneserine,** determination, spectrophotometric, 5232.
**Gentisic acid,** determination, in blood and urine, spectrofluorimetric, 1156.
 separation, from urine, electrophoretic, 724.
**Geraniol,** determination, in citronella oil, 2519, 2520.
  in geranium oil, 2520.
**Geranium oil,** determination of geraniol in, 2520.
**Germanium,** detection of H in, spectrographic, 4552.
 determination, 976, 2806, 3216, 4929, 4971.
  in biol. materials, spectrophotometric, 4278.
  in coal, spectrographic, 977, 1447.
   spectrophotometric, 3642.
  in molybdenite, 485.

- **Germanium,** determination—*continued*
    - in natural water, spectrophotometric, 3050.
    - in sulphides, 485.
    - of O in, apparatus for, 3643.
    - of P and As in, 2805.
    - of trace elements in, by neutron-activation analysis, 1820.
    - polarographic, 978, 4551.
    - spectrographic, 898, 4529.
    - spectrophotometric, 4550.
  - polarography of $Ge^{II}$, 2807.
  - separation, by ion exchange, 2343.
    - from Sb, chromatographic, 2808.
- **Germanium dioxide,** analysis of, 3216.
- **Gibberellic acid,** determination, 3419, 3420.
    - in malt and beer, fluorimetric, 5261.
    - paper chromatographic, 732, 4775.
    - spectrofluorimetric, 4293.
- **Gibberellins,** determination, in green malt and sprouting barley, 4381.
    - in malt, by isotope-dilution analysis, 5260.
- **Gibbsite,** determination, in presence of Fe oxides by thermal analysis, 14.
- **Gitoxigenin,** detection, 2607.
- **Glass,** analysis of, 3760.
  - determination of Ba in, 4085.
  - study of metal-ion emission from surfaces of, 3560.
  - use of, in chemical analysis, 416, 904.
- **Glass apparatus.** (See also individual items: *burettes*, *pipettes*, etc.)
  - interchangeable conical ground-glass joints, B.S.I. specification for, 1762.
- **Glazes,** determination of $B_2O_3$ in, 958.
- **Globin,** separation, electrophoretic, 261.
- **Globulin,** determination, in serum, 2099.
  - γ-, separation, 4307.
  - separation, electrophoretic, 1694.
- **β-D-Glucometasaccharic acid,** separation, from other hydroxy-acids, by ion exchange, 2483.
- **Glucoproteins,** separation, in plasma, electrophoretic, 2101.
- **α-D-Glucosaccharic acid,** separation, from other hydroxy-acids, by ion exchange, 2483.
- **Glucosamine,** determination, 4297.
- **D-Glucosaminic acid,** complexes of with bivalent metals, 3560.
- **Glucose,** detection, in blood, serum and plasma, 5142.
    - in urine, 2074, 5141.
    - on paper chromatograms, 234.
  - determination, 159, 3412, 3778.
    - amperometric, 2470.
    - in biol. fluids, spectrophotometric, 2561.
    - in blood, 896.
      - automatic, 3978.
      - spectrophotometric, 3411, 4769.
    - in cellulose, spectrophotometric, 2952.
    - in fruit, 313.
    - in urine, 725, 1151.
      - automatic, 3978.
    - microbiological, 161.
    - of distribution of $^{14}C$ in, 2008.
  - fractional recrystallisation of α-D-[1-$^3$H]- and α-D-[6-$^3$H]-, 3780.
  - gas chromatography of, 1076.
  - separation, from maltose, by ion exchange, 2471.
    - from other carbohydrates, by ion exchange, 636.
  - spot test for, 638.
- **Glucose 6-phosphate dehydrogenase,** separation, chromatographic, 4802.
- **Glucosidases,** determination of activity of, 5059.
- **Glucuronic acid,** determination, in biol. fluid spectrophotometric, 3416.
    - in gum acacia and pectin, chromatographi 3417.
- **Glucuronidase,** determination of activity of, i serum, 5226.
- **Glutamic acid,** determination, in wheat, 2979.
  - effect of pH on the $R_F$ value of, 5064.
- **Glutamic acid decarboxylase,** determination c activity of, in wheat, 2979.
- **Glutathione,** determination, 2095.
    - amperometric, 3772, 4210.
- **Glutethimide,** determination, spectrofluorimetri 2133.
- **Glyceraldehyde,** determination, 1077, 1598.
  - u.v. and i.r. absorption spectra of, 2479.
- **Glycerides,** analysis of, paper chromatographic, 3947
  - determination, 5168.
    - chromatographic, 2041.
    - in serum, 243.
  - di-, detection on paper chromatograms, 5167.
  - separation, paper chromatographic, 326, 4843.
- **Glycerol,** assay of, spectrophotometric, 5058.
  - determination, 4694.
    - in crude product, by ion exchange, 1074.
    - in tobacco, gas chromatographic, 5239.
    - in wine, spectrofluorimetric, 2158.
    - of propane-1,3-diol in, gas chromatographic 635.
    - microbiological, 160.
    - spectrofluorimetric, 2005.
  - evaluation of crude, 1593.
- **Glycerol trinitrate,** analysis of, 2014.
- **Glycerophosphate,** L-α-, assay of, spectrophotometric, 5058.
- **Glycidyl ethers,** separation, gas chromatographic 2467.
- **Glycine,** determination, electrophoretic, 3873.
  - spot test for, 2978.
- **Glycobiarsol.** (See *Bismuth glycollylarsanilate.*)
- **Glycogen,** determination, in oysters, 3922.
- **Glycolipids,** isolation and analysis of, 2974.
- **Glycollic acid,** detection, paper chromatographic, 2011.
  - determination, 428.
- **Glycols.** (See also individual compounds.)
  - detection, in lubricating oils, 3358.
  - determination, in tobacco, gas chromatographic, 5239.
- **Glycoproteins,** detection, 4308.
- **Glycosides, cardiotonic.** (See also under individual compounds.)
  - absorption spectra of, 3003.
  - detection, 2607.
  - determination, spectrophotometric, 283, 1199.
  - squill, determination of, 2608.
- **Glycosphingosides,** determination, in nervous tissue, 5164.
- **Glycyrrhetinic acid,** determination, in liquorice, spectrophotometric, 3008.
- **Glyoxal,** aromatic, deriv. of, determination, 1079.
  - detection, 1078, 2912.
  - spot test for, 638.
- **Glyoxylic acid,** detection, 1188.
  - determination, by reaction with indoles, 1155.
    - in biol. fluids, potentiometric, 5148.
- **Gold,** analysis of, spectrographic, 33.
  - detection, 4079.
    - in silicate rocks and dunite, by ion exchange, 1052.
  - determination, 458, 1848.
    - coulometric, 439.
    - heterometric, 142, 600.
    - in beryllium, by radioactivation analysis, 4947.

**old,** determination—*continued*
  in bismuth, 4136.
  in copper, by neutron-activation analysis, 1849.
    spectrophotometric, 1850, 4486.
  in electroplating soln., 3598.
    polarographic, 4198.
  in ores and minerals, spectrographic, 2770.
    and rocks, 35.
  in selenium, radiochemical, 2390.
  in serum, plasma, urine and faeces, spectrophotometric, 2067.
  in soln., by zinc dust cementation, 4190.
  of chloro- and bromo- anionic complexes of, chromatographic, 123.
  of impurities in, 3599.
  photometric, 938.
  review, 4080.
  spectrophotometric, 3178.
intermetallic diffusion in Au - Pb systems, 1820.
separation from other metals, electrophoretic, 2750.
    paper chromatographic, 921, 2435, 2750.
  from Zr, 4565.
spot test for, 1393, 2769.
**old alloys,** analysis of Au - Al, 36.
**old compounds,** determination, in pharmaceuticals, by activation analysis, 4284.
**old ores,** analysis of, by activation analysis, 1851.
**old sulphide,** thermolysis of, 16.
**old telluride,** separation, paper chromatographic, 2750.
**raham's salt,** analysis of, 1481.
**ranite,** determination of Mo in, polarographic, 4610.
**rape juice,** detection of red hybrid characters in, chromatographic, 3943.
**raphite,** reactor, determination of B in, spectrographic, 1422, 4518.
simultaneous determination of Al and V in, by radioactivation analysis, 4545.
**rass,** determination of F in, spectrophotometric, 2185.
  of U in, 1942.
**ravimetric analysis,** errors in, 2268.
**iseofulvin,** assay of, spectrophotometric, 3900.
**aiacol,** alkyl deriv., paper chromatography of, 672.
**anidine,** determination, in plasma, 5180.
  spectrophotometric, 4705.
differential thermal analysis of, 168.
paper chromatography of, 745.
**anidine carbonate,** detection, 2936.
**(Guanidinoformimidoyl)morpholine hydrochloride,** determination, in urine, spectrophotometric, 5138.
**anine,** oscillopolarographic study of, 2985.
separation, by ion exchange, 5179.
  paper chromatographic, 2573.
**inea green B.** (See *Dyes*, C.I. Acid Green 1.)
**thion.** (See *Azinphosmethyl.*)
**psum,** determination of Ca, Mg and $SO_4^{2-}$ in, 4498.
  of moisture in, 3189.
  of $Na_2SO_4$, $CaCl_2$ and NaCl in, 2310.

**H**

**MB.** (See *Octahydro-1,3,5,7-tetranitro-sym.-tetra-azocine.*)
**aemoglobin,** determination, comparison of methods for, 5174.
  in plasma, 2103.
  in serum, spectrophotometric, 5158.
**Haemoglobin,** determination—*continued*
    of $A_2$, starch-gel electrophoretic, 262.
    of Fe in blood as a measure of, 5135.
    radiometric, 1161.
    spectrophotometric, 2105, 4791.
    starch-gel electrophoretic, 1315.
  electrophoresis of, 257, 3874, 3875, 5173.
    separation of $A_2$ on agar-gel by, 1158.
    use of carboxymethylcellulose gel in, 263.
**Hafnium,** analysis of, spectrographic, 898, 3664.
  determination, 2818, 4560.
    chromatographic, 1458.
    in eudialyte, chromatographic, 4568.
    in zirconium, spectrophotometric, 983.
    of Hf/Zr ratio, in oxide mixtures, spectrographic, 982.
    of Ta and Lu in, 3244, 4457.
    of U in, fluorimetric, 1518.
  separation, from Zr, 2360.
      by ion exchange, 494, 3663, 4457, 4563.
      chromatographic, 4568.
**Hafnium oxide,** determination, in presence of $ZrO_2$, spectrophotometric, 1460.
**Hair,** determination of As and Sb in, spectrophotometric, 4280.
**Halides,** alkyl, characterisation of, with *S*-alkyl-*N*-phenylthiuronium salts, 1068.
  determination of Tl in monocrystals of, 4104.
    use of mixed indicators for, 1346.
  of metals, separation, gas chromatographic, 1819.
**Halogens,** analysis of mixtures of, 1523.
  detection, in gases, apparatus for, 5039.
    in organic compounds, 1573, 4029.
  determination, 1995, 2854, 3768, 5038.
    in gases, 5040.
    in organic compounds, 1994, 4203.
      simultaneously with H and C, 1572.
    in polymers and petroleum products, 1643.
    in soln., spectrographic, 898.
    potentiometric, 3306, 4469.
**Haloperidol,** determination, spectrophotometric, 4824.
**Halopyramine,** determination, potentiometric and spectrophotometric, 1713.
**Ham,** detection of preservatives in, 320.
**Haptoglobin,** determination, in serum, 2581.
      electrophoretic, 1175, 3876.
      spectrophotometric, 4305.
**Helium,** determination, in gases, 1365.
    in natural gas, chromatographic, 2292.
    in presence of $CO_2$, 4868.
      of Ne, 19.
    of H in, gas chromatographic, 1831.
    of impurities in, apparatus for, 4059.
    of $^{133}$Xe, $^{135}$Xe, $^{85m}$Kr and $^{87}$Kr in, radiometric, 3164.
**Heptachlor,** determination, in milk, spectrophotometric, 1240.
    in soil, chromatographic, 2674.
    paper chromatographic, 1257.
**Heptane,** refractive index of system n-heptane - benzene, 628.
**Hexachlorocyclohexane, gamma.** (See also *Lindane.*)
  analysis of, i.r. spectrophotometric, 3976.
  detection, in crops, gas chromatographic, 1753.
  determination, gas chromatographic, 1751.
    of purity of, cryoscopic, 1754.
    spectrophotometric, 2204.
**Hexachlorotellurous acid,** use of, in determination of Cs, 1382.
**Hexahydro-1,3,5-trinitro-sym.-triazine,** (*RDX*), (*hexogen*), determination of P in, 717.
    potentiometric, 3846.

- **Hexahydro-1,3,5-trinitro-sym.-triazine**—*continued*
  - separation, from octahydro-1,3,5,7-tetranitro-sym.-tetrazocine, paper chromatographic, 692.
- **Hexametaphosphates.** (See *Polyphosphates.*)
- **Hexamethyldisilazane,** use of, as solid support in gas chromatography, 4883.
- **Hexamine,** detection, 1188.
  - determination, 644.
- **Hexane,** determination of mixtures of with octane and pentane, 3773.
- **Hexogen.** (See *Hexahydro-1,3,5-trinitro-sym.-triazine.*)
- **Hexosamine,** determination, in albumin, spectrophotometric, 1177.
- **Hexosans,** determination, in plants, 3961.
- **Hexose phosphates,** determination, in muscle, fluorimetric, 1152.
- **Hexoses,** determination, in paper pulp, paper chromatographic, 2691.
  - 2-amino-2-deoxy-, determination, u.v. spectrophotometric, 729.
- **Hexyne,** i.r. absorption spectrum of, 2001.
- **Hippuric acid,** determination, in urine, 2975.
    - gas chromatographic, 4292.
- **Histaminase,** determination of activity of, in blood, photometric, 4322.
- **Histamine,** determination, 2982.
    - as dinitrophenyl deriv., polarographic, 1168.
    - in tissue extracts, electrophoretic, 753.
    - in urine, 2982.
- **Holmium,** determination, spectrophotometric, 1887.
- **Holocellulose,** differential thermal analysis of, 3964.
- **Homocysteine thiolactone,** determination, spectrophotometric, 5190.
- **Homogentisic acid,** determination, in plasma and urine, spectrophotometric, 4294.
- **Homovanillic acid,** determination, in urine, gas chromatographic, 4292.
- **Honey,** analysis of, 4346.
  - detection of honeydew in, 310.
    - of invert sugar in, 4829.
  - determination of diastatic power of, review, 5248.
    - of 5-hydroxymethylfurfuraldehyde in, spectrophotometric, 4347.
- **Hops,** analysis of, 4834.
    - of α-acids of, gas chromatographic, 323.
  - determination of volatile oils in, 2155.
- **Horseradish,** detection of sorbic acid in, spectrophotometric, 3026.
- **Humic acid,** determination, in peat, 1258.
  - differential thermal analysis of, 3964.
- **Hyaluronic acid,** determination, spectrophotometric, 240.
- **Hyaluronidase,** assay of, spectrophotometric, 4803.
- **Hydrastine,** separation, from canadine and berberine, spectrophotometric, 3448.
- **Hydrastis,** determination of alkaloids in, spectrophotometric, 3448.
- **Hydrazides,** determination, spectrophotometric, 1606.
- **Hydrazine,** determination, 1470, 1908, 4220.
    - coulometric, 2486.
    - in 1,1-dimethylhydrazine, 4701.
    - in soln., apparatus for, 1775.
    - spectrophotometric, 501, 1487, 3231.
  - differential thermal analysis of, 168.
- **Hydrazine derivatives,** determination, 1634, 2487.
    - coulometric, 2486.
- **Hydrazine sulphate,** determination, potentiometric, 432.
- **Hydrazoic acid,** determination, spectrophotometri 3669.
  - reduction of, polarographic, 2824.
- **Hydrocarbons,** aliphatic, analysis of $C_2$ to C chromatographic, 620.
    - chlorinated, determination, in air, 3956.
    - determination, gas chromatographic, 2898.
    - separation of $C_1$ to $C_4$, gas chromatographi 1584.
    - unsaturated, determination, in automobil exhaust, spectrophotometric, 5090.
  - analysis of, 2037, 3772.
    - by flame ionisation, 622.
    - gas chromatographic, 2032, 3091, 3561, 3998.
      - apparatus for, 2223.
    - mass spectrometric, 2033.
      - in petroleum, 2040.
  - aromatic, analysis of, in coal tar, gas chromato graphic, 4726.
      - spectrophotometric, 3350.
    - determination, 3338.
      - in air, fluorimetric, 4848.
        - spectrophotometric, 821.
      - of the relative detector response of, in ga chromatography, 177.
    - fluorescence spectra of, 1616.
    - partition chromatography of, 1615.
  - carcinogenic, determination, polarographic, 3803
  - determination, gas chromatographic, 3312.
    - in coal gas, gas chromatographic, 3823.
    - in water, 3775.
    - of calorific value of, 2037.
    - of C and H in, 3152.
    - of Cl in, 3560.
    - of diffusion coefficients of, 623.
    - of Pb in, 5088.
    - of rate of exchange of H with, in $H_2SO_4$ 3817.
    - of Na in, flame photometric, 174.
    - of S in, 3353, 5088.
    - of water in, 5050.
      - apparatus for, 2031.
  - halogenated, detection, apparatus for, 3541.
  - polynuclear, analysis of, 4718, 5093.
    - separation, paper chromatographic, 5080.
  - prep. of tritium-labelled, 4678.
  - Raman spectra of, 2461.
  - separation, gas chromatographic, 619, 621, 2459, 3774, 5089.
  - structural analysis of, gas chromatographic, 1819.
  - tar, determination, in air, paper chromatographic, 1737.
  - unsatd., identification, gas chromatographic, 1585.
- **Hydrochloric acid,** determination of Al in, 4098.
    - of impurities in, spectrophotometric, 2857.
- **Hydrochlorothiazide,** determination, in urine, spectrophotometric, 2559.
    - of 4-amino-6-chlorobenzene-1,3-disulphonamide in, spectrophotometric, 298.
    - spectrophotometric, 296, 297.
  - microchemical reactions for, 299.
- **Hydrocortisone,** (*cortisol*), determination, chromatographic, 4796.
    - i.r. spectrophotometric, 1189.
    - paper chromatographic, 2114.
- **Hydrocyanic acid,** determination, in wine, spectrophotometric, 2162.
- **Hydrodiuril.** (See *Hydrochlorothiazide.*)
- **Hydroflumethiazide,** microchemical reactions for, 299.
- **Hydrofluoric acid,** determination of Al in, 4098.
- **Hydrogen,** active, determination, i.r. spectrophotometric, 603.

**rogen**—*continued*
alysis of mixtures with $^2H$ and $^3H$, spectrographic, 1377.
tection, in gas mixtures, 2291.
in germanium, spectrographic, 4552.
termination, 2451, 2452, 2454, 2889, 2891, 5036, 5038.
coulometric, 2756.
in air, continuous, apparatus for, 4398.
in alloys, spectrographic, 4467.
in aluminium, 4100.
electrometric, 2326.
in cast iron, 1341.
chromatographic, 3728.
in gases, 1365, 3572.
gas chromatographic, 3087, 4465.
in helium, gas chromatographic, 1831.
in hydrocarbons, 151, 3152.
in metals, 17, 924, 1341, 3575, 4058.
gas chromatographic, 3993.
review, 4466.
spectrographic, 1341.
in organic compounds, 148, 608, 1061, 1571, 3302, 3764, 4201, 4679, 5037.
automatic, 2450.
containing F, 1992, 1993.
gas chromatographic, 2890.
continuous, 1991.
simultaneously with C and halides, 1572.
use of mixed catalysts in, 2453.
in petroleum and fuel, 2944.
in presence of methane, gas chromatographic, 2458.
in steel, 578, 1040, 1341, 3283, 3729.
electrolytic, 1826.
gas chromatographic, 3728.
in titanium, spectrographic, 4468.
in zirconium hydrides, 77.
of purity of titanium hydride-generated, mass spectrometric, 1278.
paration, from HD and D, gas chromatographic, 4476.
from olefins, gas chromatographic, 2459.
gas chromatographic, $\beta$-ray ionisation detector for, 2284.
of ortho-, from other forms, 3158, 4477.
**rogen cyanide,** detection, apparatus for, 3541.
termination, gas chromatographic, 4107.
**rogen deuteride,** separation, from H and D, gas chromatographic, 4476.
from ortho- and para-hydrogen and D, gas chromatographic, 3158, 4477.
**rogen fluoride,** automatic recorder for, 2239.
paration, from $ClF_3$ and $UF_6$, gas chromatographic, 1517.
**rogen halides,** detection, apparatus for, 3541.
**rogen peroxide,** analysis of, spectrographic, 3162.
termination, 4045, 4478.
in air, indicator tube for, 4479.
of Al in, 4098.
spectrophotometric, 1487, 3161.
**rogen sulphide,** determination, 419, 4147.
conductimetric, 696.
in gases, apparatus for, 1495, 3124.
simultaneously with thiols, potentiometric, 660.
hyl dithiocarbamate as substitute for, 4445.
eration of, from thioacetamide soln., 4444.
oduction of, apparatus for, 1764.
**ogenated oils.** (See *Fatty oils.*)
**ometers,** B.S.I. specification for, 3065.
r use with milk, B.S.I. specification for, 1766.
**operoxides,** organic, polarography of, 1072.
**Hydroxamic acid,** deriv. of, determination, spectrophotometric, 1606.
identification, as isocyanate deriv., gas chromatographic, 4291.
**Hydroxyacetone,** u.v. and i.r. absorption spectra of, 2479.
**2-(*p*-Hydroxyanilino)ethanol,** (*octopamine*), detection, in urine, paper chromatographic, 1682.
**Hydroxyanthraquinones,** determination, photometric, 1200.
separation, in rhubarb, electrophoretic, 1201.
**Hydroxybenzoic acid,** mono- and di-, determination, paper chromatographic, 4711.
*o*-, *m*- and *p*-, i.r. data for, 2930.
*p*-, detection, in wine, chromatographic, 2161.
determination, in cheese, spectrophotometric, 3472.
separation, from benzoic and salicylic acids, chromatographic, 1236.
**Hydroxybiphenyl.** (See *Phenylphenol.*)
**$\beta$-Hydroxybutyric acid,** determination, in blood, 5145.
**Hydroxyflavones.** (See *Flavone, hydroxy-.*)
**5-Hydroxyindol-3-ylacetic acid,** determination, electrophoretic, 253.
in urine, gas chromatographic, 4292.
spectrophotometric, 5154.
**Hydroxylamine,** determination, 502, 1472, 4220, 4575.
spectrophotometric, 1487.
**Hydroxylysine,** detection, in serum proteins, paper chromatographic, 751.
**4-Hydroxy-3-methoxymandelic acid,** determination in urine, electrophoretic, 5153.
gas chromatographic, 4292.
photometric, 2079.
spectrophotometric, 2560, 4773.
**2-Hydroxy-3-methylbutyric acid,** detection, paper chromatographic, 2011.
**5-Hydroxymethylfurfuraldehyde,** determination, in honey, spectrophotometric, 4347.
paper chromatographic, 4405.
u.v. spectrophotometric, 2906.
**3-Hydroxy-2-methylpyran-4-one,** determination, 4251.
**2-Hydroxy-4-methylvaleric acid,** detection, paper chromatographic, 2011.
***p*-Hydroxyphenylacetic acid,** determination, in urine, gas chromatographic, 4292.
**4-Hydroxyphenylethanolamine.** [See *2-(p-Hydroxyanilino)ethanol.*]
**Hydroxyphenylpropane,** deriv. of, separation, in volatile oils, gas chromatographic, 2518.
**17-Hydroxypregnanolone.** (See *5β-Pregnan-20-one, 3α,17α-dihydroxy-.*)
**Hydroxyproline,** determination, in animal tissue and urine, spectrophotometric, 5186.
**8-Hydroxyquinoline,** determination, 2512, 4694.
metal comp. of, determination, 3150.
study of pptn. of elements by, 2748.
thermal stability of tetraphenylboron salts of, 1344.
**5-Hydroxytryptamine,** (*serotonin*), determination, electrophoretic, 253.
**5-Hydroxytryptophan,** determination, electrophoretic, 253.
**Hyoscyamine,** determination, in stramonium, spectrophotometric, 3890.
polarographic, 4329.
**Hypobromite,** determination, potentiometric, 4469.
**Hypochlorite,** determination, potentiometric, 4469.
**Hypophosphate,** determination, 4127.
**Hypophosphite,** determination, 4055.
in presence of $PO_3^{3-}$, 994.

**Hyposulphite,** determination, spectrophotometric, 1487.
**Hypoxanthine,** oscillographic polarography of, 2985.

I

**Ice-cream,** determination of carbohydrates in, paper chromatographic, 2149.
  of sucrose in, 2150.
**Ilmenite,** determination of Fe and Ti in, 3282.
**Imino-acids,** cyclic, identification, paper chromatographic, 1686.
**Imino-compounds,** detection and determination, 5083.
  paper chromatographic, 2222.
**Imipramine,** determination, in urine, 4765, 4766.
  spectrophotometric, 4341.
**Inconel,** determination of Co in, by neutron activation analysis, 2427.
**Indene,** use of, for calibration of i.r. spectrophotometers, 3532.
**Indicators,** bis-(2,4-dinitrophenyl)methane, use of, in non-aq. titrations, 4455.
  chemiluminescent, use of, 11.
    of biacridyl deriv. as, 2274.
  C.I. Mordant Blue 9, use of, 4454.
  C.I. Mordant Blue 29, use of, 3229.
  C.I. Mordant Violet 5, use of, 2737.
  copper phthalocyaninetetrasulphonate as addition to methyl red, 9.
  for use at high pH, 1347.
    in titration of halides, 1346.
  lucigenin, use of, 11, 5271.
  luminol, use of, 11.
  *o*-methoxycinnamic acid, use of, for Th, 4567.
  methyl calcein, use of, for Al, Mn and Ni, 1374.
  methyl calcein blue, use of, for Al, Mn and Ni, 1374.
  redox. for use in aq. soln., 4453.
    in non-aq. soln., 3560.
  review of, 907.
  screening of, 1348.
**Indicators, metallochromic,** applications of, 424.
  azo-dyes as, for Ca and Mg, 908.
  calcein, use of, 910, 1375.
  Cal-Red, use of, 3184.
  catechol blue, use of, 2276.
  C.I. Mordant Blue 9 as, in determination of Hg, 4454.
  2,3-dihydroxy-1-(2-pyridylazo)naphthalene-6-sulphonic acid and 4-(2-pyridylazo)orcinol as, 2275.
  fluorescein complexan, use of, 4495.
  gallocyanine (7-dimethylamino-4-hydroxy-3-oxo-3*H*-phenoxazine-1-carboxylic acid), use of, 3228.
  glycine thymol blue, use of, in determination of Cu, spectrophotometric, 2301.
  haematoxylin, uses of, 911.
  hydrobenzamide blue, use of, 2276.
  3-hydroxy-4-(2-hydroxy-4-sulpho-1-naphthylazo)-2-naphthoic acid, use of, 1858.
  8-hydroxy-7-(4-sulpho-1-naphthylazo)quinoline-5-sulphonic acid, use of, 431.
  2-hydroxy-*m*-toluic acid, use of, 130.
  6-hydroxy-*m*-toluic acid, use of, 130.
  indoferron (2,6-dibromophenolindo-*o*-cresol-6′-methylaminediacetic acid), use of, 10.
  indophenol complexans, use of, 10.
  oxine blue, use of, 2276, 2298.
  1-(2-pyridylazo)-2-naphthol, (*PAN*), use of, 4944.
  4-(2-pyridylazo)resorcinol, use of, 1884, 2275.
  review of uses of, 3568.
**Indicators, metallochromic**—*continued*
  stilbazo, use of, 2739.
  thymolphthalexone, use of, 4497.
**Indicators, metallofluorescent,** use of, review, 35
**Indigo,** determination, 3560.
**Indium,** analysis of, spectrographic, 1882.
  determination, 963.
    amperometric, 4959.
    fluorimetric, 2328.
    in Sb - Te - In alloys, 3155.
    in electroplating soln., 472, 2792.
    in gallium, polarographic, 3203.
    in lead and tin ores and slag, polarograph 4103.
    in silicates, spectrophotometric, 3205.
      spectrographic, 4549.
    in zinc and zinc oxide, spectrophotomet 3631.
    of Cd in, polarographic, 3618.
    of Cu in, spectrophotometric, 3200.
    of Pb, Cd and Zn in, polarographic, 4530.
    of Ni in, spectrophotometric, 1883.
    of traces on paper chromatograms, X-r emission spectrographic, 3991.
    of Zn in, polarographic, 1868.
    polarographic, 959, 2793, 3204.
    potentiometric, 4469.
    radiometric, 3630.
    simultaneously with Cd, polarographic, 964.
    spectrographic, 3562, 4529.
    spectrophotometric, 60, 2328, 2329.
  extraction of, 1428, 2285, 4527.
  reduction of, at dropping Hg electrode, 3629.
  separation, from Al, 4528.
    of $In^{3+}$ from $Tl^{3+}$, 3579.
**Indium alloys,** analysis of In - Sb - Te, 3155.
    of In - As - Se, 4054.
**Indium sulphide,** thermolysis of, 16.
**Indoferron.** (See *Indicators, metallochronic.*)
**Indole,** deriv. of, detection, 1103.
    determination, 188, 1102, 1103.
  determination, 1155.
    spectrophotometric, 4304.
  separation, gas chromatographic, 690.
**Indol-3-ylacetic acid,** determination, in urine, g chromatographic, 4292.
**Industrial wastes,** analysis of, review of 1959, 336.
  determination, of β-activity in, 1330, 1745.
    of amines in, spectrophotometric, 339.
    of amino-acids in, spectrophotometric, 339.
    of Cl in, 5282.
    of nitrocyclohexane in, polarographic, 2178.
    of phenolic materials in, 1744.
    of surfactants in, 3494.
  from coal carbonisation, analysis of phenols i chromatographic, 2665.
    gas chromatographic, 4727.
**Inert gases.** (See also individual elements.)
  analysis of, problems in, 3561
**Injections,** analysis of, u.v. spectrophotometri 3449.
**Ink,** analysis of, paper chromatographic, 2046.
  determination of $H_2O$ in, 210.
  separation, by porous glass chromatograph 3508.
**Inorganic compounds,** i.r. spectrophotometry o review, 4049.
**Inosine phosphates,** separation, from adenosin phosphates and nucleotides, paper chromato graphic, 2107.
**Insect fragments,** identification, 314.
**Insulating oil,** determination of water in, potentio metric, 5094.

**sulin,** assay of, methods for, review, 287.
  determination, in blood, review, 782.
**tegrator,** non-electronic, with figure registration, 1336.
**terferometer,** use of, for determination of methane in air, 3120.
**vert sugar,** detection, in honey, 4829.
**date,** determination, 4932.
    photometric, 3716.
**dide,** detection of $I_3^-$, $I_2Cl^-$ and $I_2Br^-$, 4632.
    with mercurated phenolphthalein, 419.
  determination, 1529, 2406, 2852, 2853, 3275, 4172.
    amperometric, 2858.
    automatic, 1574.
    coulometric, 126.
    in natural water, 2175.
    in presence of $Cl^-$, 560.
    potentiometric, 3714.
    simultaneously with bromide, 124.
**dine,** analysis of $^{131}I$, 2270.
  detection, 4093.
    in organic compounds, 614.
    in sodium chloride and natural water, 4632.
    paper chromatographic, 1530.
  determination, 1523, 5042.
    in fertilisers, 3055.
    in fission products, by ion exchange, 1033.
    in milk, 3926.
    in natural water, 1742.
    in serum, 2102, 2552, 4758.
    in silicon, 3214.
    in soil, 3562.
    in tellurium, polarographic, 3715.
    of $^{131}I$, in milk, by $\gamma$-counting, 2144.
      by $\gamma$-spectroscopy, 1227.
    of short-lived isotopes, in reactor effluents, 2270.
    simultaneously with ICl, spectrophotometric, 2405.
  extraction of, from aq. soln., 2285.
  protein-bound, detection, 5202.
    determination, in serum, 723, 3855.
  separation, from Te, by ion exchange, 102.
**dine chloride,** determination, simultaneously with I, spectrophotometric, 2405.
**dine value,** determination, of fatty oils, 1724.
    of primary and secondary amines, 3331.
**dochlorhydroxyquin,** determination, polarographic, 3458.
**doform,** determination, 2129.
**n exchange,** columns, redox reactions on, 3561.
  continuous change of eluting agent in, apparatus for, 2234.
  of metal cations, use of ethylenediammonium perchlorate in, 438.
  progress in 1960, 2284.
  review, 914, 4889.
  selectivity scale of cations based on distribution coeff. for, 923.
  use of, at interface between two immiscible liquids, 413.
    in pharmaceutical analysis, 4324.
    of Cl in, 4890.
    of ethanol - water - HCl as eluent in, 4413.
    of ligand exchange on, for separation of organic compounds, 4043.
    of non-aq. solvents in, 4412.
**n-exchange materials,** use of fluorone derivatives as, 1793.
**ol,** determination, in polyethylene, spectrophotometric, 2958.
**ecacuanha,** assay of, 3892.
**meamarone,** determination, in sweet potatoes, chromatographic, 3422.

**Iridium,** determination, 2437.
    in palladium, by neutron-activation analysis, 4194.
    in platinum, by neutron-activation analysis, 1562, 4194.
    in presence of Pd, oscillopolarographic, 2884.
    in soln., by zinc dust cementation, 4190.
    of impurities in, polarographic, 598.
      spectrographic, 1563.
  separation from Pt and Rh, chromatographic, 2886, 3298.
    from Pt, Pd, Os, Ru, Rh and Au, paper chromatographic, 2435.
**Iron,** analysis of Fe - Ni films, byelec tron diffraction, 571.
    of mixtures of $^{59}Fe$ and $^{32}P$, 3584.
    progress in 1960, 2264.
    spectrographic, 2413.
    spectrophotometric, 3286.
  chloro and bromo complexes of $Fe^{III}$, chromatography of, 123.
  determination, 567, 1036, 1538, 1941, 1956, 3279, 3281, 3536, 3721, 3722, 4057, 4176, 4475.
    chromatographic, 1035, 3280.
    coulometric, 4933.
    flame photometric, 2864.
    flame spectrophotometric, 3578.
    in air, polarographic, 5279.
    in Al salts, spectrophotometric, 4179.
    in antimony sulphide, spectrophotometric, 997.
    in biol. materials, spectrophotometric, 3856, 5133.
    in bismuth, 4137.
      spectrographic, 1490.
      spectrophotometric, 2376.
    in blood, as a measure of haemoglobin content, 5135.
      spectrophotometric, 4283.
    in brass, 569.
    in Ca silicates, X-ray spectrographic, 5030.
    in copper alloys, B.S.I. method for, 3173.
    in dolomite, limestone and slag, flame spectrophotometric, 4637.
    in ferrite, polarographic, 3561.
    in fertilisers, 3055.
    in ilmenite, 3282.
    in iron driers, 1036.
    in magnesium alloys, 5016.
    in minerals, polarographic, 1039.
    in molybdenum, polarographic, 3253.
    in muscle, 5114.
    in nickel, spectrophotometric, 5026.
    in oils, X-ray spectrographic, 1111.
    in olive oil, 3946.
    in ores and slag, 4638.
    in petroleum, spectrophotometric, 1642.
    in plasma, spectrophotometric, 1665.
    in presence of Mn, 570.
    in quartz, spectrographic, 1539.
    in serum, spectrophotometric, 2553, 2554, 3399, 5134.
    in shale, 2416.
    in silicates, 1038, 2414.
    in sodium hydroxide, polarographic, 1959.
    in soil, spectrophotometric, 2196.
    in steel, polarographic, 4645.
    in tantalum oxide, polarographic, 3241.
    in tin, by ion exchange, 4473.
    in titanium slag, spectrophotometric, 4640.
    in uranium, spectrographic, 4624.
    in water, apparatus for, 337.
      spectrophotometric, 3941.
    in wine, spectrophotometric, 325.

- **Iron,** determination—*continued*
  - in yttrium, 2270.
  - in zinc alloys, spectrophotometric, **3614.**
  - in zinc sulphate, u.v. spectrophotometric, **3615.**
  - of As in, polarographic, 1966.
  - of Bi in, spectrophotometric, 4648.
  - of C in, chromatographic, 2421.
  - of Co in, B.S.I. method for, 3288.
    - spectrophotometric, 1971.
  - of Cu in, spectrophotometric, 4073, 4644, 5020.
  - of graphite C in, 577.
  - of impurities in, by neutron-activation analysis, 1879.
  - of $Fe^{II}$, 574.
    - amperometric, 2865.
    - coulometric, 2409, 4177.
    - in rocks, 129.
    - spectrophotometric, 1034, 2410.
  - of $Fe^{III}$, 130, 832, 910, 1958, 3724, 4045, 4178.
    - chronopotentiometric, 2752.
    - in manganese ores, 1953.
    - spectrophotometric, 1957, 2866.
  - of $^{55}Fe$ and $^{59}Fe$ in blood, 3857.
  - of Pb in, spectrophotometric, 3287.
  - of Ni in, spectrophotometric, 4644.
  - of O and N in, by isotope dilution, 1341.
  - of S in, 2870.

  - of Si in, 2869.
  - of S in, 1968.
  - of Sn in, potentiometric, 132.
  - of trace elements in, 2417.
- **Iron(III) chloride,** determination, potentiometric 3149.
- **Iron(II) hydroxide,** determination, in suspensions of, automatic, 574.
- **Iron ores,** analysis of, polarographic, 572.
  - X-ray emission spectrographic, 3720.
  - determination of As in, polarographic, 1966.
    - of Fe in, 4638.
    - of Pb in, spectrophotometric, 2347.
    - of P in, spectrophotometric, 409.
  - prep. of samples of, 2412.
- **Iron(II) oxalate,** determination, 3723.
- **Iron(II) oxide,** determination, in rocks, spectrophotometric, 2415.
  - in tourmaline, 4641.
- **Iron(III) oxide,** determination of Ti in, polarographic, 2353.
- **Iron oxides,** analysis of, by X-ray diffraction, 2411.
  - determination, X-ray spectrographic, 2290.
- **Iron phosphates,** determination of phosphoric acid in, by ion exchange, 992.
- **Iron(II) sulphamate,** determination of $SO_4^{2-}$ in, **4997.**
- **Iron(III) thiocyanate,** influence of solvents on extracted compound, 1824.
- **Ironstone,** determination of Al in, 4095.
- **Isobucaine,** determination, spectrophotometric, 4822.
- **Isobutyl alcohol,** analysis of, gas chromatographic, 5056.
  - determination, in mixtures with butyraldehydes, gas chromatographic, 2476.
    - spectrophotometric, 633.
- **Isoglucosamines,** N-substituted, determination, 741.
- **Isoleucine,** determination, in protein hydrolysates, spectrophotometric, 3427.
- **Isoniazid,** acetyl-, determination, spectrophotometric, 295.
  - detection, 1188.
  - determination, spectrophotometric, 295.
- **Iso-oleic acid,** determination, by means of $^{131}I$, paper chromatographic, 3951.
  - in sunflower-seed oil, spectrophotometric, 2652.
- **Isoprene,** analytical control of rectification of, 2462.
- **Isoprene, polymers of.** (See also *Rubber.*)
  - gas chromatography of, 1590.
- **Isopropamide iodide,** determination, 2135.
- **Isopropyl alcohol,** determination, in acetone, i.r. spectrophotometric, 2478.
  - in benzene, i.r. spectrophotometric, 1589.
  - spectrophotometric, 2901.
- **Isopropyl chloride,** analysis of, i.r. spectrophotometric, 156.
- **Isopropyl 3-chlorophenylcarbamate.** (See *Chlorpropham.*)
- **2,3-*O*-Isopropylidine-L-sorbofuranose,** detection and determination, paper chromatographic, and spectrophotometric, 2009.
- ***N*-Isopropyl-*N′*-phenyl-*p*-phenylenediamine,** (*Flexzone 3C*), determination, spectrophotometric, 2508.
- **Isoquinoline,** determination, u.v. spectrophotometric, 2938.
- **Isoquinoline 2-oxides,** i.r. spectra of, 2513.
- **Isosaccharic acid,** α-D-, separation, from other hydroxy-acids, by ion exchange, 2483.
- **Isovaleraldehyde,** spot test for, 638.

J

**J-acid urea.** [See *6,6′-Di-(1-hydroxy-3-sulphonaphthyl)urea.*]
**Jam,** detection of preservatives in, u.v. spectrophotometric, 4357.
  determination of $SO_2$ in, 5256.

K

**Kanamycin,** determination, microbiological, 2611
  in biol. media, 1206.
  spectrophotometric, 5243.
**Kanthal,** determination of Co in, amperometric, 1547.
**Kaolin,** analysis of, 4197.
  determination of Fe in, spectrophotometric, 3279.
**Kaolinite - illite,** differential thermal analysis of, 1053.
**Katharometers.** (See also *Chromatography, gas.*)
  circuit for, for use in paper chromatography, 380.
**Kelthane,** identification, chromatographic, 1241.
**Keratin,** determination of S compounds in, 3561.
  of mercapto-groups in, 757.
**Kerosine.** (See *Petroleum.*)
**Ketals,** determination, potentiometric, 1599.
**Ketones,** aromatic, hydroxy-, i.r. spectra of, 3807.
    separation, paper chromatographic, 675.
  detection, 676, 3785.
    of water in, i.r. spectrophotometric, 2902.
    paper chromatographic, 3783.
  determination, 640.
    amperometric, 641.
    in blood, 2564.
      spectrophotometric, 3409.
    in foods, 3466.
    spectrophotometric, 3781.
  identification, chromatographic, 2899.
  methyl, chromatography of, 4696.
  polycyclic, mass spectra of, 2929.
  separation, paper chromatographic, 4222.
  X-ray powder-diffraction data for 2,4-dinitrophenylhydrazones of, 3782.
**Ketoses.** (See *Sugars.*)
**Ketoximes,** determination, 3795.
**Khellin,** determination, spectrophotometric, 2999.
**Kiton yellow 7GF.** (See *Dyes,* C.I. Acid Yellow, 3.)
**Kjeldahl method.** (See also *Nitrogen.*)
  antifoaming device for use in, 3066.
**Kola,** determination of caffeine in, by ion exchange, 1195.
**Krypton,** determination of $^{87}$Kr and $^{85m}$Kr in helium, radiometric, 3164.
**Kynurenine,** 3-hydroxy-, separation, from urine, by ion exchange, 752.

L

**Lac,** determination of purity of bleached, B.S.I. method for, 2055.
**Lacquer Scarlet S,** colour reaction of, with $Ba^{2+}$, 1866.
**Lactate,** determination, 5146.
**Lactic acid,** detection, paper chromatographic, 2011.
  determination, in sugar beet, by ion exchange, 3497.
    in wine and must, simultaneously with tartaric acid, spectrophotometric, 5269.
      by ion exchange, 3030.
**Lactic dehydrogenase,** determination of activity of, 4319, 4804.
    in serum, 5221.
  separation, chromatographic, 4802.
**Lactose,** determination, 3778.
    in mammary gland, 4288.
  separation, from galactose, by ion exchange, 2471.
**Laevomycetin,** determination, in blood or bile, spectrophotometric, 1148.
**Laevulic acid,** determination, paper chromatographic, 4405.
    spectrophotometric, 238.
**Lanthanides.** (See also *Rare-earth metals.*)
  determination, 4963.
    polarographic, 969.
  separation, in fission products, radiochemical, 4964.
    paper chromatographic, 970.
**Lanthanum,** determination, 2335.
    flame photometric, 1430.
    in "fissium," spectrographic, 2270.
    of $^{140}$La in presence of $^{140}$Ba, by scintillation counting, 4086.
    spectrographic, 3213.
    X-ray emission spectrographic, 1432.
  separation, from Ce and Pr, 970.
**Lard,** detection of alkali treatment in, 4361.
  determination of butylated hydroxyanisole in, 2656.
    of ethyl gallate in, 3938.
    of nordihydroguaiaretic acid in, 1235.
    of K and Na in, flame photometric, 4361.
**Laterite,** determination of Ni in, 831.
**Lauryl gallate,** (*dodecanoyl gallate*), determination, in fats, spectrophotometric, 329.
**Lauryl peroxide,** (*dodecanoyl peroxide*), determination, spectrophotometric, 5055.
**Lead,** analysis of, radiochemical, 1329.
    spectrographic, 409.
  detection, in ores, 4976.
    paper chromatographic, 71.
  determination, 57, 1449, 1893, 2345, 4556, 4974.
    as diliturate, thermogravimetric, 4052.
    chronopotentiometric, 2752.
    in activated carbon, polarographic, 4114.
    in active masses of accumulators, 72.
    in alloys, 490, 1450, 1452.
    in aluminium, polarographic, 4956.
    in antimony sulphide, 997.
    in bismuth, polarographic, 4135.
    in calcium carbonate, oscillopolarographic, 4051.
    in chromium and its alloys, polarographic, 4156.
    in copper alloys, atomic absorption spectrophotometric, 3655.
      B.S.I. method for, 3173.
    in copper and its alloys, spectrophotometric, 93.
    in fluoroboric acid, 2809.
    in food, polarographic, 5247.
    in hydrocarbons, by absorption of $^{3}$H bremsstrahlung, 5088.
    in indium, polarographic, 4530.
    in ingot tin, B.S.I. method for, photometric, 3647.
    in iron ores, spectrophotometric, 2347.
    in iron, spectrophotometric, 3287.
    in lead azides, polarographic, 491.
    in Pb - Bi alloys, 1915.
    in lead tannate, amperometric, 3656.
    in Pb - Te alloys, 4457.
    in molybdenum, spectrographic, 3701.
    in natural water, polarographic, 3561.
    in niobium and its alloys, 4142.
      spectrographic, 3581.
    in ores and concentrates, automatic, 1451.
      polarographic, 405.

**Lead**, determination—*continued*
    in plants, spectrographic, 1137.
    in presence of In, polarographic, 2289.
        of vanadates, 73.
    in pyrites, 2348.
    in reforming catalysts, polarographic, 3821.
    in rocks and meteorites, photometric, 488.
    in selenium, polarographic, 1843.
    in silver, polarographic, 1846, 1847.
    in steel, atomic absorption spectrophotometric, 3655.
        polarographic, 3731.
        spectrophotometric, 3287.
    in sulphuric acid, polarographic, 2833, 4557.
    in tantalum, spectrographic, 3581.
    in telluric acid, spectrophotometric, 103.
    in thallium and sodium iodides, photometric, 1894.
    in tin, by ion exchange, 4473.
        polarographic, 980, 1843, 4973.
    in tungsten, spectrographic, 3581, 3701.
    in urine, 3398.
    in zinc oxide, chronopotentiometric, 2752.
    in zinc sulphate, u.v. spectrophotometric, 3615.
    in zinc, X-ray fluorescence spectrographic, 3218.
    in zircon, spectrographic, 3217.
        spectrophotometric, 2346.
    of As in, spectrophotometric, 4582.
    of Ca in, flame spectrophotometric, 1453.
    of Cu in, spectrophotometric, 1896.
    of impurities in, spectrographic, 1895.
    of K in, radiometric, 1835.
    of Se in, 1931.
    of Ag in, spectrophotometric, 3596.
    of Sn in, polarographic, 2812.
        spectrophotometric, 3654.
    polarographic, 2793, 4113, 4927.
    spectrophotometric, 94, 4112, 4975.
  extraction of, as tributylammonium iodoplumbate, 4554.
  intermetallic diffusion in Au - Pb systems, 1820.
  separation, by ion exchange, 2810, 4470, 4472.
    from Mo, 2349.
    from Ag and Hg, electrophoretic, 1373.
        paper chromatographic, 443.
    of $^{210}$Pb from $^{210}$Bi, paper chromatographic, 15.
    paper chromatographic, 4053.
**Lead acetate,** basic, assay of, 304.
**Lead, alkyl derivatives of.** (See also *Tetraethyl-lead.*)
  alkyl chlorides, determination, spectrophotometric, 5072.
  determination, 2495.
        spectrophotometric, 2494.
  separation, paper chromatographic, 4235.
**Lead alloys,** determination of Sb in, spectrographic, 4002.
    of Bi in, 1915.
    of Cu in, 31.
        spectrophotometric, 1896.
    of Pb in, 1915.
        in Pb - Te, 4457.
        in Pb - Sn, 490.
    of Sn in, 1452.
        spectrographic, 4002.
        spectrophotometric, 4111.
**Lead azides,** determination of Pb in, polarographic, 491.
**Lead chromate,** determination of Pb and PbO in, 3562.
**Lead compounds,** determination of Te in, polarographic, 4153.
**Lead dioxide,** determination, in active masses of accumulators, 72.
**Lead iodide,** prep. of, for mass spectrometry, 2350
**Lead ores,** determination of In in, polarographic 4103.
**Lead sulphate,** determination, in active masses o accumulators, 72.
**Lead sulphide,** thermolysis of, 16.
**Lead tannate,** determination of Pb in, amperometric, 3656.
**Lead telluride,** analysis of, 4978.
**Lead tetraethyl.** (See *Tetraethyl-lead.*)
**Leather,** identification of condensed tannins in chromatographic, 215.
**Leaves,** determination of Ca and K in, flame photometric, 343.
        of N, P and Mg in, 343.
        of starch in, 237.
**Lecithin,** detection, on paper chromatograms, 1680
  determination, in serum, chromatographic, 242
  ovo-, detection of lysolecithin in, 2643.
  paper chromatography of, 3426.
**Lemon oil,** analysis of, 4265.
        gas chromatographic, 201, 4730.
**Lemongrass oil,** determination of citral in, in presence of myrcene, u.v. spectrophotometric, 705.
**Lepidolite,** determination of $^{87}$Sr and Rb in, spectrochemical, 145.
**Leptazol,** determination, 2623.
**Leucine aminopeptidase.** (See *Aminopeptidases.*)
**Leucocytes,** determination of Zn in, spectrophotometric, 4757.
**Levomepromazine,** determination, 4814.
**Lichenin,** determination, in oats, 2971.
**Light green SF.** (See *Dyes*, C.I. Acid Green 5.)
**Lignin,** determination, 3833.
  differential thermal analysis of, 3964.
  separation, from carbohydrates, in plants, 3961.
**Lignocaine,** paper electrophoresis of, 4338.
**Lime,** determination, in soil, 2191.
**Limestone,** determination of calcite and dolomite in, 2194.
        of Ca in, 3181.
            by thermometric titration, 3185.
        of Fe in, flame spectrophotometric, 4637.
        of Mg in, 3181.
**Lindane.** (See also *Hexachlorocyclohexane.*)
  determination, paper chromatographic, 1257.
**Linoleic acid,** determination, paper chromatographic, 2166.
  methyl ester of, nuclear spin resonance spectrum of, 4363.
**Linolenic acid,** determination, in fatty oils, 2653.
  methyl ester of, nuclear spin resonance spectrum of, 4363.
**Lipase,** determination, in serum, photometric, 5220.
**Lipids,** analysis of, in animal tissues, review, 1678.
  brain, separation, by thin-layer chromatography, 5171.
  chromatographic separation on silicic acid, 1679, 4780, 5170.
  detection, on paper chromatograms, 1680.
  separation, paper chromatographic, 1295, 3031.
**Lipoproteins,** determination, in serum, 2587.
        chromatographic, 1176.
  separation, in serum, electrophoretic, 3877, 5203, 5204.
        paper chromatographic, 260.
        staining method for, 758.
**Lipsticks,** analysis of, paper chromatographic, 2046.
**Liquorice,** determination of glycyrrhetinic acid in, spectrophotometric, 3008.
**Lissamine green SFS.** (See *Dyes*, C.I. Acid Green 7).

**hium,** alkyl compounds of, determination, 4212.
nalysis of, 22.
letermination, 23.
flame spectrophotometric, 927.
in bismuth, spectrographic, 4133.
in blood, flame photometric, 2541.
in mineral-oil suspension, 22.
in minerals, spectrographic, 445, 4480.
in nuclear materials, flame spectrophotometric, 898.
spectrographic, 4936.
sotopic analysis of, mass spectrometric, 4028.
eparation, from Na and K, paper chromatographic, 1833, 2761.
and Mg, thin-layer chromatographic, 4935.
X-ray emission spectrography of, 3105.
**hium salts,** determination of Ca in, fluorimetric, 3609.
**er,** determination of adenylic acid in, chromatographic, 4760.
of P in, chromatographic, 4760.
**oeline hydrochloride,** determination of acetophenone in injections of, polarographic, 774.
**zenges,** determination of chloroform, ethanol and ethyl ether in, gas chromatographic, 305.
**bricants,** plastic, evaluation of, review, 3384.
**bricating grease,** determination of fatty acids in, chromatographic, 3561.
**bricating oils,** analysis of, 699, 3357.
letection of glycols in, 3358.
letermination of additive elements in, spectrographic, 1646.
of cations in, 898.
**cerne,** determination of coumestrol in, paper chromatographic, 3966.
of saponins in, 4382.
**ff - Schoorl copper reagent,** prep. of, 3147.
**minescence,** measurement of, photo-electric, 394.
**minol,** measurement of luminescence of, 394.
**tetium,** determination, in irradiated hafnium, 4457.
flame photometric, 3244.
**idine,** determination, 2512.
**sergic acid,** deriv. of, determination, use of Keller reaction in, 1102.
**ine,** determination, in food and meat, 1717.
-, enzymatic analysis of, automatic, 896.
**ocephalin,** paper chromatography of, 3426.
**olecithin,** detection, in ovolecithin, 2643.
on paper chromatograms, 1680.
etermination, in serum, chromatographic, 242.

**M**

**PA.** (See *4-Chloro-2-methylphenoxyacetic acid.*)
**52 alloy,** determination of Ti in, X-ray spectrographic, 4558.
**gnesite,** analysis of, 3562.
etermination of Ca and Mg in, 3181, 3182.
**gnesium,** detection, 4494, 4948, 4949.
etermination, 909, 943, 1857, 1860, 1861, 2772, 3183, 3608, 4052, 4475.
flame spectrophotometric, 393.
in aluminium alloys, 3606.
in aluminium and its alloys, B.S.I. amendment for, 961.
in biol. materials, flame spectrophotometric, 3390, 3391.
spectrophotometric, apparatus for, 4752.
in bismuth, spectrographic, 1490.
in blood, 3851.
spectrophotometric, 2064.
in cast iron, spectrographic, 576.

**Magnesium,** determination—*continued*
in cement, slag and soil, atomic absorption spectrophotometric, 3606.
in ferromanganese slags, 4497.
in fertilisers, 3055.
in gypsum, 4498.
in high-manganese welding fluxes, 2774.
in leaves, 343.
in limestone, slags, dolomite and magnesite, 3181, 3182.
in manganese ores, 4499.
in minerals, 2773.
atomic-absorption spectrophotometric, 3606.
in muscle, 5114.
in natural water, 950.
in nickel, spectrographic, 1552.
in plants, spectrophotometric, 1662, 4753.
in presence of Ca and Mn, 4500.
of Fe and Al, 1400.
in rat liver, 719.
in rubber, 3845.
in serum, 224, 2546, 3390.
by cathode-ray polarography, 3852.
spectrophotometric, 226, 2064.
in slag, 1859, 3181, 3182, 3606, 4497.
from the manufacture of uranium, 944.
in sodium hydroxide, 1858.
in urine, 224, 227.
atomic absorption spectrophotometric, 4754.
spectrophotometric, 2064.
in zinc alloys, 1401.
in zirconium, spectrophotometric, 4566.
of Al in, spectrofluorimetric, 3622.
of O in, 3600.
potentiometric, 3134.
radiochemical, 4452.
intracellular, automatic determination, 2544.
organic deriv. of, determination, gas chromatographic, 4708.
separation from Li, Na and K, thin-layer chromatographic, 4935.
from other metals, by ion exchange, 4048.
from plasma, serum and urine, by ion exchange, 5118.
X-ray emission spectrography of, 3105.
**Magnesium alloys,** analysis of Mg - Al, spectrographic, 3607.
determination of Al in, amperometric, 1877.
of Ca in, spectrophotometric, 1403.
of Ce in, photometric, 4539.
of Fe in, 5016.
of Mn in, spectrophotometric, 2861.
of O in, 1856.
of Th and Zr in, 1402.
of Zr in, spectrophotometric, 1459, 4560.
in Mg - Al, spectrophotometric, 3222.
**Magnesium aluminium silicate,** determination, of Mg and Al in, 2632.
**Magnesium fluoride,** determination, spectrographic, 40.
**Magnesium oxide,** determination, in slag from the manufacture of uranium, 944.
in steel, photometric, 4651.
**Magnesium oxychloride,** for pigments, B.S.I. specification for, 3761.
**Magnesium perchlorate,** determination of water of hydration in, 2306.
**Magneson.** (See *Reagents, organic.*)
**Magnets,** analysis of, 3562.
**Magnox A12,** determination of H in, 3180.
of O in, 1856.
**Maize,** analysis of carotenoids in, spectrophotometric, 3960.

**Maize**—*continued*
determination of quaternary ammonium compounds in, by ion exchange, 740.
**Maize oil,** analysis of volatiles of, gas chromatographic, 1716.
determination of sterculic acid in, spectrophotometric, 3034.
**Malachite green,** detection, polarographic, 3828.
i.r. spectrum of, 317.
**Malathion,** determination, gas chromatographic, 1751.
in cereals and oil seeds, spectrophotometric, 3061.
**Maleate,** determination, gas chromatographic, 5101.
**Maleic acid,** determination, 3326.
**Malic acid,** detection, paper chromatographic, 2011.
determination, in presence of citric acid, 649.
**Malonaldehyde,** determination, spectrophotometric, 2911.
**Malonic acid,** diethyl ester of, separation, gas chromatographic, 2917.
separation, chromatographic, 4700.
**Malt,** analysis of, 5258.
determination of amylase in, spectrophotometric, 5288.
of anthocyanogens in, spectrophotometric, 5259.
of gibberellic acid in, fluorimetric, 5261.
of gibberellins in, by isotope-dilution analysis, 5260.
of oxidisable substances in, 5268.
of riboflavine in, 3474.
green, determination of gibberellin in, 4381.
**Malt wort,** determination of attenuation limit of, spectrophotometric, 4836.
of fermentable sugars in, paper chromatographic, 4837.
of O in, 5267.
**Maltol.** (See *3-Hydroxy-2-methylpyran-4-one.*)
**Maltose,** determination, 3778.
separation, from glucose, by ion exchange, 2471.
**Maltotriose,** determination, in starch hydrolysate, chromatogradhic, 4348.
**Mammary gland,** determination of lactose in, 4288.
**Mandelic acid,** determination, 428.
**Maneb,** determination, in plants, 4389.
paper chromatography of, 1277.
**Manganate,** titration of, 427.
**Manganese,** determination, 564, 565, 1532, 1860, 1861, 2859, 4057, 4475.
amperometric, 4633.
in air, polarographic, 5279.
in beryllium, by radioactivation analysis, 4947.
in biol. tissue, spectrophotometric, 1144.
in bismuth, 4136.
in bronze, 1952.
spectrophotometric, 2861.
in calcium superphosphate, spectrographic, 3965.
in ferrite, polarographic, 3561.
in fertilisers, 3055.
influence of diverse ions on, 5012.
in iron alloys, 2860, 2874.
in magnesium alloys, spectrophotometric, 2861.
in minerals, polarographic, 1039.
in organic compounds, 1997.
in petrol, polarographic, 195.
spectrophotometric, 3355.
in plants, 4389.
in presence of Al and Ni, 1374.
of Ca and Mg, 4500.
of Fe, 570.
and Al, 4634.
in rocks, by neutron-activation analysis, 3175.
**Manganese,** determination—*continued*
in silicomanganese, spectrographic, 974.
in slag, 4635.
in steel, 2874.
spectrophotometric, 2861.
X-ray spectrographic, 583.
in welding alloys, spectrographic, 1372.
of gases in, 3574.
of Zn in, polarographic, 2407.
polarographic, 563.
spectrophotometric, 127, 409, 2861, 2883, 35
extraction of, 3276.
isotopes of, determination, in meteorites, 5032.
separation, from biol. materials, paper chromat graphic, 3400.
from Ca and Mg, in welding fluxes, 2774.
from Fe, by ion exchange, 1352.
**Manganese alloys,** determination of Cu in Cu - M 4487.
**Manganese bronze,** determination of Mn in, 1952.
**Manganese ethylene-1,2-bisdithiocarbamate.** (S *Maneb.*)
**Manganese ores,** analysis of, 3717.
determination of Al and Fe$^{III}$ in, 1953.
of Ca and Mg in, 4499.
of Cu in, 4446.
of Fe$^{III}$ in, 1953.
of O in, 3277.
of Zn in, polarographic, 2407.
**D-Mannitol,** determination, coulometric, 2888.
**Mannose,** determination, in cellulose, spectrophot metric, 2952.
gas chromatography of, 1076.
**Margarine,** detection of sorbic acid in, spectrophot metric, 2645, 3026.
determination of benzoic acid in, spectrophot metric, 319.
of sorbic acid in, spectrophotometric, 319, 21
**Marihuana.** (See *Cannabis.*)
**Marmalade,** determination of $SO_2$ in, 5256.
**Mass spectrometer,** double focusing, 2728.
for the isotopic analysis of Li, 4028.
improved, 2731.
**Mass spectrometry,** accuracy in, 3558.
application of the "ionisation-peaks" method i 3561.
to organic analysis, 2729, 3300.
determination of total ionisation by, 3559.
least-square treatment of data obtained by, 91
liquid-sampling device for, 4027.
problems of, 898.
review of progress in 1960, 2264.
sample interchange in, 1334.
loading technique for, 1335, 1818.
secondary ion-processes in, 898.
solids-inlet system for, 4440.
surface-ionisation, K-free tungsten filament fo 2730.
use of, for gas-solubility measurements, 3561.
**Measurement of liquids,** errors in, 2267.
**Meat,** canned, detection of preservatives in, 320.
determination of lysine in, 1717.
of nitrate in, 1233.
poultry, determination of amino-acids in, 12
**Meat products,** detection of polyphosphates in, 14
determination of nitrate in, 1233.
**Mecoprop.** [See *2-(4-Chloro-2-methylphenoxy)pr pionic acid.*]
**Melamine,** determination, potentiometric, 1105.
**Melibiose,** separation, from raffinose, by ion e change, 2471.
**Melleril.** (See *Thioridazine.*)

**lting-point,** automatic recorder for, 3506.
determination, apparatus for, 850.
of polymers, determination, apparatus for, 4401.
**nhaden oil,** analysis of, thin-layer chromatographic, 3481.
**peridine,** separation, from promethazine, electrophoretic, 4810.
**phenesin,** determination, 293.
**probamate,** determination, 293.
in serum and plasma, 3859.
**pyramine,** determination, 4814.
**pyrium.** (See *Amprolium.*)
**rcaptans.** (See *Thiols.*)
**rcaptoacetic acid,** determination, 4706.
**Mercaptobenzimidazole,** detection, in rubber, chromatographic, 2941.
**rcaptobenzothiazole,** detection, 419.
determination, 3348.
**Mercaptoethanol,** determination, amperometric, 4210.
**rcapto-groups,** determination, 2000.
amperometric, 3772. 4210,
in amino-acids and proteins, 3771.
in keratins, 757.
**rcaptopropionic acid,** determination, 4706.
spectrophotometric, 1610.
**rcaptosuccinic acid,** determination, 4706.
spectrophotometric, 1610.
**rcaptothiamine,** determination, polarographic, 2622.
**rcury,** detection, 1415, 4035.
by radioactivation, 1820, 2782.
in biol. materials, 4345.
determination, 52, 53, 1416, 1417, 1871, 2317, 3196, 4055, 4454, 4952.
amperometric, 4514.
heterometric, 3195.
in apples, spectrophotometric, 1721.
in fruit and coffee, 1267.
in organic compounds, 153, 3302.
in paper, by radioactivation, 2523.
in pesticides, 5292.
in presence of Cd and Zn, 2314.
of Fe, 2316.
of Tl, amperometric, 956.
in quartz, 2805.
in rocks and soil, spectrophotometric, 4953.
in selenium, spectrophotometric, 4607.
in vinyl esters, 2052.
of $Hg^{I}$, 1416.
of $Hg^{II}$, 53, 3196.
by thermometric titration, 4507.
coulometric, 439.
in mixtures, potentiometric, 2318.
potentiometric, 54.
of mixtures of $Hg^{I}$ and $Hg^{II}$, 55.
of Se in, X-ray spectrographic, 1580.
potentiometric, 468.
radiometric, 1370.
spectrophotometric, 1418, 2783, 4089.
xtraction of $Hg^{2+}$, 2285, 2768.
eparation, by ion exchange, 4458.
from Ag and Pb, paper chromatographic, 443.
of $Hg^{2+}$ from other ions, by ion exchange, 4048.
from $Ag^{+}$ and $Pb^{2+}$, electrophoretic, 1373.
paper chromatographic, 4053.
**ccury, organic compounds of,** determination of C, H and Hg in, 3302.
**comyosins,** determination, spectrophotometric, 1186.
**sidicaine,** determination, spectrophotometric, 2620.
**socaine.** (See *Mesidicaine.*)
**adrenaline.** (See *Adrenaline, 3-methoxy-.*)

**Metals,** analysis of, use of emission and mass spectroscopy in, 898.
detection, in drugs, electrophoretic, 303.
determination of C, H, N and O in, review, 4466.
of gases in, 1341, 2746, 3573, 3574, 4058.
apparatus for, 4870.
electrolytic, 1826.
gas chromatographic, 3993.
Proceedings of Symposium on, 1960, London, 1341.
spectrographic, 1341, 4468.
of H in, 17, 924.
of metal oxide in liquid, apparatus for, 5333.
of N in, 1906.
of O in, 4599.
review, 1341.
spectrophotometric, 4463.
dithizonates of, determination of mol. extinction coeff. of, 2749.
extraction of 1-(2-pyridylazo)-2-naphthol chelates of, 1362.
identification, 4924.
measurement of thin layers of, X-ray spectrographic, 143.
paper electrophoresis of, as sulphates, 4462.
rare, increasing sensitivity in spectrography of, 4419.
separation and identification, by ring-oven method, 4923.
successive radiometric titration of pairs of, 3579.
trace, catalytic determination of, 3577.
**Metanephrine.** (See *Adrenaline, 3-methoxy-.*)
**Metanoradrenaline.** (See *Noradrenaline.*)
**Meteorites,** determination of Cs in, spectrographic, 1839.
of heavy elements in, by activation analysis, 1987.
of isotopes of Ni, Co, Mn, Cr and V in, 5032.
of Pb in, photometric, 488.
of Ni in, by the electron-probe method, 2445.
of K in, by isotope dilution, 5031.
of radioactivity of, 1986, 3758.
of Ru in, spectrophotometric, 596.
of Sc in, $\gamma$-spectrometric, 2333.
of Se and Te in, 1932.
of Ta and W in, by neutron-activation analysis, 98.
of V in, by neutron-activation analysis, 2378.
**Methacrylamide,** separation, from methyl methacrylate monomer, 4744.
**Methacrylate,** determination, polarographic, 5100.
**Methacrylic acid,** detection, paper chromatographic, 2011.
separation, from methyl methacrylate monomer, 4744.
**Methadone,** determination, 1712.
spectrophotometric, 3449.
**Methaemoglobin,** determination, in blood, spectrophotometric, 1160.
**Methane,** analysis of mixtures with H, gas chromatographic, 2425.
determination, gas chromatographic, 3087, 3572, 4465.
in air, continuous, apparatus for, 4398.
interferometer for, 3120.
of combustible substances in, apparatus for, 3505.
i.r. absorption spectrum of, 1583.
**Methanethiol,** detection, 419.
determination, fluorimetric, 4705.
**Methanol,** analysis of, i.r. spectrographic, 3841.
u.v. photometer for, 1990.
determination, 4691.
in blood and urine, spectrophotometric, 2967.

**Methanol,** determination—*continued*
  in ethanol, spectrophotometric, 2004.
  in spirits, gas chromatographic, 3945.
    spectrophotometric, 2163.
  spectrophotometric, 2900.
 identification, 2465.
**Methionine,** determination, in feeding-stuffs, 1266.
**Methotrimeprazine,** identification, 3011.
**3-Methoxyadrenaline.** (See *Adrenaline, 3-methoxy-*.)
**Methoxychlor,** determination, in milk, spectrophotometric, 1720.
**Methoxyl groups,** determination, in pectin, 5047.
  simultaneously with ethoxyl groups, apparatus for, 3311.
**3-Methoxynoradrenaline.** (See *Noradrenaline, 3-methoxy-*.)
**2-Methoxyphenoxybutyric acid,** determination, in weed-killers, gas chromatographic, 2672.
**Methyl chloride,** determination, spectrophotometric, 2897.
**Methyl *p*-hydroxybenzoate,** thin-layer chromatography of, 3074.
**Methyl methacrylate,** determination of dimethylaniline and dimethyl-*p*-toluidine in, 1124.
 identification, gas chromatographic, 3376.
 monomer, separation of methacrylamide and methacrylic acid from, 4744.
**Methyl 1-naphthylacetate,** determination, in potatoes, spectrophotometric, 4864.
**Methyl oleate,** gas chromatography of, 854.
**Methyl phenidate,** determination, spectrophotometric, 4341.
**Methyl violet,** detection, polarographic, 3828.
***N*-Methylacetamide,** use of, as non-aq. solvent in polarography, 4428.
***p*-Methylaminophenol,** determination, amperometric, 1096.
**2-Methylaminopropane-1,3-diol,** effect of, on determination of chloride, 559.
**Methylarbutin,** determination, in bearberry leaves, spectrophotometric, 5157.
**α-Methylbenzhydrol,** determination, 674.
**α-Methyl-*p*-bromobenzhydrol,** determination, 674.
**2-Methylbutan-1-ol,** separation, gas chromatographic, 4217.
**α-Methylcrotonic acid,** detection, chromatographic, 2011.
**5-Methylcytosine,** oscillopolarographic study of, 2985.
 separation, 5179.
**Methylene groups,** determination, apparatus for, 4686.
**Methylfluorone.** (See *Reagents, organic*.)
**Methylguanidine,** determination, in plasma, 5180.
**Methylionone,** separation, gas chromatographic, 4217.
***N*-Methylisoquinolinium iodide,** determination, 5068.
***N*$^1$-Methylnicotinamide,** separation, chromatographic, 2586.
**3-Methyl-2-oxobutyric acid,** determination, in blood, 5150.
**3-Methyl-2-oxovaleric acid,** determination, in blood, 5150.
**4-Methyl-2-oxovaleric acid,** determination, in blood, 5150.
**2-Methylphenoxyacetic acid,** determination, in weed-killers, gas chromatographic, 2672.
**2-Methylphenoxypropionic acid,** determination, in weed-killers, gas chromatographic, 2672.
***N*-(1-Methyl-2-phenylethyl)-3,3-diphenylpropylamine,** determination, in serum and urine, spectrophotometric, 2132.
**(1-Methyl-2-pyrrolidyl)methyl benzilate.** (See *Poldine methosulphate*.)
**α-Methylstyrene,** determination, 5076.
***N*-Methylthiourea,** deriv. of, determination, 2491.
**2-Methyl-5-vinylpyridine,** determination of 5-ethy
  2-methylpyridine in, spectrophotometric, 202
**Metronidazole,** (*Flagyl*), determination, polaro
  graphic, 3909.
**Mica,** determination of F in, photometric, 1948.
  of K in, flame photometric, 1838.
  of Rb and Cs in, flame photometric, 4068.
**Microbiological assays,** review of progress in 196
  2264.
**Microchemical analysis.** (See also *Analytica*
  *Chemistry*.)
 progress in, review, 1340.
 review of progress in the 18th and 19th century
  1338.
 terminology of, 2733.
**Milk,** analysis of, 2638.
 detection of formaldehyde in, 3934.
  of quaternary ammonium compounds in
   paper chromatographic, 3928.
 determination of antibiotics in, 3927.
  of $^{140}$Ba and $^{137}$Cs in, by β- counting, 2063.
   by γ-counting, 1227.
  of Cl$^-$ in, 5251.
   potentiometric, 2143, 3925.
  of citric acid in, 3929.
  of fat in, 1224, 1225, 1226.
   accuracy of Babcock test for, 1223.
   role of amyl alcohol in, 3079.
  of fatty acids in, gas chromatographic, 1718.
  of fluoral and uranin in, spectrophotometric
   4351.
  of F$^-$ in, spectrophotometric, 1719.
  of heptachlor in, spectrophotometric, 1240.
  of $^{131}$I in, 3926, 4759.
   by γ-counting, 1227, 2144.
  of methoxychlor in, spectrophotometric, 1720
  of non-casein proteins in, electrophoretic, 3021
  of phosphatase and phosphomonoesterase
   activity in, 3924.
  of K in, 5249.
  of proteins in, 2145.
   review, 2146.
   spectrophotometric, 312.
  of quality of, microbiological, 3923.
  of solids in, 797, 2639, 2640.
  of $^{90}$Sr in, 2063, 5250.
  of terramycin in, 3927.
  of volatile acids in, paper chromatographic,
   3020.
 hydrometers for, B.S.I. specification for, 1766.
 separation of proteins in, electrophoretic, 798.
 skim, determination of fat in, apparatus for, 2710.
**Milk, evaporated,** determination of sucrose in, 2147.
**Milk powder,** determination of moisture in, 3022.
 skim, determination of total solids in, 2641.
**Milk products,** determination of fat in, 1224.
**Minerals,** analysis of, X-ray spectrographic, 4672.
 determination of Ba in, 1408.
  of Cs in, flame photometric, 3167.
  of Ca and Mg in, 2773.
  of Cr in, 4154.
  of Cu, Zn and Co in, X-ray spectrographic, 144.
  of Eu in, polarographic, 479.
  of Au in, spectrographic, 2770.
  of the $^2$H : H ratio of, mass spectrometric, 2442.
  of Fe and Mn in, polarographic, 1039.
  of Li, K, Na and Rb in, spectrographic, 445.
  of Mg in, atomic absorption spectrophotometric,
   3606.
  of N in, 4989.
  of O in, 129, 2382.

**erals,** determination—*continued*
of silica in, spectrophotometric, 69, 483.
of Th in, X-ray spectrographic, 2819.
of W and Mo in, spectrographic, 1508.
of U in, fluorimetric, 5004.
  X-ray spectrographic, 2847.
of V in, spectrophotometric, 3682.
of Zr in, 4981.
  photometric, 3661.
ochemical studies of, spectrographic, 3562.
entification, review of methods, 2439.
**mycin,** A- and C-, differential assay of, 3901.
**ed fusion analysis,** use of, 1094.
**sture,** determination, apparatus for, 2714.
in bread and dough, 3469.
in dates, 4353.
in sand, 3557.
  automatic, apparatus for, 4196.
in soil, 3557.
**asses,** determination of ferrocyanide ion in, 1222.
of raffinose in, paper chromatographic, 1221.
**ecular weight,** determination, 3299.
apparatus for, 3502.
thermoelectric, 5035.
**bdate,** determination, 4611.
**bdenite,** determination of Ge in, 485.
**bdenum,** complex of $Mo^{VI}$ with catechol, 111.
etermination, 106, 107, 110, 1014, 3252, 3560, 3698, 4057, 4160.
amperometric, 1937.
in beryllium, by radioactivation, 4947.
in fertilisers, 3055.
in granite, polarographic, 4610.
in iron alloys, 1936.
in minerals, spectrographic, 1508.
in presence of Pb, photometric, 2349.
  of W, spectrophotometric, 1510.
  of U, polarographic, 546.
in sea water, 4378.
in soil, 1255.
in steel, 3738.
in tungsten, spectrophotometric, 2841.
in uranium alloys, spectrophotometric, 3264.
in uranium, spectrophotometric, 5008.
of As in, 3675.
of Cd, Sb, Bi, Pb and Sn in, spectrographic, 3701.
of C in, potentiometric, 68.
of Fe in, polarographic, 3253.
of $Mo^{VI}$, photometric, 3561.
of $^{99}Mo$, radiochemical, 3700.
of N in, 3702.
of O in, 3562, 3702.
of $SiO_2$ in, 3703.
of Th in, radiochemical, 1469.
polarographic, 1506.
potentiometric, 108, 1507.
spectrophotometric, 109, 409, 1505, 3251, 3699, 4158, 4159, 4999.
aration, from As and W, by ion exchange, 3561.
from steel, by ion exchange, 3727.
**denum alloys,** determination of B in, spectrophotometric, 2787.
of Mo in, spectrophotometric, 1509.
**denum carbide,** determination of C in, 4161.
**denum(VI) oxide,** determination of surface cidity of, potentiometric, 112.
**odic acid,** determination, 5000.
**odogermanic acid,** determination, polarographic, 4162.
**zite,** analysis of, by γ-scintillation spectrometry, 1565.
ermination of Pr in, spectrophotometric, 3637.

**Monazite,** determination—*continued*
  of Th in, 1462, 4572.
    by ion exchange, 1468.
**Monomers,** acrylic, determination, spectrophotometric, 712.
  methyl methacrylate, separation of methacrylamide and methacrylic acid from, 4744.
**Monosaccharides,** diethylmercaptals of, separation, paper chromatographic, 5144.
  separation, by ion exchange, 2471.
**Monzonite,** determination of Ce in, spectrophotometric, 1436.
**Morphine,** deriv. of, identification, spectrophotometric, 5234.
  determination, in opium, 772.
    paper chromatographic, 3888, 4812.
  in suppositories, 3444.
  spectrophotometric, 2603.
**Mortars,** errors due to impurities from, 3064.
**Mucopolysaccharases,** assay of, spectrophotometric, 4803.
**Mucopolysaccharides,** identification, 2077.
**Mucoproteins,** determination, in serum, 5201.
**Muscle,** determination of hexose phosphates in, fluorimetric, 1152.
  of inorg. constituents in, 2966, 5114.
  skeletal, determination of $H_2O$, Na, K, chloride and fat in, 5113.
**Must,** simultaneous determination of tartaric and lactic acids in, spectrophotometric, 5269.
**Mustard,** detection of sorbic acid in, spectrophotometric, 3026.
  determination of allyl isothiocyanate and allylthiourea in, amperometric, 3798.
**Mustine hydrochloride,** (*nitrogen mustard*), detection, paper chromatographic, 792.
**Myoinositol,** determination, in biol. fluids and tissues, chromatographic, 2562.
**Myosin,** determination, spectrophotometric, 1186.

**N**

**Nabam,** paper chromatography of, 1277.
**Nagyagite,** separation of elements in, paper chromatographic, 2750.
**Naphazoline,** determination, spectrophotometric, 785, 3908.
**Naphthalene,** determination, in town gas, 2946.
  of anthracene in, photometric, 4247.
  of thionaphthen in, chromatographic, 1618.
  2-methyl, separation, from thionaphthen and naphthalene, gas chromatographic, 693.
  separation, from thionaphthen and 2-methylnaphthalene, gas chromatographic, 693.
**Naphthalenesulphonic acids,** separation, chromatographic, 683.
**1,4-Naphthaquinone,** detection, 1638.
**Naphthenes,** separation, from paraffins, and identification, 3817.
**Naphthionic acid,** determination, spectrophotometric, 186.
**Naphthochrome azurine B.** (See *Dyes*, C.I. Mordant Blue 28.)
**Naphthol,** 1- and 2-, determination, in binary mixtures, i.r. spectrophotometric, 185.
**Naphthol yellow S.** (See *Dyes*, C.I. Acid Yellow 1.)
**Naphtholsulphonic acids,** 2-, separation, chromatographic, 3814.
**Naphthylamine,** 1- and 2-, determination, spectrophotometric, 4717.
  2-, determination, coulometric, 2888.
**1-Naphthylamine-4-sulphonic acid.** (See *Naphthionic acid.*)

**2-(2-Naphthyloxy)ethanol,** determination, in Anavenol, potentiometric, 684.
**Narcotine,** determination, spectrophotometric, 2603.
**Naringin,** determination, spectrophotometric, 3421.
**Natural gas,** determination of He in, use of neon as eluent, gas chromatographic, 2292.
  separation of COS from, gas chromatographic, 4254.
  use of, in laboratories, 4865.
**Neodymium,** determination, flame photometric, 1430.
    X-ray emission spectrographic, 1432.
  separation, chromatographic, 966.
    from soln. containing Al, 4928.
**Neodymium fluoride,** absorption spectrum of, 2336.
**Neomycin,** assay of, microbiological, 4819.
**Neon,** determination, gas chromatographic, 19.
**Nepheline,** determination of Ga in, spectrophotometric, 471.
**Nephelometry,** floating comparator for, 4902.
  method for, 4908.
**Neptunium,** determination, in plutonium, 2270.
    in uranium, 119.
  separation, from plutonium, 550.
**Nervous tissue,** determination of glycosphingosides in, 5164.
**Neutron absorptiometry,** indirect, application to determination of common elements, 2726.
**Neutron-activation analysis.** (See *Radioactivation analysis.*)
**Nickel,** analysis of high-purity, 1551.
    of Fe - Ni films, 571.
  anodic stripping of, 1049.
  atomic and mol. band spectra of, 2877.
  co-pptn. of, with Zn, 2434.
  determination, 450, 1047, 1417, 1549, 1550, 2432, 2755, 2881, 3745, 4057, 4186, 4662, 4663.
    amperometric, 2882.
    by ion exchange, 4473.
    chronopotentiometric, 2752.
    flame spectrophotometric, 3578.
    in aluminium, spectrophotometric, 1883.
    in beryllium, by radioactivation analysis, 4947.
    in brine, spectrographic, 1830.
    in copper alloys, B.S.I. method for, 3173.
      spectrophotometric, 4665.
    in electroplating soln., spectrophotometric, 4666.
    in ferrite, polarographic, 3561.
    in fertilisers, 3055.
    in high-alloyed industrial materials, 3562.
    in indium, spectrophotometric, 1883.
    in iron, spectrophotometric, 4644.
    in laterite and soil, 831.
    in magnetic alloys, 4187.
    in meteorites, by the electron-probe method, 2445.
    in nickel alloys, 3291.
    in oils, X-ray spectrographic, 1111.
    in petroleum, 3356.
      spectrophotometric, 1642, 3820.
      X-ray emission spectrographic, 4724.
    in petroleum products, spectrographic, 2036.
    in plants, 4389.
    in presence of Al and Mn, 1374.
      of Pd, 5028.
    in selenium, by neutron-activation analysis, 4152.
    in sodium hydroxide and hypochlorite, 4064.
    in steel, 3291.
      spectrophotometric, 4644.
    in uranium, spectrographic, 4624.
      spectrophotometric, 4667.
    in welding alloys, spectrographic, 1372.
**Nickel,** determination—*continued*
    in Zircaloy, polarographic, 495.
    of Cd in, by ion exchange, 136.
    of C in, potentiometric, 68.
    of Co in, 4657.
      amperometric, 1547.
      photometric, 593.
      spectrophotometric, 5026
    of Cu in, 4668.
      spectrophotometric, 3292, 5026.
    of Fe in, spectrophotometric, 5026.
    of Mg in, spectrographic, 1552.
    of NiO and $NiF_2$ in, by X-ray diffraction, 41
    of Zn in, polarographic, 1868.
    paper chromatographic, 3154.
    spectrophotometric, 409, 1048, 1050, 13
      2433, 2880, 2883, 3580, 4660, 5025.
  extraction of, from HCl soln., 1970, 3582.
  isotopes of, determination of X-ray activities in meteorites, 5032.
  separation, from Co and Cu, paper chroma
      graphic, 4926.
    from Fe and Co, 1368.
      paper chromatographic, 4046.
    from other elements, by ion exchange, 4048.
    from zinc sulphate, chromatographic, 4459.
    of Co from, 2430, 2431.
    of Ag from, by ion exchange, 457.
**Nickel alloys,** analysis of, spectrographic, 3623.
  determination of B in, spectrographic, 1874.
      spectrophotometric, 1421.
    of Cu in Cu - Ni, 4487.
    of Ni in, 3291.
    of Zr in, 3227.
  phase analysis of, 4664.
    of Ni - Be, electrolytic, 4188.
**Nickel fluoride,** absorption spectrum of, in mol
    fluorides, 441.
**Nickel hydroxide,** i.r. spectrophotometry of, 3118
**Nickel ores,** determination of Cu in, 4446.
**Nickel oxide,** determination, in nickel, by X-
    diffraction, 4189.
**Nicotinamide,** determination, 783.
    in cereals, 4371.
    spectrophotometric, 817, 1246.
  separation, chromatographic, 2586.
    from other vitamins, chromatographic, 332.
**Nicotinamidomethanol,** determination, spect
    photometric, 3910.
**Nicotine,** tritiated, determination, paper chroma
    graphic, 1705.
**Nicotinic acid,** assay of, in blood and urine, mic
    biological, 2558.
  detection, spectrofluorimetric, 2998.
    of Se in, by neutron-activation analysis, 35
  separation, chromatographic, 2586.
**Nicotinyl alcohol,** determination, spectrophot
    metric, 3910.
**Nihydrazone,** determination, in feeding-stuffs, sp
    trophotometric, 3967.
**Nile blue.** (See *Dyes*, C.I. Basic Blue 12.)
**Ninhydrin,** improved formula for reagent, 3990.
**Niobium,** analysis of gases in, apparatus for, 3243
    of mixtures of $^{95}$Nb and $^{95}$Zr, by liquid scintil
      tion spectrometry, 79.
  determination, 517, 3683, 3685.
    by ion exchange, 4140.
    by isotope dilution, 3242.
    in cast iron, 4180.
    in ores, 4994.
      spectrographic, 4141.
    in steel, polarographic, 2930.
      spectrophotometric, 3737.
    in tantalite - niobite, spectrographic, 1003.

**um,** determination—*continued*
n tantalum oxide, polarographic, 3241.
n titanium ores and dioxide, polarographic, 515.
n titanium, spectrographic, 75.
n uranium alloys, spectrographic, 2399.
spectrophotometric, 3264.
n zirconium alloys, polarographic, 1916, 4457.
f $^{95}$Nb, by $\gamma$-counting, 4993.
f other elements in, spectrographic, 3581, 4142.
pectrographic, 3562, 3684.
pectrophotometric, 409, 4139, 4493, 4597, 4930.
n. of, as oxinate, 4595.
aration, from Ta, by ion exchange, 4596.
chromatographic, 516.
rom Ta, Ti and Zr, 1493.
rom Ti, by ion exchange, 4596.
of $^{95}$Nb from other fission products, by ion exchange, 2270.
from $^{95}$Zr, radiochemical, 1457.
eview of methods of, 1002.
**um alloys,** determination of B in Zr-Nb, spectrophotometric, 4516.
of Pb, Bi, Sn and Cd in, 4142.
of W in, 1015.
of Zr in, amperometric, 2356.
**um carbide,** determination of V in, spectrophotometric, 1000.
**um chloride,** determination of Th in, spectrophotometric, 2362.
**um hydroxide,** determination of Th in, spectrophotometric, 2362.
**um nitride,** analysis of, 1829.
**um oxides,** determination of Al and Si in, spectrographic, 4995.
f $Nb_2O_5$, in presence of $Ta_2O_5$, 3686.
f Th in, spectrophotometric, 2362.
f V in, spectrophotometric, 1000.
K-ray emission spectrographic, 2290.
**um pentachloride,** gas chromatography of, eview, 4047.
**um phosphates,** identification, 4143.
**ilic acid,** reactions with alkali metals, 4447.
**e,** determination, 2366, 2825, 3561, 4579.
ontinuous, automatic, in urine, 896.
n biol. materials, polarographic, 2961.
n chromic acid, 1013.
n electroplating soln., 3762.
n food products, polarographic, 1234.
n meat and meat products, 1233.
n natural water, 2176.
spectrophotometric, 4850, 4851.
n plants, 2667.
n presence of nitrite, u.v. spectrophotometric, 2367.
n sodium nitrite, 1476.
olarographic, 4120.
ource of error in, 991.
pectrophotometric, 1475.
spectrum of, 1363.
**acid,** determination, 4732.
Al in, 4098.
**esters,** determination, in propellents, 2534.
**oxide,** determination, in gases, 3572, 4576.
ration from N, gas chromatographic, 3232.
**es,** determination, in metals, 1341.
**s.** (See also under individual cyanides.)
ysis of, gas chromatographic, 655.
, determination, 503, 1477, 2366.
plants, 2667.
presence of nitrate, u.v. spectrophotometric, 2367.
olarographic, 4120.

**Nitroalkanes,** determination, gas chromatographic, 2898.
**Nitrobenzene,** analysis of, u.v. photometer for, 1990.
deriv. of, detection, 1635.
determination, in air, 2661.
separation, chromatographic, 2509.
**Nitrobutane,** separation, from nitropropane, 3561.
**Nitrocellulose,** detection, in paints, 5107.
**Nitrochalk,** determination of N in, 4384.
**Nitro-compounds,** aliphatic, u.v. absorption of, in presence of a base, 2490.
determination, 3791.
in propellents, 2534.
poly-, detection and determination, spectrophotometric, 2932.
**Nitrocyclohexane,** determination, in industrial wastes, polarographic, 2178.
polarographic, 1098.
**5-Nitro-2-furaldehyde acetylhydrazone.** (See *Nihydrazone.*)
**Nitrofurazone,** determination, 300.
in chicken tissue, 2670.
in feeding-stuffs, 3970.
spectrophotometric, 348.
**Nitrogen,** amide-, determination, in wool, 155.
amino-, determination, in urine, plasma and serum, 5181.
analysis of, gas chromatographic, 4465.
detection, in inert gases, 1905, 2284.
in organic compounds, 1573, 4208.
determination, apparatus for, 2217, 3305.
for prep. of air-free $CO_2$ for use in, 5301.
by ion exchange, 4683.
by Kjeldahl method, 4206.
automatic, 896.
in proteins, 756.
gas chromatographic, 3087, 4207, 5044.
in ammonia, 1907.
in boron nitride, 83.
in calcium, spectrophotometric, 1405.
in coal, 4258.
in faeces, 3394.
in fertilisers, 1259, 1261, 1262, 3055.
in gases, 1365, 3572.
in iron and steel, 3730.
by isotope dilution, 1341.
gas chromatographic, 3728.
in leaves, 343.
in metals, 1906, 3575.
gas chromatographic, 3993.
report of symposium on, 1341.
review, 4466.
spectrographic, 1341, 4468.
in molybdenum and chromium, 3702.
in nitrochalk, 4384.
in organic compounds, 148, 154, 607, 608, 609, 610, 611, 1575, 1576, 3764, 4682.
combustion flask for, 3985.
spectrophotometric, 4681.
in plant material, spectrophotometric, 418.
in plutonium, 2270.
in propellents, 2534.
in rocks and minerals, 4989.
in silicate rocks, 2443.
in soil, 2197.
spectrophotometric, 4383.
in steel, 133, 1043, 1965, 3730.
gas chromatographic, 3728.
spectrographic, 3284.
in titanium, 1826.
spectrographic, 898.
in titanium carbide and boride, photometric, 3220.
in uranium, spectrophotometric, 1944.

- **Nitrogen,** determination—*continued*
  - in urine, 3393.
  - in vanadium, electrolytic, 1826.
  - in vinyl cyanide - 5-vinyl-2-picoline copolymer, 4269.
  - in Zircaloy, 4118, 4984.
  - in zirconium, 1826, 1944, 4118, 4984.
  - of $^{15}$N, spectrographic, 81.
  - photometric, 1577.
  - isotopic analysis of, photometric, 2823.
  - liquid, level filler control for, 1772.
  - organic, determination, in natural water, 4852.
  - separation, from Ar and O, gas chromatographic, 442.
    - from O, in anaesthetics, gas chromatographic, 302.
  - urea-, determination, in serum, spectrophotometric, 4768.
- **Nitrogen mustard.** (See *Mustine hydrochloride.*)
- **Nitrogen oxides,** analysis of, gas chromatographic, 1819.
    - mass spectrometric, 2365.
  - determination, 4869.
    - of NO$_2$, apparatus for, 4577.
  - separation of N$_2$O from CO$_2$ and O, in anaesthetics, gas chromatographic, 302.
- **Nitroglycerin,** analysis of, cathode-ray polarographic, 2535.
  - separation, chromatographic, 2536.
- **Nitromethane,** determination, 657.
  - in fuel, 2039.
- **Nitroparaffins,** analysis of, chromatographic - polarographic, 3561.
  - determination, 656.
- **Nitrophenols,** a.c. polarography of, 4712.
  - deriv. of, detection, 4699.
  - extraction of, from aq. soln., 3810.
  - *o*- and *p*-, detection, 682.
  - separation, by ion exchange, 670.
  - sublimation data for, 3765.
- **5-*p*-Nitrophenylazosalicylic acid,** polarography of, 2025.
- **Nitropropane,** determination, 4226.
  - separation, from nitrobutane, 3561.
- **Nitroprusside,** determination, spectrophotometric, 5017.
- **1-Nitroso-2-naphthol,** determination, radiometric, 4037.
- **Nitrosyl chloride,** analysis of, in gas mixtures, apparatus for, 4577.
- **4-Nitro-3-trifluoromethylphenol.** (See *3-Trifluoromethyl-4-nitrophenol.*)
- **Nitrous acid.** (See also *Nitrites.*)
  - detection, 84.
  - determination, spectrophotometric, 3670.
- **Nonanol,** determination, in potatoes, spectrophotometric, 834.
- **Noradrenaline.** (See also *Catecholamines.*)
  - determination, 3917.
- **Noradrenaline, 3-methoxy-,** (*metanoradrenaline*) (*normetanephrine*), detection, in urine, paper chromatographic, 1682.
  - determination, in urine, spectrophotometric, 743.
- **Nordihydroguaiaretic acid,** determination, in lard, 1235.
  - in oily vitamin prep., 307.
- **Novazin,** determination, spectrophotometric, 294.
- **Nuclear fast red.** (See *Dyes,* C.I. Azoic Diazo Component 5.)
- **Nuclear magnetic resonance.** (See *Spectrometry, nuclear magnetic resonance.*)
- **Nuclear reactor technology.** Proceedings of Conference, 1959. Gatlinberg, Tenn., 2270.
- **Nucleic acids.** (See also *Deoxyribonucleic acid.*)
  - analysis of, fractionating column for, 352.
  - detection, on chromatograms or electroph grams, 2585.
  - determination, 4792.
    - in plants, spectrophotometric, 3878.
    - in yeast, 322.
    - spectrophotometric, interferences in, 2106.
  - electrophoresis of, 264.
  - identification, paper chromatographic, 4309.
  - separation, paper chromatographic, 265, 5205.
- **Nucleosides,** detection, on chromatograms electropherograms, 2585.
  - determination, 2583.
- **Nucleotides,** detection, on paper chromatograms electropherograms, 2585.
  - determination, in biol. tissue, chromatograp 3435.
      - spectrophotometric, 3432.
  - poly-, column chromatography of, 3070.
  - separation, from inosin and adenosine ph phates, paper chromatographic, 2107.
- **Nuclides.** (See *Radionuclides.*)
- **Nux vomica,** determination of alkaloids in, ra chromatographic, 1192.
    - of brucine and strychnine in, 278.
    - of strychnine, in, by ion exchange, 4327.
      - chromatographic, 3445.
  - separation of alkaloids from prep. of, pa chromatographic, 3001.
- **Nylon.** (See also *Fibres, Polyamides.*)
  - analysis of, B.S.I. amendment to, 1121.
- **Nystatin,** determination, spectrophotometric, 120

O

- **Oats,** determination of the husk content of, 1722.
    - of lichenin in, 2971.
- **Octahydro-1,3,5,7-tetranitro-sym.-tetrazocine,**(*RD*
  - determination, potentiometric, 3846.
  - separation of hexahydro-1,3,5-trinitro-sym.-t azine from, paper chromatographic, 692.
- **Octane,** determination, in mixtures with hexa 3773.
- **Octopamine.** [See *2-(p-Hydroxyanilino)ethanol.*]
- **Octyl gallate,** determination, in fats, spectrophot metric, 329.
- **Octylphenoxyethanol,** determination, in petrol, i spectrophotometric, 1107.
- **Octyne,** i.r. absorption maximum of, effect of substitution on, 2001.
- **Oestradiol,** determination, 4314, 5212.
    - in urine, spectrophotometric, 3437, 4798.
    - spectrophotometric, 4313.
    - together with oestrone, in urine, spectrophot metric, 2590.
  - separation, chromatographic, 4797.
    - from oestrone and oestriol, chromatograph 2588.
    - from urine, chromatographic, 4799.
- **Oestradiol dipropionate,** determination, 4334.
- **Oestra-1,3,5(10),7-tetraen-17-one, 3-hydroxy-.** (S *Equilin.*)
- **Oestra-1,3,5(10)-triene-3,16$\beta$,17$\beta$-triol,** (*16-e oestriol*), determination, 4314, 5214.
  - separation, from urine, chromatographic, 4799.
- **Oestriol,** determination, 4314, 5212.
    - in urine, spectrophotometric, 2590, 3437, 479
    - spectrophotometric, 2589, 4313.
  - separation, from oestrone and oestradiol, chrom tographic, 2588.
    - from urine, chromatographic, 4799.

**strogens.** (See also *Steroids.*)
analysis of binary mixtures of, apparatus for, 3883.
chromatography of, 269.
determination, 1697.
  in plasma, 5211.
  in urine, 1179, 2112.
    electrophoretic, 5213.
    spectrophotometric, 1181, 4798.
separation, chromatographic, 1180, 4797.
**strone,** determination, 4314, 5212.
  in urine, spectrophotometric, 3437, 4798.
  spectrophotometric, 4313.
  together with oestradiol, in urine, spectrophotometric, 2590.
2-methoxy-, separation, from urine, chromatographic, 4799.
separation, chromatographic, 4797.
  from oestradiol and oestriol, chromatographic, 2588.
  from urine, chromatographic, 4799.
**l-seeds,** determination of malathion in, spectrophotometric, 3061.
**ntments,** determination of alkaloids in, 4811.
**efins,** detection, 625, 626, 4688.
determination, gas chromatographic, 1065.
  in conc. $H_2SO_4$, spectrophotometric, 624.
separation, from H, gas chromatographic, 2459.
study of band contours of, i.r. spectrophotometric, 5329.
**eic acid,** analysis of, by high-resolution nuclear-spin resonance spectra, 4363.
**eins,** separation, paper chromatographic, 4843.
**gosaccharides.** (See *Sugars.*)
**ve oil,** analysis of, u.v. spectrophotometric, 2650.
Bellier index of Spanish, 4362.
comparison of tests for rancidity of, 813.
detection of tea-seed oil in, Fitelson's reaction for, 2165.
differentiation of grades of, 2649, 2651.
from preserved sardines, determination of quality of, 4839.
hydroxyl value of the unsaponifiable matter of, 814.
identification, u.v. spectrophotometric, 2164.
studies on, gas chromatographic, 3946.
**ega chrome green.** (See *Dyes*, C.I., Mordant Green 29.)
**um,** determination of morphine in, 772.
    paper chromatographic, 3888, 4812.
**um alkaloids,** determination, 2604.
  spectrophotometric, 2601, 2603.
**nge juice,** analysis of, 2648.
detection of carotene in, 1228.
  of sorbic acid in, spectrophotometric, 3026.
determination of biphenyl and *o*-phenylphenol in, 1238.
**nge peel,** detection of artificial dyes in, paper chromatographic, 2644.
**ss.** (See also *Minerals; Rocks.*)
etection of Pb and Zn in, 4976.
etermination of Cd in, polarographic, 4951.
  of Ca and Mg in, potentiometric, 3134.
  of Au in, spectrographic, 2770.
  of Nb in, 4994.
  of Se in, 1930.
  of S in, 2384.
  of Y in, X-ray spectrographic, 2799.
ampler for, 1763.
**anic acids.** (See also *Carboxylic acids*; *Fatty acids*; *Hydroxy-acids, etc.*.)
liphatic, ammonium salts of, detection, paper chromatographic, 2011.
etection, apparatus for, 3541.

**Organic acids**—*continued*
determination, 1080.
  in plant tissue, chromatographic, 4774.
  spectrophotometric, 4199.
identification, on paper chromatograms, 1600.
paper chromatography of, 165.
salts of, determination, 288.
separation, chromatographic, 1601.
  gas chromatographic, 166.
weak, determination, potentiometric, 4224.
**Organic analysis,** recent developments in, 2448.
use of mass spectrometry in, 3300.
**Organic bases,** containing —SH or =S groups, determination, 3796.
detection and determination as tetraphenylborates, 1988.
determination, conductimetric, 618.
  spectrophotometric, 2601, 4199.
separation, by superheated solvent vapours, 3560.
  chromatographic, 3445.
weak, non-aq. titration of, photometric, 184.
**Organic compounds,** detection, gas chromatographic, 1056, 3301.
  of impurities in, by sublimation, 3765.
  on paper chromatograms, by u.v. fluorescence, 1057.
  spot-tests for, 1568.
determination of $^2H$ in, mass spectrometric, 18.
  of metallic impurities in, spectrographic, 149.
    X-ray emission spectrographic, 3141.
  of structure of, i.r. spectrophotometric, 1569.
  of water in, apparatus for, 1989.
polynuclear heterocyclic, electronic spectra of, 2939.
**Organic compounds, determination of elements in.** (See also under individual elements.)
activation and de-activation of oxidation layers of catalysts in $CO_2$ atmospheres, 606.
apparatus for, 1280.
catalyst for complete combustion in, 3766.
efficiency of oxidising agents for, 3146.
high-frequency furnace for, 2219.
oxidation processes in, influence of conditions on, 1060.
oxygen-flask method, review, 3304.
progress from 1956 to 1960, 3560.
  in 1960, 2264.
rapid catalytic combustion in, 3560.
study of rate of combustion in, 1570.
**Organic compounds, determination of functional groups in.** (See also under individual groups.) 2455, 3764.
**Organic matter,** destruction of, methods for, 1659.
**Organophosphorus compounds.** (See *Phosphorus, organic compounds of.*)
**Organosilicon compounds.** (See *Silicon, organic compounds of*; *Silane; Siloxanes.*)
**Orlon,** differentiation from other fibres with dyes, 3830.
**Orotic acid,** analysis of, 2618.
**Orthohydrogen.** (See *Hydrogen.*)
**Osmium,** detection, 5029.
determination, 139, 1979, 3297.
  in palladium and platinum, by neutron activation, 4194.
  of $^{187}Os$ in minerals, by neutron activation, 3552.
  spectrophotometric, 1561, 3295, 3296, 3751, 4193.
oscillopolarographic behaviour of, 2884.
separation, from Pt, Pd, Ir, Ru, Rh and Au, paper chromatographic, 2435.
**Osmium tetroxide,** determination, spectrophotometric, 3751.
  u.v. spectrophotometric, 4195.

- **Oven,** temp. regulator for, 2220.
- **Oxalate,** determination, in presence of Cr, 167.
- **Oxalic acid,** analysis of mixtures of, with acetic acid, 648.
  - determination, 2915.
    - coulometric, 2888.
    - in urine, spectrophotometric, 3414.
- **Oxidase,** monoamine-, determination of activity of, spectrophotometric, 3439.
  - snake-venom L-amino-acid-, determination of activity of, spectrophotometric, 4321.
- **Oximes.** (See also *Dioximes; Ketoximes.*)
- **6-Oxoanthra(1,9-*cd*)pyrazole,** determination, polarographic, 193.
- **2-Oxoglutaric acid,** detection, paper chromatographic, 2011.
  - determination, in blood, 5150.
- **2-Oxo-4-methyl-n-valeric acid,** detection, paper chromatographic, 2011.
- **Oxygen,** detection, in gases, 2380.
    - in organic compounds, 2892, 4029.
  - determination, apparatus for, 4145.
    - continuous, in fermentation media, 3903.
    - gas chromatographic, 3087, 4465.
    - in air, apparatus for, 1248, 1917.
    - in alkali metals, 3587.
    - in alkaline-earth metals, 461, 3600.
    - in anatase, 2381.
    - in argon, gas chromatographic, 2284.
    - in beer and wort, 5267.
    - in beryllium, 2305.
      - by activation analysis, 1341.
    - in biol. materials, 436, 5110.
    - in blood, 1130, 2241.
      - apparatus for, 2550.
      - spectrophotometric, 2060, 3392.
    - in calcium, 3600.
    - in carbon dioxide, mass spectrometric, 898.
    - in cast iron, gas chromatographic, 3728.
    - in chromium, 3702.
    - in gases, 436, 898, 1365, 1494, 3572.
      - apparatus for, 2214.
      - containing $CO_2$, 879.
    - in germanium, apparatus for, 3643.
    - in iron, by isotope dilution, 1341.
    - in magnesium, 3600.
    - in magnesium alloys, 1856.
    - in Magnox A12, 1856.
    - in metals, 3575, 4058, 4599.
      - review, 1341, 4466.
      - spectrographic, 1341.
    - in minerals, 2382.
    - in molten samples, 3245.
    - in molybdenum, 3562, 3702.
    - in natural water, 1738, 3492.
      - amperometric, 3491.
      - automatic titrator for, 840.
    - in organic compounds, 148, 2893, 3764.
      - conductimetric, 3303.
    - in petroleum, 198.
    - in potassium alloys, 3587.
    - in silver surfaces, 3597.
    - in sodium, 928, 3588.
    - in sodium alloys, 3587, 3588.
    - in solids, by activation analysis, 1004, 4106.
    - in steel, 1776, 3729.
      - by isotope dilution, 1341.
      - gas chromatographic, 3728.
      - spectrographic, 4468.
    - in titanium, 898, 2814.
      - apparatus for, 1776.
    - in uranium oxides, 1005.
    - in vinyl acetate, polarographic, 2012.
    - in yttrium, 2334.
- **Oxygen,** determination—*continued*
    - in yttrium fluoride, 478, 2334.
    - in Zircaloy, 2358.
      - spectrographic, 78.
    - in zirconium, 78, 2357, 2358.
    - in zirconium alloys, 1902.
    - of $^{18}$O in natural water, mass spectrometric, 2759, 4762.
      - in phosphate, mass spectrometric, 518, 4762.
      - in rocks, mass spectrometric, 2887.
  - production by Linde - Fränkel distillation, mass spectrometric investigation of, 3561.
  - separation, from Ar and N, gas chromatographic, 442.
    - from $CO_2$, N and $N_2O$, in anaesthetics, gas chromatographic, 302.
- **Oxytetracycline,** analysis of, spectrophotometric, 3561.
  - determination, automatic, 896.
    - in milk, 3927.
  - paper chromatography of, 2127.
  - separation, on cellulose, 4333.
    - paper chromatographic, 780.
- **Oxytocinase,** determination of activity of, in urine, 5230.
- **Oysters,** determination of glycogen in, 3922.
- **Ozone,** determination, 519.
    - in air, 822, 2171, 3041.

P

- **PAN.** [See *1-(2-Pyridylazo)-2-naphthol.*]
- **Paint,** analysis of, spectrographic, 3385.
    - use of complexans in, 211.
      - of i.r. spectrophotometry in, 5106.
  - detection of nitrocellulose in, 5107.
  - determination of chlorendic acid in, 212.
  - red lead for, B.S.I. specification for, 4977.
- **Paint dryers,** determination, of Fe in, 1036.
    - of metals in, 716.
      - polarographic, 1127.
- **Palladium,** determination, 1506, 1978, 2885, 3560.
    - coulometric, 439.
    - heterometric, 142, 600.
    - in Cu - Ni matte and ore concentrates, spectrophotometric, 3752.
    - in jewellery alloys, 4192.
    - in presence of Rh and Ru, spectrophotometric, 601.
    - in soln., by zinc dust cementation, 4190.
    - in uranium alloys, spectrophotometric, 1557.
    - of Os and Ir in, by neutron-activation analysis, 4194.
    - photometric, 1558.
    - spectrophotometric, 138, 1559, 4191, 4670, 4671.
  - oscillopolarographic behaviour of, 2884.
  - pptn. from homogeneous soln., 3750.
  - separation, from other metals, 1560.
    - electrophoretic, 2750.
    - paper chromatographic, 921, 2435, 2750.
- **Palladium sulphide,** thermolysis of, 16.
- **Paludrine.** (See *Proguanil.*)
- **Pancreatin,** determination of amylase activity of, spectrophotometric, 2992.
- **Panthenol,** determination, microbiological, 2613, 3952.
- **Papain,** determination of carbohydrase activity in, paper chromatographic, 768.
- **Papaverine,** detection, spectrofluorimetric, 2998.
  - determination, 1191, 2602.
    - in suppositories, 3444.
    - spectrophotometric, 2603, 2999.
  - identification, 2605.

**er,** determination of Hg in, by activation analysis, 2523.
 of moisture in, 709.
 of rosin in, TAPPI method for, 4735.
lter, separation of radioactive matter from, 848.
r analytical procedures, review of types of, 4391.
hotographic, determination of formaldehyde in, 4742.
hermodiffusion in, 3561.
**er pulp,** determination of sugars in, paper chromatographic, 1120, 2691.
**affin, liquid,** analysis of, gas chromatographic, 1819.
etermination of polynuclear aromatics in, 4256.
**affin wax,** analysis of, gas chromatographic, 5092.
etermination of polycyclic aromatic hydrocarbons in, 196, 5093.
 chromatographic, 197.
**aformaldehyde,** determination, 3319.
**ahydrogen.** (See *Hydrogen.*)
**aldehyde,** determination, 2909.
 gas chromatographic, in toxicology, 3464.
 simultaneously with acetaldehyde, 3320.
**athion,** detection, 835.
etermination, gas chromatographic, 1751.
**athion-methyl,** detection, 835.
**ticle size,** evaluation of distribution of, 1288.
**nut oil.** (See *Arachis oil.*)
**t,** determination of humic acid in, 1258.
**tin,** determination of acetyl groups in, photometric, 3418.
 of glucuronic and galacturonic acids in, chromatographic, 3417.
 of methoxy-groups in, 5047.
 spectrophotometric, 4832.
**icillin,** assay of, microbiological, 777.
etection, chromatographic, 5240.
etermination, 778, 3005, 3560, 3898, 4817.
 automatic, 5241.
 continuous, spectrophotometric, 284.
 in fermentation media, continuous, 896.
**icillinase,** assay of, 2118.
etection, chromatographic, 5240.
**taborane,** determination, 4094.
**tachloronitrobenzene,** determination, 3562.
 i.r. spectrophotometric, 3345.
 polarographic, 2671.
**tacyanoferrate(II),** aquo- and ammine-, determination, spectrophotometric, 5017.
etermination, 5018.
**taerythritol,** analysis of, 2007.
etermination, 4694.
 of formaldehyde and acetaldehyde in, 3318.
 simultaneously with cyclotrimethylenetrinitramine, polarographic, 2537.
**aerythritol tetranitrate,** analysis of, 2014.
**amethonium salts,** determination, 4922.
**amethylbenzene,** analysis of, mass spectrometric, 2019.
**ane,** determination of mixtures of, with hexane, 3773.
**ane-2,4-dione.** (See *Acetylacetone.*)
**etrazol.** (See *Leptazol.*)
**obarbitone,** determination, in blood and plasma, u.v. spectrophotometric, 1146.
entification, 2617.
**osans,** determination, 2906.
 in plants, 3961.
 in wood pulp, 2953.
**ose,** determination, in beer, polarographic, 3029.
 in paper pulp, paper chromatographic, 2691.
**ynes,** i.r. absorption maximum of, 2001.

**Pepper,** determination of piperine in, spectrophotometric, 2154.
**Peppermint oil,** analysis of, thin-layer chromatographic, 3827.
**Pepsin,** assay of, spectrophotometric, 4318.
**Peptidase,** determination of activity of, in serum, 2117.
**Peptides,** analysis of, 3560.
  paper chromatographic, 3509.
 identification, paper chromatographic, 256.
 separation, paper chromatographic, 2090, 2577, 5193.
**Periodate,** determination, 562, 1531, 4932.
 use of, as oxidising agent, 3560.
**Permanganate,** co-pptn. of, with $PbSO_4$, 2862.
**Peroxidase,** assay of, spectrophotometric, 5222.
**Peroxides,** organic, detection, 5054.
  polarography of, 1072.
**Peroxyacetic acid,** determination, 2481.
**Peroxy-acids,** polarography of, 1072.
**Perphenazine,** determination, in urine and blood, spectrophotometric, 5137.
 identification, 3011.
**Persulphate,** determination, 4604.
**Perylene,** determination, polarographic, 3803.
**Pesticides.** (See also individual compounds.)
 chlorinated, determination, gas chromatographic and i.r. spectrophotometric, 1755.
 detection, by ion exchange, 3497.
 determination, gas chromatographic, 1751.
  in food, 2646.
   review, 4387.
  in plants, spectrophotometric, 4863.
  i.r. spectrophotometric, 3561.
  of Hg in, 5292.
  paper chromatographic, 3060.
 organo-phosphorus, analysis of, 3560.
  detection, 3059.
  i.r. spectra of, 1274.
 separation, paper chromatographic, 1277.
  thin-layer chromatographic, 5291.
**Pethidine,** determination, 1712.
  gas chromatographic, 3889.
  spectrophotometric, 3449.
**Petrol,** analysis of, gas chromatographic, 1106, 1819.
  in criminology, 4031.
  mass spectrometric, 3818.
 determination of aromatic content of, gas chromatographic, 1108.
  of Mn in, polarographic, 195.
   spectrophotometric, 3355.
  of octylphenoxyethanol in, i.r. spectrophotometric, 1107.
  of O in, gas chromatographic, 2515.
  of S in, X-ray emission spectrographic, 3354.
  of tetraethyl-lead in, 698, 2035.
  of tetramethyl- and tetraethyl-lead in, mass spectrometric, 2942.
**Petroleum,** analysis of hydrocarbons in, mass spectrometric, 2040.
  X-ray spectrographic, 3142.
 detection of N in, 695.
 determination, in blood, spectrophotometric, 1149.
  of air in, apparatus for, 4255.
  of C, H and S in, 2944.
  of hydrocarbons in, by molecular sieve absorption, 194.
  of Fe in, spectrophotometric, 1642.
  of Ni in, spectrophotometric, 1642, 3820.
   X-ray emission spectrographic, 3356, 4724.
  of O in, 198.
  of n-paraffin content of, use of molecular sieves in, 1109.

o

**Petroleum,** determination—*continued*
of sulphate in, 4146.
of thiols in, mass spectrometric, 697.
of V in, by electron paramagnetic resonance, 4723.
spectrophotometric, 1642, 3820.
X-ray emission spectrographic, 4724.
of water in, 3822.
identification of carbazole in, gas chromatographic, 2943.
interpretation of mass spectra of, 1641.
porphyrin aggregates, analysis of, chromatographic, 3819.
separation, chromatographic, 4725.
spot test for nitrogen compounds in, 1110.
**Petroleum products,** analysis of, mass spectrometric, 4257.
determination of Ba, Ca, P and Zn in, spectrographic, 898.
of halogens in, 1643.
of P in, 1644.
of V and Ni in, spectrographic, 2036.
residual oils, determination of V in, spectrophotometric, 1112.
**Petroleum waxes.** (See *Paraffin wax.*)
**pH,** determination, apparatus for, 2250.
automatic, use of steam-sterilisable glass electrodes in, 4020.
electrodes for, review, 4432.
electrometric, 882.
hydrogen electrodes for, 1810.
instrument for, 4019.
spectrophotometric, 4903.
with indicators, 3561.
indicator for soln. of high concn., 1347.
measurement of, at low temp., 406.
in blood, 5302.
apparatus for, 3547.
meter, cell assembly for, 1281.
increase of sensitivity of, 3546.
standardisation of terminology, 2734.
**Pharmaceutical analysis,** application of column chromatography to, 3443.
precision in, 2600.
table for the identification of drugs by Kofler heating block, 2995.
u.v. spectrophotometry and its application to, review, 5231.
use of the back-scattering of β-radiation in, 3560.
of column chromatography in, 4809.
of ion exchange in, 4324.
of thin-film chromatography in, 2998.
**Phenacetin,** analysis of mixtures of with carbromal and salicylamide, and with phenazone and phenobarbitone, 1708.
detection, paper chromatographic, 3456.
spectrofluorimetric, 2998.
determination of *p*-chloroacetanilide in, paper chromatographic, 4821.
spectrophotometric, 2130, 2131, 2619.
**Phenanthrene,** determination, in mixtures with anthracene and fluorene, spectrofluorimetric, 3815.
**1,10-Phenanthroline,** study of absorption spectra of, with metal complexes, 440.
**Phenazone,** analysis of mixtures of, with phenacetin and phenobarbitone, 1708.
detection, paper chromatographic, 3456.
**Phenergan.** (See *Promethazine.*)
***p*-Phenetidine,** determination, 2602.
paper chromatographic, 4821.
**Phenitrazole.** (See *Reagents, organic.*)
**Phenkapton,** determination, 4861.
**Phenobarbitone,** analysis of mixtures of, with phenazone and phenacetin, 1708.
detection, 1188.
paper chromatographic, 1211.
spectrofluorimetric, 2998.
determination, 4337.
polarographic, 290.
spectrophotometric, 2999.
**Phenol,** analysis of phenol-cresol-xylenol mixtures, gas chromatographic, 4239.
*p*-butyl, separation, by ion exchange, 670.
determination, 5076.
coulometric, 2888.
effect of substitution on the fluorescence of, 4241
**Phenol red,** determination, in blood plasma, spectrophotometric, 3860.
**Phenolcarboxylic acids,** thin-layer chromatography of, 4242.
**Phenols,** alkyl-, i.r. spectra of, 2502.
analysis of, gas chromatographic, 1095, 4238.
in industrial wastes, chromatographic, 2665.
chloro-, separation, by ion exchange, 3804.
determination, 671.
in natural water, 4856.
paper chromatographic, 3561.
photometric, 2925.
spectrophotometric, 2021, 2504, 4709.
dihydric, determination, 2500.
identification, 178.
mass spectra of, 2924.
paper chromatographic reference system for, 2973.
paper chromatography of, 672.
reagent for, 2020.
relative detector response of, in gas chromatography, 177.
separation and determination, spectrophotometric, 3340, 5077.
by ion exchange, 670.
paper chromatographic, 2501, 5080.
thin-layer chromatography of, 4242.
**Phenolsulphonephthalein.** (See *Phenol red.*)
**Phenothiazine,** deriv., determination, 4764.
in urine and blood, spectrophotometric, 5137.
spectrophotometric, 786, 5246.
detection, in urine, 1147.
determination, chromatographic, 189.
of diphenylamine in, spectrophotometric, 190.
**Phenoxyacetic acid,** chloro-, analysis of, i.r. spectrophotometric, 677.
chromatographic behaviour of, 2931.
4- and 6-chloro-2-methyl-, analysis of, u.v. spectrophotometric and paper chromatographic, 3974.
paper chromatography of, 1629.
**Phenoxy-groups,** 3-substituted, i.r. absorption band due to, 5049.
**Phenoxysilanes.** (See *Silane.*)
**Phenyl 2-acetamido-2-deoxy-D-glucoside,** detection, on paper chromatograms, 2222.
**Phenyl esters,** determination, potentiometric, 1628.
**Phenyl ethers,** chloromethyl deriv. of, analysis of, gas chromatographic, 2926.
detection, 2927.
relative detector response of, in gas chromatography, 177.
**Phenyl groups,** determination, in org. compounds of silicon, 2016.
**Phenylalanine,** determination, in blood, spectrophotometric, 2093.
in serum, paper chromatographic, 5187.
**Phenylalanine mustard.** [See NN-*Bis-(2-chloroethyl)phenylalanine.*]
**Phenylalkanes,** analysis of, gas chromatographic, 1620.

**-Phenylbenzylatropinium bromide,** determination, spectrophotometric, 3891.
**nylbutazone,** detection, spectrofluorimetric, 2998.
**nylchlorosilanes.** (See *Silane.*)
**nylenediamine,** *p*-, detection, 3293.
determination, amperometric, 1096.
**nylephrine,** detection, in urine, paper chromatographic, 1682.
etermination, 4814.
eparation, from chlorpheniramine and dextromethorphan, paper chromatographic, 4810.
**nylethylamines,** detection, in urine, paper chromatographic, 1682.
**nylmercuricatechol,** determination, in seed disinfectants, spectrophotometric, 2668.
**nylmercury acetate,** determination, 2628.
**nylphenol,** *o*-, detection in citrus fruit, 321.
in orange juice, 1238.
etermination, in citrus fruit, paper chromatographic, 2206.
spectrophotometric, 3937.
oscillopolarographic, 3341.
**nylpyruvic acid,** detection, in urine, spectrophotometric, 2565.
**ophytin,** determination, in plant extracts, spectrophotometric, 1163.
**ledrine,** analysis of, 2610.
**sdrin,** determination of anticholinesterase activity of, in serum, 1185.
**sphatase,** acid, determination of activity of, spectrofluorimetric, 5228.
lkaline, assay of, 2599, 5127.
in milk, 3924.
in serum, 3884, 5227.
photometric, 273.
**sphate.** (See also *Phosphoric acid*; *Phosphorus*; *Polyphosphates.*)
etection, 504.
paper chromatographic, 3028.
etermination, 505, 506, 1361, 2827, 3671, 4603, 5127.
automatic, 896.
flame photometric, 4121.
in apatite, by ion exchange, 1479.
in detergents, 4122.
in fertilisers, 1263, 3055.
in haemolysed serum, 218.
in minerals, 86.
spectrophotometric, 4165.
in natural water, 1252, 3050.
spectrophotometric, 4853.
in serum, spectrophotometric, 5128.
in soil, 2193.
in uranium compounds, 1019.
of Ca in, 5286.
of $^{18}$O in, mass spectrometric, 518, 4762.
of pyrophosphate in, spectrophotometric, 2368.
polarographic, 4580.
simultaneously with sulphate, in fertilisers, 1748.
spectrophotometric, 85, 4124, 4761, 4990.
es, X-ray diffraction analysis of, 3561.
moval of Mo from ppt. of, 542.
paration, from arsenate, 3672.
from urine, paper chromatographic, 2965.
from V, by ion exchange, 4592.
**sphatides,** chromatography of, 2083, 2084.
olation and analysis of, 2974.
per chromatography of, 3426.
paration, chromatographic, 3865.
**sphine,** deriv. of, determination of basicity of, 661.
termination of residues of, in cereals, 833.

**Phosphite,** determination, 4055.
in presence of $PO_2^{3-}$, 994.
dialkyl deriv. of, analysis of, gas chromatographic, 2920, 4581.
**1-Phosphofructaldolase,** determination of activity of, spectrophotometric, 2121.
**Phosphofructokinase,** determination of activity of, in erythrocytes, spectrophotometric, 5229.
**6-Phosphogluconic dehydrogenase,** separation, chromatographic, 4802.
**Phosphoglycollic acid,** determination, 5149.
**Phosphohexose isomerase,** determination of activity of, automatic, 896.
**Phospholipase,** -A, determination of activity of, 2122.
**Phospholipids,** determination, in serum, spectrophotometric, 5128.
**Phosphomonoesterase,** determination of activity of, in milk, 3924.
**Phosphonium salts,** determination, 2921.
**Phosphoranes,** determination, 2921.
**Phosphoric acid.** (See also *Phosphate.*)
determination, in biol. materials, spectrophotometric, 2066.
in calcium superphosphate, 2200, 2201, 3233.
in iron phosphates, by ion exchange, 992.
of sulphate in, spectrophotometric, 1478.
spectrophotometric, 1909.
separation, from $H_2SO_4$, by ion exchange, 1920.
**Phosphoric acid esters,** analysis of, 3560.
detection, 2492.
on paper chromatograms, 170.
determination, in soil, review, 1256.
**Phosphors,** determination of Bi and Cu in, spectrographic, 4130.
of Ca, Sr, Ba and K in, 4501.
**Phosphorus.** (See also *Phosphate; Phosphoric acid; Polyphosphates.*)
analysis of mixtures of $^{32}$P and $^{59}$Fe, 3584.
detection, in organic compounds, 4029.
determination, 1578, 2827, 3308, 3853, 4929.
flame photometric, 4121.
in beryllium oxide, spectrographic, 1399.
in biol. materials, spectrophotometric, 2065.
in blood, 5135.
in cast iron, spectrophotometric, 409.
in chromium, 105.
in coal, 2369, 4259, 5033.
B.S.I. method for, 1114.
photometric, 1649.
in coke, 5033.
B.S.I. method for, 1114.
in detergents, 2949.
in explosives, 717.
in faeces, 231.
in germanium, 2805.
in leaves, 343.
in liver, chromatographic, 4760.
in iron minerals, spectrophotometric, 409.
in organic compounds, spectrophotometric, 5046.
in petroleum products, 1644.
spectrographic, 898.
in presence of Si, spectrophotometric, 972.
in serum or plasma, 230.
in soil, photometric, 2192.
spectrophotometric, 3963.
in steel, 3736.
photometric, 4473.
spectrographic, 409.
spectrophotometric, 409.
in tungsten ores, photometric, 2370.
of $^{32}$P in animal tissue and blood, by liquid scintillation counting, 5122.
photometric, 2826.

**Phosphorus**—*continued*
  elementary, determination, in biol. material, 4279.
**Phosphorus, organic compounds of.** (See also *Phosphoric acid esters.*)
  analysis of, gas chromatographic, 662.
  detection, 169.
  i.r. spectra of, 3800.
**Phosphorus trichloride,** analysis of, gas chromatographic, 2920, 4581.
    of mixtures with $POCl_3$, gas chromatographic, 2371.
  separation, from $PSCl_3$ and $POCl_3$, gas chromatographic, 4581.
**Phosphoryl chloride,** analysis of, gas chromatographic, 2371, 2920.
    of mixtures with $PCl_3$, gas chromatographic, 2371.
  separation, from $PCl_3$ and $PSCl_3$, gas chromatographic, 4581.
**Photographic developers,** analysis of, paper chromatographic, 1650.
**Photographic emulsions,** spectroscopic properties of, 898.
**Photographic film,** determination of Ag in, spectrophotometric, 1392.
**Photometer,** micro-capillary, 3537.
**Photometer, flame,** spray chamber for, 5331.
**Photometry,** filter for, with CdS detector, 5330.
**Photometry, flame,** accuracy in, 4896.
  applications to metallurgical analysis, review, 1358, 4897.
  calibration procedures in, 4033.
  continuous automatic, 896.
  determination of alcohol effect in, 3562.
  effect of org. and aq. solvents on, 3114.
    of soln. viscosity on the atomising process in, 3113.
  study of interferences in, 4007.
  use of the compensation method in, 4420.
**Phthalic acid,** determination, fluorimetric, 2505.
  esters of, analysis of, chromatographic, 2536.
    gas chromatographic, 3948.
**Phthalic anhydride,** determination, 3560.
***N*-Phthaloylglutamimide,** detection and determination, spectrophotometric, 3911.
**Phthalylsulphacetamide,** assay of, 2627.
  determination, 3010.
**Physcion,** determination, photometric, 1200.
**Physical measurements,** integrator for, 1336.
**Physostigmine,** (*eserine*), determination, spectrophotometric, 5232.
  detection, 169.
**Piazselenole.** (See *Benzo-2,1,3-selenadiazole.*)
**Picoline,** $\beta$- and $\gamma$-, analysis of, i.r. spectrophotometric, 5085.
  determination, 2512.
**Picrate,** determination in *S*-alkyl-*N*-phenylthiuronium picrate, u.v. spectrophotometric, 1217.
**Picrolonate,** determination, in *S*-alkyl-*N*-phenylthiuronium picrolonate, u.v. spectrophotometric, 1217.
**Pigments,** determination of $H_2O$ in, 210.
  for cement, magnesium oxychloride and concrete, B.S.I. specifications for, 3761.
**Pinacyanol,** study of, spectrophotometric, 3561.
**Pinakryptol green,** study of, spectrophotometric, 3561.
**Pineapple,** determination of 1-chloro-2-nitrobenzene in, spectrophotometric, 1237.
**Piperazine,** detection, 4253.
  determination, 1264, 1640, 4823, 5087.
    spectrophotometric, 3906.
**Piperazine**—*continued*
  *N*-hydroxyethyl- and *NN*-di(hydroxyethyl)-, separation, 4722.
  identification, 1607.
**Piperidine,** detection, 4252.
  determination, 2512.
  separation, by ion exchange, 4715.
**3-Piperidino-4-propoxypropiophenone.** (See *Falicaine.*)
**Piperine,** determination, in pepper, spectrophotometric, 2154.
**Pipettes,** improved, 3980.
  one-mark, B.S.I. standard for, 3503.
  specifications for, 839.
**Pitchblende,** analysis of, 4672.
**Plant ash,** determination of Ca in, 5286.
    of Zn in, spectrographic, 233.
**Plant seeds,** determination of amyloids in, spectrophotometric, 1153.
**Plant tissue,** determination of ascorbic and dehydroascorbic acids in, spectrophotometric, 3954.
    of $^{137}$Cs in, by scintillation counting, 3849.
    of Ca in, polarographic, 1862.
    of organic acids in, chromatographic, 4774.
    of Zn in, X-ray spectrographic, 1746.
**Plants,** analysis of carbohydrates and lignin in, 3961.
    contamination problems in, 2186.
  detection of ions in, by ion exchange, 3497.
  determination of As, Br$^-$, Cl$^-$, Mn, Ni and maneb in, 4389.
    of B in, 228.
      spectrophotometric, 2547.
    of $^{137}$Cs, $^{89}$Sr and $^{90}$Sr in, 2063.
    of Ca in, flame spectrophotometric, 1136.
    of captan in, spectrophotometric, 349.
    of carbohydrates in, spectrophotometric, 2181.
    of Cu in, electrolytic, 4751.
      spectrographic, 1137, 4858.
    of crude fibre in, 5289.
    of ethyl di-n-propylthiocarbamate in, spectrophotometric, 1272.
    of F in, apparatus for, 1774.
    of $^{131}$I in, 4759.
    of iron chelates in, 3424.
    of Pb in, spectrographic, 1137.
    of Mg in, spectrophotometric, 1662, 4753.
    of nitrite and nitrate in, 2667.
    of nucleic acids in, spectrophotometric, 3878.
    of pentosans and hexosans in, 3961.
    of pesticides in, spectrophotometric, 4863.
    of K in, 1660.
    of starch in, 237.
    of sulphur compounds in, spectrophotometric, 3433.
    of Sn in, spectrophotometric, 5131.
    of trace elements in, spectrographic, 2180, 5130.
    of V and Co in, spectrophotometric, 1667.
    of Zn in, spectrographic, 1137.
**Plasma.** (See *Blood plasma.*)
**Plasminogen,** assay of, spectrophotometric, 3886.
**Plaster of Paris,** determination of $CaSO_4$ in, by ion exchange, apparatus for, 4084.
    of moisture in, 3189.
    of $Na_2SO_4$, $CaCl_2$ and NaCl in, 2310.
**Plasticisers,** determination, gas chromatographic, 5101.
  separation, chromatographic, 2051.
**Plastics.** (See also *Resins, synthetic.*)
  analysis and testing of, review, 711, 2050.
  detection of "additional elements" in, 4743.
  determination of formaldehyde in, 4270.
    of water in, 3383.
**Platformate,** determination of aromatic compounds in, gas chromatographic, 2034.

**atinum,** determination, coulometric, 140, 439.
  heterometric, 142, 600.
  in Cu - Ni matte and ore concentrates, spectrophotometric, 3752.
  in reforming catalysts, spectrophotometric, 141.
  in soln., by zinc dust cementation, 4190.
  of Ir in, by neutron activation, 1562, 4194.
  of Os, by neutron activation, 4194.
  polarographic, 599.
  spectrophotometric, 1980, 2438.
separation, from Ir, 3298.
    chromatographic, 2886.
  from other noble metals, paper chromatographic, 2435.
  from Pd, Au and Cu, paper chromatographic, 921.
  from Pd, Se and Te, paper chromatographic and electrophoretic, 2750.
  from Zr, 4565.
**latinum metals,** detection, in silicate rocks and dunite, by ion exchange, 1052.
determination, 1974.
oscillopolarographic behaviour of, 2884.
separation, by ion exchange, 3747.
  review, 1051.
**latinum sulphide,** thermolysis of, 16.
**lexiglas,** determination of thermal stability of, 3377.
**lutonium,** determination, 1946, 2270, 4626.
  coulometric, 3266.
  in fission products, 2850.
    spectrophotometric, 2849.
  in Pu - U, spectrophotometric, 2849.
  in urine, 3405.
    radiochemical, 3403.
  mass spectrometric, 2397, 4627.
  of Am, N, Np and U in, 2270.
  of free acid in soln. of, 1522.
  of impurities in, spectrographic, 2851.
  of $^{241}$Pu, in urine, by scintillation counting, 2069.
  of radioactive Zr in, 2402.
  photometric, 5009.
  radiometric, 3711.
  X-ray spectrographic, 2851.
extraction of, 1021.
handling of, analytical laboratories for, 2270.
separation, from Np, 550.
**lutonium alloys,** analysis of, 1947.
determination of Pu in U - Pu, spectrophotometric, 2849.
  of Zr in, 2270.
**lutonium nitrate,** extraction of, effect of temp. on, 2400.
**olarimeter,** automatic, 402, 403.
improved, 5332.
spectro-, use of, 3539.
**olarimetry,** theoretical sensitivity and linearity of photo-electric systems for, 4909.
use of different wavelengths in, 4013.
**olarograph,** a.c., improved, 5334.
automatic, use of, for soln. of high resistance, 4910.
boron carbide electrodes for, 2723.
bubbling Pt electrodes for 880.
cathode-ray, electrode for, 1806.
cylindrical electrodes for, 885.
differential electronic, 2717.
d.c., improvements in, 3542.
improved, 4016.
micro-cell for, 4018.
semi-automatic, 404.
solid rotating electrodes, for, 2248.
spherical electrodes for in, 4021, 4022.

**Polarograph**—*continued*
  synchronised electrodes for, 3125.
  three-electrode system for, 1807.
  vector, design of, 1805.
**Polarography,** a.c., techniques for, 2245.
    use of electronic phase-sensitive detector in, 3128.
    with a circuit for compensating current, 3127.
  applications in organic chemistry, 1058.
  cathode-ray, applications to food analysis, review, 1220.
  high-pressure, apparatus for, 4911.
  in fused-salts, 3544.
  in liquid ammonia, 3543.
  in non-aq. solvents, 2716.
  irreversible systems in, 3126.
  of inorganic ions, developments in, 900.
  of soln. of ultramicro concn., 3545.
  oscillographic, applications of, 3130.
    electrode for, 4430.
    electronic device for recording in, 3131.
    progress in, 3129.
    use of fixed mercury electrodes in, 2718.
  pulse-, technique of, 4017.
  purification of electrolytes for, 1808.
  recent trends in, 899.
  recording of variations of currents in, apparatus for, 2246.
  reduction of recording time in, 1804.
  review, 1803, 4921.
  role of, in activation analyses, 3560.
  second harmonic a.c., applications and advantages of, 4912.
  square-wave, influence of foreign electrolyte concn. in, 4429.
  study of catalytic stages in, 3561.
  theoretical treatment, 1354.
  triangular potential impulse, 3132.
  unit with electronic scan and linear residual current compensation for, 2247.
  use of *N*-methylacetamide as non-aq. solvent for, 4428.
    of sulphonated phenylstearic acid as maximum suppressor in, 2249.
**Poldine methosulphate,** determination, spectrophotometric, 2626.
**Polonium,** determination, in urine, 3405.
    of $^{210}$Po, 4609.
  extraction of $^{208}$Po, 528.
  separation, from Ra, electrochemical, 465.
    from Se and Te, paper chromatographic, 15.
**Poly(acrylonitrile).** [See *Poly(vinyl cyanide).*]
**Poly(alkyl methacrylates).** (See also individual products.)
  analysis of, chromatographic and i.r. spectrophotometric, 3560.
  study of, chromatographic, 3561.
**Polyalkylsiloxanes.** (See *Siloxanes.*)
**Polyamides.** (See also *Fibres.*)
  determination of carboxyl groups in, 3382.
  use of, in sorption chromatography, 713.
**Poly(butyl methacrylate),** determination, in monomer, 2527.
**Polyester fibre.** (See *Fibres.*)
**Polyethylene,** chlorosulphonated, detection and analysis of, 1653.
  detection of antioxidants in, spectrophotometric, 5104.
  determination of Ionol and Santonox in, spectrophotometric, 2958.
    of methyl groups in, i.r. spectrophotometric, 2531.
**Polyethylene glycols.** (See *Polyoxyethylene glycols.*)
**Polyhydric alcohols,** detection, electrophoretic, 2468.
**Polyisobutene,** separation, chromatographic, 3375.

**Polymers.** (See also individual products.)
analysis of, review of 1960, 2264.
characterisation of, 1123.
detection, by end-group determination, 3378.
determination of acid groups in, 2528.
of F in, by ion exchange, 206.
of halogens in, 1643.
of m.p. and rate of crystallisation of, apparatus for, 4401.
of mol. wt. of, apparatus for, 4268.
spectrophotometric, 2529.
differentiation of, 2530.
identification, gas chromatographic, 3376.
separation, chromatographic, 3375.
**Poly(methyl methacrylate),** determination of mol. wt. of, spectrophotometric, 2529.
separation, gas chromatographic, 5102.
**Polyols.** (See *Polyhydric alcohols.*)
**Polyoxyethylene glycol dodecyl ether,** separation, and determination, spectrophotometric, 3462.
**Polyoxyethylene glycols,** detection, paper chromatographic, 3366.
determination, chromatographic, 2041, 3366.
in bread, 3936.
in cellulose hydrate film, 4271.
in surfactants, spectrophotometric, 1122.
separation, paper chromatographic, 3374.
**Polyoxypropylene glycols,** determination of hydroxyl groups in, spectrophotometric, 3373.
**Polyphenyls,** gas chromatography of, apparatus for, 3994.
**Polyphosphates,** analysis of mixtures of, ion-exchange chromatographic, automatic, 4125.
of tri- and hexameta-phosphates, chromatographic and electrophoretic, 1483.
detection, in "phosphate-free" materials for sausage manufacture, paper chromatographic, 3028.
in phosphates, 4126.
paper chromatographic, 1482.
determination, in orthophosphates, paper chromatographic, 4123.
of mean chain-length of, 87.
of orthophosphate and total inorg. phosphate in, 506.
separation and determination, by ion exchange, 1910.
**Polyprenols.** (See *Isoprene, polymers of.*)
**Polysaccharides,** detection, after electrophoresis, 2473, 4308.
identification, by differential thermal analysis, 3315.
**Polystyrene,** determination of monomer in, spectrophotometric, 207.
of styrene in, polarographic, 1654.
separation of pyrolysis products of, gas chromatographic, 5102.
**Polysulphide,** analysis of, 3560.
determination, in presence of sulphide and thiosulphate, 2387.
**Polytetrafluoroethylene.** (See *Teflon.*)
**Polythionates,** determination, 2388, 4605.
radiochemical, 2389.
**Poly(vinyl alcohol),** acetylated, determination of acetyl groups in, 715.
detection, 4093.
determination, u.v. and i.r. spectrophotometric, 2013.
sulphonated, determination of sulpho-groups in, 715.
**Poly(vinyl chloride),** analysis of stabilisers and fillers in, spectrographic, 1126.
identification of organotin stabilisers in, thin-layer chromatographic, 5099.
**Poly(vinyl cyanide),** determination, in presence of other fibres, 204.
of end-groups in, i.r. spectrophotometric, 3379.
**Ponceau 4R.** (See *Dyes*, C.I. Food Red 7.)
**Pontachrome blue black R.** (See *Dyes*, C.I. Mordant Black 17.)
**Porphyrins.** (See also under individual compounds.)
analysis of, chromatographic, 3819.
chromatography of, 5162.
detection, electrophoretic, 3425.
determination, in plasma, spectrophotometric, 5163.
in urine, 1677, 4777, 4778.
spectrophotometric, 5161.
**Portland cement,** determination of BaO in, 146.
of SrO in, 46.
**Potassium,** determination, 24, 447, 448, 1837, 4067, 4922.
amperometric, 1190, 1380.
flame photometric, 4066.
in aluminium, flame photometric, 2791.
in biol. materials, flame photometric, 222, 2543.
in clay, flame spectrophotometric, 3586.
in common salt, 4937.
in erythrocytes, 3389.
in extracellular fluid, flame photometric, 223.
in fertilisers, 3055.
conductimetric, 3501.
radiometric, 346.
in haemolysed serum, 218.
in lard, flame photometric, 4361.
in leaves, flame photometric, 343.
in mica, flame photometric, 1838.
in milk, 5249.
in muscle, flame photometric, 5114.
in pharmaceutical materials, flame photometric, 277.
in phosphors, 4501.
in plants, 1660.
in K tetraphenylborate, flame photometric, 4938.
in presence of ammonium, spectrophotometric, 3165.
in rocks and minerals, spectrographic, 445.
in rubidium chloride, flame photometric, 1836.
in sea bittern, 929.
in serum, 1131, 1660, 5116.
flame spectrophotometric, 4274.
in skeletal muscle, flame photometric, 5113.
in sodium and lead, radiometric, 1835.
in soil, 1747, 3053.
flame photometric, 3962.
in urine, 1661, 5117.
radiochemical, 25, 2297.
simultaneously with Na, by neutron-activation analysis, 2762.
thermogravimetric, after pptn. as diliturate, 4052.
isotope dilution analysis of, in meteorites, 5031.
loss of, during dry-ashing of animal tissue, 5115.
separation, from Li and Na, paper chromatographic, 1833, 2761.
from Li, Na and Mg, thin-layer chromatographic, 4935.
**Potassium alloys,** determination of O in, 3587.
**Potassium bromide,** photographic grade, B.S.I. standard for, 1950.
**Potassium chloride,** determination, in fluxes, spectrographic, 26.
of Ba and Sr in, polarographic, 951.
**Potassium chromate,** determination, potentiometric, 3149.
**Potassium dichromate,** determination of Na in, flame spectrophotometric, 4481.

**tassium ethylxanthate,** determination, 2015.
**tassium ferricyanide,** determination, 575.
**tassium *p*-hydroxybenzoate,** determination, potentiometric, 2023.
**tassium iodide,** determination, in sodium chloride, 1951.
**tassium metabisulphite,** photographic grade, B.S.I. standard for, 1926.
**tassium rhodizonate,** determination, radiometric, 4037.
**tassium salts,** determination of Rb in, 3166.
    of trace elements in, spectrographic, 4461.
**tatoes,** chips, analysis of volatiles from, gas chromatographic, 1716.
  determination of ethyl di-n-propylthiocarbamate in, 1273.
    of Fe in, spectrophotometric, 3279.
    of methyl 1-napthylacetate in, spectrophotometric, 4864.
    of nonanol residues in, spectrophotometric, 834.
    of solanine in, spectrophotometric, 311.
**aseodymium,** determination, in monazite, chevkinite and eschynite, spectrophotometric, 3637.
    X-ray emission spectrographic, 1432.
  near i.r. absorption spectrum of, 4541.
  separation, from Ce and La, 970.
**aseodymium fluoride,** absorption spectrum of, 441, 2336.
**ecipitates,** formation of, effect of filter and the age of the pptg. soln. on, 3560.
**ecipitation,** nucleation in, 6, 7, 905.
**ednisolone,** determination, spectrophotometric, 3013.
    u.v. spectrophotometric, 2630.
**ednisone,** determination of Se in, 3461. (See *Errata*.)
**egnanediol,** determination, in urine, spectrophotometric, 2592.
  separation, from pregnanetriol, chromatographic, 2591.
**egnanetriol,** determination, in urine, polarographic, 764, 765.
    spectrophotometric, 2592.
  separation, from pregnanediol, chromatographic, 2591.
**-Pregnan-20-one, 3α,17α-dihydroxy-,** (*17-hydroxypregnanolone*), determination, in urine, 765.
**eservatives.** (See also *Wood preservatives*.)
  detection, in canned meat, 320.
    in ham, 320.
    in wine and jam, spectrophotometric, 4357.
**rocaine,** detection, 1188.
  paper electrophoresis of, 4338.
  separation, from amethocaine, paper chromatographic, 4810.
**roceedings of the fifteenth International Congress of Pure and Applied Chemistry (Analytical Chemistry). Lisbon, 1956. Vol. III,** 4918.
**roceedings of the fifth Italian Congress on the Study of Fatty Substances, Bari, 1960,** 3946.
**rochlorperazine,** determination, in urine and blood, spectrophotometric, 5137.
  identification, 3011.
**rogesterone,** 11,17-dihydroxy-, determination, in urine, 1699.
  enhancement of fluorescence of, in $H_2SO_4$, 766.
  17-hydroxy-, determination, in urine, 1699.
**roguanil,** determination, spectrophotometric, 1711.
**roline,** determination, in proteins, 750.
**romazine,** determination, in urine and blood, spectrophotometric, 5137.
**romethazine,** determination, in urine and blood, spectrophotometric, 5137.
**Promethazine,** determination—*continued*
    spectrophotometric, 3907, 5246.
  identification, 3011.
  separation, from meperidine, electrophoretic, 4810.
**Promethium,** determination of $^{146}$Pm, by scintillation counting, 4628.
  separation, chromatographic, 966.
    from Am and Cm, 4967.
**Propane-1,3-diol,** determination, gas chromatographic, 2903.
    in glycerol, gas chromatographic, 635.
**Propanol,** determination, in benzene, i.r. spectrophotometric, 1589.
  identification, 2465.
**Propellents,** determination of dimethyl and dibutyl phthalates in, polarographic, 5109.
    of N, nitro-compounds, cellulose nitrate, nitric esters and trinitrotoluene in, 2534.
  differential thermal study of, 4748.
**Propene,** separation, from acetylene, gas chromatographic, 2232.
**Propene oxide,** determination, 1588.
    in presence of ethylene oxide, polarographic, 5053.
**Propionaldehyde,** determination, in presence of formaldehyde and acetone, spectrophotometric, 3781.
**Propionic acid,** α- and β-bromo-, detection, in urine, chromatographic, 2161.
**Propyl chloride,** analysis of, i.r. spectrophotometric, 156.
**Propyl gallate,** determination, in fats, spectrophotometric, 329, 816.
  identification and separation, paper chromatographic, 4844.
**Propyl *p*-hydroxybenzoate,** thin-layer chromatography of, 3074.
**Propylene.** (See *Propene*.)
**Propylene glycol.** (See *Propane-1,3-diol*.)
**Proscillaridin A,** determination, chromatographic, 2608.
**Protactinium,** determination of $^{233}$Pa, in irradiated thorium, by β-counting, 551.
  separation, chromatographic, 4589.
**Protease,** detection of activity of, in beer, 5266.
**Protein hydrolysates,** determination of amino-acids in, apparatus for, 1692.
    of isoleucine in, spectrophotometric, 3427.
**Proteinase,** determination of activity of, 2596.
    in trypsin, prep., 2993.
**Proteins,** analysis of, in serum, electrophoretic, 1690, 1691.
  chromatography of, on Ca phosphate, 3070.
    review, 2098.
  detection, in urine, 1688.
  determination, 2183, 4790, 4792, 5195, 5196, 5198.
    electrophoretic, 1174.
    in c.s.f., spectrophotometric, 2097.
    in milk, 2145.
    in plasma and serum, spectrophotometric, 5197.
    in urine, 1151.
      spectrophotometric, 1173.
    in wheat and flour, 3468.
    of amido-groups in, 254.
    of cystine and cysteine in, spectrophotometric, 3429.
    of 3,4-dihydroxyphenyl-L-alanine in, spectrophotometric, 3428.
    of mercapto- and disulphide groups in, 3771.
    of N in, 756.
    of proline in, 750.
    spectrophotometric, 4306.

**Proteins**—*continued*
  dye-binding by, on electropherograms, 5194.
  electrophoresis of, 257, 385, 1317, 4307, 5199.
  hydrolysis of, 1692.
  serum, detection of hydroxylysine in, paper chromatographic, 751.
    determination, 2096, 2100, 5197, 5200.
      refractometer for, 2711.
      spectrophotometric, 4789.
    electrophoresis of, 259, 2580, 3430.
    factors affecting uptake of C.I. Acid green 7 by, 2579.
  use of bromophenol blue for staining paper chromatograms of, 370.
**Prothrombin,** determination, in blood, 734.
**Psicofuranine,** assay of, microbiological, 1208, 2128.
**Purines,** detection, 2585.
  identification, 3352.
**Pyrazine,** identification, 1607.
**Pyrazolanthrone.** (See *6-Oxoanthra-*[*1,9*-cd] *pyrazole.*)
**Pyrene,** spot test for, 1639.
**Pyrethrum,** analysis of, 3975.
  separation of constituents, chromatographic, 1752.
**Pyridazines,** identification, 1607.
**Pyridine,** deriv. of, determination, i.r. spectrophotometric, 1104.
  detection, 1188.
  determination, 2512.
  2,6-diamino-, determination, 2602.
  *N*-oxide, physico-chemical studies of, 3561.
  separation, by ion exchange, 4715.
    gas chromatographic, 690, 2937.
**Pyridoxal,** determination, in rat liver, 733.
    polarographic, 818.
  separation, thin-film chromatographic, 4366.
**Pyridoxamine,** separation, thin-film chromatographic, 4366.
**Pyridoxine,** determination, 783.
    spectrophotometric, 817, 1246.
  separation, from other vitamins, chromatographic, 332.
    thin-film chromatographic, 4366.
**Pyridoxol,** separation, thin-film chromatographic, 4366.
**1-(2-Pyridylazo)-2-naphthol** (*PAN*), extraction of metal chelates of, 1362.
**α-2-Pyridylbenzyl alcohol,** metal complexes of, study of, 3560.
**Pyrimethamine,** determination, 4814.
**Pyrimidine,** detection, 2585.
  identification, 1607, 3352.
**Pyrites,** determination of Pb in, 2348.
**Pyrithiamine,** determination, fluorimetric, 4785.
**Pyrochlore,** determination of Th in, spectrophotometric, 2362.
**Pyrolusite,** analysis of, 4636.
**Pyrolysis,** use of, in analysis, 354.
**Pyrophosphate,** determination, in orthophosphates, paper chromatographic, 4123.
    in phosphate, spectrophotometric, 2368.
**Pyrrhotite,** analysis of, by ion exchange, 4674.
**Pyrrole,** determination, 1102.
**Pyruvaldehyde,** detection, 2912.
**Pyruvic acid,** determination, in animal tissue, spectrophotometric, 5147.

**Q**

**Qualitative analysis,** applications of the metal pyridine thiocyanate reaction to, 2273.
  detection of org. substances, 1057, 2996, 3148.
**Qualitative analysis**—*continued*
  ion exchange separation in, 1351.
  of the common anions, paper chromatographic, 420.
  review of progress in 1960, 2264.
  use of $H_2S$ in acetone in, 1350.
**Quartz,** analysis of, in foundry dust, by X-ray diffraction, 3215.
  determination of Fe in, spectrographic, 1539.
    of Hg in, 2805.
    of trace elements in, by neutron-activation analysis, 1820.
**Quaternary ammonium compounds.** (See also *Detergents, Surfactants.*)
  detection and identification of, 3792.
    in milk and wine, paper chromatographic, 3928.
  determination, 4729, 5068.
    in maize, by ion exchange, 740.
    spectrophotometric, 742.
  evaluation of, as disinfectants, B.S.I. method for, 3052.
  identification, paper chromatographic, 793.
  polarography of, 3793.
**Quercitrin,** determination, spectrophotometric, 3421.
**Quinaldine,** *N*-oxide of, physico-chemical studies of, 3561.
**Quinic acid,** determination, spectrophotometric, 5155.
**Quinidine,** anomalous i.r. spectrum of, 1190.
  determination, 1702, 2602.
**Quinine,** anomalous i.r. spectrum of, 1190.
  determination, 773, 1702, 2602, 4814, 5235.
    amperometric, 4456.
    thermogravimetric, with dilituric acid, 4702.
**Quinol,** (*hydroquinone*), determination, amperometric, 1096.
    coulometric, 2928.
    in fatty oils, 330.
    spectrophotometric, 712.
  separation, by ion exchange, 670.
  spot test for, 4243.
**Quinoline,** determination, 2512.
    i.r. spectrophotometric, 689, 2513.
    u.v. spectrophotometric, 2938.
  *N*-oxides of, i.r. spectra of, 2513.
  physico-chemical studies of, 3561.
  separation, gas chromatographic, 690.
**Quinolinium molybdophosphate,** thermal properties of, 691.
**Quinones,** *o*-, detection, 2936.
    spectrophotometric, 180.
  determination, in coal, 4209.
  interaction with hydrocarbons, 1094.
  mass spectra of, 2929.
**Quinotoxine,** detection, 5236.
**Quinoxaline,** *N*-oxide of, physico-chemical studies of, 3561.

**R**

**RDX.** (See *Hexahydro-1,3,5-trinitro-sym.-triazine.*)
**Radioactivation analysis,** applications, 434, 3151.
    in geochemistry, 1820.
  Proceedings of Symposium, 1959. Vienna, 1820.
**Radioactive isotopes.** (See *Radionuclides.*)
**Radiochemical analysis,** absolute measures of β-activity in, apparatus for, 1333.
  automatic measurements and computations for, 1814.
  backgrounds for scintillation counting of coloured soln., 2262.
  β-counter for, 894.
  continuous monitoring in, 1331.

**diochemical analysis**—*continued*
determination, of Be, Mg and Cl⁻, by application of radioactive reagents to filter-paper, 4452.
device for compensation of dead time in, 1817.
experiences of, in U.S.A., 1820.
of aq. soln. in the liquid scintillation spectrometer, 408.
of cyanides, sulphonamides and lead, with $^{110}$Ag, 1329.
of multi-labelled substances, 1332.
quenching of fluorescence in, 2261.
remote handling in, 2724.
resolution of time-dependent $\gamma$-spectra in, use of a digital computer for, 4026.
review, 4442.
use of, in biochemistry and medicine, 1820.
in testing purity of targets for isotope production, 3560.
of $^{110}$Ag as indicator in, 1320, 3560.
**diofrequency oscillations,** use of, in analytical chemistry, review, 5.
**dionuclides,** analysis of, 3560, 3584.
by ion exchange, 147.
of mixtures of, spectrographic, 2270.
determination, by rate of isotopic exchange, 3560.
in fall-out debris, 2447.
in urine, review, 720.
of activity of, apparatus for, 2260.
separation, by ion exchange, 2747.
by solvent extraction, 1055.
on filter-paper, after nuclear explosions, 848.
spectrometer for determination of positron and $\gamma$-ray cascade-emitting, 3551.
spectrography of, 898.
use of, in medicine, review, 2735.
**dium,** determination, 549, 3710.
apparatus for, 2778.
in natural water, by $\alpha$-counting, 4377.
by separation and electrometric measurement of Rn, 4855.
in urine, 3404, 3405.
spectrographic, 1888.
separation, from EDTA soln., 465.
of $^{223}$Ra from $^{223}$Fr, paper chromatographic, 4925.
**ffinose,** determination, in molasses, paper chromatographic, 1221.
separation, from melibiose, by ion exchange, 2471.
from other carbohydrates, by ion exchange, 636.
**peseed oil,** determination of free fatty acids in, 3482.
**re-earth metals,** analysis of borides of, 4966.
detection, spectrographic, 2796.
determination, 1433, 1886, 4963.
flame photometric, 1430, 1431.
in beryllium, uranium, zirconium, titanium and alloys, spectrographic, 1434.
in bismuth, 3636.
in soln. containing aluminium, 4986.
in uranium dioxide, spectrographic, 1945.
photometric, 3212.
radiochemical, 2337.
spectrographic, 64, 3213, 3562, 3638, 4536.
spectrophotometric, 2797.
lanthanide, separation, by ion exchange, 4105.
list of errors of emission lines of, in MIT Wavelength Tables (1939), 967.
oxides of, analysis of, spectrographic, 1435.
separation, by ion exchange, 1434.
chromatographic, 475, 966, 1885, 4537.
from U, by ion exchange, 2401, 3561.
of Ca, Sr, Ba and Ce from, by ion exchange, 3188.
**Rare earths,** determination of Th in, by ion exchange, 988.
separation of Th from, 4569.
**Ratfish-liver oil,** separation of batyl and selachyl alcohols from, thin-layer chromatographic, 3481.
**Rauwolfia,** assay of, spectrophotometric, 2125.
**Rauwolfia alkaloids,** separation and determination, 2126.
**Rayon,** analysis of fibres containing, 204.
determination of cottonised bast fibre in, 4736.
**Reactor coolants,** polyphenyl, determination of biphenyl, terphenyl, benzene, toluene and ethylbenzene in, gas chromatographic, 4750.
**Reactor effluents,** analysis of, radiochemical, 2270.
**Reactor fuel,** analysis of stainless steel - UO$_2$ fuel elements, 2270.
of liquid metal, 2270.
**Reagents, organic.** (*References to new and less commonly used compounds.*) (See also *Dyes.*)

  2,6,7-trihydroxy-9-propyl-3-fluorone, 4608.
  2,4,6-tripyridyltriazine, 1034, 4073.
**Red lead,** determination, in active masses of accumulators, 72.
  for paints, B.S.I. specification for, 4977.
**Redox indicators.** (See *Indicators.*)
**Redox systems,** diphenylamine-like, study of, 3560.
**Reductase,** nitrate, determination, 769.
**Refractometer,** 2240.
  continuous-recording differential, 4015.
**Refractories,** alumino-silicate, analysis of, spectrographic, 409.
  analysis of, potentiometric, 3134.
    X-ray emission spectrographic, 3720.
  determination of $SiO_2$ in, spectrophotometric, 69.

**scinnamine,** determination, 2126.
**serpine,** determination, 1704, 3895.
  in feeding-stuffs, fluorometric, 3972.
  spectrophotometric, 5237.
**sins.** (See also *Rosin.*)
 determination of sp. gr. of, TAPPI method for, 4735.
**sins, synthetic,** alkyd, analysis of, paper chromatographic, 208.
  determination, photometric, 2957.
 detection, on white fabrics, 4741.
 epoxy, determination, amperometric, 5103.
 melamine, determination, in textiles, 4746
  of formaldehyde in, 4742.
 polyester, identification of glycol components of, paper chromatographic, 209.
 silicone, analysis of, i.r. spectrophotometric, 2532.
  determination, in foods, i.r. spectrophotometric, 803.
 urea - formaldehyde, analysis of, chromatographic and i.r. spectrophotometric, 2053.
  determination, in textiles, 4746.
**sochin.** (See *Chloroquine.*)
**sorcinol,** spot test for, 4243.
**ein,** determination, photometric, 1200.
**einanthranol,** determination, photometric, 1200.
**enium,** determination, 1534.
  in its alloys, spectrophotometric, 3719.
  in presence of Pa and Ru, spectrophotometric, 601.
  photometric, 3278.
  polarographic, 3561.
  spectrophotometric, 1535, 3718, 5013.
 extraction of, 5014.
 separation, from Pt, Pd, Os, Ir, Ru and Au, paper chromatographic, 2435.
  from Tc, paper chromatographic, 5015.
  from Zr, 4565.
**enium alloys,** determination of Re in, spectrophotometric, 3719.
**odamine B.** (See *Dyes*, C.I. Basic Violet 10.)
**odamine B butyl ester.** (See *Butylrhodamine.*)
**odamine 6G.** (See *Dyes*, C.I. Basic Red 1.)
**odium,** determination, 1554.
  in soln., by zinc dust cementation, 4190.
  of impurities in, spectrographic, 1563.
  polarographic, 1555.
  spectrophotometric, 597, 2436, 3749.
 oscillopolarographic behaviour of, 2884.
 separation, from Ir, 2886.
  chromatographic, 3298.
**ubarb,** determination of dirhein in, spectrophotometric, 4816.
 separation of hydroxyanthraquinones in, electrophoretic, 1201.
**boflavine,** determination, 783.
  fluorimetric, 1246.
  in barley, malt and yeast, 3474.
  in flour and wheat, microbiological, 4371.
  polarographic, 2658.
 separation, from other vitamins, chromatographic, 332.
**bonuclease,** determination of activity of, spectrophotometric, 4805.
**bonucleic acid,** detection, 3879.
**bose,** separation, from xylose, by ion exchange, 2471.
**fomycin B,** assay of, fluorimetric and spectrophotometric, 286.
**talin.** (See *Methyl phenidate.*)
**vanol.** (See *Ethacridine lactate.*)
**ocks.** (See also *Minerals*; *Ores.*)
 determination of Be in, paper chromatographic, 3179.
**Rocks,** determination—*continued*
  of $CO_2$ in, 2339.
  of Cu and Mn in, by neutron-activation analysis, 3175.
  of excess O in, 129.
  of Ga in, by neutron-activation analysis, 2327.
  of $^2H : H$ ratio in, mass spectrometric, 2443.
  of FeO in, spectrophotometric, 2415.
  of Pb in, photometric, 488.
  of Li, K, Na and Rb in, spectrographic, 445.
  of Hg in, spectrophotometric, 4953.
  of N in, 4989.
  of $^{18}O$ and $^{13}C$ in, mass spectrometric, 2887.
  of Sc in, $\gamma$-spectrometric, 2333.
  of S in, spectrophotometric, 2383.
  of Ta and W in, by neutron-activation analysis, 98.
  of trace elements in, polarographic, 3756.
  of U in, fluorimetric, 1512.
  of V in, by neutron-activation analysis, 2378.
 phosphate-, determination of P in, 3055.
  of U in, spectrophotometric, 4165.
 prep. of samples, ceramic mills for, 2207.
 simultaneous determination of Co, Cr and Sr in, by neutron-activation analysis, 4931.
**Rogor,** analysis of, 3063.
 determination of dimethoate in, chromatographic, 3062.
**Ronicol.** (See *Nicotinyl alcohol.*)
**Rose-hip syrup,** determination of ascorbic acid in, paper chromatographic, 3040.
**Rosin,** analysis, spectrophotometric, 5105.
 determination, in paper, TAPPI method for, 4735.
**Rotenone,** determination, in lonchocarpus, 2203.
**Rothane,** identification, chromatographic, 1241.
**Rubber,** detection of benzothiazole deriv. in, chromatographic, 2941.
 determination, in paper, 4747.
  of Cu in, by neutron-activation analysis, 3844.
  of S in, 214.
  of Zn, Ca and Mg in, 3845.
 identification of antioxidants in, paper chromatographic, 4272.
  of types of in, 3842.
 synthetic, determination, in paper, 4747.
  of tetraethylthiuram disulphide in, polarographic, 3386.
  tests for, B.S.I. method for, 3843, 5108.
**Rubidium,** determination, in lepidolite, spectrochemical, 145.
  in mica, flame photometric, 4068.
  in potassium salts, 3166.
  in rocks and minerals, spectrographic, 445.
  in silicates, flame spectrophotometric, 1381.
   spectrographic, 4549.
  spectrophotometric, 27.
 separation, from Cs, paper chromatographic, 2761.
  from Fr and Cs, chromatographic, 449.
**Rubidium chloride,** determination of K in, flame photometric, 1836.
**Rust-proofing solutions,** determination of Zn in, 2780.
**Ruthenium,** detection of $Ru^{III}$, 3293.
 determination, amperometric, 5027.
  fluorimetric, 1553.
  in meteorites, spectrophotometric, 596.
  in presence of Rh and Pd, spectrophotometric, 601.
  in soln., by zinc dust cementation, 4190.
  polarographic, 566, 5027.
  spectrophotometric, 137, 1976, 3294, 3295, 3748.
 separation, by ion exchange, 1975.
  from irradiated U, 1977.

**Ruthenium,** separation—*continued*
from other noble metals, paper chromatographic, 2435.
**Ruthenium nitrate,** extraction of, effect of temp. on, 2400.
**Ruthenium sulphide,** thermolysis of, 16.
**Ruthenium tetroxide,** determination, spectrophotometric, 4669.
**Rutin,** determination, polarographic, 730.
spectrophotometric, 3421, 3452.

**S**

**SNAZOXS.** (See *Reagents, organic.*)
**SPADNS.** (See *Reagents, organic.*)
**Saké,** determination of Fe in, spectrophotometric, 3941.
**Salicylaldehyde,** detection, 2912.
**Salicylamide,** analysis of mixtures with phenacetin and carbromal, 1708.
determination, spectrophotometric, 2131.
**Salicylfluorone.** (See *Reagents, organic.*)
**Salicylic acid,** detection, in wine, chromatographic, 2160.
determination, in blood, u.v. spectrophotometric, 1669.
i.r. spectrophotometric, 2930.
identification, 4038.
labelled with $^{14}$C, determination, paper chromatographic, by liquid scintillation counting, 372.
separation, from benzoic and hydroxybenzoic acids, chromatographic, 1236.
from urine, electrophoretic, 724.
**Salicyluric acid,** determination, paper chromatographic, 4711.
separation, from urine, electrophoretic, 724.
**Saliva,** determination of fucose in, spectrophotometric, 2076.
**Salt,** common, determination of K in, 4937.
**Samarium,** determination, by neutron absorption, 3553.
in thorium, 4987.
spectrographic, 3638.
separation, chromatographic, 966.
**Samarium fluoride,** absorption spectrum of, 2336.
**Sand,** determination of moisture in, 3557.
automatic, 3755, 4196.
**Santonin,** determination, in artemisia, spectrophotometric, 1706.
**Santonox,** determination, in polyethylene, spectrophotometric, 2958.
**Saponins,** detection, chromatographic, 3896.
determination, in lucerne, 4382.
**Sardines,** olive oil from preserved, determination of quality of, 4839.
**Sarpagine,** determination, in rauwolfia alkaloids, 2126.
**Sausages,** detection of polyphosphates in, 1482.
**Scandium,** detection, 3561.
determination, 61.
flame photometric, 1430.
in rocks and meteorites, γ-spectrometric, 2333.
in wolframite, by activation analysis, 2332.
spectrofluorimetric, 4523.
spectrophotometric, 3209.
**Scintillation counter,** for α-counting, 3138, 3139.
for β-counting, 3140.
for continuous measurement of β-activity in CO$_2$ and CO systems, 3550.
liquid, for aq. soln., 4439.
X-ray, amplifier and pulse-height analyser for, 4438.
**Scintillation counting,** liquid, correction of countin errors in due to quenching, 4917.
**Sea bittern,** determination of K in, 929.
**Seaweed,** determination of Cr in, potentiometric 2840.
**Secale concentratum,** determination of alkaloids in spectrophotometric, 3894.
**Seedlac,** B.S.I. specification for, 1656.
**Segontin.** [See N-(*1-Methyl-2-phenylethyl*)-*3,3-diphenylpropylamine.*]
**Selachyl alcohol,** separation, from ratfish-liver oil thin-layer chromatographic, 3481.
**Selenium,** analysis of, by neutron activation, 1008
determination, 3693, 4998.
in bronze, 3694.
in copper, 451, 3690, 3694.
in lead, 1931.
in mercury, X-ray spectrographic, 1580.
in meteorites, spectrophotometric, 1932.
in natural water, spectrophotometric, 2663, 3050.
in nicotinic acid, by neutron-activation analysis, 3560.
in ores, 1930.
in organic compounds, 616.
spectrophotometric, 3307.
in plants, X-ray spectrographic, 2555.
in prednisone, 3461. (*See Errata.*)
in presence of Bi, Sb and Te, 95.
in sludge containing platinum, 3691.
in steel, spectrophotometric, 584.
in steroids, spectrophotometric, 2990.
in sulphur, by radioactivation analysis, 4606.
in urine, polarographic, 5132.
of Cu and Pb in, square wave polarographic, 1843.
of Au in, radiochemical, 2390.
of impurities in, by neutron-activation analysis, 4152.
spectrographic, 2837.
of Hg in, spectrophotometric, 4607.
of Si in, spectrographic, 101.
potentiometric, 3692.
spectrofluorimetric, 527, 3249.
spectrographic, 898, 2835.
spectrophotometric, 2391, 2836.
u.v. spectrophotometric, 1501.
separation, 4998.
from Pd, Au, Te and Pt, paper chromatographic and electrophoretic, 2750.
from Po and Te, paper chromatographic, 15.
from S, 4602.
**Selenium alloys,** analysis of Se - In - As, 4054.
**Selenium, organic compounds of,** determination of Se in, 616.
spectrophotometric, 3307.
**Selenium sulphide,** thermolysis of, 16.
**Selenous acid,** detection, 526.
**Semen,** identification, paper chromatographic, 728.
**Semiconductors,** determination of impurities in, review, 1359.
**Separators,** laboratory, design for, 3983.
**Serine,** determination, 2578.
**Seromucoid,** determination, 244.
**Serpasil.** (See *Reserpine.*)
**Serum.** (See *Blood serum.*)
**Sewage,** analysis of gases from sludge digestion, gas chromatographic, 1743, 3051.
determination of alkylbenzenesulphonates in, 3364, 4379.
of solids in, 2662.
of Zn in, 4380.
**Shale,** determination of Fe in, 2416.
of sulphide in, 4996.

**rk oil,** determination of cholesterol and squalene in, gas chromatographic, 3881.
**llac,** hand-made, B.S.I. specification for, 1655.
**ge,** determination of volatiles and dry matter in, 2202.
**ne,** alkylchloro deriv. of, determination, 3802.
  potentiometric, 1612.
hloro deriv. of, separation, gas chromatographic, 664.
hloromethyl deriv. of, determination, conductimetric, 1611.
hlorophenyl deriv. of, i.r. analysis of, 1100.
rg. deriv. of, analysis of, review, 663.
  i.r. and Raman spectra of, 2493.
henoxy deriv. of, analysis of, photometric, 4707.
richlorophenyl-, determination, of biphenyl in, spectrophotometric, 2510.
**ca,** determination, 482.
  by activation analysis, 4106.
  in biol. materials, 229.
  in boiler water, 896.
  in minerals, spectrophotometric, 69, 483.
  in molybdenum, spectrophotometric, 3703.
  in natural water, spectrophotometric, 5284.
  in refractories, spectrophotometric, 69.
  in slag, 70.
  in steel, spectrophotometric, 2422.
  in urine, spectrophotometric, 1139.
  spectrophotometric, 1892.
**cate rocks,** analysis of, 2440.
etection of Au and Pt metals in, by ion exchange, 1052.
etermination of In in, spectrophotometric, 3205.
  of Fe in, spectrophotometric, 2414.
  of N in, 2443.
  of $SiO_2$ in spectrophotometric, 483.
  of $H_2O$, $CO_2$ and C in, 1985.
oss of Fe in fusion in nickel crucibles, 3757.
imultaneous determination of Ba and Sr in, spectrographic, 1409.
**cates,** analysis of, 3562.
  spectrographic, 975, 1446, 2340, 2341.
etermination, 4548.
  in uranium compounds, 1019.
  of alkali and alkaline-earth elements in, flame spectrophotometric, 898.
  of $Al_2O_3$ in, 2324.
  of As and Sb in, polarographic, 4128.
  of Cs, In, Rb and Tl in, spectrographic, 4549.
  of Co in, 1547.
  of Fe in, 1038.
  of Rb in, flame spectrophotometric, 1381.
  of Sr in, flame spectrophotometric, 45.
  of S in, spectrophotometric, 2383.
**cic acid,** determination, 4548.
tandardisation of, for use in column chromatography, 4404.
**comanganese,** determination of Mn in, spectrographic, 974.
**con,** activation analysis of, 3560.
nalysis of, by means of γ-spectra of the radioactive isotopes, 973.
  of halogens in, by neutron-activation analysis, 2342.
  spectrographic, 2803.
etermination, 4929.
  in beryllium, 1855.
  in Ca silicates, X-ray spectrographic, 5030.
  in ferromanganese, spectrographic, 974.
  in iron alloys and steel, 2874.
  in niobium pentoxide, spectrographic, 4995.
  in org. compounds, 3309, 4685.
  in presence of P, spectrophotometric, 972.
  in selenium, spectrographic, 101.

**Silicon,** determination—*continued*
  in silicon alloys, 2804.
  in steel and cast iron, 2869, 2874.
    spectrophotometric, 4647.
  in zirconium and Zircaloy, 4985.
  of B in, fluorimetric, 2320.
    mass spectrometric, 2786.
  of gases in, 3573.
  of I in, 3214.
  of trace elements in, polarographic, 1445.
  spectrophotometric, 1444, 3286.
**Silicon alloys,** determination of B in Si - Al, spectrophotometric, 2321.
  of impurities in Si - Cu alloys, spectrographic, 2303.
  of Mn in, spectrographic, 974.
  of Si in, 2804.
**Silicon carbide,** analysis of, spectrographic, 484.
**Silicon dioxide.** (See *Silica.*)
**Silicon, organic compounds of.** (See also *Silane*; *Siloxanes.*)
analysis of, photometric, 4707.
containing N, determination, potentiometric, 1613, 2017.
determination of phenyl groups in, 2016.
  of Si in, 3309.
mass spectra of, 898.
**Silicon tetrachloride,** determination of B in, spectrographic, 4970.
  of impurities in, 3562.
  photometric, 4707.
**Silicone resins.** (See *Resins, synthetic.*)
**Silk,** determination, in fibres, 4737.
**Siloxanes,** analysis of, gas chromatographic, apparatus for, 2223.
  review, 663.
  spectrophotometric, 2054.
polyalkyl-, determination, gasometric, 3801.
**Silumin,** determination of Ca in, flame photometric, 463.
**Silver,** analysis of, spectrographic, 4489.
detection, 4035.
  in biol. materials, 4345.
determination, 889, 1845, 2767, 4922.
  amperometric, 2766.
  coulometric, 439.
  flame spectrophotometric, 4077.
  in bismuth, 4136.
  in lead, spectrophotometric, 3596.
  in photographic film, spectrophotometric, 1392.
    materials, X-ray emission spectrographic, 3142.
  in Ag - Cu alloys, 452.
  in solder, B.S.I. method for, 3649.
  of Bi and Pb in, polarographic, 1846, 1847.
  of O in, 3597.
  polarographic, 4945.
  potentiometric, 1391, 4469.
  radiochemical, 456, 1370.
  spectrophotometric, 454, 455, 3176, 4078.
  X-ray spectrographic, 3177.
extraction of, 453, 2768.
separation, by ion exchange, 4470.
  from Co and Ni, by ion exchange, 457.
  from Hg and Pb, electrophoretic, 1373.
    paper chromatographic, 443.
  from Tl, electrochromatographic, 4488.
  from Zn and Cd. 1828.
  use of mercury as collector in, 1844.
**Silver alloys,** determination of Ag and Cu in Ag - Cu, 452.
**Silver chromate,** chloride exchange with, 3560.
**Silver iodide,** chloride exchange with, 3560.
**Silver nitrate,** determination, potentiometric, 432.

**Silver reductor,** notes on the use of, 3571.
prep. of, 1765.
**Silver sulphide,** thermolysis of, 16.
**Simazine.** [See *2-Chloro-4,6-di(ethylamino)-1,3,5-triazine.*]
**Slag,** analysis of, 3760.
spectrographic, 1981, 3562, 4677, 5034.
X-ray emission spectrographic, 3720.
cupola, determination of $F^-$ in, spectrophotometric, 3268.
determination of $Al_2O_3$ in, spectrophotometric, 1982.
of basicity of, 3562.
of Ca in, 1859, 3134, 3181, 3182.
flame spectrophotometric, 3187.
of In in, polarographic, 4103.
of Fe in, 4638.
flame spectrophotometric, 4637.
of Mg in, 1859, 3134, 3181, 3182.
atomic-absorption spectrophotometric, 3606.
of Mn in, 4635.
of silica in, 70.
of soluble phosphate in, photometric, 1480.
of Ti in, 1899.
ferrochrome, analysis of, spectrographic, 2876.
ferromanganese, determination of Ca and Mg in, 4497.
ferrotungsten, analysis of, spectrographic, 2876.
from the manufacture of uranium, determination of MgO and Mg in, 944.
titanium, determination of Fe in, spectrophotometric, 4640.
**Smaltite,** analysis of, 4675.
**Soap,** determination of fatty acids in, chromatographic, 3561.
of unsaponified fat in, 2517.
liquid, determination of bithionol in, spectrophotometric, 788.
**Sodium,** determination, 446.
atomic absorption spectrophotometric, 2295.
flame photometric, 4066.
in alkali metals, by isotopic dilution, 1378.
in alkaline-earth metals, flame photometric, 2296.
in aluminium alloys, 4957.
in aluminium, flame photometric, 58, 898, 2791.
in biol. materials, flame photometric, 222, 2543.
in brine, 4482.
in clay, flame spectrophotometric, 3586.
in extracellular fluid, flame photometric, 223.
in hydrocarbons, flame photometric, 174.
in lard, flame photometric, 4361.
in muscle, flame photometric, 5114.
in pharmaceutical materials, flame photometric, 277.
in potassium dichromate, flame spectrophotometric, 4481.
in rocks and minerals, spectrographic, 445.
in skeletal muscle, flame photometric, 5113.
in soil, 1747.
flame photometric, 1254.
of Ca in, spectrophotometric, 4063.
of O in, 928.
of K in, radiochemical, 1835.
simultaneously with K, by neutron-activation analysis, 2762.
loss of, during dry-ashing of animal tissue, 5115.
separation, from Li and K, paper chromatographic, 1833, 2761.
and Mg, thin-layer chromatographic, 4935.
**Sodium acetate,** determination of Al in, 4098.
**Sodium alloys,** determination of O in, 3587, 3588.
**Sodium benzoate,** determination, 4814.
**Sodium carbonate,** determination, in presence o NaOH, 66.
photographic grade, tests for purity of, B.S.I methods for, 1890.
**Sodium chloride,** density-composition tables for aq soln. of, amendment to B.S.I. standard, 1825.
detection of I in, 4632.
determination, in dithionite, 3248.
in fluxes, spectrographic, 26.
of Ba and Sr in, polarographic, 951.
of K in, 4937.
of KI in, 1951.
**Sodium chlorite,** use of, as oxidising agent in vol analysis, 2277.
**Sodium citrate,** determination, 3918.
after ion exchange, 3789.
**Sodium 2,5-dihydroxybenzenesulphonate,** determination, polarographic, 3813.
**Sodium hydroxide,** determination, in presence o $Na_2CO_3$, 66.
of Ca and Mg in, 1858.
of Fe in, polarographic, 1959.
of Ni and Cu in, 4064.
photographic grade, B.S.I. standard for, 1834.
**Sodium hypochlorite,** determination of Ni and Cu in, 4064.
**Sodium iodide,** determination of Pb in, photometric, 1894.
**Sodium lauryl sulphate,** determination, in detergents, paper chromatographic, 199.
**Sodium nitrite,** determination of $NO_3^-$ in, 1476.
**Sodium potassium tartrate,** determination, after ion exchange, 3789.
**Sodium quinolsulphonate.** (See *Sodium 2,5-dihydroxybenzenesulphonate.*)
**Sodium salts,** determination of trace elements in, spectrographic, 4461.
**Sodium sulphide,** determination, in presence of thiols, 659.
**Sodium sulphite,** anhydrous, (photographic grade), B.S.I. standard for, 1925.
determination, amperometric, 4456.
hydrated, (photographic grade), B.S.I. standard for, 1924.
**Sodium tetraborate,** photographic grade, B.S.I. standard for, 3620.
**Sodium tetraphenylborate,** determination, 3562.
**Sodium thiosulphate,** anhydrous, (photographic grade), B.S.I. standard for, 1929.
hydrated, (photographic grade), B.S.I. standard for 1928.
**Sodium tripolyphosphate,** analysis of, 993.
**Soil,** analysis of, contamination problems in, 2186.
spectrographic, 2180.
determination of Be in, paper chromatographic, 3179.
of calcite and dolomite in, 2194.
of Ca, Mg, K and Na in, atomic absorption spectrophotometric, 829.
of carbohydrates in, spectrophotometric, 2199.
of cation-exchange capacity of, 2187.
flame spectrophotometric, 2188.
of Cu in, 830.
spectrographic, 4858.
of cyanamide in, spectrophotometric, 3056.
of dicyandiamide in, spectrophotometric, 2184.
of EPTC in, spectrophotometric, 1272.
of exchangeable hydrogen in, 2189.
of heptachlor in, chromatographic, 2674.
of Fe in, spectrophotometric, 2196.
of Mg in, atomic-absorption spectrophotometric, 3606.
of Hg in, spectrophotometric, 4953.
of moisture in, 2190, 3557.

, determination—*continued*
  of Mo in, 1255.
  of Ni in, 831.
  of N in, 2197.
    spectrophotometric, 4383.
  of organic and inorganic C in, apparatus for, 344.
    matter in, spectrophotometric, 2198.
  of phosphate in, 2193.
  of phosphoric acid esters in, review, 1256.
  of P in, photometric, 2192.
    spectrophotometric, 3963.
  of K in, 1747, 3053.
    flame photometric, 3962.
  of Na in, 1747.
    flame photometric, 1254.
  of $^{90}$Sr in, by ion exchange, 345.
  of $SO_4^{2-}$ in, 4857.
  of S in, 5290.
  of Zn in, 2195.
    spectrographic, 3500.
ercolator for, 351.
**anine,** determination, in potatoes, spectrophotometric, 311.
  spectrophotometric, 2606.
**ders,** sampling of, B.S.I. methods for, 3652.
**ochrome black 6BN.** (See *Dyes*, C.I. Mordant Black 3.)
**ochrome cyanine R.** (See *Dyes*, C.I. Mordant Blue 3.)
**ochrome fast navy 2R.** (See *Dyes*, C.I. Mordant Blue 9.)
**ochrome red ERS.** (See *Dyes*, C.I. Mordant Red 7.)
**ochrome violet RS.** (See *Dyes*, C.I. Mordant Violet 5.)
**vation number,** determination of extracted inorganic compounds in org. solvents, 918.
**vents, organic,** analysis of, in air, gas chromatographic, 3488.
  u.v. photometer for, 1990.
determination of water in, 1059.
or lacquer, analysis of, i.r. spectrophotometric, 3841.
mixtures of, analysis of, 150.
**bic acid,** detection, in foods, 5255.
    spectrophotometric, 3026.
  in wine, chromatographic, 3935.
determination, in butter and margarine, spectrophotometric, 319, 2153, 2645.
**bitan laurate,** determination, spectrophotometric, 2042.
**bitan palmitate,** determination, spectrophotometric, 2042.
**bitol,** detection, electrophoretic, 2468.
determination, coulometric, 2888.
  in foods, 5254.
  in wine, 3476.
**a-bean oil,** determination of free fatty acids in, 3482.
**arteine,** determination, 1702.
**asmonal,** determination, in suppositories, 3444.
**ectra,** nuclear-spin resonance, of methyl esters of fatty acids, 4363.
**ectrofluorimetry,** compilation of data for, 4426.
correction of spectra in, 1801.
observations on, 4424.
reduction of current fluctuations in, 2238.
standard spectrum for calibration in, 876.
**ectrofluorimetry, β-ray,** use of, in measurement of thickness of deposits, 898.
**ectrography, electron probe X-ray,** application to segregations in alloys, 917.
calibration curves in, 5322.

**Spectography, electron probe X-ray**—*continued*
  principles of, and correction factors in, 2725.
  use of, 400.
**Spectrography, emission,** action of carriers in, vaporisation of impurities in, 898.
  advantages of double rotating spark-gap in, 3101.
  apparatus for, 4895, 5319.
    comparison of, 389.
    improvements to, 1322.
    with plane grating, 867, 1323.
  arc, controlled emission energy in argon for tracers, 898.
  comparison of graphite with carbon arcs, 4003.
    with X-ray emission spectrography, 898.
  controlled atmosphere excitation chamber for, 391.
  convertibility of procedures with complete volatilisation, 898.
  determination of rare elements, increase of sensitivity in, 4419.
    of transformation constant, 3562.
    of variable spectral-line intensities in, 3528.
  double-arc method of, 898.
  electrodes for use with refractory samples, 390.
  evaluation of results in, 3096.
  grating monochromators for, 3525.
  importance of particle size in, 4418.
  increase of sensitivity in, by use of $CO_2$, 4894.
  influence of electron pressure in luminous arc method in, 898.
    of sifter-electrode procedure in, 898.
    of varieties of carbon in, 409.
  i.r. monochromator for, 3526.
  injection of soln. by means of a gas, 898.
  matrix effects in, 1797.
  method of calculation allowing for background intensity, 3097.
  micro procedure for mineralogical and metallographic problems, 898.
  new method of photoelectric measurement in, 898.
  of soln., various techniques for, 3100.
  performance and proof in, 898.
  relation between sensitivity of determination and parameters in, 1799.
    of spark discharge to current - time curve, 898.
  residual arc spectra of 70 elements diluted in copper, 898.
  review of progress in 1960, 2264.
  role of counter-electrode in rectified spark excitation, 3562.
  selection of buffers in, 1324.
  sensitivity limits in, 5321.
  sensitometric properties of a Polaroid emulsion, 4006.
  spray procedure with perforated electrode, 3562.
  stroboscopic studies of arc discharges, 4001.
  time-resolved, device for, 3115.
  use in control of sheet metal, 898.
    in geochemical studies, 3562.
    in microbiological investigations, 3562.
    in steelworks, 898.
    of digital computer in, 3098, 5318.
    of "intermediate" standard in, 3562.
    of line width in, review, 3999.
    of Noar cellulose pellet arc method in, 898.
    of scatter diagrams in, 392.
    of sifter electrodes in, 3527.
    of special atmospheres in, 868.
    of statistics in, 4033.
    of tungsten electrode in, 898.
  volatilisation of metallic electrodes in, 898.
  with "singing" arc, 2700.
  with Tesla spark source, 3099.

  of P in, 3736.
    photometric, 4473.
    spectrographic, 409.
    spectrophotometric, 409.
  of Se in, spectrophotometric, 584.
  of Si in, 2425, 2869, 2874.
    spectrophotometric, 3286, 4647.
  of $SiO_2$ in, spectrophotometric, 2422.
  of S in, 2870.
    photometric, 1542.
  of Ta in, absorptiometric, 1963.
  of Sn in, spectrophotometric, 2423.
  of Ti in, 582.
    spectrophotometric, 1964, 3735.
  of W in, 586.
    by radioactivation, 2871.
    spectrophotometric, 1969.
  of V in 582, 2874.
    amperometric, 1967.
    by radio-activation, 2871.
    spectrophotometric, 998.
    X-ray spectrographic, 583.
  of Zn in, polarographic, 4645.
differential phase analysis of, 4182.
high-alloy, determination of Co in, spectrophotometric, 2429.
    of W in, by isotope dilution, 585.
influence of the metallic state of, on spectral emission of, 898.
phase analysis of, 2424.
pickling liquors of, determination of free acid in, 1564.
separation and determination of Al and Si in, review, 2425.
    of Ti from, by ion exchange, 2426.
    of V, Cr and Mo from, by ion exchange, 3727.
simultaneous determination of Cu and Pb in, polarographic, 3731.
stainless, determination of B in, 3285.
    of Ta in, spectrophotometric, 4649.
    of Sn in, polarographic, 3734.
  electrolytic dissolution of, 2418.
**Steerhide,** analysis of extracts of, electrophoretic, 216.
**Stellite,** determination of Co in, amperometric, 1547.
**Sterculic acid,** determination, in maize oil, spectrophotometric, 3034.
**Steroids.** (See also *Corticosteroids*, *Oestrogens* and individual compounds.)
17-deoxy-α-ketolic, extension of the Porter-Silber reaction to, 4801.
detection of functional groups in, 1184.
determination, chromatographic, 4796.
  in urine, 1699.
    spectrophotometric, 3437.
  of Se in, spectrophotometric, 2990.
extraction of, from urine, 759.
gonadal, chromatography of, 269.
hydroxy- and dihydroxy-, separation, paper chromatographic, 5217.
$\Delta^5$-3$\beta$-hydroxy-, absorption spectra of, 4317.
identification, by microsublimation, 1696.
optical rotation of, 1802.

**Steroids**—*continued*
  $\Delta^4$- and $\Delta^{1,4}$-, 3-oxo-, determination, chromatographic, 268.
  17-oxo-, determination, 2593.
      in plasma, 5215.
      in urine, 2989.
    separation, chromatographic, 2988.
      from urine, gas chromatographic, 4800.
  separation, gas chromatographic, 763, 4312.
    paper chromatographic, 2108.
  thin-layer chromatography of, 760.
**Sterols,** faecal, errors in use of digitonin for, 3882.
  separation, paper chromatographic, 267.
**Stibine,** detection, 3678.
**Stilbazo.** (See *Reagents, organic.*)
**Stilboestrol,** (*diethylstilboestrol*), assay of, by isotope dilution, 2629.
  detection, 1214.
  paper chromatography of, 791.
**Stopcocks,** automatic, 4392.
**Stramonium,** determination of hyoscyamine and atropine in, spectrophotometric, 3890.
**Strawberries,** canned, determination of sand in, 801.
**Streptomycin,**
  assay of, 778, 1729.
    in feeding-stuffs, microbiological, 3973.
  determination by ion exchange, 1202.
    in feeding-stuffs, spectrophotometric, 2669.
**Strontium,** determination, 2779.
    flame spectrophotometric, 393.
    in apatite, 1864.
    in bone, 721.
      by ion exchange, 5119.
    in calcium acetate, X-ray spectrographic, 4502.
    in natural water, flame photometric, 3044.
    in phosphors, 4501.
    in Portland cement, 46.
    in KCl and NaCl, polarographic, 951.
    in rocks and biol. materials, by neutron activation, 949.
      simultaneously with Co and Cr, by neutron activation, 4931.
    in serum and bone, X-ray spectrographic, 4275.
    in silicates, flame spectrophotometric, 45.
    of impurities in, spectrographic, 1865.
    of short-lived, in reactor effluents, 2270.
    of $^{87}$Sr, by neutron activation, 3552.
      in lepidolite, spectrochemical, 145.
    of $^{89}$Sr and $^{90}$Sr in milk, ion-exchange materials, plants, fish and bone, 2063.
    of $^{90}$Sr, 3192.
      and $^{89}$Sr in sea water, radiochemical, 2177.
      in milk, 5250.
      in natural water, 3046.
        by ion exchange, 828.
        radiochemical, 1740.
      in rain water, by β-counting, 4854.
      in soil, by ion exchange, 345.
      in urine, 3405.
      γ-spectroscopic, 3191.
    simultaneously with Ba, in silicate rocks, spectrographic, 1409.
    spectrophotometric, 1406, 3610.
  influence of EDTA on flame photometry of, 898.
  removal of $^{90}$Sr from natural water, 341.
  separation, 3190.
    by ion exchange, 4503.
    from Ba, 464.
    from biol. materials, paper chromatographic, 4756.
    from Ca, 2776.
      by ion exchange, 948.
    from rare-earth metals, by ion exchange, 3188.
**Strontium,** separation—*continued*
    of radioactive, chromatographic, 2311.
    of $^{90}$Y from $^{90}$Sr, by ion exchange, 2777.
**Strychnine,** detection, 1703.
  determination, 1702, 2602.
    in nux vomica, 278.
      by ion exchange, 4327.
      chromatographic, 3445.
      spectrophotometric, 3001.
    polarographic, 4326.
**Styphnate,** determination, in *S*-alkyl-*N*-phenylthiuronium compounds, u.v. spectrophotometric, 1217.
**Styrene,** analysis of, gas chromatographic, 4237.
  determination, in air, 335.
    in polystyrene, polarographic, 1654.
    of ethylbenzene in, i.r. spectrophotometric, 3838, 3839.
  identification, gas chromatographic, 3376.
  α-methyl-, identification, gas chromatographic, 3376.
**Styrene oxide,** determination, 2959.
**Succinic acid,** detection, paper chromatographic, 2011.
  determination, in wine, by ion exchange, 3944.
  separation, chromatographic, 4700.
**Sucrose,** detection, in wine, chromatographic, 2156.
    electrophoretic, 2157.
  determination, amperometric, 2470.
    in condensed milk, 2147.
    in ice-cream, 2150.
    in sugar cane, spectrophotometric, 4828.
  refractive-index table for soln. of, 3920.
  separation, from other carbohydrates, by ion exchange, 636.
**Sudan I.** (See *Dyes*, C.I. Solvent Yellow 14.)
**Sudan black.** (See *Dyes*, C.I. Solvent Black 3.)
**Sugar alcohols.** (See *Polyhydric alcohols.*)
**Sugar beet,** determination of lactic acid in, by ion exchange, 3498.
    of quality of, 5287.
**Sugar cane,** determination of sucrose in, spectrophotometric, 4828.
  sampling of, 2666.
**Sugar phosphates,** determination, in fish, spectrophotometric, 2637.
  paper chromatography of, 3862.
**Sugar, raw,** determination of cations in ash of, by ion exchange, 3467.
  syrup, determination of heavy metals in, 309.
**Sugar, refined,** determination, 3017.
**Sugars,** analysis of, chromatographic, 2905.
      apparatus for, 4695.
    gas chromatographic, 3779.
    thin-film chromatographic, 5143.
  detection and differentiation of, 5078.
  determination, in boiler water, automatic, 896.
    in chocolate, 2141.
    of alkoxyl groups in, 4687.
    of distribution of $^{14}$C in, 2008.
    paper chromatographic, 4837.
    spectrophotometric, 4771.
  methylated, gas chromatography of, 1076.
  reducing, detection, in urine, paper chromatographic, 2073.
    determination, 1595, 4770.
      spectrophotometric, 796.
  separation, by ion exchange, 2471.
    chromatographic, 4219.
    from amino-acids and peptides, in biol. materials, paper chromatographic, 2577.
    paper chromatographic, 1150, 4286.

**phacetamide,** determination, by ion exchange, 1710.
dentification, 3009.
**phadiazine,** identification, 1212, 3009.
**phadimethoxine,** detection, 3913.
**phadimidine,** identification, 1212, 5245.
**phaguanidine,** determination, 2627.
by ion exchange, 1710.
dentification, 3009.
**phamerazine,** identification, 1212.
**phamethazine,** identification, 3009.
**phamethoxypyridazine,** detection, 3913.
**phamethyldiazine,** detection, 3913.
**phanilamide,** determination, 2627.
by ion exchange, 1710.
dentification, 3009.
**phaphenazole,** detection, 3913.
determination, in biol. materials, chromatographic, 3406.
in blood and tissues, 1670.
**lphate,** determination, 1361, 1500, 1921, 1923, 3688, 3689, 4603.
by high-frequency titration, 4474.
flame photometric, 524, 1407.
in biol. materials, 2061, 5129.
spectrophotometric, 3396, 3397.
in electroplating soln., 100, 525.
in ferrous sulphamate, 4997.
in gypsum, 4498.
in hydrolysed keratin, polarographic, 3561.
in phosphoric acid, spectrophotometric, 1478.
in soil, 4857.
in sulphate esters, spectrophotometric, 3854.
in uranium ores, 1019.
review of methods for, 523.
simultaneously with phosphate, in fertilisers, 1748.
spectrophotometric, 99, 1922, 2834.
limit test for, in drugs, 3015.
u.v. spectrum of salts, 1363.
**lphate esters,** determination of SO$_4^{2-}$ in hydrolysed, spectrophotometric, 3854.
**lphathiazole,** identification, 3009.
**lphatide,** determination of cerebroside sulphuric acid esters in, spectrophotometric, 735.
**lphide,** detection, 419.
determination, 428, 2386, 3562, 4151, 4980.
fluorimetric, 4705.
in food, oscillopolarographic, 3027.
in hydrolysed keratin, polarographic, 3561.
in presence of polysulphide and thiosulphate, 2387.
in shale, 4996.
photometric, 520.
potentiometric, 521.
spectrophotometric, 1496.
**lphides,** analysis of, 3560.
determination of Ge in, 485.
**lphides, organic,** determination, 3811.
mass spectra of, 5071.
separation, gas chromatographic, 4229.
**lphinic acids,** determination, potentiometric, 4245.
separation, paper chromatographic, 4231.
**lphite,** determination, 1499, 3562.
in hydrolysed keratin, polarographic, 3561.
**lphite liquor,** determination of "Hibbert compounds" in, chromatographic, 4734.
of S in spent, 710.
**lphobromophthalein,** determination, in blood plasma, spectrophotometric, 3861.
**lphonamides,** $N^4$-acyl deriv. of, determination, in animal tissue, spectrophotometric, 3407.
detection, 3913.
**Sulphonamides**—*continued*
determination, by ion exchange, 1710.
in biol. materials, chromatographic, 3406.
radiochemical, 1329.
identification, 1212, 5245.
**Sulphonated phenylstearic acid,** use of, as a polarographic maximum suppressor, 2249.
**Sulphonazo.** (See *Reagents, organic.*)
**Sulphonic acids,** amido-, paper chromatography of, 4148,
analysis of, gas chromatographic, 1609.
detection, 4699.
determination, in mixtures with sulphuric acid, 3812.
**Sulphonyl chlorides,** separation, paper chromatographic, 4231.
**Sulphoxides,** determination, 3333.
**Sulphur,** detection, 1918.
in organic compounds, 1573, 4029.
determination, 1994, 3562, 5038, 5043.
in biol. materials, flame photometric, 4282.
in blood and urine, 1140.
in cast iron, 1968, 2870.
in chromium, 1006.
in coal, 1113.
in coal gas, 3359.
in fuel oils, 2038, 2944.
in hydrocarbons, 3353, 5088.
in ores, 2384.
in organic compounds, 152, 1996, 3770, 4684, 5045.
in petrol, X-ray emission spectrographic, 3354.
in petroleum, 2944, 4146.
in rubber, 214.
in serum, X-ray spectrographic, 1143.
in silicate rocks, spectrophotometric, 2383.
in soil, 5290.
in spent sulphite liquor, 710.
in steel, 2870.
photometric, 1542.
in viscose, 2956.
of C in, spectrographic, 4601.
of impurities in, spectrographic, 2832.
of Se in, by radioactivation, 4606.
of $^{35}$S, by scintillation counting, 3246.
in biol. materials, 3395.
spectrographic, 4600.
separation, from Se, 4602.
test for impurities in, 1919.
**Sulphur dioxide,** determination, in air, 3042, 4846.
in gases, 3124.
in jam and marmalade, 5256.
in presence of chlorate, 1498.
in wine, polarographic, 3479.
spectrophotometric, 1497.
**Sulphur, organic compounds of,** separation, from hydrocarbons, gas chromatographic, 4725.
**Sulphur trioxide,** determination, in flue gas, 2948.
**Sulphuric acid,** analysis of gases in manufacture of, 3763.
changes in oxidation state in boiling, 3560.
collection of mist of, comparison of instruments for, 1007.
determination, in mixtures with sulphonic acids, 3812.
of Al in, 4098.
of Cl$^-$ in, square-wave polarographic, 2833.
of Cu in, square-wave polarographic, 2833, 4484.
of Pb in, square-wave polarographic, 2833, 4557.
of strength of, spectrophotometric, 522.
potentiometric, 2385.
separation, from H$_3$PO$_4$, by ion exchange, 1920.
**Sulphydryl-groups.** (See *Mercapto-groups.*)

- **Sunflower-seed oil,** determination of iso-oleic acid in, paper chromatographic, 3951.
    - spectrophotometric, 2652.
- **Sunset yellow FCF.** (See *Dyes*, C.I. Food Yellow 3.)
- **Suppositories,** determination of morphine, papaverine, amidopyrine and spasmonal in, 3444.
- **Suppository bases,** analysis of fatty acids in, paper chromatographic, 4825.
- **Surfactants,** analysis of, 4728.
    - review of progress in 1960, 2264.
  - determination, 4729.
    - in industrial wastes, 3494.
  - identification, in food, 4354.
  - non-ionic, distribution of between $H_2O$ and iso-octane, 4262.
  - separation of anionic and non-ionic, by ion exchange, 4261.
- **Suspensions,** measuring of concn. of, apparatus for, 1337.
- **Sweet potatoes,** determination of ipomeamarone in, chromatographic, 3422.
- **Sylvanite,** separation of metals in, electrophoretic and paper chromatographic, 2750.
- **Sympathomimetic amines,** detection, paper chromatographic, 3434.
  - paper chromatography of, 2621.
- **Synopen.** (See *Halopyramine*.)
- **Systox,** determination, gas chromatographic, 1751.

T

- **TBA.** (See *Herbicides*.)
- **TTA.** (See *Thenoyltrifluoroacetone*.)
- **Talc,** analysis of, 4197.
- **Tall oil,** determination of cholesterol and squalene in, gas chromatographic, 3881.
- **Tannin,** identification of condensed, in leather, chromatographic, 215.
- **Tantalite-niobite,** determination of Nb and Ta in, spectrographic, 1003.
- **Tantalum,** analysis of gases in, apparatus for, 3243.
  - determination, 517, 3685.
    - by ion exchange, 4140.
    - by isotope dilution, 3242.
    - in iron alloys, 1820.
      - γ-spectrometric, 2831.
    - in irradiated hafnium, 4457.
    - in rocks and meteorites, by neutron-activation analysis, 98.
    - in stainless steel, spectrophotometric, 4649.
    - in steel, absorptiometric, 1963.
    - in tantalite-niobite, spectrographic, 1003.
    - in titanium, spectrographic, 75.
    - of gases in, 3573.
    - of impurities in, spectrographic, 3581.
      - X-ray emission spectrographic, 2270.
    - spectrographic, 3562, 4598.
    - spectrophotometric, 409, 3687, 4493.
  - oxide-film thickness on, determination, by proton activation, 4676.
  - separation, from Hf, 3244.
    - from Nb, 1493.
      - by ion exchange, 4596.
      - chromatographic, 516.
      - review, 1002.
    - from Ti, 1493.
      - by ion exchange, 4596.
    - from Zr, 1493.
    - of isotopes, 4144.
- **Tantalum carbide,** determination of V in, spectrophotometric, 1000.
- **Tantalum nitride,** analysis of, 1829.
- **Tantalum oxides,** determination of Nb, Ti and Fe in,
      - polarographic, 3241.
    - of $Ta_2O_5$, in presence of $Nb_2O_5$, 3686.
    - of V in, spectrophotometric, 1000.
    - X-ray spectrographic, 2290.
- **Tantalum pentachloride,** gas chromatography of, review, 4047.
- **Tantalum phosphates,** identification, 4143.
- **Tartaric acid,** detection, paper chromatographic, 2011.
  - determination, 3786.
    - in wine and must, simultaneously with lactic acid, spectrophotometric, 5269.
- **Tartrazine,** detection, i.r. spectrophotometric, 317.
- **Taurine,** determination, 755.
    - in urine, spectrophotometric, 5191.
- **Tea,** determination of $NH_3$ in, 3473.
    - of theaflavins and thearubigins in, spectrophotometric, 3939.
- **Tea-seed oil,** detection, in olive oil, Fitelson's reaction for, 2165.
- **Technetium,** determination, 1534.
    - mass spectrometric, 128.
    - polarographic, 566.
    - radiochemical, 1954.
    - spectrophotometric, 1533, 4173.
  - extraction of, 5014.
  - separation, from Re, paper chromatographic, 5015.
- **Teepol,** identification, in detergents, paper chromatographic, 199.
- **Teflon,** determination of thermal stability of, 3377.
  - use of, in chromatographic separations, 4369.
- **Tellurite,** determination, amperometric, 1011.
- **Tellurium,** detection, paper chromatographic, 1933.
  - determination, 3693, 4055, 4608, 4998.
    - in bismuth, 4137.
    - in copper and bronze, 3694.
      - and lead compounds, polarographic, 4153.
    - in In - Sb alloys, 3155.
    - in meteorites, 1932.
    - in powders, spectrographic, 898.
    - in presence of Bi, Sb and Se, 95.
    - in selenium, by neutron activation, 4152.
    - in Te - Pb alloys, 4457.
    - of I in, polarographic, 3715.
    - spectrographic, 3695.
    - spectrophotometric, 1009, 1010, 2392.
  - extraction of, from HCl soln., 3582.
  - separation, 4998.
    - from Sb and Sn, by ion exchange, 487.
    - from I, by ion exchange, 102.
    - from Pd, Au, Se and Pt, paper chromatographic, 2750.
    - from Po and Se, paper chromatographic, 15.
    - from U, by ion exchange, 547.
- **Tellurium alloys,** analysis of In - Sb - Te, 3155.
  - determination of Te in Te - Pb, 4457.
- **Tellurium sulphide,** thermolysis of, 16.
- **Tensammetry,** use of, in analysis, 1803.
- **Terbium,** determination, polarographic, 2801.
  - separation, chromatographic, 966.
    - of $^{160}$Tb from other radioactive materials, electrophoretic, 65.
- **Terephthalic acid,** determination, polarographic, 1097, 5081.
- **Terpene alcohols,** separation, gas chromatographic, 4217.
- **Terpenes,** analysis of, chromatographic, 187, 3351.
  - determination, gas chromatographic, 688, 4250, 4720.
    - in volatile oils, gas chromatographic, 2518.
- **Terpenoid compounds,** separation, chromatographic, 187.

**rphenyls,** analysis of, i.r. spectrophotometric, 687.
determination, in polyphenyl reactor coolants, gas chromatographic, 4750.
**rpineol,** α-, determination, gas chromatographic, 4250.
**rpinyl acetate,** detection, in volatile oils, 3826.
**rramycin.** (See *Oxytetracycline.*)
**rabutyl titanate,** determination of Cl in, 122, 2018.
**trabutylammonium iodide,** purification of, for use in polarography, 2272.
**tracycline,** anhydro-, separation, 4333.
deriv. of, determination, in feeding-stuffs, spectrophotometric, 4386.
paper chromatographic, 1203.
spectrophotometric, 779.
separation, paper chromatographic, 780.
determination, in presence of chlortetracycline, microbiological, 3899.
paper chromatographic, 1203.
epi-, separation, 4333.
epichlor-, separation, 4333.
paper chromatography of, 2127.
separation, 4333.
**traethyl-lead,** determination, 2495.
in petrol, 698, 2035.
spectrophotometric, 2494.
**traethylthiuram disulphide,** determination, in synthetic rubber, polarographic, 3386.
**trahydrofurfuryl nicotinate,** determination, spectrophotometric, 3910.
**trahydronaphthalene,** (*tetralin*), alkyl deriv. of, determination of the structure of, i.r. spectrographic, 4248.
**tramethyl-lead,** determination, in petrol, mass spectrometric, 2942.
**tramethylthiuram disulphide,** determination, 4861.
in food, oscillopolarographic, 3027.
**traphenylborate,** detection, 3349.
determination, 4922.
of K in, flame photometric, 4938.
thermal stability of, 1344.
**trose,** determination, spectrophotometric, 2006.
**xtiles,** determination of Cu and Zn 8-hydroxyquinolinate in, paper chromatographic, 4944.
of dichlorophen on, spectrophotometric, 1760.
of non-cotton content of, 3370.
of resin in, 4740.
of urea - formaldehyde and melamine - formaldehyde resins in, 4746.
**hallium,** behaviour of, in qual. separations, 965.
detection, 2330, 2794, 3206, 4464.
by ion exchange, 2795.
determination, 474, 1884, 2331, 3208, 3560, 4533, 4960.
coulometric, 4534.
electrometric, 473.
in cadmium, polarographic, 4961.
in halides, 4104.
in its alloys, 3632.
in presence of As, 1429, 3560.
in silicates, spectrographic, 4549.
in urine, flame spectrophotometric, 2548.
in wine, polarographic, 809.
of impurities in, by radioactivation, 4962.
polarographic, 4535.
potentiometric, 432, 3207.
spectrographic, 4529.
normal redox potential of the Tl$^{III}$ - Tl$^{I}$ system in presence of Br$^{-}$, 3560.
separation, 4531.
from Ag, electrochromatographic, 4488.
of Tl$^{3+}$ from In$^{3+}$ and Zn$^{2+}$, 3579.
**Thallium,** separation—*continued*
of $^{204}$Tl$^{+}$ from $^{204}$Tl$^{3+}$, paper chromatographic, 4925.
paper chromatographic, 4532.
**Thallium alloys,** determination of Tl in, 3632.
**Thallium iodide,** determination of Pb in, photometric, 1894.
**Theaflavines,** determination, in tea, spectrophotometric, 3939.
**Thearubigins,** determination, in tea, spectrophotometric, 3939.
**Thebaine,** determination, 2603.
**Theed.** (See *Tetrahydroxyethylenediamine.*)
**Thenoyltrifluoroacetone,** (*TTA*), polarographic and spectrophotometric behaviour of, 3145.
**Theobromine,** determination, spectrophotometric, 2999.
1-(2,3-dihydroxypropyl)-, determination, 1196.
**Theophylline,** detection, spectrofluorimetric, 2998.
determination, potentiometric, 775.
7-(2,3-dihydroxypropyl)-, determination, 1196.
identification and determination, paper chromatographic, 1197.
**Thermal analysis,** apparatus for, 1777, 2681, 3986.
automatic, 1778.
at elevated temp., 3157.
determination of evaporation curves by, 5304.
of impurities by, 3507.
differential, apparatus for, 2681, 2682, 2686.
at low temp., apparatus for, 4402.
in self-generated atmospheres, 2683.
of carbonates, 2685.
of epoxides, 2684.
errors in, 2680.
fractional, technique for, 849.
review, 5303.
sample holder for use in, 3067.
**Thermopiles,** construction of, use of, in the ebulliometric determination of the number-average mol. wt. of polymers, 4427.
**Thermostat,** for ovens, 1286.
**Thialbarbitone,** determination, 3796.
**Thiamine,** assay of, microbiological, 3037.
determination, 331, 783, 1246, 5278.
in animal tissues, chromatographic, 4296.
in flour and wheat, microbiological, 4371.
in food, paper chromatographic, 2169.
in rat tissues, 1675.
in urine, 5176.
spectrophotometric, 817.
effect of methanol on conversion to thiochrome, 3038.
separation, from other vitamins, chromatographic, 332.
**Thiazinamium methyl sulphate,** identification, 3011.
**Thiazole,** 2,4-dimethyl-, proton magnetic resonance spectrum of, 694.
2- and 4-methyl-, proton magnetic resonance spectra of, 694.
**Thioacetamide,** liberation of $H_2S$ from soln. of, 4444.
**2-Thiobarbituric acid,** determination, spectrophotometric, 4578.
**4,4′-Thiobis-(6-t-butyl-*m*-cresol).** (See *Santonox.*)
**Thiocyanate,** ammonium, determination, 4969.
determination, 428, 481, 3562, 3641.
amperometric, 3235.
spectrophotometric, 971.
potassium, determination, 4968.
separation, from bromide, 4631.
**Thiodan,** analysis of, gas chromatographic and i.r. spectrophotometric, 1755.
determination, gas chromatographic, 1271.
in blackcurrants, 2647.

- **Thioethanolamine.** (See *2-Aminoethanethiol.*)
- **Thioethylene glycol.** (See *2-Mercaptoethanol.*)
- **Thioglycollic acid,** determination, amperometric, 3772, 4210.
    - spectrophotometric, 1610.
- **Thiolactic acid.** (See *2-Mercaptopropionic acid.*)
- **Thiols,** aliphatic, mass spectra of, 5071.
  - analysis of, 171.
  - determination, 671, 3335, 3336, 3811, 5070.
    - conductimetric, 696.
    - fluorimetric, 4705.
    - in petroleum, mass spectrometric, 697.
    - in presence of sodium sulphide, 659.
    - potentiometric, 3274.
    - simultaneously with $H_2S$, potentiometric, 660.
- **Thiomalic acid.** (See *Mercaptosuccinic acid.*)
- **Thiomersalate,** determination, spectrophotometric, 3914.
- **Thionaphthene,** (*benzothiophen*), determination, in naphthalene, chromatographic, 1618.
  - separation, from mixtures with naphthalene and 2-methylnaphthalene, gas chromatographic, 693.
- **Thionyl chloride,** determination, 3247.
- **Thio-oxine.** (See *Reagents, organic.*)
- **Thiopentone,** determination, in blood and plasma, u.v. spectrophotometric, 1146.
- **Thiophen,** analysis of, u.v. photometer for, 1990.
  - determination, in benzene, chromatographic, 1618.
      - spectrophotometric, 2922.
    - of 1 p.p.m., in benzene, 666.
  - identification, 1637.
  - separation, from mixtures with benzene and toluene, gas chromatographic, 693.
- **Thiophosphates,** analysis of, 662.
- **Thiophosphoryl chloride,** determination, in mixtures, gas chromatographic, 2920, 4581.
- **Thiopropazate,** determination, in urine and blood, spectrophotometric, 5137.
- **Thioridazine,** determination, in urine, 4767.
  - identification, 3011.
- **Thiosinamine,** detection, 1188.
  - determination, 3796.
- **Thiostrepton,** assay of, microbiological, 2612.
- **Thiosulphate,** detection, 419.
  - determination, 2386, 3562, 3567, 4150, 4151.
    - in hydrolysed keratin, polarographic, 3561.
    - in presence of sulphide and polysulphide, 2387.
    - spectrophotometric, 4149.
- **Thiosulphonates,** separation, gas chromatographic, 3337.
- **Thiourea,** detection, 419, 1188.
  - determination, 2918, 3796, 4704.
    - in calcium cyanamide, polarographic, 347.
    - potentiometric, 172.
- **Thiram,** paper chromatography of, 1277.
- **Thiuram disulphides,** determination, 4860.
- **Thorium,** analytical chemistry of, bibliography, 3665.
  - detection, 3666.
  - determination, 130, 496, 910, 984, 986, 1433, 1461, 1463, 1464, 1466, 1904, 2739, 3228, 3229, 3230, 3562, 4560, 4569, 4570, 4571, 4929.
    - by ring-oven method, 3666.
    - conductimetric, 4474.
    - in fluoride salt mixtures, 498.
    - in magnesium alloys, 1402.
    - in minerals, X-ray spectrographic, 2819.
    - in molybdenum, radiochemical, 1469.
    - in monazite, 1462.
      - amperometric, 4572.
      - by ion exchange, 1468.
    - in niobium compounds, and in pyrochlore, spectrophotometric, 2362.
    - in presence of U, spectrophotometric, 2846.
      - of Zr, 2820.
- **Thorium,** determination—*continued*
    - in soln. containing Al, 4986.
    - in thorium(IV) chloride, conductimetric, 987.
    - in tungsten, radiochemical, 1469.
    - of Al in, spectrophotometric, 2821.
    - of B in, spectrophotometric, 3667.
    - of Gd, Sm and Eu in, 4987.
    - of $^{233}$Pa in, by $\beta$-counting, 551.
    - radiometric, 545.
    - spectrographic, 4988.
    - spectrophotometric, 497, 1465, 1467, 2363, 4471, 4573, 4597.
    - X-ray spectrographic, 2364.
  - pptn. with 8-hydroxyquinolinates, 2361.
  - recovery of $^{234}$Th, by ion exchange, 3668.
  - separation, 80.
    - from rare earths, by ion exchange, 988.
    - from soln. containing Al, 4928.
    - from U, 543.
      - chromatographic, 4620.
- **Thorium(IV) chloride,** determination of Th in, conductimetric, 987.
- **Thorium hydroxide,** use of, in separation of U, 3562.
- **Thorium ores,** analysis of Th - U, $\gamma$-spectrometric, 544.
- **Thoron,** (*isotope of radon*), determination, in air, 2822.
- **Thoron,** (*reagent*), applications of, review, 4039.
- **Thoron II.** (See *Reagents, organic.*)
- **Thorotrast,** detection, in biol. material, 3465.
- **Threonine,** L-, assay of, microbiological, 2981.
  - determination, 2578.
- **Thujone,** detection and determination, in wine, spectrophotometric, 3478.
- **Thulium,** separation of $^{170}$Tm from other radioactive materials, electrophoretic, 65.
- **Thyme oils,** determination of thymol in, polarographic, 1117.
- **Thymine,** oscillopolarographic study of, 2985.
  - separation, 2573, 5179.
- **Thymol,** determination, in thyme oils, polarographic, 1117.
- **Thyroid gland,** determination of $^{131}$I in, 4759.
- **Thyroid hormones,** detection, in plasma, paper chromatographic, 3436.
- **Thyroxine,** determination, in plasma, electrophoretic, 1172.
    - in serum, apparatus for, 5192.
  - simultaneously with gas analysis, 1779.
- **Tiglic acid,** detection, paper chromatographic, 2011.
- **Timber.** (See *Wood.*)
- **Tin,** detection, paper chromatographic, 4586.
  - determination, 3653.
    - coulometric, 486, 4933.
    - in alloys, 1452.
    - in animal tissues and plants, spectrophotometric, 5131.
    - in beryllium, by radioactivation, 4947.
    - in cast iron, potentiometric, 132.
    - in chromium and its alloys, polarographic, 4156.
    - in copper, spectrophotometric, 4111.
    - in electroplating soln., 2792.
    - in food, polarographic, 5247.
      - spectrophotometric, 4827.
    - in ingot tin, B.S.I. method for, 3645.
    - in iron alloys, polarographic, 1017.
    - in iron, spectrophotometric, 4111.
    - in lead alloys, emission spectrographic, 4002.
    - in lead, polarographic, 2812.
      - spectrophotometric, 3654, 4111.
    - in molybdenum, spectrographic, 3701.
    - in niobium, 4142.
      - spectrographic, 3581.
    - in niobium alloys, 4142.

**n,** determination—*continued*
in powders, spectrographic, 898.
in stainless steel, polarographic, 3734.
in steel, spectrophotometric, 2423.
in tantalum, spectrographic, 3581.
in tin(IV) oxide, polarographic, 979.
in tungsten ores, polarographic, 1017.
in tungsten, spectrographic, 3581, 3701.
in type metal, X-ray spectrographic, 90.
in zinc, spectrophotometric, 4111.
in Zircaloy, polarographic, 495.
in zirconium alloys, spectrophotometric, 4111.
of Al in, spectrophotometric, 1448.
of Sb in, polarographic, 980.
of Bi in, by ion exchange, 4473.
of Cu in, by ion exchange, 4473.
polarographic, 1843, 4973.
of Fe in, by ion exchange, 4473.
of Pb in, by ion exchange, 4473.
polarographic, 980, 1843, 4973.
of Zn in, polarographic, 4973.
paper chromatographic, 4553.
potentiometric, 417.
spectrographic, 4110.
spectrophotometric, 2344, 4109.
sampling and analysis of, 4972.
separation, by extraction as iodide, 2811.
by ion exchange, 4472.
from Sb and Te, by ion exchange, 487.
from As and Sb, 4992.
by ion exchange, 4585.
**in alkyls,** determination, amperometric, 4246.
spectrophotometric, 4234.
identification, in poly(vinyl chloride), thin-layer chromatographic, 5099.
i.r. and Raman spectra of, 5073.
**in alloys,** determination of Cu in, 31.
of Pb in, 1452.
sampling and analysis of, 4972.
**in(II) chloride,** determination, amperometric, 4456.
potentiometric, 432.
**in(IV) chloride,** gas chromatography of, review, 4047.
**in ores,** determination of In in, polarographic, 4103.
**in, organic compounds of,** analysis of, 5074.
identification, in poly(vinyl chloride), thin-layer chromatographic, 5099.
paper chromatography of, 1089.
separation, paper chromatographic, 5075.
**in(IV) oxide,** determination of Sn in, polarographic, 979.
**itanium,** detection, 1897.
determination, 492, 493, 1454, 1898, 2335, 2352, 2813, 4057, 4115, 4116, 4560, 4980.
flame photometric, 4050.
in aluminium, spectrophotometric, 960.
in ilmenite, 3282.
in iron(III) oxide, polarographic, 2353.
in its alloys, X-ray spectrographic, 4558.
in natural water, spectrophotometric, 3047.
in slag, 1899.
in steel, simultaneously with V, 582.
spectrophotometric, 1964, 3735.
in tantalum oxide, polarographic, 3241.
in uranyl nitrate, spectrophotometric, 2817.
in zirconium and zirconium(IV) chloride, spectrophotometric, 3658.
of C in, potentiometric, 68.
of Ce in, spectrophotometric, 1436.
of H in, spectrographic, 4468.
of impurities in, spectrographic, 4561.
of Nb in, spectrographic, 75.
of N in, electrolytic, 1826.
spectrographic, 898.

**Titanium,** determination—*continued*
of O in, 2814.
apparatus for, 1776.
spectrographic, 898.
of rare-earth metals in, spectrographic, 1434.
of Ta in, spectrographic, 75.
of V in, spectrophotometric, 2815.
of Zr in, spectrophotometric, 76.
polarographic, 4979.
potentiometric, 417, 2351.
simultaneously with V, polarographic, 4559.
spectrophotometric, 74, 409, 4930.
extraction of $Ti^{IV}$, 3582.
N.B.S. standards for, 3657.
pickling liquors for, determination of free acid in 1564.
separation, 80.
from Al, 2753, 2754.
from Fe, 2753, 2754.
chromatographic, 3219.
from Mn, by ion exchange, 1455.
from Nb, 1493.
by ion exchange, 4596.
from steel, by ion exchange, 2426.
from Ta, 1493.
by ion exchange, 4596.
from Zr, 1493, 2753.
of $Ti^{III}$ from $Ti^{IV}$, 3561.
**Titanium alloys,** determination of B in, spectrophotometric, 1421.
of C in, potentiometric, 68.
of H in, spectrographic, 4467.
of Ti in, X-ray spectrographic, 4558.
of Zr in, spectrophotometric, 76.
N.B.S. standards for, 3657.
**Titanium boride,** determination of N in, photometric, 3220.
**Titanium carbide,** determination of N in, photometric, 3220.
of V in, spectrophotometric, 1000.
**Titanium(IV) chloride,** determination, in org. solvents, 2816.
gas chromatography of, review, 4047.
**Titanium hydride generator,** determination of purity of H evolved by, mass spectrometric, 1278.
**Titanium nitride,** analysis of, 1829.
**Titanium ores,** determination of Nb in, polarographic, 515.
determination of impurities in, 4561.
of Nb in, polarographic, 515.
**Titanium (IV) oxide,** determination of impurities in, 4561.
of Nb in, polarographic, 515.
**Titanium oxides,** determination of V in, spectrophotometric, 1000.
X-ray spectrographic, 2290.
**Titanium sulphate,** determination of Sb in, polarographic, 1913.
**Tobacco,** determination of glycols and glycerol in, gas chromatographic, 5239.
smoke, determination of polycyclic aromatic hydrocarbons in, 176.
**Tocopherols.** (See also *Vitamin E.*)
determination, 1731.
chromatographic, 4372.
thin-layer chromatographic, 3955.
**Tofranil.** (See *Imipramine.*)
**Tolbutamide,** determination, 789.
**Toluene,** chloro deriv. of, analysis of, gas chromatographic, 1621.
determination, in air, 335.
in mixtures with benzene and xylene, gas chromatographic, 1617.
in platformate, gas chromatographic, 2034.

**Toluene,**—*continued*
in polyphenyl reactor coolants, gas chromatographic, 4750.
of impurities in, gas chromatographic, 1108.
diamino deriv. of, analysis of, i.r. spectrophotometric, 1633.
di-isocyanato deriv. of, analysis of, i.r. spectrophotometric, 1633.
nitro deriv. of, test for, 1636.
separation, from benzene and thiophen, gas chromatographic, 693.
**Toluene-*p*-sulphinic acid,** determination, potentiometric, 4245.
**Toluenesulphonates,** determination, in detergents, spectrophotometric, 1115.
**Toluidine,** *N*-ethyl, determination of *m*-toluidine in, i.r. spectrophotometric, 1099.
*m*-, analysis of, i.r. spectrophotometric, 681.
*p*-, *N*-dimethyl, determination, in methyl methacrylate, 1124.
**Tomato purée,** separation of organic and inorganic anions in, chromatographic, 1231.
**Tourmaline,** determination of Fe(II) oxide in, 4641.
**Town gas,** determination of naphthalene in, 2946.
**Toxaphene,** determination, gas chromatographic, 1751.
spectrophotometric, 1757.
**Toxicology,** developments in, 1956-1960, review, 4.
**Trace elements,** determination, by neutron-activation analysis, 3151.
problems of blanks in, review, 4040.
Proceedings of A.C.S. Symposium, 1960, Houston, Tex., 2279.
review of methods for, 2745.
**Trafuril.** (See *Tetrahydrofurfuryl nicotinate.*)
**Transaminase,** aspartic - oxoglutaric and alanine - oxoglutaric, assay of, spectrophotometric, 5147.
determination of activity of in blood and c.s.f., spectrophotometric, 3885.
glutamic - oxalacetic, assay of, 4804.
in barley and malt, spectrophotometric, 4806.
spectrophotometric, 2120.
glutamic - pyruvic, assay of, spectrophotometric, 2120.
**Triamcinolone,** determination, spectrophotometric, 301.
**1,3,5-Triazine,** 2,4,6-substd., X-ray diffraction powder data for, 2940.
**Trichloroacetic acid,** determination, in fertilisers, 3057.
**2,3,6-Trichlorobenzoic acid,** determination, chromatographic, 1749.
**Trichloroborane,** determination, in mixtures, i.r. spectrophotometric, 1424.
**Trichloroethane,** analysis of, spectrographic, 4213.
**Trichloroethylene,** analysis of, i.r. spectrophotometric, 3841.
**Trichloronitromethane.** (See *Chloropicrin.*)
**Trichlorosilane,** analysis of, photometric, 4707.
determination, 4232.
**Triethylene glycol,** recovery of, 5057.
**3-Trifluoromethyl-4-nitrophenol,** determination, in water, photometric, 2676.
**Triglycerides,** determination, 5168.
**3,5,5-Trimethyl-2-cyclohexen-1-one.** (See *Isophorone.*)
**Trimethylene glycol.** (See *Propane-1,3-diol.*)
**3,5,5-Trimethylhexan-1-ol.** (See *Nonanol.*)
**2,4,6-Trinitrophenol,** separation, paper chromatographic and electrophoretic, 4713.
**Trinitrotoluene,** determination, in propellents, 2534.
**Triphenyltin,** determination, 1759.
spectrophotometric, 2511.
**Triphenyltin acetate,** determination, amperometric, 4246.
**Triphosphates.** (See *Polyphosphates.*)
**Triphosphopyridine.** (See *Codehydrogenase II.*)
**1,2,3-Tris-(2-cyanoethoxy)propane,** use of, as stationary phase, in gas chromatography, 5312.
**Triterpene alcohols,** separation, paper chromatographic, 3896.
**Triterpenoids,** paper chromatography of, 267.
**Trithion,** determination of anticholinesterase activity of, in serum, 1185.
**Trithionate,** determination, spectrophotometric, 4149.
**Tri-o-thymotide,** use of, as stationary phase, in gas chromatography, 1819.
**Tritium,** analysis of mixtures of with H, spectrographic, 1377.
assay of, in bacterial cells, 2058.
of labelled water in body fluids, 3848.
detection, chromatographic, 3159.
determination, in biol. materials, 1658, 3847, 5121.
in urine, by scintillation counting, 2057, 4062.
in water, by scintillation counting, 4062.
radio-assay of, 1138.
**Tritolyl phosphate,** determination, 3560.
of *o*-cresol in, gas chromatographic, 4239, 4240.
**Trypsin,** assay of, 2993.
spectrophotometric, 4318.
**Tryptophan,** determination, in plasma, 5189.
**Tubocurarine,** determination, polarographic, 4332.
**Tungsten,** composition and stability of tungsten(VI) alizarinsulphonate, 3255.
determination, 110, 3254.
amperometric, 1937.
in biol. tissue, by activation analysis, 1142.
in high-alloy steel, by isotope dilution, 585.
in minerals, spectrographic, 1508.
in niobium alloys, 1015.
in presence of Mo, 1510.
interference of $Fe^{III}$ in, 1511.
in rocks and meteorites, by neutron activation, 98.
in steel, 586.
by activation analysis, 2871.
spectrophotometric, 1969.
in welding alloys, spectrographic, 1372.
of Sb in, spectrographic, 3581, 3701.
of As in, 3675.
of Bi in, spectrographic, 3581, 3701.
of Cd in, spectrographic, 3581, 3701.
of Cu in, spectrophotometric, 3594.
of impurities in, spectrographic, 4163.
of Pb in, spectrographic, 3581, 3701.
of Mo in, spectrophotometric, 2841.
of Th in, radiochemical, 1469.
of Sn in, polarographic, 1017.
spectrographic, 3581, 3701.
polarographic, 1938.
potentiometric, 1507.
spectrophotometric, 409, 4930.
extraction of $W^{VI}$ with thiocyanate, 530.
reactions of, with CO, study of, 3560.
separation, from As and Mo, by ion exchange, 3561.
X-ray diffraction analysis of, 5001.
**Tungsten alloys,** determination of V in W - V, 4594.
**Tungsten carbide,** determination of C in, 4161.
of Co in, amperometric, 1547.
of V in, spectrophotometric, 1000.
**Tungsten compounds,** determination of As in, spectrographic, 1016.
**Tungsten ores,** determination of P in, photometric, 2370.
of Sn in, polarographic, 1017.

**ngsten(IV) oxide,** X-ray diffraction analysis of, 5001.
etermination of As in, spectrographic, 1016.
**ngsten(VI) oxide,** determination of surface acidity of, potentiometric, 112.
**ngsten oxides,** determination of V in, spectrophotometric, 1000.
X-ray spectrographic, 2290.
**ngsten sulphide,** catalysts, determination of elements in, 1018.
**bidimetry.** (See *Nephelometry.*)
se of BaSO$_4$ suspensions as standard in, 2281.
**rpentine oil,** analysis of, gas chromatographic, 688, 4264.
oxicological analysis of, 3464.
**pe metal,** determination of Sb and Sn in, X-ray spectrographic, 90.
of Cu in, spectrophotometric, 4075.
**rosine,** determination, in urine, 5188.
spectrophotometric, 2980.
eparation, from 3,4-dihydroxyphenyl-L-alanine, by ion exchange, 3428.

U

**ichromenol,** determination, 1731.
chromatographic, 4323.
**iquinones,** determination, 1731.
**saponifiable matter,** separation of fatty acids from, in food, faeces and serum, 327.
**acil,** 4-amino-1,3-dimethyl-5-nitroso-, determination, polarographic, 1715.
scillographic polarography of, 2985.
separation, by ion exchange, 5179.
paper chromatographic, 2573.
**anin,** determination, in milk, spectrophotometric, 4351.
**aninite.** (See *Pitchblende.*)
**anium,** detection, 5002.
by fluorescence, 113, 4164.
of U$^{VI}$, thin-layer chromatographic, 5007.
letermination, 538, 540, 1514, 1941, 2335, 2843, 2844, 3256, 4474, 4617, 4618, 5006.
absorptiometric, 537, 539, 541.
by ion exchange, 3707.
coulometric, 3259.
flame photometric, 4050.
fluorimetric, 3261, 4619.
apparatus for, 3538.
in air, fluorimetric, 5005.
in biol. materials, fluorimetric, 2068.
in bone, fluorimetric, 2068.
in carbides, X-ray spectrographic, 3142.
in coal ash, fluorimetric, 1512.
in concentrates, spectrophotometric, 1513.
in fission products, X-ray spectrographic, 2849.
in grass, 1942.
in hafnium, fluorimetric, 1518.
in minerals and natural water, fluorimetric, 5004.
X-ray spectrographic, 2847.
in ores, polarographic, 1026.
in phosphate rocks, spectrophotometric, 4165.
in plutonium, 2270.
in presence of Mo, polarographic, 546.
of Th, spectrophotometric, 2846.
in rocks, fluorimetric, 1512.
in sea water, 3048.
polarographic, 3496.
in soln., by X-ray scattering, 3263.
in U - Pu alloy, X-ray spectrographic, 2849.
in uranyl nitrate, 435, 536.
in urine, 3401, 3405.
fluorimetric, 1668.

**Uranium,** determination—*continued*
in zirconium, fluorimetric, 1518.
in zirconium ores, 3262.
mass spectrometric, 2397.
of Al in, spectrophotometric, 1521.
of Be in, spectrographic, 3265.
of B in, spectrographic, 1943.
spectrophotometric, 548.
of Cr in, spectrophotometric, 3697.
of Co in, spectrophotometric, 4625.
of Cu in, polarographic, 435.
spectrographic, 4624.
of gases in, 3573.
of impurities in, by ion exchange, 1519.
of Fe in, spectrographic, 4624.
of Mo in, spectrophotometric, 5008.
of Np in, 119.
of Ni in, spectrographic, 4624.
spectrophotometric, 4667.
of N in, spectrophotometric, 1944.
of rare-earth metals in, spectrographic, 1434.
of $^{235}$U burn-up in irradiated, 2270.
by isotope dilution, 1025.
errors in, 535.
of $^{238}$U to $^{235}$U ratio, mass spectrometric, 2263.
of U$^{IV}$, 2393, 3257.
of U$^{VI}$, amperometric, 3258.
in uranium(IV) oxide, polarographic, 118.
polarographic, 1024, 3561.
spectrophotometric, 3704, 3705.
of V in, spectrophotometric, 5008.
photometric, 2395, 3260, 3561.
polarographic, 117, 533, 534, 1940, 2848, 3561, 3709, 4167, 4622.
potentiometric, 2394, 4614.
radiometric, 545, 4623.
spectrographic, 3706.
$\gamma$-spectrometric, 2396.
spectrophotometric, 114, 115, 116, 531, 532, 1020, 1023, 1939, 2842, 2845, 4166, 4612, 4613, 4614, 5003.
X-ray spectrographic, 3707, 4615, 4616.
extraction of, 1021.
of irradiated, 1515.
isotopic analysis of, spectrographic, 2270.
reduction of U$^{VI}$ to U$^{IV}$, 97.
separation, 3562.
by ion exchange, 4618.
from rare-earth metals, by ion exchange, 2401, 3561.
from Te, by ion exchange, 547.
from Th, 543.
chromatographic, 4620.
from urine, on tri-n-octylphosphine oxide column, 3402.
from Zr, by ion exchange, 4564.
of Ru from, 1977.
of U$^{VI}$ from mixtures, by ion exchange, 1022.
thin-layer chromatographic, 5007.
**Uranium alloys,** analysis of U - Pu, 2849.
determination of Al in U - Al, spectrophotometric, 1521.
of Nb and Mo in, spectrophotometric, 3264.
of Pd in, spectrophotometric, 1557.
of V, Nb and Zr in, spectrographic, 2399.
of Zr in, 2270.
in U - Zr, 3224.
**Uranium carbides,** determination of U in, X-ray spectrographic, 3142.
**Uranium compounds,** determination of Cl$^-$ in, 1019.
of Cr in, 4168.
of PO$_4^{3-}$ in, 1019.
of silicates in, 1019.

**Uranium(IV) fluoride,** absorption spectrum of, 441.
determination of B in, spectrographic, 1943.
of F in, 1019.
separation, from $ClF_3$, gas chromatographic, 1517, 4630.
**Uranium ores,** containing Th, analysis of, γ-radiometric, 544.
determination of $SO_4^{2-}$ in, 1019.
of U in, polarographic, 1026.
**Uranium(IV) oxide,** analysis of reactor fuel elements containing, 2270.
determination of B in, 3285.
of O : U ratio in, coulometric, 4170.
of $U^{VI}$ in, polarographic, 118.
separation of rare earths from, spectrographic, 1945.
**Uranium oxides,** analysis of, spectrographic, electrode processes occurring in, 898.
determination of O in, 1005.
of O : U ratio in, coulometric, 4170.
**Uranium peroxide,** analysis of, by ion exchange, 1519.
**Uranyl ion,** determination, 2398, 3708.
extraction of, from aq. soln., 847.
**Uranyl nitrate,** determination of Cd in, polarographic, 435.
spectrophotometric, 1520.
of Ti in, spectrophotometric, 2817.
of U in, 435, 536.
extraction of, with tributyl phosphate, effect of temp. on, 2400.
study of, 1516.
**Uranyl phosphate,** analysis of, 542.
**Uranyl sulphate,** determination of $Cl^-$ in, polarographic, 121.
of $SO_4^{2-}$ in, 4474.
**Urea,** detection and determination of ammonium compounds in, 4227.
determination, in body fluids, automatic apparatus for, 3978.
spectrophotometric, 3866.
in hydrocarbon complexes of, 3794.
in urine, spectrophotometric, 2571.
in water, 3049.
spectrophotometric, 4704.
**Uric acid,** determination, in urine, spectrophotometric, 5178.
with uricase, spectrophotometric, 245.
**Urine,** analysis of radioactive isotopes in, review, 720.
assay of nicotinic acid in, microbiological, 2558.
desalting of, by electrodialysis, 217.
detection of EDTA in, 1088.
of albumin in, 1688, 5141.
of amino-acids in, 249.
of corticosteroids in, 2115.
of Cm in, 4277.
of formimidoylglutamic acid in, electrophoretic, 1170.
of glucose in, 2074, 5141.
of ketone bodies in, 5141.
of phenothiazine in, 1147.
of phenylpyruvic acid in, spectrophotometric, 2565.
of reducing sugars in, paper chromatographic, 2073.
determination of albumin in, 727, 1689.
of aldosterone in, by double isotopic method, 270.
spectrophotometric, 1183.
of amines in, paper chromatographic, 1087.
of α amino-acids in, 2089.
of 3-amino-2-methylpropionic acid in, spectrophotometric, 1169.
**Urine,** determination—*continued*
of amino-N in, 5181.
of 5-aminovaleric acid in, chromatographic, 2094.
of androsterone and androst-5-ene-17-one in, spectrophotometric, 1698.
of aromatic acids in, gas chromatographic, 4292.
of As and Sb in, spectrophotometric, 4280.
of ascorbic acid in, 2557.
and dehydroascorbic acid in, photometric, 3413.
of barbiturates in, oscillopolarographic, 2968.
of Ca in, 224, 227, 1132.
atomic absorption spectrophotometric, 4754.
spectrophotometric, 4755.
of carboxytolbutamide in, spectrophotometric, 2071.
of catecholamines in, 246.
chromatographic, 4782.
fluorimetric, 4784.
of chloramphenicol in, spectrophotometric, 2969.
of chloroquine phosphate in, spectrophotometric, 2070.
of cyanamide in, spectrophotometric, 3056.
of D in, 5112.
of $D_2O$ in, mass spectrometric, 2542.
of 2,4-diaminophenol in, spectrophotometric, 3347.
of dihydroxyacetone in, spectrophotometric, 4772.
of 3α,17α-dihydroxy-5β-pregnan-20-one in, 765.
of EDTA in, 1088.
of erythromycin in, 4763.
of *N*-formimidoylglutamic acid in, microbiological, 749.
of 3-furaldehyde in, 1154.
of furan-2,5-dicarboxylic acid in, 3415.
of gentisic acid in, spectrofluorimetric, 1156.
of glucose in, 725, 1151.
of Au in, spectrophotometric, 2067.
of hippuric acid in, 2975.
of histidine in, 2982.
of homogentisic acid in, spectrophotometric, 4294.
of hydrochlorothiazide in, spectrophotometric, 2559.
of 17-hydroxycorticosteroids in, chromatographic, 2116.
of 5-hydroxyindolylacetic acid in, spectrophotometric, 5154.
of 4-hydroxy-3-methoxymandelic acid in, electrophoretic, 5153.
photometric, 2079.
spectrophotometric, 2560, 4773.
of hydroxyproline in, spectrophotometric, 5186.
of imipramine in, 4765, 4766.
of α-keto-acids in, paper chromatographic, 2078.
of Pb in, 3398.
of Mg in, 224, 227, 3390.
atomic absorption spectrophotometric, 4752, 4754.
spectrophotometric, 2064.
of methanol in, spectrophotometric, 2967.
of 3-methoxycatecholamines in, spectrophotometric, 743, 2560.
of *N*-(1-methyl-2-phenylethyl)-3,3-diphenylpropylamine in, spectrophotometric, 2132.
of N in, 3393.
of oestriol and oestrone - oestradiol fraction in, spectrophotometric, 2590.
of oestrogens in, 1179, 2112.
electrophoretic, 5213.
spectrophotometric, 1181, 3437, 4798.

**ne,** determination—*continued*
  of oxalic acid in, spectrophotometric, 3414.
  of oxytocinase in, 5230.
  of pH of, 1151.
  of Pu in, radiochemical, 2069, 3403.
  of porphyrins in, 4777, 4778.
    spectrophotometric, 5161.
  of K in, 1661, 5117.
  of pregnanediol in, spectrophotometric, 2592.
  of pregnanetriol in, 765.
    polarographic, 764.
    spectrophotometric, 2592.
  of proteins in, 1151.
    spectrophotometric, 1173.
  of radioactive elements in, 3405.
  of Ra in, radiochemical, 3404.
  of Se in, polarographic, 5132.
  of $SiO_2$ in, spectrophotometric, 1139.
  of sp. gr. of, 2056.
  of steroids in, 1699.
  of sulphaphenazole in, chromatographic, 3406.
  of sulphate in, 5129.
    spectrophotometric, 3396.
  of $^{32}S$ in, 1140.
  of taurine in, spectrophotometric, 5191.
  of thiamine in, 5176.
  of thioridazine in, 4767.
  of Th in, flame spectrophotometric, 2548.
  of tritium in, by scintillation counting, 2057, 4062.
  of tyrosine in, 5188.
  of U in, fluorimetric, 1668, 3401.
  of urea in, automatic apparatus for, 3978.
    spectrophotometric, 2571, 3866.
  of uric acid in, spectrophotometric, 5178.
xtraction of steroids from, 759.
dentification of corticosterone sulphate in, chromatographic, 236.
eparation of Ca and Mg from, by ion exchange, 5118.
  of corticosteroids from, paper chromatographic, 1182.
  of 3-hydroxykynurenine from, by ion exchange, 752.
  of 17-oxosteroids in, gas chromatographic, 4800.
  of phosphate from, paper chromatographic, 2965.
  of salicylic, acetylsalicylic, salicyluric and gentisic acids from, electrophoretic, 724.
  of U from, 3402.
**obilinogen,** determination, 5159.
**okarmin.** (See *2,4-Diamino-4′-ethoxyazobenzene.*)
**onic acids,** determination, 2080.
iethylmercaptals of, separation, paper chromatographic, 5144.
eparation, paper chromatographic, 1150.
**nic acid,** determination, spectrophotometric, 4776.

V

**lmorin,** detection, spectrofluorimetric, 2998.
**nadium,** concentrate, analysis of, 1001.
opptn. of, with Al(OH)$_3$, 3681.
etection, column and paper chromatographic, 510.
etermination, 110, 512, 1941, 2829, 4057.
  amperometric, 999.
  flame photometric, 4050.
  flame spectrophotometric, 1491, 3578.
  in biol. tissue, spectrophotometric, 1141.
  in brine, spectrographic, 1830.
  in carbides, spectrophotometric, 1000.

**Vanadium,** determination—*continued*
  in chromite and in chrome magnesite rerractory, spectrophotometric, 998.
  in iron alloys, 2874.
    amperometric, 1967.
  in minerals, spectrophotometric, 3682.
  in oils, X-ray spectrographic, 1111.
  in petroleum, 4723.
    spectrographic, 2036.
    spectrophotometric, 1642, 3820.
    X-ray spectrographic, 4724.
  in residual oils, spectrophotometric, 1112.
  in plants, by neutron activation, 1667.
  in oxides of W, Nb, Ta and Ti, spectrophotometric, 1000.
  in rocks and meteorites, by neutron activation, 2378.
  in steel, 2874.
    amperometric, 1967.
    by activation analysis, 2871.
    simultaneously with Ti, 582.
    spectrophotometric, 998.
    X-ray spectrographic, 583.
  in the pure metal, 96.
  in titanium, spectrophotometric, 2815.
  in W - V alloys, 4594.
  in uranium alloys, spectrographic, 2399.
  in uranium, spectrophotometric, 5008.
  of C in, potentiometric, 68.
  of N in, electrolytic, 1826.
  of V$^{IV}$, 104.
  of V$^{V}$, spectrophotometric, 4138.
  photometric, 3239.
  simultaneously with Al, in graphite, by radioactivation, 4545.
    with Ti, polarographic, 4559.
  spectrophotometric, 409, 511, 513, 1492, 2377, 3238, 3240.
extraction of V$^{V}$, 3680.
isotopes of, determination, in meteorites, 5032.
reduction of V$^{IV}$ to V$^{VIII}$, 97.
separation, from Fe, 3725.
  from phosphate, by ion exchange, 4592.
  from steel, by ion exchange, 3727.
  of V$^{V}$ from Cr$^{III}$, chromatographic, 4593.
**Vanadium alloys,** determination of V in W - V, 4594.
**Vanadium catalysts,** analysis of, 2379.
**Vanadium(IV) oxide,** determination, 514.
  X-ray spectrographic, 2290.
**Vanilla extract,** analysis of, 1232.
**Vanillin,** detection, 5253.
  determination, in foods, oscillopolarographic, 3024.
    polarographic, 315, 3806.
***N*-Vanillylnonanamide,** differentiation from capsaicin, 3453.
**Vanilmandelic acid.** (See *4-Hydroxy-3-methoxymandelic acid.*)
**Vincamine,** polarographic bahaviour of, 3561.
**Vines,** determination of sugar and starch content of, 3499.
**Vinyl acetate,** determination of O in, polarographic, 2012.
**Vinyl cyanide,** (*acronitrile*), copolymers of, analysis of, i.r. spectrophotometric, 1125.
**Vinyl cyanide polymers,** determination of N in, 3381.
**Vinyl esters,** determination of Hg in, 2052.
**Vinyl ethers,** determination, potentiometric, 1599.
**Vinylacetylene,** determination, 1066.
**5-Vinyl-2-picoline,** determination, in copolymers, 4269.
**Viscera,** determination of ethyl ether and ethanol in, gas chromatographic, 3858.

**Viscometer,** capillary, alignment block and clamp for, 353.
design for, 1773.
improved, 3987.
**Viscose,** determination of S in, 2956.
of xanthate S in, spectrophotometric, 3835.
**Vitamin A,** biol. assay of, 306.
determination, apparatus for, 1990.
spectrophotometric, 1245, 3014, 4367.
separation, from vitamin D, chromatographic, 4370.
**Vitamin $B_{12}$.** (See also *Cobalamin.*)
determination, in blood and serum, microbiological, 2568.
review of methods for, 333.
**Vitamin D,** determination, in animal tissue, spectrophotometric, 3484.
in oils, spectrophotometric, 4368.
u.v. spectrophotometric and chromatographic, 3036.
separation, from vitamin A, chromatographic, 4370.
**Vitamin E.** (See also *Tocopherols.*)
determination, chromatographic, 4373.
**Vitamin K,** identification, i.r. spectrophotometric, 1247.
**Vitamins,** chromatography of, review, 1728.
**Volatile oils,** analysis of, paper or thin-film chromatographic, 5097.
review of progress in 1960, 2264.
detection of ethanol in, 200.
of lower alcohols in, paper chromatographic, 704.
determination of free alcohols in, 2043.
of lower fatty acid esters in, photometric, 1116.
separation of terpenes and hydroxyphenylpropane in, gas chromatographic, 2518.
stationary phases for gas chromatography of, 1304.
**Volumetric analysis,** acid - base, automatic, 2721.
spectrophotometric end-point determination in, 871.
argentimetric, use of chemiluminescent indicators in, 11.
automatic, apparatus for, 840, 1284, 1769, 2211.
calculation of end-points in, 3561.
cerimetric, oxalate interference in, 429.
determination of end-point in, 1821, 2740, 4904.
iodimetric, determination of end-point in, 426.
non-aq., use of Al alcoholates in, 3560.
photometric, apparatus for, 2709.
radiometric, apparatus for, 893.
redox, techniques of, 4436.
use of $CrCl_2$ as reductant in, 2742.
of $KBrO_3$ in, 2741.
standards for, review, 4041.
thermal stability of, 2744.
thermo-, determination of chloride by, 355.
ultramicro-, apparatus for, 4437.
use of "magnification procedure" in, 1770.
of automatic recording in, 1768.
of $K_2MnO_4$ in, 428.
of $NaClO_2$ as oxidising agent in, 2277.
**Volumetric analysis, amperometric,** chrono-, technique of, 4433.
use of "reversed" dead-stop end-point detection in, 1190.
of Na pentamethylenedithiocarbamate in, 2722.
**Volumetric analysis, chronopotentiometric,** application to *p*-aminophenol, 1355.
calculation of rate constants in, errors of, 1357.
effect of electrode configuration and transition time in solid electrode, 3549.
of surface roughness and double-layer capacitance on, 4915.
**Volumetric analysis, chronopotentiometric**—*continued*
electrolytic reoxidation in, 1812.
theoretical treatment of, 1354.
theory and applications of, 3548, 4435.
transition times and their interpretation, 4434.
treatment of graphite electrodes for, 2255.
use of graphite electrodes in, 3133.
of spherical electrodes in, 4021.
**Volumetric analysis, complexometric,** of anions, review, 2278.
use of chemiluminescent indicators in, 11.
**Volumetric analysis, conductimetric,** automatic, 3136.
high-frequency, 2253.
solvents for, 2743.
use of non-polarisable external electrodes in, 3561.
**Volumetric analysis, coulometric,** accurate time measurement in, device for, 1813.
current and titration efficiencies of electrically generated manganic ion, 433.
use of carbon-black electrode in, 3137.
of ion-exchange membranes in, 2256.
**Volumetric analysis, potentiometric,** apparatus for, automatic, 2720.
for dead-stop redox titrations, 887.
for high-speed recording, 4914.
for registering changes in, automatic, 1809.
application of, 2270.
of "potentiometric area" in, 3560.
to irreversible reductants, 407.
determination of equivalence-point in, 2740, 4025.
of oxidising or reducing materials by, 891.
electrodes used in, review, 884.
hydrogen electrodes for, 1810.
non-aq., use of LiCl in, 883.
oxidation - reduction, general equation for the equivalence-point potential in, 886.
theoretical treatment, 1354.
treatment of graphite electrodes for, 2255.
use of carbon-paste electrodes in, 892.
of convection electrode in, 4916.
of a glass electrode as indicator in, 2252.
of graphite electrodes in, in presence of oxidising and reducing substances, 890.
of lead tetra-acetate as oxidant for, 1360.
of mercury-pool cathode in, 4457.
of metal - metal oxide electrodes in, 4023.
of methyl cyanide in, 4042.
of resin membranes as indicator electrodes in, 2719.
of silver-plated platinum electrodes in, 888.
of Na diethyldithiocarbamate in, 3561.
of Te electrode in, 2251.
**Volumetric analysis, voltammetric,** a.c., at solid electrodes, 2254.

**W**

**Warburg's optical test,** use of, in analysis, review, 4807.
**Warfarin,** detection, paper chromatographic, 3916.
determination, fluorimetric, 342.
in animal tissues, 838.
spectrophotometric, 837.
**Water,** analysis of mixtures with $D_2O$, i.r. spectrophotometric, 1832, 4061.
assay of $^3$H-labelled, in the body, 3848.
determination, in biol. materials, 718.
in butane, gas chromatographic, 627.
in butanol, i.r. spectrophotometric, 1832.
in cereals, 2182.
in confectionery, 2633.
in ethanol, i.r. spectrophotometric, 3777.
in extracellular fluid, 223.

**ater,** determination—*continued*
in granular materials, by neutron retardation, 3585.
in hydrocarbons, 5050.
apparatus for, 2031.
in insulating oil, potentiometric, 5094.
in organic compounds, 1989, 4934.
liquids, 3562.
solvents, 1059.
in petroleum, 3822.
in plastics, 3383.
in silicate rocks, 1985.
in skeletal muscle, 5113.
in soil, 2190.
in solids, spectrophotometric, 4060.
of $^{2}$H in, 2759.
mass spectrometric, 18.
of dissolved gases or light organic solvents in, gas chromatographic, 1301.
of fission products in, by ion exchange, 1253.
of O in, 4762.
of $^{18}$O in, 2759.
of $^{3}$H in, by scintillation counting, 4062.
of urea in, 3049.
with Karl Fischer reagent, recent developments in, 410.
for industry, analysis of, B.S.I. methods for, 3489.
high-purity, detection of Cu and Fe in, 337.
**ater, boiler,** determination of dissolved O in, apparatus for, 2715.
of SiO$_2$ in, automatic, 896.
of sugar in, automatic, 896.
**ater, heavy.** (See *Deuterium oxide.*)
**ater, natural,** analysis of, B.S.I. methods for, 5280.
review of progress in 1960, 2264.
use of ion exchange in, 2446.
detection of Cl in, apparatus for, 2244.
of I in, 4632.
determination of amino-acids in, spectrophotometric, 3959.
of ammonia in, 826.
of As, Ge, Se and PO$_4^{3-}$ in, spectrophotometric, 3050.
of Ba, Ca and Mg in, 950.
of Be in, fluorimetric, 3495.
spectrophotometric, 1739.
of Ca and Sr in, flame photometric, 3044.
of Cl$^-$ in, 2174, 3043.
of ClO$_2$ in, 4375, 5283.
of ClO$_3^-$ in, spectrophotometric, 2664.
of Cr$^{VI}$ in, spectrophotometric, 3957.
of Co in, 340.
of Cu, Pb and Cd in, 3561.
of dissolved gas in, 825.
of F$^-$ in, spectrophotometric, 1741.
of hardness of, apparatus for, 3490.
of I$^-$ in, 1742, 2175.
of $^{131}$I in, 4759.
of Fe in, spectrophotometric, 3279, 3941.
of lower fatty acids in, gas chromatographic, 3493.
of nitrate in, 2176.
spectrophotometric, 4850.
of 3-trifluoro-4-nitromethylphenol in, spectrophotometric, 2676.
of organic N in, 4852.
of O in, 1738, 3492.
amperometric, 3491.
automatic titrator for, 840.
polarographic, 5281.
of phenols in, 4856.
of phosphate in, 1252.
spectrophotometric, 4853.
**Water, natural,** determination—*continued*
of Ra in, by α-counting, 4377.
by Rn measurement, 4855.
of Se in, spectrophotometric, 2663.
of SiO$_2$ in, spectrophotometric, 5284.
of $^{90}$Sr in, by ion exchange, 828.
radiochemical, 1740, 3046.
of Ti in, spectrophotometric, 3047.
of trace elements in, 4376.
spectrographic, 827.
of turbidity of, spectrophotometric, 2173.
standard for, 824.
of U in, fluorimetric, 5004.
of $^{90}$Y in, 3046.
rain, determination of $^{137}$Cs, $^{90}$Sr and $^{140}$Ba in by ion exchange, 4854.
removal of fission products from, 341.
separation of alkaline - earth and alkali metals in, by ion exchange, 3045.
of organic acids in, chromatographic, 338.
**Water, sea,** analysis of, cathode-ray polarographic, 4431.
determination of B in, fluorimetric, 2320.
spectrographic, 3598.
of $^{137}$Cs, $^{89}$Sr and $^{90}$Sr in, radiochemical, 2177.
of Mo in, 4378.
of trace elements in, by ion exchange, 2179.
of U in, 3048.
polarographic, 3496.
**Waxes,** analysis of, in criminology, 4031.
determination of the acid and saponification values of, 1128.
separation of neutral components of, by ion exchange, 3388.
**Weighing,** bottle for handling air- and moisture-sensitive substances, 350.
errors in, 2267, 4451.
of volatile and unstable substances, 1279.
terminology for precision balances, 2732.
**Weisz ring-oven,** use of, in analysis, 1367, 2265.
in determination of radioactive substances, 3984.
in inorganic paper chromatography, 1366.
in localisation of spot-test colours, 421.
in separation of metals, 4923.
**Welding alloys,** determination of Cr, Ni, Mn and W in, spectrographic, 1372.
**Welding fluxes,** high-manganese, determination of Ca and Hg in, 2774.
**Wheat,** determination of barban in, spectrophotometric, 4390.
of DDT and hexachlorocyclohexane in, i.r. spectrophotometric, 2152.
of glutamic acid decarboxylase activity of, 2979.
of glutamic acid in, 2979.
of proteins in, 3468.
of thiamine and riboflavine in, microbiological, 4371.
of total N in, 2635.
**Wine,** analysis of volatiles of, gas chromatographic, 1716.
detection of EDTA in, 1088.
of thujone in, spectrophotometric, 3478.
of added alcohol or sugar in, 4359.
of bromoacetic acid in, microbiological, 4360.
of dehydracetic acid and salicylic acid in, chromatographic, 2160.
of preservatives in, chromatographic, 2161.
u.v. spectrophotometric, 4357.
of quaternary ammonium compounds in, paper chromatographic, 3928.
of red hybrid characters in, chromatographic, 3943.
of sorbic acid in, chromatographic, 3935.

- **Wine,** detection—*continued*
    - of sucrose in, chromatographic, 2156.
        - electrophoretic, 2157.
    - determination of ascorbic acid in, polarographic, 3477.
        - of benzoic acid in, spectrophotometric, 3942.
        - of chloropicrin in, spectrophotometric, 5270.
        - of cider in, 3476.
        - of dehydracetic acid in, chromatographic, 2159.
        - of EDTA in, 1088.
        - of ethyl acetate in, gas chromatographic, 4838.
        - of extract in, 797.
        - of glycerol in, spectrofluorimetric, 2158.
        - of hydrocyanic acid in, spectrophotometric, 2162.
        - of Fe in, spectrophotometric, 325.
        - of lactic acid in, by ion exchange, 3030.
        - of lower fatty acids in, gas chromatographic, 1718.
        - of nitrogenous substances in, by ion exchange, 810.
        - of SO$_2$ in, polarographic, 3479.
    - simultaneous determination of tartaric and lactic acids in, spectrophotometric, 5269.
- **Wolframite,** determination of Sc in, by activation analysis, 2332.
- **Wood,** determination of acetic acid in, spectrophotometric, 3369.
    - of B in, 4733.
    - of "Hibbert compounds" in, chromatographic, 4734.
    - of starch in, spectrophotometric, 3831.
    - treated, detection of B in, 2049.
- **Wood preservatives,** determination of Cu in, by ion exchange, 3832.
- **Wood pulp,** determination of "Hibbert compounds" in, chromatographic, 4734.
    - of pentosans in, 2953.
- **Wool,** analysis of, 204.
    - determination of amide-N in, 155.
        - of cystine and cysteine in, polarographic, 754.
        - of oils, fats and waxes in, standard for, 2954.

X

- **Xanthates,** alkyl, extraction of, 3583.
- **Xenon,** determination of $^{133}$Xe and $^{135}$Xe in helium, radiometric, 3164.
    - distribution of fission, in irradiated UO$_2$ fuel elements, 2270.
- **X-ray absorption edge analysis,** use of, in nuclear reactor technology, 2270.
- **X-ray diffraction analysis,** apparatus for, with gear-changing mechanism, 864.
    - applications, in chemical analysis, 4417.
    - electronic image intensification of patterns in, 866.
    - of powders, 2235.
    - of radioactive samples, 2699.
    - oscillating flat-specimen holder for, 1796.
    - review of progress in 1960, 2264.
- **Xylene,** determination, in mixtures with toluene and benzene, gas chromatographic, 1617.
    - *o*- and *p*-, determination, in platformate, gas chromatographic, 2034.
- **Xylenesulphonates,** determination, in detergents, spectrophotometric, 1115.
- **Xylenols,** analysis of, gas chromatographic and u.v. spectrophotometric, 2503.
    - of phenol - cresol - xylenol mixtures, gas chromatographic, 4239.
- **Xylose,** determination, in cellulose, spectrophotometric, 2952.
    - spectrophotometric, 2904.
- **Xylose**—*continued*
    - gas chromatography of, 1076.
    - separation, from ribose, by ion exchange, 2471.

Y

- **Yeast,** determination of nucleic acids in, 322.
    - of riboflavine in, 3474.
- **Yellow AB.** (See *Dyes*, C.I. Solvent Yellow 5.)
- **Yellow OB.** (See *Dyes*, C.I. Solvent Yellow 6.)
- **Ytterbium,** determination, coulometric, 1439.
        - polarographic, 4542.
    - separation of $^{169}$Yb from other radioactive materials, electrophoretic, 65.
- **Yttrium,** determination, 2335.
        - flame photometric, 1430.
        - in bone and egg shell, spectrographic, 4276.
        - in ores, X-ray spectrographic, 2799.
        - of gases in, 3573.
        - of Fe in, 2270.
        - of O in, 2334.
        - of $^{90}$Y, 3192, 4963.
            - in natural water, 3046.
        - spectrographic, 1437, 3213.
        - γ-spectroscopic, 3191.
        - spectrophotometric, 477.
    - separation, chromatographic, 966.
        - from Ce, chromatographic, 4538.
        - of $^{90}$Y from $^{90}$Sr, by ion exchange, 2777.
- **Yttrium fluoride,** determination of O in, 478, 2334.
- **Yttrium oxide,** analysis of, spectrographic, 2800.

Z

- **Zinc,** behaviour of, in various electrolytes, 2752.
    - colour reactions of, 1867.
    - copptn. of, with Ni, 2434.
    - detection, in ores, 4976.
        - of $^{65}$Zn in rain-out, 2270.
    - determination, 466, 467, 952, 953, 2755, 3560, 4057, 4460, 4504, 4510.
        - atomic absorption spectrophotometric, 4506.
        - by thermometric titration, 4507.
        - chromatographic, 1410, 3154.
        - in aluminium alloys, amperometric, 954.
        - in basalt, spectrophotometric, 2313.
        - in bearing metal, 4087.
        - in bronze, spectrophotometric, 4505.
        - in cadmium, spectrophotometric, 49.
        - in cast iron, polarographic, 579.
        - in copper ores, amperometric, 954.
        - in electroplating baths, 48.
        - in ferrite, polarographic, 3561.
        - in fertilisers, 3055.
        - in food, polarographic, 5247.
        - in indium, polarographic, 1868, 4530.
        - in iron alloys, polarographic, 2407.
        - in leucocytes and erythrocytes, spectrophotometric, 4757.
        - in manganese and its ores, polarographic, 2407.
        - in minerals, X-ray spectrographic, 144.
        - in nickel, polarographic, 1868.
        - in ores, polarographic, 405.
        - in petroleum products, spectrographic, 898.
        - in pharmaceuticals, 1218.
        - in plant ash, spectrographic, 233.
        - in plant tissue, X-ray spectrographic, 1746.
        - in plants, spectrographic, 1137.
        - in presence of Cd and Hg, 2314.
            - of Cu, 47.
            - of In, polarographic, 2289.
        - in reactor cooling-water, radiochemical, 3613.
        - in rubber, 3845.
            - chromatographic, 2533.

**c,** determination—*continued*
  in rust-proofing soln., 2780.
  in selenium, by neutron activation, 4152.
  in sewage, 4380.
  in soil, 2195.
    spectrographic, 3500.
  in steel, polarographic, 4645.
  in tin, polarographic, 4973.
  of As in, spectrophotometric, 4582.
  of Cd in, spectrographic, 1414.
  of Ga in, fluorimetric, 4958.
  of impurities in, spectrographic, 4088, 4511.
  of In in, spectrophotometric, 3631.
  of Pb in, X-ray spectrographic, 3218.
  polarographic, 1827, 4113, 4927.
  potentiometric, 4469.
  radiometric, 1370.
  spectrophotometric, 50, 3193.
  u.v. spectrophotometric, 4056.
  X-ray spectrographic, 3991.
xtraction of, 2285.
  as xanthate, 3583.
  from HCl soln., 3582.
eparation, by ion exchange, 4048, 4458, 4470, 4509.
  from Cd, 3579.
    chromatographic, 3194.
  from Co and Zn, in aluminium, by ion exchange, 1878.
  from Ag and Cd, electrolytic, 1828.
  of $^{65}$Zn from reactor cooling-water, 3612.
**c alloys,** detection of Cu in, 3592.
etermination of Al in, 1401, 3614.
  of Cd in, 3614.
  of Cu in, 3591, 3614.
  of Fe in, 3614.
  of Mg in, 1401.
  of Sn in, spectrophotometric, 4111.
tudy of spectrography of Cd - Zn, 4513.
**c chloride,** ion-exchange behaviour of, 4458.
**c dialkyl thiolothionates,** analysis of, 662.
**c 8-hydroxyquinolinate,** determination, in textiles, paper chromatographic, 4944.
**c oxide,** determination, 3463.
  of Cd in, chromopotentiometric, 2752.
    oscillopolarographic, 4051.
  of In in, spectrophotometric, 3631.
  of Pb in, chronopotentiometric, 2752.
**c salts,** determination of the concn. of soln. of, 4950.
**c sulphate,** determination of Pb, Fe and Cu in, u.v. spectrophotometric, 3615.
eparation of $Fe^{3+}$, $Cu^{2+}$ and $Ni^{2+}$ from, chromatographic, 4459.
**c thiocyanate,** influence of solvents on extracted compound, 1824.
**eb,** paper chromatography of, 1277.
**am,** paper chromatography of, 1277.
**caloy,** determination of N in, 4118, 4984.
  of O in, 2358.
    spectrographic, 78.
  of Si in, 4985.
**con,** determination of Pb in, spectrographic, 3217.
    spectrophotometric, 2346.
**conium,** analysis of, during production of, spectrographic, 898.
  of mixtures of $^{95}$Zr and $^{95}$Nb, by liquid scintillation spectrometry, 79.
omplex with morin, reaction conditions for, 3561.
etection, 3561.
etermination, 130, 981, 2354, 2355, 2736, 2818, 3226, 3659, 3660, 4057, 4116, 4980.
  amperometric, 4117.

**Zirconium,** determination—*continued*
    chromatographic, 1458.
    fluorimetric, 4983.
    in Al - Mg alloys, spectrophotometric, 3222.
    in Al - Zr alloys, 3224.
    in bismuth, spectrographic, 1490.
    in bronze, 4981.
    in enamels, 1054.
    in its alloys, 1902.
    in magnesium alloys, 1402.
      spectrophotometric, 1459.
    in minerals, 4981.
      photometric, 3661.
    in nickel alloys, 3227.
    in niobium alloys, amperometric, 2356.
    in ores, spectrographic, 4141.
    in Pu - U alloys, 2270.
    in soln. containing Al, 4986.
    in titanium and its alloys, spectrophotometric, 76.
    in uranium alloys, spectrographic, 2399.
    in Zr - U alloys, 3224.
    of B in, spectrographic, 4119.
      spectrophotometric, 4516.
    of Co in, spectrophotometric, 3742.
    of F in, 1903.
    of Hf in, spectrophotometric, 983.
    of Mg in, spectrophotometric, 4566.
    of N in, 4118, 4984.
      electrolytic, 1826.
      spectrophotometric, 1944.
    of O in, 2357, 2358.
      spectrographic, 78.
    of radioactive, in plutonium, 2402.
    of rare-earth metals in, spectrographic, 1434.
    of Si in, 4985.
    of Ti in, spectrophotometric, 3658.
    of U in, fluorimetric, 1518.
    of $^{95}$Zr, by $\gamma$-scintillation counting, 1900.
    of Zr/Hf ratio, in their oxide mixtures, spectrographic, 982.
    polarographic, 4979.
    spectrofluorimetric, 4523.
    spectrophotometric, 941, 1456, 3225, 4982.
    u.v. spectrophotometric, 3223.
  separation, by ion exchange, 3662.
    from Al, 2753.
    from Hf, 2360.
      by ion exchange, 494, 4563.
      paper chromatographic, 4046.
    from Fe, 2753.
    from Nb, 1493.
    from soln. containing Al, 4928.
    from Ta, 1493.
    from Th, 3221.
    from Ti, 1493, 2753.
    from U, 3221.
      by ion exchange, 4564.
    from zirconium alloys, by ion exchange, 1901.
    of Hf from, chromatographic, 4568.
    of Pt, Au, Re and $Sb^{V}$ from, 4565.
    of $^{95}$Zr from $^{95}$Nb, 1457.
**Zirconium alloys,** analysis of, 4562.
  determination of B in, spectrophotometric, 4516.
      in Zr - Nb, spectrophotometric, 4516.
    of Nb in, polarographic, 1916, 4457.
    of O in, 1902.
    of Sn in, spectrophotometric, 4111.
    of Zr in, 1902.
      by ion exchange, 1901.
      in Zr - Al, 3224.
      in Zr - U, 3224.
**Zirconium boride,** determination of B in, 4966.
**Zirconium hydrides,** determination of H in, 77.

**Zirconium nitrate,** extraction of, effect of temp. on, 2400.
**Zirconium nitride,** analysis of, 1829.
**Zirconium ores,** determination of U in, 3262.
**Zirconium oxide,** analysis of, spectrographic, 4567.
  determination of alkali metals and halides in, 2359.
    X-ray spectrographic, 2290.
**Zirconium phosphate,** ion-exchange properties of, effect of drying temp. on, 4414.
**Zirconium (IV) chloride,** determination of Ti in, spectrophotometric, 3658.
**Zoalene.** (See *3,5-Dinitro-o-toluamide.*)
**Zone melting,** apparatus for, 2686.
  applications of, review, 2283.
